Subject: Special Financial Assistance Application of the Local 734 Pension Plan

Dear Sir or Madam:

The Local 734 Pension Plan ("Fund" or "Plan") hereby submits this application for Special Financial Assistance ("SFA") in accordance with section 4262 of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended, and the Pension Benefit Guaranty Corporation's SFA final rule, 29 CFR Part 4262.

The Plan's application contains information supporting the Plan's request for SFA as of the Plan's SFA measurement date (i.e., December 31, 2022).

This document is intended to serve as the Plan's "Special Financial Assistance Application" required under Section D of the General Instructions for Multiemployer Plans Applying for SFA ("Instructions").

We appreciate your consideration of this request.

For any questions about this filing, please contact Ken Densmore, Plan Actuary, via phone at (440) 596-9664 or via email at kenneth.densmore@horizonactuarial.com.

Sincerely,

Scott Kunz
Chairman, Board of Trustees

(3) Rehabilitation Plan or Funding Improvement Plan

The Rehabilitation Plan for the Plan has only one schedule – the Default Schedule. As of January 1, 2023, all of the Plan’s contributing employers have adopted the Default Schedule of the Rehabilitation Plan. Therefore, 100% of the contributions made to the Plan during 2023 from the Plan’s current contributing employers will be received under the Default Schedule.

(9) Death Audit

Any known deaths that occurred before the date of the census data used for SFA purposes were reflected for SFA calculation purposes. This included verifying with the administrator any future beneficiaries associated with records who were deceased on or before the SFA measurement date. Additionally, the full census data remaining after the initial death audit performed by the Plan was sent to the PBGC pre SFA-application for an additional death audit. The results of this death audit and additional supporting details are provided in the Death Audit Certification.

Template 1 L734.xlsx

(2) Contributing Employers

The Plan has less than 10,000 participants, therefore this is not required.

(3) Historical Plan Information

Attached File(s):
Template 3 L734.xlsx

In template 3, the contributions shown are for plan years beginning 5/1. CBU history shown is on a calendar year basis (for the calendar year ending 4 months prior to the start of each plan year), consistent with the Plan's service accrual rules. The average contribution rate is the active headcount weighted average contribution rate in effect at the beginning of each plan year.

(4) SFA Determination

The Plan is not a "MPRA plan" under 29 CFR § 4262.4(a)(3); therefore, SFA was not calculated under the "increasing assets method" or "present value method". As a result, additional information was not disclosed in Template 4A, as described in Addendum D of the Instructions, and Template 4B is not required.

(7) Assumption/Method Changes

- a. Assumptions for SFA Eligibility

The Local 734 Pension Plan meets the eligibility requirements under ERISA §4262.3(a)(1) because the plan was certified as critical and declining for the May 1, 2020 zone certification. Therefore (7a) is not applicable.

(3) Eligibility Criteria

The Local 734 Pension Plan meets the eligibility requirements under ERISA §4262.3(a)(1) as the Plan was certified in critical and declining status for the 2020 plan year.

(4) Priority Status

This information is not applicable since the Plan's application was submitted after March 11, 2023.

(5) Narrative Describing Future Contribution Assumptions

For the purpose of determining the amount of SFA, future contribution income to the Plan is assumed to come from (1) employer contributions, (2) withdrawal liability payments from previously withdrawn employers, and (3) withdrawal liability payments from current contributing employers. The assumptions used for each of these sources of contribution income can be found below. Supporting detail for each of these assumptions can be found in the Plan's response to Section D, Item (6).

1. Employer Contributions

Annual employer contributions were determined by multiplying employer contribution rates by weeks worked for a given year.

Contribution Rates: The average contribution rate used in the determination of the amount of SFA is \$187.71 per week for the SFA coverage period from December 31, 2022 through December 31, 2051.

Contribution Base Units: Contribution base units ("CBUs") for the Plan are based on weeks worked during the calendar year. Actual CBUs for the 2022 calendar year were 38,589 weeks. CBUs are assumed to decline from 2022 levels by 3.00% per year for 2023 through 2032 and 1.00% per year thereafter. Note the Plan's service accrual rules have always been based on calendar year (both before and after the recent change in plan year start date from 5/1 to 1/1). Therefore, the CBU history shown in the actuarial valuation reports and this application is on a calendar year basis.

2. Withdrawal Liability Payments from Previously Withdrawn Employers

The Kellogg Company is assumed to make withdrawal liability payments to the Plan in the amount of \$350,256 per year for 2023 through 2037.

3. Withdrawal Liability Payments from Current Employers

All of the Plan's recent experience in CBU decline is due to employer withdrawals. During the last 10 years, two employers have withdrawn from the Plan. In the 2012 plan year, Hostess Brands, Inc. withdrew but was unable to pay any of its withdrawal liability obligation. In the 2017 plan year, Kellogg's withdrew and has been making the withdrawal liability payments detailed above.

Annual withdrawal liability payment amounts for an individual year of withdrawal were determined based on the annual decline in CBUs. It is assumed that the annual decline in CBUs is entirely due to employer withdrawals. All employers are assumed to have withdrawal liability limited by the 20-year cap on withdrawal liability payments, as required under section 4219(c)(1)(B) of ERISA. Further, 50% of future withdrawal liability are assumed to be uncollectible. The projected future withdrawal liability payment stream beginning in each year was calculated by taking 100% of the reduction in annual contributions in the prior year due to the decline in CBUs, multiplying by 50% (the collectability assumption) and further reducing it by a ratio of \$137.73/\$187.71. The numerator (\$137.73) is the average pre-2015 contribution rate (i.e., it excludes contribution increases under the rehabilitation plan). The denominator (\$187.71) is the current assumed average contribution rate, and these payments were assumed to continue for 20 years.

(6)a Rationale for Assumption Changes: SFA Eligibility Purposes

The Plan is eligible for SFA based on 29 CFR § 4262.3(a)(1). In addition, the Plan's eligibility for SFA is based on the certification of the Plan's status as of May 1, 2020. Therefore, this does not apply.

(6)b Rationale for Assumption Changes: Determining Amount of SFA

The actuarial assumptions and methods used to determine the amount of SFA – other than the non-SFA interest rate and SFA interest rate – were the same as those used in the Plan's most recently completed certification of plan status before January 1, 2021 (the "2020 Zone Certification"), unless identified below.

1. Operating Expenses
2. New Entrant Profile
3. Contribution Rates
4. Contribution Base Units
5. Withdrawal Liability Payments from Current Contributing Employers

1. Operating Expenses

2020 Zone Certification Assumption: The assumption used in the May 1, 2020 Zone Certification was \$900,000 (\$930,435 MOY based on 7% interest), projected to increase by 2.00% per year for inflation. Future administrative expenses were not projected beyond the projected date of insolvency in the 2020 Zone Certification.

This assumption is no longer reasonable because it must be extended through the end of the SFA projection period, or December 31, 2051; the \$900,000 assumption in 2020 was not reflective of recent plan experience (\$900,000 was too high); and 2.0% is too low of an annual long-term inflation assumption given the current economic environment.

Proposed Assumption to Determine Amount of SFA: To determine the SFA amount, future administrative expenses as of January 1, 2023 are assumed to be \$840,000, plus a load of \$200,000 for the SFA application related expenses, for a total of \$1,040,000 (payable as of the middle of the year). The \$840,000 is based on the five year average of expenses incurred by the Plan from May 1, 2017 to April 30, 2022, increased by 2.5% for inflation. The amount as of January 1, 2024 is assumed to be \$860,000, plus a load of \$25,000 for the SFA application related expenses, for a total of \$885,000 (payable as of the middle of the year), based on the five year average of expenses incurred by the plan from May 1, 2017 to April 30, 2022, increased by 5.0% to reflect two years of inflation. For each plan year after 2024, administrative expenses are assumed to increase by 2.5% per year for inflation and annual operating expenses are limited to 12% of projected annual benefit payments for each year.

Projected operating expenses for the 2031 plan year include an additional increase to reflect the impact of the PBGC premium increase under section 4006(a)(3)(A) of ERISA that goes into effect in 2031. This additional increase in operating expenses for 2031 is assumed to be \$9.36 multiplied by the projected participant count as of December 31, 2030. Note that \$9.36 is equal to \$52.00 less the actual PBGC flat-rate premium rate for 2023 (\$35.00) increased by 2.50% per year through 2031.

Templates 4A and 5A require that projected operating expenses be split between PBGC premiums and other expenses. For these purposes, it was assumed that PBGC premiums for a plan year are equal to the projected PBGC premium rate for the plan year multiplied by the projected participant count at the end of the prior plan year. The projected PBGC premium rate is \$35 per participant for the 2023 plan year and is assumed to increase by 2.50% per year. However, for the 2031 plan year, the projected PBGC premium rate is assumed to be \$52 per participant with future increases based on this level. Other expenses are assumed to be equal to total operating expenses less PBGC premiums.

The future assumed expenses used in the SFA application are reasonable for the following reasons. The new assumption is reflective of the Plan's recent experience

and reflects a one-time load in 2023 for the estimated expenses resulting from the administrative costs of the SFA application. Further, the 2.5% inflation assumption is a reasonable long-term inflation assumption based on market expectations as of the SFA measurement date. Finally, the expenses are limited to 12% of the annual benefit payments, which ensures that the total assumed expenses are not unreasonably high and which is consistent with the limitation described in the acceptable administrative expense assumption change guidance outlined in Section III.A.2. of PBGC's SFA assumption guidance.

2. New Entrant Profile

2020 Zone Certification Assumption: The distribution of new entrants assumed to enter the Plan was based on the distribution of actual new entrants for the five prior plan years ending on May 1, 2019. Each new active participant hired in the last five plan years was reflected in the new entrant profile, regardless of whether the participant stayed in the Plan as of May 1, 2019. The distribution of new entrants is shown below:

Age Band	<u>New Entrant and Rehire Count by Year Ending</u>					Total Count	Total Count Male	Pension Credits	Years of Vesting Service
	2015	2016	2017	2018	2019				
Under 25	10	8	12	17	13	60	54	0.50	0.50
25 to 29	7	23	19	25	7	81	73	0.50	0.50
30 to 34	12	17	14	19	13	75	69	0.50	0.50
35 to 39	13	12	13	12	8	58	55	0.50	0.50
40 to 44	10	12	10	17	9	58	49	0.50	0.50
45 to 49	7	12	10	13	4	46	41	0.50	0.50
50 to 54	3	5	7	3	6	24	21	0.50	0.50
55 to 59	3	1	0	5	1	10	8	0.50	0.50
Over 60	0	1	0	0	0	1	1	0.50	0.50

This assumption is no longer reasonable because it does not reflect recent Plan experience since 2019.

Proposed Assumption to Determine Amount of SFA: New entrants are based on the distribution below.

Age Band	<u>New Entrant and Rehire Count by Year Ending</u>					Total Count	Total Count Male	Pension Credits	Years of Vesting Service
	2018	2019	2020	2021	2022				
Under 25	17	13	21	13	15	79	72	0.50	0.50
25 to 29	25	7	16	7	24	79	70	0.50	0.50
30 to 34	19	13	27	13	25	97	89	0.50	0.50
35 to 39	12	8	13	8	22	63	56	0.50	0.50
40 to 44	17	9	17	12	15	70	64	0.50	0.50
45 to 49	13	4	12	4	10	43	38	0.50	0.50
50 to 54	3	6	8	2	8	27	25	0.50	0.50
55 to 59	5	1	7	4	8	25	20	0.50	0.50
Over 60	0	0	0	2	2	4	3	0.50	0.50

The distribution of new entrants in the table above was based on an experience analysis of the Plan's new entrants for the five completed valuations preceding the Plan's SFA measurement date (i.e., for the plan years ending 2017 through 2022). The experience analysis includes all new entrants and rehires during those five plan years (rather than those remaining in service) and reflects 5-year age bands.

The updated assumption is consistent with the acceptable new entrant profile assumption change outlined in Section III.D. of PBGC's SFA assumption guidance and is therefore reasonable for determining the amount of SFA.

3. Contribution Rates

2020 Zone Certification Assumption: \$180 per week for all employers in the 2020 plan year, increasing \$6 per year to an ultimate contribution rate of \$234 per week, based on the Rehabilitation Plan in effect at that time of the certification.

The contribution rate assumption used in the 2020 Zone Certification is no longer reasonable for purposes of determining the amount of SFA because it did not extend past the date of insolvency, did not include actual CBA increases adopted after May 1, 2020, and it included future contribution increases that were no longer required under the 2021 Amended and Restated Rehabilitation Plan.

Proposed Assumption to Determine Amount of SFA: The average contribution rate used in the determination of the amount of SFA is \$187.71 per week for the SFA coverage period from December 31, 2022 through December 31, 2051. This represents the contribution rate for each employer for 2023 weighted by the number of active participants as of May 1, 2022. Further, no employer has agreed to a contribution rate increases after 2023 in any collective bargaining agreement or participation agreement in effect prior to July 9, 2021. More detail regarding the development of this assumption is provided below.

	5/1/2022	Regular
Employer	Active Count	Contribution Rate
ALPHA BAKING COMPANY (Drivers)	158	\$186.00
ALPHA BAKING COMPANY (Inside)	171	\$180.00
BIMBO BAKERIES USA PAYROLL-DRV	207	\$192.00
BIMBO BAKERIES USA PAYROLL-INS	33	\$192.00
EAST BALT COMMISSARY/BIMBO	39	\$198.00
GONNELLA BAKING CO-DRIVERS	5	\$198.00
GONNELLA BAKING CO-INSIDE	73	\$180.00
GONNELLA BAKING-FROZEN FOODS	44	\$214.00
CHICAGO BAKING COMPANY	59	\$180.50
LOCAL 734 UNION	4	\$180.00
LOCAL 734 WELFARE	6	\$180.00
OLYMPIC FREIGHTWAYS/BIMBO	4	\$192.00
TOTAL/WEIGHTED AVERAGE	803	\$187.71

The updated assumption is consistent with the acceptable contribution rate assumption change outlined in Section III.E. of PBGC's SFA assumption guidance and is therefore reasonable for determining the amount of SFA.

