**ACTION:** Notice of intention to request OMB approval.

**SUMMARY:** The Pension Benefit Guaranty Corporation intends to request that the Office of Management and Budget approve a collection of information under the Paperwork Reduction Act. **SUPPLEMENTARY INFORMATION:** An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The PBGC intends to request OMB approval of a collection of information consisting of customer satisfaction surveys. The collection is in furtherance of the goals described in Executive Order 12862, Setting Customer Service Standards, which states that, in order to carry out the principles of the National

Performance Review, the Federal Government must be customer-driven. The Executive Order directs all executive departments and agencies that provide significant services directly to the public to provide those services in a manner that seeks to meet the customer service standards established in the Executive Order.

The customer satisfaction survey information collection will be accomplished by mailing questionnaires to a random sample of participants and beneficiaries who have had recent contact with the PBGC.

This voluntary collection of information will put a slight burden on a very small percentage of the public. The PBGC will collect information annually from 1,280 participants and beneficiaries in pension plans trusted by the PBGC. The PBGC estimates that the total annual burden will be 106.66 hours.

The PBGC solicits comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Issued at Washington, DC, this 21st day of July, 1998.
