#### PENSION BENEFIT GUARANTY CORPORATION

#### 29 CFR Parts 4022 and 4044

#### Benefits Payable in Terminated Single-Employer Plans; Allocation of Assets in Single-Employer Plans; Interest Assumptions for Valuing and Paying Benefits

**AGENCY:** Pension Benefit Guaranty Corporation.

**ACTION:** Final rule.

**SUMMARY:** The Pension Benefit Guaranty Corporation's regulations on Benefits Payable in Terminated Single-Employer Plans and Allocation of Assets in Single-Employer Plans prescribe interest assumptions for valuing and paying benefits under terminating single-

employer plans. This final rule amends the regulations to adopt interest assumptions for plans with valuation dates in January 2001. Interest assumptions are also published on the PBGC's web site (<http://www.pbgc.gov>). **EFFECTIVE DATE:** January 1, 2001.

#### FOR FURTHER INFORMATION CONTACT:

Harold J. Ashner, Assistant General Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202-326-4024. (For TTY/TDD users, call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4024.)

**SUPPLEMENTARY INFORMATION:** The PBGC's regulations prescribe actuarial assumptions—including interest assumptions—for valuing and paying plan benefits of terminating single-employer plans covered by title IV of the Employee Retirement Income Security Act of 1974. The interest assumptions are intended to reflect current conditions in the financial and annuity markets.

Three sets of interest assumptions are prescribed: (1) a set for the valuation of benefits for allocation purposes under section 4044 (found in Appendix B to Part 4044), (2) a set for the PBGC to use to determine whether a benefit is payable as a lump sum and to determine lump-sum amounts to be paid by the PBGC (found in Appendix B to Part 4022), and (3) a set for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology (found in Appendix C to Part 4022). (See the PBGC's two final rules published March 17, 2000, in the **Federal Register** (at 65 FR 14752 and 14753). Effective May 1, 2000, these rules changed how the interest assumptions are used and where they are set forth in the PBGC's regulations.)

Accordingly, this amendment (1) adds to Appendix B to Part 4044 the interest assumptions for valuing benefits for allocation purposes in plans with valuation dates during January 2001, (2) adds to Appendix B to Part 4022 the interest assumptions for the PBGC to use for its own lump-sum payments in plans with valuation dates during January 2001, and (3) adds to Appendix C to Part 4022 the interest assumptions for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology for valuation dates during January 2001.

For valuation of benefits for allocation purposes, the interest assumptions that the PBGC will use (set forth in Appendix B to part 4044) will be 6.70

percent for the first 20 years following the valuation date and 6.25 percent thereafter. These interest assumptions (in comparison with those in effect for December 2000) reflect a 5-year decrease in the period during which the initial rate applies (from a period of 25 years following the valuation date to a period of 20 years following the valuation date). The initial rate, in effect during the 20-year period, represents a decrease (from the initial rate in effect for December 2000) of 0.30 percent. The ultimate rate, in effect thereafter, is unchanged.

The interest assumptions that the PBGC will use for its own lump-sum payments (set forth in Appendix B to part 4022) will be 5.00 percent for the period during which a benefit is in pay status, 4.25 percent during the seven-year period directly preceding the benefit's placement in pay status, and 4.00 percent during any other years preceding the benefit's placement in pay status. These interest assumptions represent a decrease (from those in effect for December 2000) of 0.25 percent for the period during which a benefit is in pay status and the seven-year period directly preceding the

benefit's placement in pay status, and are otherwise unchanged.

For private-sector payments, the interest assumptions (set forth in Appendix C to part 4022) will be the same as those used by the PBGC for determining and paying lump sums (set forth in Appendix B to part 4022).

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect, as accurately as possible, current market conditions.

Because of the need to provide immediate guidance for the valuation and payment of benefits in plans with valuation dates during January 2001, the PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a "significant regulatory action" under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility

Act of 1980 does not apply. See 5 U.S.C. 601(2).

**SUPPLEMENTARY INFORMATION:**

**I. Background**

On August 28, 1998, the Maryland Department of the Environment (MDE) submitted a revision to its SIP. The revision to the SIP includes the adoption of new sections .01–.14 under a new chapter, COMAR 26.11.27—Post RACT Requirements for NO<sub>x</sub> Sources (Nitrogen Oxides (NO<sub>x</sub>) Budget Program) and new sections .01–.13 under a new chapter, COMAR 26.11.28—Policies and Procedures Relating to Maryland’s NO<sub>x</sub> Budget Program. The revisions implement the Ozone Transport Commission’s (OTC) September 27, 1994 Memorandum of Understanding (MOU) in Maryland. In accordance with the MOU, the revisions implement the Maryland portion of a regional NO<sub>x</sub> cap and trade program that significantly reduces NO<sub>x</sub> emissions generated within the Ozone Transport Region (OTR).

On November 16, 1999, MDE submitted amendments to its August 28, 1998 SIP revision request. The purpose of these amendments was to change the compliance date of the Maryland NO<sub>x</sub> Budget Program from May 1, 1999 to May 1, 2000. The revisions to the August 28, 1998 submittal include amendments to Regulations (.04) General Requirements, (.07) Allowance Banking, and (.11) End-of-Season Reconciliation under COMAR 26.11.27 and the repeal of Regulation (.08) Early Reduction Allowances under COMAR 26.11.28. On March 20, 2000, MDE submitted amendments to its August 28, 1998 SIP revision request consisting of two enforceable consent agreements between MDE and the Baltimore Gas and Electric Company and the Potomac Electric Power Company. These consent agreements impose special conditions and time lines for both companies regarding the implementation of Maryland’s NO<sub>x</sub> Budget Trading Program requirements.

On October 19, 2000 (65 FR 62671), EPA published a notice of proposed rulemaking (NPR) for the State of Maryland proposing to approve the August 28, 1998 SIP revision request as amended by the November 16, 1999 and March 20, 2000 submittals. That NPR