4. Contribution Base Units (CBUs)

2020 Zone Certification Assumption: The May 1, 2020 Zone Status Certification used a future CBU assumption of 37,685 weeks per year.

The CBU assumption used for the 2020 Zone Certification did not extend beyond the expected date of insolvency and does not reflect the Plan's historical trend of declining CBUs. As a result, this assumption is no longer reasonable for determining the amount of SFA.

Proposed Assumption to Determine Amount of SFA: Actual CBUs for calendar year 2022 were 38,589 weeks. CBUs are assumed to decline from 2022 levels by 3.00% per year for 2023 through 2032 and 1.00% per year thereafter. Similarly, the number of active participants are assumed to decline from the May 1, 2022 valuation level (803 actives) by 3.00% each year for 10 years and then 1.00% per year thereafter. To maintain consistency with the updated future weeks and projected active headcount assumptions, the average weeks worked assumption was updated to 47.56 weeks per year (from 49 weeks in the May 1, 2020 Zone Status Certification). The updated future weeks assumption is reasonable based on the average weeks worked for the last 10 years excluding the COVID exclusion period (47.62)

The chart below outlines an analysis of the Plan's historical CBUs for the "10-Year Projection Period" as outlined in Section IV.A. of PBGC's SFA assumption guidance. Pursuant to the assumption guidance, CBU experience for 2020 and 2021 was excluded from the analysis since it was part of the "COVID period".

Calendar Year	Actual CBUs	Ratio to Prior Year	Average Weeks for Actives
2022	38,589	N/A	45
2021	Covid Exclusion Period		
2020	Covid Exclusion Period		
2019	36,936	0.94635	45
2018	39,030	0.94880	48
2017	41,136	0.95476	47
2016	43,085	1.03934	48
2015	41,454	0.99933	47
2014	41,482	1.00055	48
2013	41,459	0.99803	48
2012	41,541	0.80882	49
2011	51,360	0.86843	49
2010	59,141	N/A	48
Geometric Average		0.9490	
Average Annual Change		-5.10%	

***Note:** The Plan Year start date was changed from 5/1 to 1/1 effective January 1, 2023 (see Amendment 6). For May 1 Plan Years, actual CBUs were measured on a calendar year basis from 1/1 – 12/31 (for the calendar year ending 4 months prior to the start of each plan year) consistent with the Plan’s service accrual rules.*

The analysis above shows that the Plan’s CBUs have, on average, decreased by 5.10% per year over the 10-Year period prior to the COVID exclusion period. As a result, pursuant to the PBGC’s SFA assumption guidance, the Plan’s experience supports a CBU assumption reflecting a 3.00% decline per year for the first 10 years of the projection period and a 1.00% decline per year thereafter.

The updated assumption is consistent with the generally acceptable CBU assumption change outlined in Section IV.A. of PBGC’s SFA assumption guidance and is therefore reasonable for determining the amount of SFA.

5. Withdrawal Liability Payments from Current Contributing Employers

2020 Zone Certification Assumption: Current contributing employers are not assumed to withdraw from the Plan in the future; therefore, the Plan is not assumed to receive withdrawal liability payments from current contributing employers.

The assumption used in the 2020 Zone Certification is not reasonable for the determination of the amount of SFA. For purposes of determining the amount of SFA, it is assumed that CBUs will decline in the future (unlike the 2020 Zone Certification

July 15, 2024

which assumed CBUs remain level in the future). The CBU decline assumption is supported by the Plan's historical CBU experience, which reflects the withdrawal of two employers that previously participated in the Plan (Hostess Brands, Inc. and Kellogg's). The Plan has not received (and does not anticipate receiving) any withdrawal liability payments from Hostess Brands; however, the Plan is receiving withdrawal liability payments from Kellogg's. Given that a portion of the Plan's historical decline in CBUs is due to the withdrawal of an employer that is paying its statutory withdrawal liability, it is unreasonable – for purposes of determining the amount of SFA – to assume that the Plan will not receive withdrawal liability payments in the future related to the withdrawal of a current contributing employer.

Proposed Assumption to Determine Amount of SFA:

Annual withdrawal liability payment amounts for an individual year of withdrawal were determined based on the annual decline in CBUs. It is assumed that the annual decline in CBUs is entirely due to employer withdrawals. All employers are assumed to have withdrawal liability limited by the 20-year cap on withdrawal liability payments, as required under section 4219(c)(1)(B) of ERISA. Further, 50% of future withdrawal liability are assumed to be uncollectible.

The projected future withdrawal liability payment stream beginning in each year was calculated by taking 100% of the reduction in annual contributions in the prior year due to the decline in CBUs, multiplying by 50% (the collectability assumption) and further reducing it by a ratio of \$137.73/\$187.71. The numerator (\$137.73), is the average pre-2015 contribution rate (i.e., it excludes contribution increases under the rehabilitation plan). The denominator (\$187.71) is the current assumed average contribution rate, and these payments were assumed to continue for 20 years.

Discussion follows on why each of the components of the proposed assumption are reasonable.

Assuming 100% of the CBU reductions is due to employer withdrawals is reasonable because the decline in CBUs from 2011 through 2022 that was previously described in the proposed CBU assumption change was entirely driven by two employer withdrawals: The Kellogg Company and Hostess Brands, Inc. Ignoring these two withdrawals, CBUs did not decline over that period.

The Plan's actuary has been using PBGC interest rates under 29 CFR 4044, Appendix B to value the Plan's present value of vested benefits for withdrawal liability purposes for many years. Based on current interest 4044 interest rates, all of the Plan's contributing employers are impacted by the 20-year cap on withdrawal liability payments. Therefore, it is reasonable to assume that the 20-year cap applies to all future withdrawals of current employers.

Current contributing employers that are assumed to withdraw in the future are assumed to make quarterly withdrawal liability payments to the Plan, which is based on the Plan's recent experience. As noted previously, the Plan has experienced two

July 15, 2024

employer withdrawals since 2011. Hostess Brands, Inc withdrew from the Plan during 2012, and the Plan has not received – and does not anticipate receiving – any withdrawal liability payments from Hostess Brands. Kellogg's withdrew from the Plan during 2017 and has been making quarterly withdrawal liability payments to the Plan. No employers have settled their withdrawal liability by making a one-time lump sum payment. The withdrawal liability owed by Hostess Brands, Inc. was significantly larger than the withdrawal liability owed by Kellogg's. While half of the employers that withdrew since 2011 are making withdrawal liability payments, significantly more than 50% of the withdrawal liability owed since 2011 was uncollectible. For estimating future experience, 50% of withdrawal liability payments attributable to current employers are assumed to be collectible based on the number of employers that withdrew since 2011 and are making their withdrawal liability payments. The assumption for collectability of future withdrawal liability payments from current contributing employers is reasonable because it reflects historical experience and does not speculate with respect to future experience that could differ from past experience. Further, it gives equal weight to the Hostess Brands, Inc. withdrawal with Kellogg's withdrawal and does not overweight the non-collectability of withdrawal liability from Hostess Brands, Inc.

Applying the ratio of \$137.73/\$187.71 to the annual reduction in contributions to estimate withdrawal liability payments is a reasonable assumption for estimating future withdrawal liability because there are no assumed future contribution increases (that is, the average contribution rate is assumed to remain \$187.71) and all of the contribution increases since December 31, 2014 are non-benefit bearing contribution increases that were required under the Plan's Rehabilitation Plan and therefore should not be considering in the calculation of withdrawal liability. \$137.73 was the Plan's average contribution rate in effect on April 30, 2015.

(7) Reinstatement of Suspended Benefits

This information is not applicable since the Plan did not suspend benefits under section 305(e)(9) or section 4245(a) of ERISA.

(2) SFA Eligibility Certification and Supporting Information for Critical and Declining Plan

The Plan is eligible for SFA based on 29 CFR § 4262.3(a)(1). In addition, the Plan's eligibility for SFA is based on the certification of the Plan's status as of May 1, 2020. Therefore, this is not applicable.

(3) SFA Eligibility Certification and Supporting Information for Critical Plan

The Plan is eligible for SFA based on 29 CFR § 4262.3(a)(1). Therefore, this is not applicable.

(4) Priority Status

The Plan is not filing an application on or before March 11, 2023, therefore this information is not required.

(5) SFA Amount Certification

The Plan is not a "MPRA plan" under 29 CFR § 4262.4(a)(3); therefore, the additional information under items b., c., and d. of Section E, Item (5) were not required to be included in the certification.

SFA Amount Certification

Section E, Item (5) of the Instructions

This is a certification that the requested amount of special financial assistance (“SFA”) specified in this application (\$100,905,325) is the amount to which the Local 734 Pension Plan (the “Plan” or “Fund”) is entitled under section 4262(j)(1) of ERISA and Pension Benefit Guaranty Corporation’s (“PBGC”) final rule (29 CFR part 4262).

At the request of the Board of Trustees of the Fund, Horizon Actuarial Services, LLC (“Horizon Actuarial”) has performed the calculation of the amount of SFA as part of the Plan’s application for SFA. The calculation of the amount of SFA shown in the Plan’s application for SFA may not be applicable for any other purposes.

The “base data” used in determining the amount of SFA include the Plan’s: (a) SFA measurement date of December 31, 2022; (b) participant census data as of May 1, 2022; (c) a death audit for which any deaths before the census date of May 1, 2022 were reflected; and (d) non-SFA interest rate of 5.85% and SFA interest rate of 3.77% as prescribed under 29 CFR § 4262.4(e)(1) and (2), respectively.

The Plan performed a death audit to identify deceased participants that was completed after the Plan’s actuarial valuation as of May 1, 2022. The Plan also submitted its full census data used for the SFA application to the PBGC prior to submitting the SFA application. Any known deaths that occurred before the date of the census data used for SFA purposes (i.e., May 1, 2022), were removed from the census data.

This certification is based on information and data provided by the Board of Trustees of the Fund and other persons or organizations designated by the Board of Trustees of the Fund. We did not perform an audit of the financial and participant census data provided to us, but we have reviewed the data for reasonableness for the purpose of this certification. We have relied on all information provided as being complete and accurate.

In general, the actuarial assumptions and methods used to determine the amount of SFA are the same as those used in the certification of the Plan’s status as of May 1, 2020. Assumptions that were changed for purposes of determining the amount of SFA include: operating expenses, new entrant profile, contribution rates, contribution base units, and withdrawal liability payments from current contributing employers. Details regarding changes to these assumptions, including the justification for such changes, are described in the Plan’s response to Section D, Item (6)b of the General Instructions for Multiemployer Plans Applying for SFA (“Instructions”). See the pages following this certification for additional information regarding the actuarial assumptions and methods used.

This certification was prepared in accordance with generally recognized and accepted actuarial principles and practices, as well as the provisions under 29 CFR §4262.4 of PBGC’s final rule. The calculations underlying this certification are based upon actuarial projections of assets for the current and succeeding plan years. These calculations are performed using actuarial models, the intended purpose of which is the estimation and projection of the Plan’s assets, employer contributions, withdrawal liability payments, benefit payments, operating expenses, and other related information summarized herein.

SFA Amount Certification

Section E, Item (5) of the Instructions

I am a member of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. To the best of my knowledge, the information supplied herein is complete and accurate. Each prescribed assumption for determining the amount of SFA amount was applied in accordance with applicable law and regulations. In my opinion, all other assumptions are reasonable taking into account the experience of the Plan and reasonable expectations.

Actuarial Assumptions Used to Determine Amount of SFA

Weeks Worked (Active Population)

Actual CBUs for calendar year 2022 were 38,589 weeks. CBUs are assumed to decline from 2022 levels by 3.00% per year for 2023 through 2032 and 1.00% per year thereafter. Similarly, the number of active participants are assumed to decline from the May 1, 2022 valuation level (803 actives) by 3.00% each year for 10 years and then 1.00% per year thereafter.

Withdrawal Liability Payments from Current Contributing Employers

Annual withdrawal liability payment amounts for an individual year of withdrawal were determined based on the annual decline in CBUs. It is assumed that the annual decline in CBUs is entirely due to employer withdrawals. All employers are assumed to have withdrawal liability limited by the 20-year cap on withdrawal liability payments, required under section 4219(c)(1)(B) of ERISA. Further, 50% of future withdrawal liabilities are assumed to be uncollectible.

The projected future withdrawal liability payment stream beginning in each year was calculated by taking 100% of the reduction in annual contributions in the prior year due to the decline in CBUs, multiplying by 50% (the collectability assumption) and further reducing it by a ratio of \$137.73/\$187.71. The numerator (\$137.73), is the average pre-2015 contribution rate (i.e., it excludes contribution increases under the rehabilitation plan). The denominator (\$187.71) is the current assumed average contribution rate, and these payments were assumed to continue for 20 years..

Actuarial Assumptions Used to Determine Amount of SFA

Operating Expenses

Future administrative expenses as of January 1, 2023 are assumed to be \$840,000, plus a one-time load of \$200,000 for the SFA application related expenses, for a total of \$1,040,000 (payable as of the middle of the year). The \$840,000 is based on the five year average of expenses incurred by the Plan from May 1, 2017 to April 30, 2022, increased by 2.5% for inflation. The amount as of January 1, 2024 is assumed to be \$860,000 (payable as of the middle of the year), based on the five year average of expenses incurred by the plan from May 1, 2017 to April 30, 2022, increased by 5.0% to reflect two years of inflation plus a one time load of \$25,000 for SFA application related expenses, for a total of \$885,000. For each plan year after 2024, administrative expenses are assumed to increase by 2.5% per year for inflation and annual operating expenses are limited to 12% of projected annual benefit payments for each year.

