Subject: RIN 1212-AB31 [ERISA 4231 proposed multiemployer mergers/transfers]

In Treasury's final regulations on suspensions of benefits, there are many helpful numerical examples of what kinds of applications Treasury would or would not approve. In the final 4231 regulations, might it be possible to include some numerical or "facts-and-circumstances" examples as to what kinds of merger/facilitated/financial-assistance activities PBGC might or might not support?

Thanks in advance for your consideration.

Please do not hesitate to contact us with any questions.

Cheers,

Jay
