

requirements are no longer required to use the GSA FMSS Multiple Award Schedule; they must use "off-the-shelf" software that has been tested and certified through the JFMIP software certification process as meeting JFMIP Core Financial Management System Requirements. Agencies may purchase this software using the strategy and procurement vehicle they believe will best enable them to meet their needs in a timely and effective manner following the competition requirements associated with the procurement vehicle being used to conduct the acquisition.

In addition, agencies will notify JFMIP that a core financial management software procurement is planned—preferably prior to, or in the early phases of, acquisition planning. JFMIP will electronically post a public message to permit interested certified system vendors to market agencies. The sole purpose of this message is to facilitate agency market research. This message is not intended to, and shall not, serve as an invitation for offerors to submit bids, proposals, or quotes.

OMB policy pertaining to using "off-the-shelf" software is contained in OMB Circular A-130 and must be followed when replacing financial management systems.

8d(2). *Software Certification Testing.* "Off-the-shelf" software will be tested to ensure that it meets core financial system requirements as defined in the *Core Financial System Requirements* document published by JFMIP. JFMIP will coordinate the testing process and issue software certifications. Information on the details of the certification testing process and its results will be available to any interested Federal agency for any certified software package.

2. A new section 9a(3) is being added to the current Circular as follows:

9a.(3). *Notify JFMIP on Plans to Acquire Core Financial System Software.* Agencies shall notify JFMIP on plans to acquire software supporting core financial system functions.

3. Section 9b of the current Circular is revised to read as follows:

9b. *GSA Responsibilities.* GSA is responsible for continuing to support existing contracts under the FMSS Schedule until their completion. GSA also will make procurement vehicles available to agencies for acquiring software which has been certified according to the processes in Section 8d(2).

4. A new Section 9c is being added and will read as follows:

9c. *JFMIP Responsibilities.* JFMIP will establish processes for testing "off-the-shelf" software supporting core

financial system requirements which include:

- Developing and administering the certification test.
- Notifying GSA when a software package successfully completes the certification test.
- Providing interested parties with information on the core financial system requirements and their related testing scenarios.
- Providing interested parties with details on the results of the certification tests for certified software packages.
- Posting a public notice on planned core financial system procurements.

**SUPPLEMENTARY INFORMATION:** Section 4043 of the Employee Retirement Income Security Act of 1974 (ERISA) requires plan administrators and plan sponsors to report certain plan and corporate events to the PBGC. The reporting requirements give the PBGC timely notice of events that indicate plan or employer financial problems. The PBGC uses the information provided in determining what, if any, action it needs to take. For example, the PBGC might need to institute proceedings to terminate the plan (placing it in trusteeship) under section 4042 of ERISA to ensure the continued payment of benefits to plan participants and their beneficiaries or to prevent unreasonable increases in its losses.

The PBGC intends to request that OMB extend approval for another three years. - Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who

are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

#### FOR FURTHER INFORMATION CONTACT:

James L. Beller, Attorney, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005-4026, 202-326-4024. (For TTY and TDD users, call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4040.)

**SUPPLEMENTARY INFORMATION:** Section 302(f) of the Employee Retirement Income Security Act of 1974 ("ERISA") and section 412(n) of the Internal Revenue Code of 1986 ("Code") impose a lien in favor of an underfunded single-employer plan that is covered by the termination insurance program if (1) any person fails to make a required payment when due, and (2) the unpaid balance of that payment (including interest), when added to the aggregate unpaid balance of all preceding payments for which payment was not made when due (including interest), exceeds \$1 million. (For this purpose, a plan is underfunded if its funded current liability percentage is less than 100 percent.) The lien is upon all property and rights to property belonging to the person or persons who are liable for required contributions (i.e., a contributing sponsor and each member of the controlled group of which that contributing sponsor is a member).

Only the PBGC (or, at its direction, the plan's contributing sponsor or a member of the same controlled group) may perfect and enforce this lien. Therefore, ERISA and the Code require persons committing payment failures to notify the PBGC within 10 days of the due date whenever there is a failure to make a required payment and the total of the unpaid balances (including interest) exceeds \$1 million.

PBGC Form 200, Notice of Failure to Make Required Contributions, and related filing instructions, implement the statutory notification requirement. Submission of Form 200 is required by 29 CFR 4043.81.

The collection of information under the regulation has been approved through September 30, 1999, by OMB under control number 1212-0041. The PBGC intends to request that OMB extend approval for another three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The PBGC estimates that it will receive 10 Form 200 filings per year

under this collection of information. The PBGC further estimates that the average burden of this collection of information is 42.5 hours and \$6,375.

The PBGC is soliciting public comments to—

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