Projected operating expenses for the 2031 plan year include an additional increase to reflect the impact of the PBGC premium increase under section 4006(a)(3)(A) of ERISA that goes into effect in 2031. This additional increase in operating expenses for 2031 is assumed to be \$9.36 multiplied by the projected participant count as of December 31, 2030. Note that \$9.36 is equal to \$52.00 less the actual PBGC flat-rate premium rate for 2023 (\$35.00) increased by 2.50% per year through 2031.

Templates 4A and 5A require that projected operating expenses be split between PBGC premiums and other expenses. For these purposes, it was assumed that PBGC premiums for a plan year are equal to the projected PBGC premium rate for the plan year multiplied by the projected participant count at the end of the prior plan year. The projected PBGC premium rate is \$35 per participant for the 2023 plan year and is assumed to increase by 2.50% per year. However, for the 2031 plan year, the projected PBGC premium rate is assumed to be \$52 per participant with future increases based on this level. Other expenses are assumed to be equal to total operating expenses less PBGC premiums.

Non-Disabled Mortality

Active and inactive vested participants:

The sex-distinct RP-2014 mortality tables for Blue Collar Employees, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

Participants and beneficiaries receiving benefits:

Actuarial Assumptions Used to Determine Amount of SFA

Disabled Mortality The sex-distinct RP-2014 Disabled Retiree mortality tables, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

Retirement
Active Participants Active participants are assumed to retire according to the following rates (the same rates are used for males and females):

Retirement Rates (per 100 participants)

Age	Active Participants
50-54	0.00
55-59	0.02
60-61	0.05
62	0.20
63	0.25
64	0.05
65	0.25
66	0.45
67-69	0.25
70	1.00

Retirement
Inactive Vested Participants Inactive vested participants are assumed to retire at either: Age 60 for Participants with 15 or more years of Benefit Service; otherwise, age 65.

Disability Illustrations of the annual rates of disablement are shown in the table below for selected ages (the same rates are used for males and females):

Representative Disability Rates (per 100 participants)

Age	Rate
20	0.03
25	0.04
30	0.05
35	0.07
40	0.11
45	0.18
50	0.30
55	0.50
60	0.81

Actuarial Assumptions Used to Determine Amount of SFA

Withdrawal

Illustrations of the annual rates of withdrawal (for reasons other than mortality or disablement) are shown in the table below for selected ages (the same rates are used for males and females):

Representative Withdrawal Rates(per 100 participants)

Age	Rate
20	0.1948
25	0.1579
30	0.1314
35	0.1129
40	0.0922
45	0.0706
50	0.0347
55	0.0000
60 and over	0.0000

Withdrawal rates are set to zero at the first eligibility for an immediate pension.

Form of Payment

Single participants are assumed to elect the single life annuity.

For married participants, 42% are assumed to elect a single life annuity, 33% are assumed to elect the 50% joint and survivor annuity, and 25% are assumed to elect a 100% joint and survivor annuity.

Marriage

80% of non-retired participants are assumed to be married.

Spouse Ages

Females are assumed to be three years younger than their spouses.

Active Participant

Those participants who worked one or more weeks during the calendar year prior to the valuation date, provided they have not retired or terminated prior to the valuation date.

Reemployment

It is assumed that participants will not be reemployed following a break in service.

Future Service

For the purpose of projecting future benefit accruals, it is assumed that each active participant will work 47.56 weeks per year and therefore earn 1.00 Pension Credit annually.

Actuarial Assumptions Used to Determine Amount of SFA

Participant Data (Source)

Participant census data as of May 1, 2022 was provided by the Plan's administrator.

Participant Data (Summary)

The following counts were used in the determination of the SFA amount. These amounts reflect both the Plan's internal death audit and the subsequent PBGC death audit.

Active Participants: 803

Terminated Vested Participants not in Pay Status: 882

Retirees and Beneficiaries: 1,687

See the Plan's May 1, 2022 actuarial valuation report for additional summaries of participant census data used in determining the amount of SFA including the counts prior to the death audit.

Missing or Incomplete Participant Data

Assumptions were made to adjust for participants and beneficiaries with missing or incomplete data, based on those exhibited by participants with similar known characteristics.

Note that there was no missing or incomplete participant data as of May 1, 2022.

Excluded Participants

No participants were excluded from the valuation other than inactive non-vested participants that have yet to incur a permanent break in service.

Financial Information

Financial information was obtained from the Plan's interim financial statements as of December 31, 2022 prepared by the Plan's accountant, MacNell Accounting & Consulting, LLP.

Cash Flow Timing

Contribution income, benefit payments, and operating expenses are all assumed to be paid as of the middle of the year.

Actuarial Assumptions Used to Determine Amount of SFA

New Entrant Profile

Projections of future benefit payments were performed using an open group valuation methodology. In other words, each year, hypothetical new entrants were added to the population to achieve the assumed level of active participants. The assumed demographic characteristics of new entrants are based on the new entrant profile summarized in the table below.

Age Band	New Entrant and Rehire Count by Year Ending					Total Count	Total Count	Pension Credits	Years of Vesting Service
	2018	2019	2020	2021	2022		Male		
Under 25	17	13	21	13	15	79	72	0.50	0.50
25 to 29	25	7	16	7	24	79	70	0.50	0.50
30 to 34	19	13	27	13	25	97	89	0.50	0.50
35 to 39	12	8	13	8	22	63	56	0.50	0.50
40 to 44	17	9	17	12	15	70	64	0.50	0.50
45 to 49	13	4	12	4	10	43	38	0.50	0.50
50 to 54	3	6	8	2	8	27	25	0.50	0.50
55 to 59	5	1	7	4	8	25	20	0.50	0.50
Over 60	0	0	0	2	2	4	3	0.50	0.50

The distribution of new entrants in the table above was based on an experience analysis of the Plan's new entrants for the five completed valuations preceding the Plan's SFA measurement date (i.e., for the plan years ending 2017 through 2022). The experience analysis includes all new entrants and rehires during those five plan years (rather than those remaining in service) and reflects 5-year age bands.

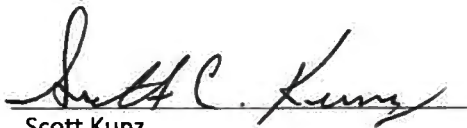

Fair Market Value Certification

This is a certification from the Board of Trustees of the Local 734 Pension Plan (the "Plan") to the accuracy of the amount of the fair market value of assets as of December 31, 2022 (the SFA measurement date).

The fair market value of assets as of December 31, 2022 of \$95,736,498 is supported by the Plan's final financial statements as of December 31, 2022 prepared by the Plan's accountant, MacNell Accounting & Consulting, LLP. These financial statements can be found in the Plan's SFA application in the attachment labeled **20221231FinancialReport L734.pdf** and include a reconciliation of the fair market value of assets from April 30, 2022 to December 31, 2022. For further support, please see the Plan's investment and bank account statements as of December 31, 2022, which can be found in the Plan's SFA application in the attachment labeled **20221231AccountStatements L734.pdf**.

Based on the above, we hereby certify the accuracy of the amount of the fair market value of assets as of December 31, 2022, as specified in this application.

**AMENDMENT NO. 4 TO THE
LOCAL 734 PENSION PLAN**

As Amended and Restated Effective May 1, 2014

WHEREAS, the Local 734 Pension Plan (the “Plan”) was last amended and restated effective May 1, 2014;

WHEREAS, Article 16 of the Plan provides that the Trustees of the Plan may modify or amend the Plan; and

WHEREAS, the Trustees now desire to amend the Plan’s provisions concerning the definition of Plan Year, and to amend the Plan to include provisions related to Plan administration in accordance with requirements that apply to plans that receive special financial assistance, the adoption of which will be contingent upon approval by the PBGC of the Plan’s application for special financial assistance;

NOW, THEREFORE, the Board of Trustees hereby amends the Plan, effective as of April 1, 2022, as follows:

1. Subsection 2.1(d) is amended by adding the following to the end thereof:

“During any Short Plan Year, for purposes of this Section 2.1(d), Compensation shall include only compensation earned during that Short Plan Year and shall be determined during that period in the same manner that Compensation otherwise would be determined pursuant to this Section 2.1(d).”

2. Subsection 2.3(e) is amended and replaced in its entirety to read as follows:

“(e) Plan Year: The 12-month period commencing on January 1 and ending on December 31. However, there will be a short Plan Year that runs from April 1, 2022, through December 31, 2022 (hereinafter referred to as the “Short Plan Year”).”

3. Subsection 3.5(c) is replaced in its entirety to read as follows:

“(c) No more than 33-1/3 years of Benefit Service may be granted to any Participant, and no more than one (1) year of Benefit Service can be earned in any Plan Year or Short Plan Year.”

4. Article 15 is amended to add the following sentence between the second and third sentences in the second paragraph:

“For all Plan purposes, the limitation year shall be the Plan Year.”

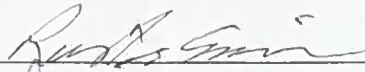

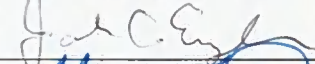

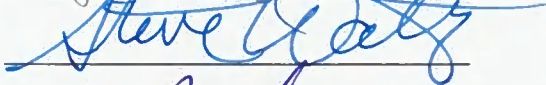

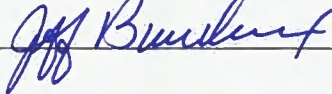

5. A new Section 17.10 is added to read as follows:

“Section 17.10 Special Financial Assistance Administration

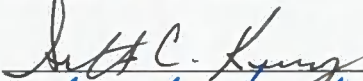

Beginning with the SFA measurement date selected by the Plan in the Plan's application for special financial assistance, notwithstanding anything to the contrary in the Plan or any other document governing the Plan, the Plan shall be administered in accordance with the restrictions and conditions specified in section 4262 of ERISA and 29 CFR part 4262. This amendment is contingent upon approval by PBGC of the Plan's application for special financial assistance."

IN WITNESS WHEREOF, the Board of Trustees hereby adopts this Amendment to the Local 734 Pension Plan this 14th day of December 2022.

LOCAL 734 PENSION PLAN BOARD OF TRUSTEES RESOLUTION

Resolution Adopting Amendment No. 4 to the Local 734 Pension Plan

WHEREAS, pursuant to its authority under the Local 734 Pension Plan (the “Plan”), the Board of Trustees of the Local 734 Pension Fund (the “Fund”) has the authority to amend the Plan from time to time; and

WHEREAS, the Board of Trustees wishes to change the definition of “Plan Year” under the Plan so as to begin the Plan Year on January 1 and end it on December 31 each year, thus causing a “Short Plan Year” from April 1, 2022 to December 31, 2022; and

WHEREAS, the Board of Trustees wishes to include provisions related to Plan administration in accordance with requirements that apply to plans that receive special financial assistance, the adoption of which will be contingent upon approval by the PBGC of the Plan’s application for special financial assistance; and

WHEREAS, the Board of Trustees have the power to adopt this Resolution and Amendment No. 4 pursuant to the relevant provisions of the Plan document, as amended and restated effective May 1, 2014, and through the powers granted the Trustees under the Fund’s Trust Agreement; and

WHEREAS, the Board of Trustees wish to take any and all action necessary to adopt Amendment No. 4 to the Plan;

NOW, THEREFORE, BE IT RESOLVED BY THE TRUSTEES, AS FOLLOWS:

Section 1. Recitals. The recitals set forth above are hereby found to be true and correct and are incorporated into this Resolution as if fully set forth herein.

Section 2. Adoption of Amendment No. 4 to the Plan. The Board of Trustees hereby adopts Amendment No. 4 to the Plan, effective as of April 1, 2022.

Section 3. Miscellaneous. The Board of Trustees hereby authorizes, empowers, and directs the Fund Administrator, or his designee, to take or cause to be taken all such actions, and to execute, acknowledge and deliver any and all such agreements, instruments, certificates and other documents, and to pay all such fees and expenses, as he may deem necessary, appropriate, or advisable in order to carry out the purpose and intent of this Resolution.

Section 4. Enactment. This Resolution shall take effect immediately. If any section, paragraph, or provision of this Resolution shall be held to be invalid or unenforceable for any reason, the invalidity or unenforceability of such section, paragraph, or provision shall not affect any of the remaining provisions of the Resolution.

Instructions for Section E, Item 1 of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance (SFA):

The Application to PBGC for Approval of Special Financial Assistance Checklist ("Application Checklist" or "Checklist") identifies all information required to be filed with an initial or revised application. For a supplemented application, instead use "Application Checklist - Supplemented." The Application Checklist is not required for a lock-in application.

For a plan required to submit additional information described in Addendum A of the SFA Filing Instructions, also complete Checklist Items #40.a. to #49.b., and if there is a merger as described in Addendum A, also complete Checklist Items #50 through #63.

Applications (including this Application Checklist), with the exception of lock-in applications, must be submitted to PBGC electronically through PBGC's e-Filing Portal, (<https://efilingportal.pbgc.gov/site/>). After logging into the e-Filing Portal, go to the Multiemployer Events section and click "Create New ME Filing." Under "Select a filing type," select "Application for Financial Assistance – Special." Note: revised and supplemented applications must be submitted by selecting "Create New ME Filing."

Note: If you go to the e-Filing Portal and do not see "Application for Financial Assistance – Special" under the "Select a Filing Type," then the e-Filing Portal is temporarily closed and PBGC is not accepting applications (other than lock-in applications) at the time, unless the plan is eligible to make an emergency filing under § 4262.10(f). PBGC's website, www.pbgc.gov, will be updated when the e-Filing Portal reopens for applications. PBGC maintains information on its website at www.pbgc.gov to inform prospective applicants about the current status of the e-Filing portal, as well as to provide advance notice of when PBGC expects to open or temporarily close the e-Filing Portal.

General instructions for completing the Application Checklist:

Complete all items that are shaded: 

If required information was already filed: (1) through PBGC's e-Filing Portal; or (2) through any means for an insolvent plan, a plan that has received a partition, or a plan that submitted an emergency filing, the filer may either upload the information with the application or include a statement in the Plan Comments section of the Application Checklist indicating the date on which and the submission with which the information was previously filed. For any such items previously provided, enter N/A as the **Plan Response**.

For a revised application, the filer may, but is not required to, submit an entire application. For all Application Checklist Items that were previously filed that are not being changed, the filer may include a statement in the Plan Comments section of the Application Checklist to indicate that the other information was previously provided as part of the initial application. For each, enter N/A as the **Plan Response**.

Instructions for specific columns:

Plan Response: Provide a response to each item on the Application Checklist, using only the **Response Options** shown for each Checklist Item.

Name(s) of Files Uploaded: Identify the full name of the file or files uploaded that are responsive to the Checklist Item. The column **Upload as Document Type** provides guidance on the "document type" to select when submitting documents on PBGC's e-Filing Portal.

Page Number Reference(s): For Checklist Items #22 to #29c, submit all information in a single document and identify here the relevant page numbers for each such Checklist Item.

Plan Comments: Use this column to provide explanations for any **Plan Response** that is N/A, to respond as may be specifically identified for Checklist Items, and to provide any optional explanatory comments.

Additional guidance is provided in the following columns:

Upload as Document Type: When uploading documents in PBGC's e-Filing Portal, select the appropriate Document Type for each document that is uploaded. This column provides guidance on the Document Type to select for each Checklist Item. You may upload more than one document using the same Document Type, and there may be Document Types on the e-Filing Portal for which you have no documents to upload.

Required Filenaming (if applicable): For certain Checklist Items, a specified format for naming the file is required.

SFA Instructions Reference: Identifies the applicable section and item number in PBGC's Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance.

You must select N/A if a Checklist Item # is not applicable to your application. **Your application will be considered incomplete if No is entered as a Plan Response for any of Checklist Items #1 through #39 on the Application Checklist. If there has been an event as described in § 4262.4(f), complete Checklist Items #40.a. through #49.b., and if there has been a merger described in Addendum A, also complete Checklist Items #50 through #63. Your application will be considered incomplete if No is entered as a Plan Response for any of Checklist Items #40.a. through #49.b. if you are required to complete Checklist Items # 40.a. through #49.b. Your application will also be considered incomplete if No is entered as a Plan Response for any of Checklist Items #50 through #63 if you are required to complete Checklist Items #50 through #63.**

If a Checklist Item # asks multiple questions or requests multiple items, the Plan Response should only be Yes if the plan is providing all information requested for that Checklist Item.

Note, a Yes or No response is also required for Checklist Items #a through #f.

Note, in the case of a plan applying for priority consideration, the plan's application must also be submitted to the Treasury Department. If that requirement applies to an application, PBGC will transmit the application to the Treasury Department on behalf of the plan. See IRS Notice [NOTICE] for further information.

All information and documentation, unless covered by the Privacy Act, that is included in an SFA application may be posted on PBGC's website at www.pbgc.gov or otherwise publicly disclosed, without additional notification. Except to the extent required by the Privacy Act, PBGC provides no assurance of confidentiality in any information included in an SFA application.

AS AMENDED AND RESTATED EFFECTIVE
JANUARY 1, 2024**

ARTICLE 1

APPLICATION OF PLAN

The provisions of the Local 734 Pension Plan shall apply only to Covered Employment occurring, and to an Employee who terminates Covered Employment, on or after January 1, 2024. All matters occurring during or related to prior Covered Employment and benefits – including, but not limited to, a former employee’s eligibility for benefits and the amount of benefits, if any, payable to or on behalf of a former Employee – shall be determined in accordance with the provisions of the Prior Plan in effect on the date that the act occurred or the employment terminated, except to the extent otherwise specifically provided in the Prior Plan, this Plan, or under subsequent amendments to this Plan.

ARTICLE 2

DEFINITIONS AND CONSTRUCTION

Words and phrases appearing in this Plan shall have the respective meanings set forth in this Article unless the context clearly indicates to the contrary.

Section 2.1 Principal Entities

- (a) Administrative Manager: The person and successor designated by the Trustees to act as executive administrative officer of the Pension Fund.
- (b) Beneficiary: A person (other than a Pensioner) who is receiving benefits under this Plan because of either a relationship to or a designation for such benefits by a Pensioner or Participant.
- (c) Collective Bargaining Agreement: A written agreement to which the Union and an Employer are parties providing for contributions by the Employer to the Pension Fund for an Employee, and pursuant to which an Employer consents to be bound by the Trust Agreement and adopts this Plan.
- (d) Compensation: As set forth in Article 10 of this Plan.
- (e) Eligible Spouse:
 - (1) At retirement, Eligible Spouse means the person to whom the Participant was married throughout the 12-month period immediately preceding any benefit commencement date.; for purposes of the Plan, the term “marriage” or “married” will be read to include a same-sex marriage that is legally recognized as a marriage under any state law; or
 - (2) During Employment, Eligible Spouse means the person to whom the vested Participant was married throughout the 12-month period immediately preceding the vested Participant’s death.
 - (3) In the case of a Participant who has been married to his Spouse for less than one year as of the benefit commencement date of his pension, such Spouse shall provisionally be considered an Eligible Spouse for purposes of the Qualified Joint and Survivor Pension. Such Participant may not waive the Pension without the Spouse's consent, as provided in Section 4.2(b). If the Participant and Spouse remain so married for one year, the Spouse shall be considered an Eligible Spouse. If the marriage is terminated (whether by death or divorce) before its first anniversary, the Participant shall be entitled to waive the Qualified Joint and Survivor Pension without spousal consent and the Spouse, if living, shall not be eligible for a survivor’s pension. In any event, no retroactive adjustment shall be made for payments previously received in the Qualified Joint and Survivor form.
- (f) Employee: Any
 - (1) individual employed by an Employer in a bargaining unit represented by the Union for whom the Employer is obligated to contribute to the Pension Fund, and
 - (2) employee of the Local 734 Pension Fund, the Local 734 Welfare Fund, and employee

or officer of the Union for whom such Employer is obligated to contribute to the Pension Fund.

The term "Employee" will include any leased employee of an Employer within the meaning of Section 414(n) of the Code who otherwise meets the conditions for participation, vesting and benefit accrual under the Plan.

- (g) Employer: Any individual, partnership, association, corporation, or legal representative of every nature which on or after the Effective Date has a Collective Bargaining Agreement with the Union or a Participation Agreement, is accepted for participation in the Pension Fund by the Trustees, and makes Contributions to the Pension Fund as required by the Collective Bargaining Agreement or Participation Agreement. If an Employer has more than one place of business, the term "Employer" shall only apply to the place or places of business covered by the Collective Bargaining Agreement. The term "Employer" shall also include the Local 734 Pension Fund, the Local 734 Welfare Fund, and the Union. For purposes of identifying Highly Compensated Employees and applying the rules of participation, vesting and statutory limits on benefits under the Fund for such employees, but not for determining covered service, the term "Employer" includes all members of an affiliated service group with the Employer within the meaning of Section 414(m) of the Code and all other businesses aggregated with the Employer under Section 414(o) of the Code. For this purpose, an "Employer" also includes all corporations, trades or businesses under common control with the Employer within the meaning of Section 414(b) and (c) of the Code.
- (h) Industry Employment: All public and private work covered, or of the type covered, by any Collective Bargaining Agreement. This public and private "Industry Employment" work includes all work performed as an employee, supervisor, manager, consultant, sole proprietor, member of an unincorporated firm or partnership, or officer of a corporation, as well as all employment by an Employer under this Plan and all employment which involves supervision or management of employees engaged in work which is covered, or of the type covered, by any Collective Bargaining Agreement.
- (i) Non-Bargained Employees: Employees who are not covered by a Collective Bargaining Agreement and for whom contributions are made by an Employer pursuant to a Participation Agreement.
- (j) Participant: An Employee or a Pensioner who meets the requirements for participation as set forth in Article 3 of this Plan, or a former Employee who has acquired a right to a Pension under this Plan.
- (k) Participation Agreement: An agreement, other than a Collective Bargaining Agreement, acceptable to the Trustees governing the contributions by an Employer for Non-Bargained Employees.
- (l) Pension Fund: The Local 734 Pension Fund established by the Trust Agreement which includes the monies or other things of value which comprise the trust fund.
- (m) Pensioner: A person, other than a Beneficiary, who is receiving or is entitled to receive benefits under this Plan.
- (n) Plan (or this Plan): The Local 734 Pension Plan set forth herein, as amended from time to time.
- (o) Prior Plan: The Local 734 Pension Plan effective May 1, 2014, and predecessor plans.

- (p) Retirement, Retire, Retired: The Employee has ceased being employed or engaged in Covered Employment and is not reemployed in Industry Employment.
- (q) Trust Agreement: Agreement and Declaration of Trust creating the Local 734 Pension Fund, (formerly Local 734 Bakery Drivers Pension Fund) as last restated effective May 1, 2010, and as amended and restated from time to time thereafter.
- (r) Trustees: The persons appointed under the Trust Agreement to administer this Plan and the Pension Fund, together with their successors, sometimes collectively referred to as the "Board of Trustees" or the "Board".
- (s) Union: Bakery, Cracker, Pie, Yeast Drivers and Miscellaneous Workers Union, Local 734, International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America.

Section 2.2 Determination of Benefits

- (a) Accrued Pension: An amount equal to 3% multiplied by the amount of Normal Retirement Pension in effect at the time of Retirement multiplied by the number of years of Benefit Service.
- (b) Actuarial (or Actuarially) Equivalent: Equality in value of the aggregate amounts expected to be received under different forms of payment based upon the Unisex Pension 1984 Mortality Table and an interest rate of 7% per annum compounded annually. Conversion of a Single Life Pension into a Qualified Joint and Survivor Pension, a 100% Joint and Survivor Pension, a 50% Joint and Survivor Pension with Pop-Up, a 100% Joint and Survivor with Pop-Up, or a Ten Year Certain and Life Pension shall be based upon the factors illustrated in Appendix A and B.

For purposes of determining any lump sum, the present value Actuarial Equivalent of a benefit shall be determined using the Applicable Mortality Table and Applicable Interest Rate as defined in Section 417(e)(3)(B) and (C), respectively of the Code.

Effective for distributions made on or after January 1, 2023, the Applicable Interest Rate shall be determined for the month of November preceding each Plan Year. For the period from January 1, 2023, through April 30, 2023, any lump sum payment shall not be less than the lump sum based on the Applicable Interest Rate for the month of March 2023

- (c) Benefit Service: The period of Covered Employment for which credit is granted under this Plan for purposes of determining the amount of Accrued Benefit, which shall consist of Past Benefit Service, if any, plus Future Benefit Service, in accordance with Article 3.
- (d) Covered Employment: Any period during which an Employee was employed by an Employer for whom the Employer is obligated to contribute to the Pension Fund. For periods prior to January 1, 2024, the Covered Employment shall be such period recorded under the Prior Plan.
- (e) Disability (or Total and Permanent Disability): A Participant will be considered totally and permanently disabled, and thus subject to a Disability, upon a final determination of disability by the Social Security Administration.
- (f) Future Benefit Service: The Benefit Service credited under Section 3.5 for the period of Covered Employment on and after the Participation Date of the Employer.
- (g) Hour of Service: For purposes of determining whether a break in service has occurred, Hour of Service means:

- (1) Each hour of service for which the Employee is directly or indirectly paid, or entitled to payment, by an Employer for the performance of duties during such hour. Such hours shall be Hours of Service only in the period in which duties were performed. Such hours shall be determined by the Employer from its records of hours worked or hours for which payment is made or owing.
- (2) Each hour for which back pay, irrespective of mitigation of damages has been either awarded to the Employee or agreed to by an Employer. Such hours shall be Hours of Service for the period or periods to which the award or agreement pertains rather than in the period in which the award, agreement or payment is made.
- (3) Each hour for which the Employee or former Employee is directly or indirectly paid, or entitled to payment, by an Employer for reasons (including but not limited to vacations, holidays, sickness, or disability) other than the performance of duties during each such hour; provided,
 - (A) that an Employee or former Employee shall not be credited with more than 501 Hours of Service for any single continuous period during which he performed no duties for an Employer, and
 - (B) that payments from a plan maintained solely to comply with applicable workmen's compensation, unemployment compensation, or disability insurance laws and payments constituting reimbursement solely for medical or medically related expenses incurred by the Employee or former Employee shall not be deemed payments by an Employer pursuant to this subsection.
- (4) Each hour for which the Employee is absent from work (and for which he normally would have been credited but for the absence) by reason of pregnancy of the Employee, birth by the Employee, placement of a child in connection with the adoption by the Employee, or caring for the child immediately following the child's birth or placement for adoption; provided, however, that each hour of service must be credited only in the year in which the absence begins, or in the following year if the credit is necessary to prevent a break in service. Employee may be required to present a satisfactory certification that the leave was taken for a permitted purpose.

The same hours shall not be credited under more than one of the above subsections. Each Employer shall provide the Administrative Manager with the Hours of Service, computed pursuant to this section, for each Employee for all applicable periods and the Administrative Manager shall be entitled to rely on the Employer's determination of Hours of Service. The rules of this section shall be construed to resolve any ambiguities in favor of crediting an Employee with an Hour of Service.

- (h) Normal Retirement Age: Age 65, or if later, the date which is five years following the most recent date the Participant commenced participation in the Plan, assuming the Participant remains in Covered Employment, at which date benefits are fully vested and nonforfeitable.
- (i) Normal Retirement Date: The first day of the month coincident with or immediately following attainment of Normal Retirement Age.
- (j) Participation Date: For each Employer, the date as of which contributions to the Pension Fund were first required to be made for its Employees.
- (k) Past Benefit Service: The Benefit Service credited under Section 3.5 for the period of Covered Employment prior to the Participation Date of the Employer.

- (l) Pension: A series of monthly amounts which are payable to a person who is entitled to receive benefits under this Plan.
- (m) Reciprocal Agreement: The agreement referred to in Article 13 with respect to employees whose years of employment were divided between this Plan and such other plans.
- (n) Vesting Service: The period of Covered Employment and Related Employment, where applicable, considered for purposes of determining eligibility for benefits under this Plan in accordance with Article 3.
- (o) Week(s) of Covered Employment: Each full week for which a Participant's Employer is obligated to make contributions as an Employer to the Pension Fund on the Participant's behalf.

Section 2.3 Other Definitions

- (a) Calendar Year: The 12-month period commencing on January 1 and ending on December 31. For purposes of ERISA regulations, the Calendar Year shall serve as the Vesting and Benefit Accrual computation periods.
- (b) Code: The Internal Revenue Code of 1986, as amended from time to time, and all applicable regulations.
- (c) Effective Date: January 1, 2024.
- (d) ERISA: Employee Retirement Income Security Act of 1974, as amended from time to time.
- (e) Plan Year: The 12-month period commencing on January 1 and ending on December 31. However, there will be a short Plan Year that runs from April 1, 2022 through December 31, 2022 (hereinafter referred to as the "Short Plan Year").
- (f) PBGC: Pension Benefit Guaranty Corporation, a body corporate within the Department of Labor established under the provisions of Title IV of ERISA.

Section 2.4 Construction

The masculine gender, where appearing in this Plan, shall be deemed to include the feminine gender, and the singular may include the plural, unless the context clearly indicates to the contrary. The words "hereof" "herein," "hereunder," and other similar compounds of the word "here" shall mean and refer to this entire Plan, not to any particular provision or section.

ARTICLE 3

PARTICIPATION AND SERVICE

Section 3.1 Participation

A person shall be eligible to participate in this Plan as follows:

- (a) An Employee who was included under the provisions of the Prior Plan as of January 1, 2023, shall continue to participate in accordance with the provisions of this Plan.
- (b) Any other Employee shall become a Participant in this Plan on December 31 of such Calendar Year if he is engaged in Covered Employment on such date.
- (c) A former Employee entitled to receive a Pension under this Plan shall continue as a Participant until the date of his death.
- (d) An Eligible Spouse who is receiving a Pension.

Section 3.2 Termination of Participation

An Employee who incurs a Break in Service as provided in Section 3.6 ceases to be a Participant as of the last day of the Calendar Year which constituted the Break unless such Participant is a Pensioner or is entitled to a Deferred Vested Pension.

Section 3.3 Reinstatement of Participation

An Employee who has lost his status as a Participant in accordance with Section 3.2 shall again become a Participant by meeting the requirements of Section 3.1.

Section 3.4 Vesting Service

An Employee's eligibility for Pension under this Plan shall be determined by his Vesting Service subject to the Break in Service provisions of Section 3.6. The Vesting Service of an Employee participating in this Plan on the Effective Date, for the period prior to the Effective Date, shall not be less than that determined under the provisions of the Prior Plan.

- (a) Prior to the Effective Date: For an Employee included in the Prior Plan as of January 1, 2024, the Vesting Service to the Effective Date shall be determined in accordance with the prior Plan including any Vesting Year which overlaps into the Plan Year from and after the Effective Date.
- (b) After the Effective Date: For an Employee who becomes a Participant on or after the Effective Date, Vesting Service for the period preceding his Employer's Participation Date shall be determined by the Trustees. Vesting Service from and after an Employer's Participation Date shall be determined on the basis of one year Vesting Service for a period of Covered Employment in each Calendar Year equivalent to a minimum of 22 weeks; provided, however, that an Employee who terminates Covered Employment shall be entitled to receive a fractional year of Vesting Service in which the numerator is the equivalent number of weeks of employment in the Employee's period of Covered Employment in the Plan Year and the denominator is a period of Covered Employment in the Calendar Year equivalent to 22 weeks. No more than one year of Vesting Service can be earned in any Calendar Year.
- (c) An Employee shall receive Vesting Service for Related Employment pursuant to the provisions of Article 14.

- (d) A Participant's right to his normal retirement benefit is nonforfeitable upon his attainment of Normal Retirement Age, except to the extent that benefits are cancelled, pursuant to Section 13.3, because the Employer has ceased to contribute to the Plan with respect to the bargaining unit in which the Participant was employed.

Section 3.5 Benefit Service

The amount of benefit payable to or on behalf of an Employee shall be determined on the basis of Benefit Service subject to the Break in Service provisions of Section 3.6.

- (a) Prior to the Effective Date: For an Employee included in the Prior Plan on January 1, 2024, Benefit Service (both Past and Future) shall be determined in accordance with the Prior Plan for the period prior to the Effective Date.
- (b) After the Effective Date: From and after the Effective Date, Future Benefit Service for a continuing or a new Employee shall be determined on the basis of Covered Employment in each Calendar Year as follows:

Weeks of Covered Employment During Calendar Year	Future Benefit Service
27-52 weeks	1 year
22-26 weeks	1/2 year
Less than 22 weeks	0 year

- (c) No more than 33-1/3 years of Benefit Service may be granted to any Participant, and no more than one year of Benefit Service can be earned in any Plan Year or Short Plan Year.
- (d) Covered Employment by Two or More Employers and Related Employment:
 - (1) For Covered Employment with more than one Employer during any Plan Year, an Employee's Future Benefit Service shall be determined as if Covered Employment had been with one Employer.
 - (2) An Employee with periods of Covered Employment and Related Employment shall be subject to Article 14.
- (e) Benefit Service shall be granted during military service as provided under Section 3.8.

Section 3.6 Break In Service

- (a) A one-year Break in Service shall occur whenever an Employee fails to complete 11 Weeks of Covered Employment in any given Plan Year subsequent to the first Plan Year anniversary coinciding with or next following his commencement date of participation.

Solely for the purposes of determining whether a Participant has incurred a Break in Service, any leave of absence granted by an Employer, up to 12 weeks, that qualifies under the Family and Medical Leave Act (FMLA) shall not be counted as a Break in Service for purposes of determining eligibility and Vesting Service.
- (b) If a Participant incurs a Break in Service prior to accruing any vested benefit under this Plan, and if the number of his consecutive one-year Breaks in Service equals or exceeds the greater of:
 - (1) the number of his years of pre-break Vesting Service, or

- (2) five,

then such pre-break accrued Vesting Service and Benefit Service shall be lost and not be counted for any purpose under this Plan whether or not he returns to Covered Employment.

- (c) If a non-vested Participant does not incur a Break in Service as defined in (b) above, then his pre-break and post-break Benefit Service shall be aggregated to determine Credited Service under this Plan, as shall his Vesting Service; provided, however, that if he has two consecutive Plan Years of 11 Weeks of Covered Employment, the post-break Benefit Service shall be determined separate from any pre-break Benefit Service benefit.
- (d) If a Participant incurs a Break in Service after having accrued a vested benefit and subsequently returns to Covered Employment, his pre-break and post-break Benefit Service shall be aggregated to determine credited service under this Plan; provided however,
- (1) If any amount was distributed to him at the time of his termination in a lump sum under Section 9.4, no additional benefits shall be paid on account of his pre-break credited service unless he repays, within five years of reemployment, the amount distributed plus interest at the minimum rate specified in Regulations issued from time to time by the Secretary of Treasury,
- (2) The Pension, if any, payable to an Employee whose years of Benefit Service were separated by one or more Breaks in Service shall be equal to the sum of his Accrued Pension at the time of each Break in Service based on each segment of his Benefit Service and the benefit in effect at the time of such Break in Service subject to subsection (c) above and Section 5.4 of this Plan. A maximum of 33-1/3 years of Benefit Service shall be applied to provide all segments of the Employee's Accrued Pension, and if a greater benefit will result, early years (instead of final years) shall be disregarded for an Employee with more than 33-1/3 years of Benefit Service.

Section 3.7 Multiple Breaks in Service

The aggregate number of years of service before a Break in Service shall be deemed not to include any years of service not required to be taken into account by reason of any prior Break in Service. Service not taken into account by virtue of the provisions of the Prior Plan with regard to Break in Service shall not be taken into account under the provisions of this Plan.

Section 3.8 Military Service

- (a) A Participant who meets the conditions in this Section 3.8 shall earn Benefit Service and Vesting Service for "qualified military service" for a period of up to five years (unless a longer period is required under Federal law). The cost of complying with this Section shall be absorbed by the Plan.
- (b) In order to be eligible for Benefit Service or Vesting Service under this Section 3.8, a Participant must enter qualified military service prior to incurring a one-year Break-in-Service. Benefit Service and Vesting Service shall be credited under this Section 3.8 based on the number of Weeks of Covered Employment worked by the Participant in the last full Plan Year preceding qualified military service, or if the Participant did not work a full Plan Year, the last Plan Year.
- (c) To be considered "qualified military service", such service must meet the definition set forth

in the Uniform Services Employment and Reemployment Rights Act ("USERRA") or military service under any predecessor statute provided the Employee entered the uniformed services immediately after termination of Covered Employment, and complies with all of the applicable requirements of USERRA (or applicable federal law) which shall include but not be limited to:

- (i) receiving an honorable discharge; and
- (ii) reapplying for Covered Employment within 90 days of discharge or such other period as provided for in USERRA.

ARTICLE 4

NORMAL RETIREMENT PENSION

Section 4.1 Requirements for Normal Retirement Pension

A Participant shall be eligible for, and may elect, a Normal Retirement Pension if his Retirement occurs on or after his Normal Retirement Date.

Section 4.2 Single Life Pension

- (a) Except as specified in Sections 4.4 and 4.5, payment of a Normal Retirement Pension shall commence on the first day of the month coinciding with or next following the date a valid election is made and the last payment thereof shall be made as of the first day of the month in which the death of the Pensioner occurs. This form of payment is referred to herein as the Single Life Pension form of payment.
- (b) A Participant's election to receive his Normal Retirement Pension in a Single Life Pension form of payment, in lieu of a Qualified Joint and Survivor Pension form of payment, as described in Article 6, or an optional form of payment, as described in Article 7, shall be valid only as follows:
 - (1) The Participant's waiver shall be in writing and shall be consented to by the Participant's Spouse. The Spouse's consent must be witnessed by a Plan representative or by a notary public. The Participant's waiver and the Spouse's consent shall be in such form as the Trustees may prescribe, which form shall specify the alternative form of benefit elected by the Participant in lieu of the Qualified Joint and Survivor Pension and shall specify the designated nonspouse Beneficiary (including any class of Beneficiaries or contingent Beneficiaries), if any, with respect to such alternative form of benefit. Thereafter, the Participant may not elect a different form of benefit (other than a Qualified Joint and Survivor Pension) or designate a different Beneficiary without the express consent or subsequent written consent of his Spouse as provided above.
 - (2) The Spouse's consent as set forth in clause (i), above, shall not be required if the Participant establishes to the satisfaction of the Trustees that:
 - A. he is not married, or
 - B. the Spouse whose consent would be required cannot be located, or
 - C. consent of the Spouse cannot be obtained because of extenuating circumstances, as provided in applicable regulations.
 - (3) A waiver of the Qualified Joint and Survivor Pension is valid only if a written explanation of its effect has been provided to the Participant no earlier than 90 days before the benefit commencement date and no later than 30 days before the benefit commencement date. The Participant may file a new waiver or revoke a previous waiver at any time and any number of times during the 90-day period ending on the benefit commencement date of the Pension. However, if the Participant, after receiving such written explanation, elects a form of distribution with his Spouse's written consent, the benefit commencement date may be less than 30 days after the written explanation was provided to the Participant if:

- A. the written explanation clearly indicates that the Participant and Spouse have a right to at least 30 days to consider whether to waive the Qualified Joint and Survivor Pension;
 - B. the Participant is permitted to revoke any election until the later of his benefit commencement date or the expiration of the seven-day period beginning the day after the written explanation in this subsection (iii) is provided to the Participant;
 - C. the benefit commencement date is after the date that the written explanation in this subsection (3) is provided to the Participant; and
 - D. pension payments to the Participant do not begin before expiration of the seven-day period beginning the day after the written explanation in this subsection (3) is provided to the Participant.
- (4) A Spouse's consent to a Waiver of the Qualified Joint and Survivor Pension shall be effective only with respect to that Spouse, and shall be irrevocable unless the Participant revokes the waiver to which it relates.

Section 4.3 Amount of Normal Retirement Pension

A Participant who meets the requirements for a Normal Retirement Pension and has at least 33-1/3 years of Benefit Service shall receive a monthly payment in accordance with the following schedule:

<u>Date of Retirement</u>	<u>Monthly Amount</u>
On or after September 1, 2002	\$2,125

If the Employee has less than 33-1/3 years of Benefit Service, the monthly amount of a Participant's Normal Pension will be equal to his Accrued Pension as defined in Section 2.2(a).

Section 4.4 Qualified Joint and Survivor Pension

Unless he specifically elects otherwise as provided in Section 4.2, the Normal Retirement Pension of a Participant with an Eligible Spouse shall be paid in the form of a Qualified Joint and Survivor Pension form of payment, in a reduced amount, in lieu of the monthly amount he would otherwise have received under the Single Life Pension form of payment as described in Section 4.2. A description of the Qualified Joint and Survivor Pension form of payment is contained in Article 6.

Section 4.5 Optional Forms of Pension

Unless he specifically elects otherwise as provided in Section 4.2 and 4.4, a Participant may elect to receive his Normal Retirement Pension in an optional form of payment, in lieu of the monthly amount he would otherwise have received under the Single Life Pension form of payment, as described in Section 4.2, or the Qualified Joint and Survivor Pension form of payment, as described in Sections 4.4 and Article 6. A description of the optional forms of payment available is contained in Article 7.

ARTICLE 5

DEFERRED VESTED PENSION

Section 5.1 Requirements for Deferred Vested Pension

- (a) An Employee who Retires and who is not entitled to a Normal Retirement Pension shall be eligible for a Deferred Vested Pension if his Retirement occurs after the completion of at least five years of Vesting Service.
- (b) Payment of the Deferred Vested Pension shall commence as of the Employee's Normal Retirement Date. However, an Employee with at least 15 years of Benefit Service may make written request for the commencement of his Deferred Vested Pension as of the first day of any month after attainment of age 55, and in such event, a reduced amount shall be payable in accordance with the provisions of Section 5.3.

Section 5.2 Single Life Form of Pension

Except as specified in Sections 5.5 and 5.6, payment of a Deferred Vested Pension shall be in the form of a Single Life Pension, as described in Section 4.2. Payments shall be deferred until the first day of the month coinciding with or next following the Employee's Normal Retirement Date. However, if the terminated Employee had at least 15 years of Benefit Service, he may elect that his benefit payments commence as of the first day of any month selected by the Employee between age 55 and his Normal Retirement Date, provided the Employee completed the application.

Section 5.3 Amount of Deferred Vested Pension

- (a) The amount of Deferred Vested Pension is the monthly amount of Accrued Pension earned at the time of Retirement.
- (b) If a Participant elects to receive his Deferred Vested Pension before his Normal Retirement Date, the amount of such Deferred Vested Pension will be reduced by 2/3 of 1% for each month of the first 60 months, and 1/3 of 1% for each additional month that the commencement date of the Participant's Pension precedes his Normal Retirement Date.
- (c) A Participant who meets the service requirement for early retirement upon termination of employment and who is entitled to receive a vested benefit, will commence to receive a benefit which is not less than the reduced normal retirement benefit upon satisfaction of the age requirement.

Section 5.4 Return to Covered Employment

- (a) A Participant who Retires and is entitled to a Deferred Vested Pension and who thereafter returns to Covered Employment before receiving such Deferred Vested Pension, and upon subsequent Retirement is not entitled to a Normal Retirement Benefit based on Benefit Service earned after such reemployment, shall have his original Deferred Vested Pension increased by virtue of such Benefit Service earned after such reemployment.
- (b) The amount of such increase shall be 3% of the Normal Retirement Pension then in effect at such subsequent Retirement for each year and fraction thereof of Benefit Service earned after such reemployment.

- (c) The maximum amount of increase shall not exceed that amount which when added to the original Deferred Vested Pension and any subsequent increases equals the amount of Normal Retirement Pension then in effect at such subsequent termination from Covered Employment.

Section 5.5 Qualified Joint and Survivor Pension

Unless he specifically elects otherwise as provided in Section 4.2, the Deferred Vested Pension of a Participant with an Eligible Spouse shall be paid in the form of a Qualified Joint and Survivor Pension form of payment, in a reduced amount, in lieu of the monthly amount he would otherwise have received under the Single Life Pension form of payment as described in Section 5.2. A description of the Qualified Joint and Survivor Pension form of payment is contained in Article 6.

Section 5.6 Optional Forms of Pension

Unless he specifically elects otherwise as provided in Section 4.2 and 5.5, a Participant may elect to receive his Deferred Vested Pension in an optional form of payment, in lieu of the monthly amount he would otherwise have received under the Single Life Pension form of payment, as described in Section 5.2, or the Qualified Joint and Survivor Pension form of payment, as described in Sections 5.5 and Article 6. A description of the optional forms of payment available is contained in Article 7.

ARTICLE 6

QUALIFIED JOINT AND SURVIVOR PENSION

Section 6.1 Duration of Monthly Payments

The Qualified Joint and Survivor Pension shall consist of monthly payments, on the first day of each month, as follows:

- (a) a Reduced Monthly Amount, as determined in Section 6.2, shall be paid to the Participant during his joint existence with his Eligible Spouse, and
- (b) the Eligible Spouse of a Participant living at the Participant's death shall be entitled to receive thereafter a lifetime survivorship benefit in a monthly amount equal to 50% of the Reduced Monthly Amount, as determined in Section 6.2, which was payable to the Participant immediately before his death; provided that the Eligible Spouse files with the Administrative Manager all necessary information, including satisfactory proof of age, marriage, the Participant's death, and a written application on a form prescribed by the Administrative Manager.

Section 6.2 Amount of Monthly Payments

The Reduced Monthly Amount of the Qualified Joint and Survivor Pension payable to the Participant during his joint existence with the Eligible Spouse shall be determined by multiplying (a) by (b), where (a) and (b) have the following meaning:

- (a) The monthly amount of the Normal or Deferred Vested Pension under the Single Life Pension form of payment as described in Section 4.2.
- (b) The factor, which is a function of the Eligible Spouse's relative near age, that is, nearest whole number of years between the birth dates of the Participant and his Eligible Spouse. The factors are illustrated in Appendix A.

ARTICLE 7

OPTIONAL FORMS OF PAYMENT

Section 7.1 Joint and Survivor Pension

Unless the Participant specifically elects otherwise, as provided in Section 4.2 or Article 6, a Participant who is eligible for a Normal or Deferred Vested Pension may, by filing a written application with the Administrative Manager on a form prescribed by the Administrative Manager elect to receive his pension in the form of a Joint and Survivor Pension, either as a 75% Joint and Survivor Pension or a 100% Joint and Survivor Pension. Under the 75% Joint and Survivor Pension, the Participant shall receive a reduced pension payable for his life, and 75% of such reduced pension shall, after the Participant's death, be continued to his Eligible Spouse for her lifetime. Under the 100% Joint and Survivor Pension, the Participant shall receive a reduced pension payable for his life, and 100% of such reduced pension shall, after the Participant's death, be continued to his Eligible Spouse for her lifetime. Such reduced pension shall be determined by applying the appropriate reduction factors in Appendix A.

A Participant may elect, change or revoke his Joint and Survivor Pension optional form of payment at any time prior to the date his pension commences. An option may not be elected, changed or revoked on or after the pension commencement date.

If a Participant elects a Joint and Survivor Pension optional form of payment and retires on or after his Normal Retirement Date, such option shall become effective on his pension commencement date. For a pension payable at the Participant's Normal Retirement Date, the Joint and Survivor Pension optional form of payment election under this Section shall be automatically canceled upon the death of the Participant or his Eligible Spouse prior to the pension commencement date.

Section 7.2 Level Income Pension

Unless the Participant specifically elects otherwise as provided in Section 4.2 or Article 6, a Participant who is eligible for a Pension which commences prior to the earliest age as of which the Participant may become eligible for an Old-Age Insurance Benefit under the Social Security Act, the Participant may, by filing a written application with the Administrative Manager on a form prescribed by the Administrative Manager elect to receive his pension in the form of a Level Income Pension. Under this optional form of payment, the Participant shall receive an increased pension until he attains such age, and a reduced amount thereafter, so that he will receive, from this Plan and under the Social Security Act, an aggregate income in an approximately level amount for life. Such adjusted pension payments shall be Actuarial Equivalent of the Single Life Pension otherwise payable to the Participant.

A Participant may elect, change or revoke his Level Income Pension optional form of payment at any date prior to the date his pension commences. An option may not be elected, changed or revoked on or after the pension commencement date.

Effective August 28, 2010, and for as long as the Plan is certified as critical status under the Pension Protection Act of 2006, a Participant shall no longer be eligible to elect to receive a Level Income Pension under this Section.

ARTICLE 8

PRE-RETIREMENT DEATH BENEFIT AND PENSION SURVIVOR BENEFIT

Section 8.1 Requirements for Pre-Retirement Death Benefit

- (a) If a vested Participant dies while a Participant in this Plan after he had met both the age and service requirements for a Normal Retirement Pension, but before he had actually Retired or commenced to receive benefits, his Eligible Spouse may elect to receive monthly payments commencing on the first day of the month coincident with or next following his death.

If a vested Participant dies while a Participant in this Plan and after he had at least 15 years of Benefit Service, his Eligible Spouse may elect to receive monthly payments commencing on the later of the first day of the month coinciding with or next following his death, or his 55th birthday.

If a vested Participant dies while a Participant in this Plan and he did not have at least 15 years of Benefit Service, his Eligible spouse may elect to receive monthly payments commencing on the later of the first day of the month coinciding with or next following his death, or his 65th birthday.

- (b) When payments under a qualified pre-retirement survivor annuity begin later than earliest retirement age, the Plan will make reasonable actuarial adjustments to reflect delayed commencement of benefits.

The last monthly payment payable to the Eligible Spouse shall be made for the month in which the Eligible Spouse dies.

Section 8.2 Amount of Pre-Retirement Death Benefit

The amount of each monthly payment shall be equal to 50% of the monthly benefit to which the vested Participant would have been entitled if he had retired on the date preceding his death or his earliest pension commencement date, whichever is later, and elected a Qualified Joint and Survivor Pension as described in Article 6.

ARTICLE 9

APPLICATION CLAIM REVIEW PROCEDURE, LUMP SUM PAYMENT

Section 9.1 Benefit Payments Generally

A Participant who is eligible to receive benefits under this Plan and makes application in accordance with the rules of this pension Plan shall be entitled upon retirement to receive the monthly benefits provided for the remainder of his life, subject to the provisions of this Plan.

Section 9.2 Application and Election of Benefits

- (a) Payment of benefits may begin sooner but shall begin no later than 60 days after the latest of the following dates:
 - (1) the end of the Calendar Year in which the Participant attained Normal Retirement Age;
 - (2) the date the Participant filed an application for benefits as required by Section 9.1 and 9.2; or
 - (3) the end of the Calendar Year in which the Participant terminated Covered Employment.
- (b) A Participant may elect in writing filed with the Administrative Manager to receive benefits first payable for a later month provided that no such election shall postpone commencement of benefits beyond the Required Beginning Date.

With respect to a Participant who attained age 72 on or after January 1, 2023, a Participant's "Required Beginning Date" shall mean the April 1 of the Calendar Year following the Calendar Year in which the Participant attained age 73.

- (c) If a Participant who is definitely located fails to file a completed application for benefits on a timely basis, the Participant's benefit payments will commence on the Required Beginning Date, as follows:
 - (1) If the actuarial present value of the Participant's benefit is \$7,000 or less, in a lump sum.
 - (2) In any other case, in the form of a Qualified Joint and Survivor Pension calculated on the assumption that the Participant is and has been married for at least one year prior to the date payments commence and that the husband is three years older than the wife.
 - (3) The Qualified Joint and Survivor Pension payment form shall be irrevocable once payment commences with the exceptions that it may be changed later to a single-life annuity if:
 - (A) the Participant proves that he did not have an Eligible Spouse on the Computation Date, and

- (B) the amount of future benefit payments will be adjusted based on the actual ages of the Participant and Eligible Spouse if proven to be different from the assumption.
- (4) Federal, state and local income tax, and any other applicable taxes, shall be withheld from the benefit payments as required by law or determined by the Administrative Manager to be appropriate.
- (d) Benefit payments that are not paid to, or claimed by, a Participant or Eligible Spouse in accordance with the schedule established as of the Required Beginning Date will be forfeited, subject to reinstatement if the Participant or Eligible Spouse demonstrates his or her entitlement to the funds.
- (e) A monthly pension shall last be payable for the month in which the death of the Pensioner occurs except as provided in accordance with a survivor's benefit or any other provision of this Plan providing for payments after the death of the Pensioner.
- (f) Payment of benefits shall include retroactive payments for any months for which a pension is due and payable. Retroactive benefit payments for a Participant whose application is filed after his Normal Retirement Age shall not be due and payable for any month prior to the latest of:
 - (1) the date the Participant reached his Normal Retirement Age; or
 - (2) January 1, 1976.

If a Participant who is eligible to receive benefits under this Plan makes application effective for a date prior to the date he received the written explanation of the Qualified Joint and Survivor Pension (the "QJSA Notice") within the time prescribed by ERISA, he may receive benefit payments retroactive to his annuity starting date (a "Retroactive Annuity Starting Date"). A Retroactive Annuity Starting Date must be affirmatively elected by a Participant and the Participant's Spouse, if applicable, must consent to the election. The retroactive payment of benefits to the Participant's annuity starting date also applies in the case where the Participant continues Covered Employment with the Employer after attainment of his Normal Retirement Age.

If a Participant elects (with the applicable spousal consent) to receive benefits based upon a Retroactive Annuity Starting Date, the Participant shall receive the same future periodic payments that would have been paid had the payments actually commenced on the Retroactive Annuity Starting Date. The Participant shall also be paid a make-up payment to reflect any missed payment(s) for the period from the Retroactive Annuity Starting Date to the date benefit distributions commence, along with an appropriate adjustment for interest based on an annual interest rate of 4% compounded monthly.

If a Participant does not affirmatively elect a Retroactive Annuity Starting Date or does not receive spousal consent (if applicable), the Participant shall receive an actuarially increased benefit from the Retroactive Annuity Starting Date to the date benefit distributions commence and will not receive a retroactive payment of benefits or an appropriate adjustment for interest. The monthly benefit will be the Participant's Accrued Pension actuarially increased for each complete calendar month between the Retroactive Annuity Starting Date and the date Pension payments commence.

If a Participant first becomes entitled to additional benefits after Normal Retirement Age, whether through additional service or because of a benefit increase, the actuarial increase for those benefits will be based on the date they would first have been paid rather than the

Normal Retirement Age.

For purposes of this Section 9.2(f), the actuarial increase will be 1% per month for the first 60 months after Normal Retirement Age and 1.5% per month for each month thereafter.

A Retroactive Annuity Starting Date shall not apply where, due solely to an administrative delay, a distribution is payable within 90 days, provided the Participant received a timely QJSA Notice.

Section 9.3 Pension Benefits for Participants who Attain Their Required Beginning Date

- (a) Participants who continue to work in Covered Employment after their Required Beginning Date and who are to receive their Pension will have the amount of their Pension calculated on the December 31 following their Required Beginning Date based on their total Benefit Service, attained age, and the provisions of the Plan in effect on such date. The Participant must file an application and elect the form of payment. Such Pension amount will become payable on the following April 1. If the amount of Pension is adjusted for the form of payment, any adjustment will be based on the appropriate age and factors in effect on such April 1.
- (b) Participants who continue to work in Covered Employment and are in receipt of a Pension as provided in 9.3, will have the amount of their Pension recalculated each December 31, based on their total Benefit Service, attained age, and the provisions of the Plan in effect on such date. Such Pension amount will become payable on the following April 1. The new Pension amount will be paid in the same manner and form as the most recent application and election forms.
- (c) Those Participants who retire while in receipt of a Pension as provided in 9.3 will have the amount of their Pension recalculated as of the date of termination from Covered Employment based on their total Benefit Service, attained age, and the provisions of the Plan in effect on such date. Such Pension amount will become payable on the first day of the month following the date of termination from Covered Employment. The new Pension amount will be paid in the same manner and form as the most recent application and election forms.
- (d) Participants who are in receipt of a Pension as provided in 9.3, will be considered a retired Participant with respect to any benefit increases granted to retired Participants.
- (e) If a Participant, who is in receipt of a Pension as provided in 9.3, dies in Covered Employment, his Beneficiaries, if any, will be paid any benefits due in accordance with the most recent election form filed with the Trustees, and any additional Accrued Pension earned after the last recalculation of his Pension, will be paid in accordance with the provisions of the Plan as they apply to an active Participant who dies in Covered Employment.

Section 9.4 Lump Sum Payment

For distributions made on or after January 1, 2024, if the present value Actuarial Equivalent of any nonforfeitable Accrued Benefit payable to an Eligible Spouse hereunder is \$7,000 or less, such Actuarial Equivalent of the monthly benefit otherwise payable shall be paid in a single sum payment. If the present value Actuarial Equivalent of such benefit is greater than \$1,000 but less than \$7,000, then the Eligible Spouse must be given an election to receive such payment.

In the case of a Participant, for distributions made on or after January 1, 2024, if the present value Actuarial Equivalent of the Participant's Accrued Benefit payable is \$7,000 or less, such Actuarial Equivalent of the monthly benefit otherwise payable shall be paid in a single sum payment. If the present value Actuarial Equivalent of such benefit is greater than \$1,000 but less than \$7,000, then the Participant must be given an election to receive such payment.

Should a Participant who receives a benefit under this section be reemployed by an Employer, any retirement benefits payable after reemployment shall be reduced by the Actuarial Equivalent of the benefits the Participant received under this Section 9.4.

The lump sum payment shall be made as soon as administratively practicable following the Participant's death or other termination of employment. In the event a Participant is not entitled to any pension upon his termination of Covered Employment, he shall be deemed cashed-out under the provisions of this Section 9.4 as of the date of his termination of Covered Employment and his Accrued Benefit, Vesting Service, and Benefit Service will be immediately forfeited. Anyone who received a deemed cash-out under the previous sentence who is later rehired will have his Accrued Benefit, Vesting Service, and Benefit Service restored at that time unless they would remain forfeited under other provisions of this Plan.

Section 9.5 Direct Rollover

- (a) Notwithstanding any provision of the Plan to the contrary that would otherwise limit a distributee's election under this Section 9.5, a distributee may elect, at the time and in the manner prescribed by the Administrative Manager, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.
- (b) For purposes of this Section 9.5 the following definitions shall apply:
 - (1) An eligible rollover distribution is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated Beneficiary, or for a specified period of ten years or more; any distribution to the extent such distribution is required under Code Section 401(a)(9); and the portion of any distribution that is not includible in gross income (determined without regard to the exclusion for net unrealized appreciation with respect to employer securities).
 - (2) An eligible retirement plan is an individual retirement account described in Code Section 408(a), an individual retirement annuity described in Code Section 408(b), a Roth IRA described in Code Section 408A(b), an annuity plan described in Code Section 403(a), or a qualified trust described in Code Section 401(a), an annuity contract described in Code Section 403(b) and an eligible plan under Code Section 457(b), which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state, and which agrees to separately account for amounts transferred into such plan from this Plan. The definition of eligible retirement plan also shall apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relations order as defined in Code Section 414(p). However, in the case of an eligible rollover distribution to the surviving Spouse, an eligible retirement plan is an individual retirement account or individual retirement annuity.

- (3) A distributee includes an Employee or former Employee. In addition, the Employee's or former Employee's Eligible Spouse and the Employee's or former Employee's spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Code Section 414(p), are distributees with regard to the interest of the spouse or former spouse.

A distributee also includes a non-spouse designated Beneficiary who is allowed to directly roll over any portion of a plan distribution to an inherited IRA.

- (4) A direct rollover is a payment by the Plan to the eligible retirement plan specified by the distributee.

Section 9.6 Claim and appeal Procedure

The Plan's procedures for processing claims and appeals comply with applicable Department of Labor regulations and are set forth in the Plan's Summary Plan Description.

Section 9.7 Reserved

Section 9.8 Special Lump Sum Option

A Pensioner or a former Employee who is eligible for a Pension under this Plan will have a one-time election to receive a lump sum payment in lieu of any future payments, provided the Actuarial Equivalent value of his benefit or remaining benefit is \$12,000 or less as of January 31, 2005. The election must be made on a form designated by the Plan and the properly completed form must be returned to the Plan. If the Pensioner or former Employee is married, then the Eligible Spouse must consent in writing to the lump sum payment.

Any Employee who terminates employment and who is eligible for a Pension will have a one-time election to elect to receive an immediate lump sum payment within a reasonable time after termination of employment, provided the Actuarial Equivalent value of his Accrued Benefit is \$12,000 or less. If such Employee is married, then the Eligible Spouse must consent in writing to the lump sum payment.

Effective August 28, 2010, and for as long as the Plan is certified as critical status under the Pension Protection Act of 2006, a Participant shall no longer be eligible to elect to receive a lump sum payment under this Section.

ARTICLE 10

LIMITATIONS

Notwithstanding any other provision of this Plan, the annual retirement benefit to which a Participant shall be entitled hereunder shall not exceed the maximum amount permitted under Section 415 of the Code, the provisions of which are expressly incorporated herein by reference.

For purposes of determining 415(b) limits under the Plan, "Compensation" shall mean the Employee's earned income, wages, salaries, and fees for professional services, and other amounts received for personal services actually rendered in the course of employment with the Employer. Compensation shall include amounts paid after the employee's severance from employment, provided the compensation is paid by the later of 2 ½ months after severance from employment or the end of the limitation year that includes the date of severance from employment. For all Plan purposes, the limitation year shall be the Plan Year. Compensation shall also include regular compensation for services during the employee's regular working hours, or compensation for services outside the employee's regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments, and payment would have been made to the employee prior to a severance from employment if the employee had continued in employment with the Employer. Compensation shall exclude the following:

- (a) Employer contributions to a plan of deferred compensation which are not included in the Employee's gross income for the taxable year in which contributed or Employer contributions under a simplified employed pension plan to the extent such contributions are deductible by the Employee, or any distributions from a plan of deferred compensation;
- (b) Amounts realized from the exercise of a nonqualified stock option, or when restricted stock (or property) held by the Employer either becomes freely transferable or is no longer subject to a substantial risk of forfeiture;
- (c) Amounts realized from the sale, exchange or other disposition of stock acquired under a qualified stock option plan; and
- (d) Other amounts which received special tax benefits, or contributions made by the Employer (whether or not under a salary reduction agreement) towards the purchase of an annuity described in Section 403(b) of the Code (whether or not the amounts are actually excludable from the gross income of the Employee).

In the event that any pension benefit payable under this Plan is reduced as a result of application of the preceding paragraph, such benefit shall be increased as of the first day of each Calendar Year, to the extent permitted under the cost-of-living adjustment provisions of Section 415(d) of the Code, the provisions of which are expressly incorporated herein by reference, provided, however, that no benefit shall be increased beyond the amount that would be payable in the absence of this Article 10.

ARTICLE 11

AMENDMENT AND TERMINATION OF PLAN

- (a) It is the intent that this Plan shall be continued indefinitely and every effort has been made to arrange this Plan so that it shall meet future conditions. However, the right to change, amend, or terminate this plan is necessarily reserved by the Trustees. The Trustees by majority vote of those present and voting at a meeting where a quorum is present may amend this Plan, which amendment shall be reduced to writing and may be effective prospectively or retroactively. All amendments are subject to the limitations of the Trust Agreement and to applicable law and administrative regulations.

No change or amendment shall:

- (1) reduce any Participant's or Beneficiary's interest in the Trust Fund which is then vested by the terms of this Plan, or
 - (2) divert any portion of the Trust Fund to any purpose other than for the exclusive benefit of Participants and Beneficiaries under this Plan at any time prior to the satisfaction of all fixed and contingent obligations under this Plan with respect to Participants and Beneficiaries under this Plan.
- (b) No benefits shall accrue after the complete or partial termination of this Plan or complete discontinuance of contributions under this Plan, and the rights of all Participants to benefits accrued to the date of such termination or discontinuance, to the extent then funded, are nonforfeitable.

In the event of termination of the Plan, no benefits will be payable from the Plan to the extent they do not constitute "accrued benefits" within the meaning of Code Section 411(a)(7) or benefits protected under Code Section 411(d)(6).

In the event of the termination of the Plan, the provisions of section 4041A of ERISA shall apply.

No merger or consolidation with, or transfer of assets and liabilities to, any other qualified plan shall occur unless each participant in the successor plan shall, if such successor plan is immediately terminated, receive a benefit at least equal to the benefit he would have received under this Plan, if it had been terminated immediately prior to the merger, consolidation or transfer.

- (c) Rehabilitation Plan. In compliance with the Pension Protection Act of 2006, the Board of Trustees adopted a rehabilitation plan (which is Appendix B of this Plan) on September 20, 2010, effective January 2, 2011. Benefits, and rights to benefits, described in this Plan may be reduced, eliminated and otherwise adjusted at any time to the extent provided in Appendix B of this Plan, as initially adopted and as may be amended at any time, and any such reduction, elimination and other adjustment will be retroactively and prospectively applicable and effective to the extent provided in Appendix B.

ARTICLE 12

GENERAL PROVISIONS

Section 12.1 Administration of This Plan

- (a) The Trustees may establish reasonable rules and regulations for the administration of this Plan and such rules and regulations shall be binding on all Participants and former Participants.
- (b) The Administrative Manager (subject to appeal to the Trustees) and the Trustees, in their sole and absolute discretion, shall have the sole right to reconcile, determine, interpret, and construe any question or dispute arising in connection with definitions of terms, rights, status or classification of Participants, or any other dispute arising under this Plan. Such reconciliation, determination, interpretation or construction shall be final and conclusive.
- (c) No person other than the Trustees shall have any right, title or interest in or to any of the income or property of any character received or held by or for the account of the Pension Fund, and no person shall have any vested right to the benefits provided by the Pension Fund except as specifically provided in this Plan.
- (d) Only the Administrative Manager (subject to appeal to the Trustees) and the Trustees have the authority to determine eligibility for benefits and the right to participate in the Pension Fund, and to exercise all the other powers specified in this Plan. No officer, agent or employee of the union, or Employer, or any other person, is authorized to speak for, or on behalf of, or to commit the Administrative Manager or Trustees, on any matter relating to the Pension Fund or this Plan.
- (e) The Trustees shall act as a fiduciary with respect to this Plan and shall have exclusive control over and management of the assets of the Pension Fund.

Section 12.2 Reliance on Records

The Administrative Manager and Trustees shall be entitled to rely upon any facts appearing in the records of the Pension Fund, the Union and the Employer; upon all tables, annual valuations, certificates and reports furnished by any actuary selected or approved by the Trustees; upon all certificates and reports made by any accountant selected or approved by the Trustees; and upon all opinions and decisions of legal counsel selected or approved by the Trustees.

Section 12.3 Facility of Payment

If any Participant entitled to benefits under this Plan is, in the opinion of the Trustees, legally, physically or mentally incapable of personally receiving and receipting for any payment pursuant to this Plan, the Trustees may direct payment thereof to such other person, persons, or institution who, in the opinion of the Trustees, is then maintaining or has custody of such Participant entitled to benefits unless or until claim is made by a duly appointed guardian or other legal representative of such Participant entitled to benefits. Such payments shall constitute a full discharge of the liability of the Pension Fund with respect to the amount so paid.

Section 12.4 Non-Transferability

Benefits payable under this Plan shall not be subject in any manner to anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, charge, garnishment, execution, or levy of any kind, either

voluntary or involuntary, including any such liability which is for alimony or other payments for the support of a spouse or former spouse, or for the support of any other relative of a Participant, prior to actually being received by the person entitled to the benefit under the terms of this Plan, and any attempt to anticipate, alienate, sell, transfer, assign, pledge, encumber, charge, or otherwise dispose of any right to benefits payable hereunder, shall be void except to the extent required by any "qualified domestic relations order" defined by Section 206(d)(3) of ERISA. The Pension Fund shall not in any manner be liable for, or subject to, the debts, contracts, liabilities, engagements or torts of any person entitled to benefits hereunder including attorneys' fees.

Section 12.5 Employer Contributions

- (a) No contribution shall be required or permitted under the Plan from any Participant. The Employer has agreed to make contributions to the Fund. Such contributions having been made, the Employer shall have no further right, title or interest therein. Any gains which would normally arise as a result of any excess mortality or excess turnover have been anticipated in determining the costs of the Plan, and therefore, shall not be used to increase the benefits of any Participant hereunder. The provisions of this section are not intended to avoid or modify any consequences which may arise under the Code or other applicable laws because of the Employer's failure to make a contribution or contributions.
- (b) Reversion of contributions to an Employer are allowed only if one or more of the following occurs:
 - (1) The contribution is conditioned upon the initial qualification of the plan, a timely determination letter request is filed, and the Plan receives an adverse determination; or
 - (2) the reversion is due to a good faith mistake of fact, or
 - (3) the contribution is conditioned on its deductibility under Section 404 of the Code and such deduction is not permitted.

Section 12.6 Invalidity of any Provision

If any provision of this Plan or the application thereof to any person or circumstance shall be adjudged invalid, then the remainder of this Plan and the application to persons and circumstances other than those to which it is held invalid shall not be affected thereby. The Trustees may suspend the operation of any provision adjudged invalid or inoperative during the period of its invalidity and substitute in its place a provision which will meet the objections to such invalidity and which will accord with the intent and purpose of the invalidated provision if that can be done legally.

Section 12.7 Election of Pensions

If a Participant fulfills the eligibility requirements for more than one type of Pension under this Plan, he shall be entitled to elect the type of Pension he is to receive, but in no event shall he be eligible to receive more than one type of Pension or more than one Pension from this Pension Fund.

Section 12.8 Non-Forfeitability of Benefits

Subject only to the specific provisions of this Plan, nothing herein shall be deemed to divest a Participant during his lifetime of his right to the nonforfeitable benefit to which he becomes entitled in accordance with the provision of this Plan.

Section 12.9 Rounding of Pension Amount

Any Pension payments, if not already a whole dollar amount, shall be rounded to the next higher whole dollar amount.

Section 12.10 Special Financial Assistance (SFA) Administration

Beginning with the SFA measurement date selected by the Plan in the Plan's application for SFA, notwithstanding anything to the contrary in the Plan or any other document governing the Plan, the Plan shall be administered in accordance with the restrictions and conditions specified in section 4262 of ERISA and 29 CFR part 4262. This Section 12.10 is contingent upon approval by PBGC of the Plan's application for SFA.

Section 12.11 Reemployment in Industry Employment

- (a) Each Pensioner must notify the Administrative Manager if he returns to work in Industry Employment before his Normal Retirement Date. Upon appropriate investigation and notice to the Participant, retirement pension payments shall be suspended for all periods of reemployment in Industry Employment. Payments shall not begin again until the Participant stops working and applies for the resumption of his retirement pension.
- (b) Each Pensioner must notify the Administrative Manager if he returns to work in Industry Employment on or after his Normal Retirement Date. Upon appropriate investigation and notice to the Participant, retirement pension payments shall be suspended for all periods of reemployment if the Participant returns to work at least 40 hours per month within the geographical area covered by the Pension Plan in a trade or a craft for which Benefit Service could be earned or if he starts working in Covered Employment. Payment shall not begin again until the Participant stops working and applies for resumption of his retirement pension.
- (c) Each Disabled Participant must notify the Administrative Manager if he becomes employed in any capacity before his Normal Retirement Date. Upon appropriate investigation and notice to the Disabled Participant, Disability Benefits shall be suspended for all periods of his reemployment. Payments shall not begin again until the Disabled Participant stops working and submits proof satisfactory to the Board of Trustees that he is disabled.
- (d) A Pensioner who fails to notify the Administrative Manager that he has returned to work in Industry Employment shall be obligated to reimburse the Fund for all retirement pension payments made to him during any month, or part of a month in which he was reemployed.
- (e) A Disabled Participant who fails to notify the Administrative Manager that he has returned to work shall be obligated to reimburse the Fund for all monthly Disability Benefit payments made to him during any month, or part of a month in which he was reemployed.

ARTICLE 13

NEW AND TERMINATED EMPLOYERS

Section 13.1 Employer Sold

If an Employer is sold, merged, or otherwise undergoes a change of company identity, the successor company shall participate as to the Employees theretofore covered in the Pension Plan just as if it were the original company.

Section 13.2 New Employers

No new Employer may be admitted to participation in the Pension Fund and this Plan except upon approval by the Trustees. The participation of any such new Employer shall be subject to such terms and conditions as the Trustees may lawfully prescribe including, but not limited to, the imposition of waiting periods in connection with the commencement of benefits, a requirement for retroactive contributions, or the application of modified benefit conditions and amounts. In adopting applicable terms or conditions, the Trustees shall take into account such requirements as they, in their sole discretion, may deem necessary to preserve the actuarial soundness of the Pension Fund and to preserve an equitable relationship with the contributions required from other participating Employers and the benefits provided to their Employees.

Section 13.3 Employer Terminates Participation

If an Employer terminates its participation in the Fund with respect to a bargaining unit, the Trustees are empowered to reduce or cancel that part of any Pension for which a person was made eligible because of employment in such bargaining unit prior to the date contributions were first required to be made with respect to that unit.

ARTICLE 14

RELATED EMPLOYMENT UNDER RECIPROCAL AGREEMENTS

Section 14.1 Application

This Article shall be applicable only to Employees covered by this Plan and any other pension plan, hereinafter called a "Reciprocal Plan," of a pension fund which is or shall become a party to the Joint Council No. 25 Reciprocal Agreement for Teamsters Pension Fund (hereinafter referred to here as the "Reciprocal Agreement") or separate agreement with this Fund and shall be applicable only to Participants who become entitled to benefits under the terms hereof on or after May 1, 1997, and prior to the termination of this Fund's participation in the Reciprocal Agreement. Notwithstanding any other terms of this Plan to the contrary (including provisions relating to Vesting Service and entitlement to benefits), a Participant whose Pension would otherwise commence after the date on which this Plan Participation in the Reciprocal Agreement terminates (had such termination not occurred), shall not be eligible for or entitled to any benefits from this Plan. This Article shall apply only to Participants who earn at least one-half Year of Benefit Service from this Plan after the Effective Date defined in Section 14.12.

Section 14.2 Purpose

Reciprocal Pensions are provided under this Plan for Participants who would otherwise lack sufficient Benefit Service to be eligible for any Pension under this Plan, because their years of employment were divided between or apportioned among different Reciprocal Plans, or, if eligible, whose Pensions would be less than the full amount because of such division or apportionment of employment.

Section 14.3 Reciprocal Plans

By resolution duly adopted, the Trustees recognized one or more other pension plans, which have executed a Reciprocal Agreement to which this Plan is a party, as a Reciprocal Plan.

Section 14.4 Reciprocal Service Credits

Benefit Service accumulated and maintained by a Participant under a Reciprocal Plan shall be recognized under this Plan as Reciprocal Service Credits. The Trustees shall accept Reciprocal Service Credits on the basis on which the credit has been earned and credited under the Reciprocal Plan, including its own provisions governing Breaks in Service, and certified by the Reciprocal Plan to this Plan.

Section 14.5 Joint Service Credit

The total of a Participant's Benefit Service under this Plan and his Reciprocal Service Credit shall comprise the Participant's Joint Service Credit. Not more than one year of Joint Service Credit shall be counted in any calendar year, provided, however, that if an Employee earns more than one year of Joint Service Credit in one calendar year, the liability of each Reciprocal Plan shall be pro-rated in the same proportion that the Reciprocal Service Credit earned from each Reciprocal Plan in that calendar year. Joint Service Credit shall be limited only to the combined Benefit Service earned under this Plan and any Reciprocal Plan under which he qualifies (based upon limited combined Benefit Service) for a Reciprocal Pension.

Section 14.6 Eligibility

A Participant shall be eligible for a Reciprocal Pension under this Plan if he satisfies the following requirements:

- (a) He would be eligible for any type of pension (other than a Deferred Vested Pension and a Reciprocal Pension) under both this Plan and one or more Reciprocal Plans if his Joint Service Credit were treated as Benefit Service under each such plan; and
- (b) A pension is not payable to him from this Plan or a Reciprocal Plan independently of its provisions for a Reciprocal Pension (or, if this Plan or a Reciprocal Plan is or becomes a party to any other reciprocal agreement and pursuant thereto adopts a Partial Pension Article which recognizes a Related Plan, a pension or Partial pension is not payable to him from such Related Plan). However, a Participant who meets the requirements of subsection (a) above may elect to waive the other pension or Partial Pension and thereby qualify for a Reciprocal Pension.

Section 14.7 Non-Duplication of Benefit Service

Notwithstanding any provision herein to the contrary, if this Plan or a Reciprocal Plan is or becomes a party to any other reciprocal agreement and pursuant thereto adopts a Partial Pension Article which recognizes a Related Plan, no employment which was recognized as Combined Service Credit thereunder shall also be recognized as Joint Service Credit.

Section 14.8 Breaks in Service

In applying the rules of this Plan with respect to cancellation of Benefit Service, any period in which a Participant has earned Reciprocal Service Credit shall be considered as Related Employment.

Section 14.9 Election of Pensions

If a Participant fulfills the eligibility requirements for more than one type of Pension under this Plan, he shall be entitled to elect the type of Pension he is to receive, but in no event shall he be eligible to receive more than one type of Pension from this Fund.

Section 14.10 Reciprocal of Pension Amount

The amount of the Reciprocal Pension shall be determined as follows:

- (a) The amount of the Pension to which the Participant would be entitled under this Plan in effect on the date he last worked in Covered Employment, taking into account his Joint Service Credit, shall be determined, then
- (b) The amount of Benefit Service earned with this Plan since January 1, 1955, shall be divided by the total amount of Joint Service Credit earned by the Participant since January 1, 1955, then
- (c) The fraction so determined in (b) shall be multiplied by the pension amount determined in (a) and the result shall be the Reciprocal Pension amount payable by this Plan.

With respect to a Participant whose Joint Service Credit is exclusively service under this Plan and service under the Teamsters Union No. 142 Pension Fund, the amount of the Pension determined in Section 14.10(a) shall be based on the Plan in effect when the Participant retires.

Section 14.11 Payment of Reciprocal Pensions

The payment of a Reciprocal Pension shall be subject to all of the conditions contained in this Plan applicable to other types of Pensions and which shall be uniformly and non-discriminatorily applied, including,

but not limited to, provisions relating to application and related forms and retirement as herein defined. The Qualified Joint and Survivor Pension provisions of Article 6 shall be applicable to a Reciprocal Pension.

Section 14.12 Effective Date

Payment of Reciprocal Pensions under this Plan became effective on January 1, 1971.

Section 14.13 Treatment of suspended or withdrawn employers

If the Trustees determine that an Employer has either: a) withdrawn from the Plan, or b) has suspended participation in the Plan or has been suspended from participation by the Trustees, then any service accumulated and maintained by a Participant under a Reciprocal Plan shall not be recognized as Reciprocal Service Credits under Section 14.4.

If the Trustees determine that an Employer has either: a) withdrawn from the Plan and has not fully paid its assessed employer withdrawal liability, or b) suspended participation in the Plan or has been suspended from participation by the Trustees, then a Participant shall not be eligible for a Reciprocal Pension under Section 14.6 if any service accumulated and maintained by a Participant is with such Employer under the Plan or a Reciprocal Plan.

ARTICLE 15

RULES FOR TOP-HEAVY PLANS

Section 15.1 Definitions

- a) Key Employee. Means any Employee or former Employee (including any deceased Employee) who at any time during the Plan Year that includes the determination date was an officer of the Employer having annual compensation greater than \$220,000 (as adjusted under Code Section 416(i)(1) for Plan Years beginning after December 31, 2002), a 5-percent owner of the Employer, or a 1-percent owner of the Employer having annual compensation of more than \$150,000. For this purpose, annual compensation means compensation within the meaning of Code Section 415(c)(3). The determination of who is a key employee will be made in accordance with Code Section 416(i)(1) and the applicable regulations and other guidance of general applicability issued thereunder.

The following shall apply for purposes of determining the present values of accrued benefits and the amounts of account balances of Employees as of the determination date:

- (1) Distributions During Year Ending on the Determination Date. The present values of accrued benefits and the amounts of account balances of an Employee of the determination date shall be increased by the distributions made with respect to the Employee under the Plan and any plan aggregated with the Plan under Code Section 416(g)(2) during the one-year period ending on the determination date. The preceding sentence also shall apply to distributions under a terminated plan which, had it not been terminated, would have been aggregated with the Plan under Code Section 416(g)(2)(A)(i). In the case of a distribution made for a reason other than severance from service, death, or disability, this provision shall be applied by substituting "five-year period" for "one-year period."
- (2) Employees not Performing Services During Year Ending on the Determination Date. The accrued benefits and accounts of any individual who has not performed services for the Employer during the one-year period ending on the determination date shall not be taken into account.

For purposes of satisfying the minimum benefit requirements of Code Section 416(c)(1) and in determining years of service with the Employer, any service with the Employer shall be disregarded to the extent that such service occurs during a Plan Year when the Plan benefits (within the meaning of Code Section 410(b)) no key employee or former key employee.

- (b) Top-heavy Plan: Means this Plan for any Plan Year beginning after December 31, 1983, if any of the following conditions exist: (1) the Top-heavy Ratio for this Plan exceeds 60% and this Plan is not part of any Required Aggregation Group or Permissive Aggregation Group of plans, or (ii) this Plan is a part of a Required Aggregation Group of plans (but which is not part of a Permissive Aggregation Group) and the Top-heavy Ratio for the group of plans exceeds 60%, or (iii) this Plan is a part of a Required Aggregation Group of plans and part of a Permissive Aggregation Group and the Top-heavy Ratio for the Permissive Aggregation Group exceeds 60%.
- (c) Top-heavy Ratio: Means:
- (i) If the employer maintains one or more defined benefit plans and the employer has never maintained any defined contribution plans (including any Simplified Employee Pension Plan) which during the five-year period ending on the Determination Date have covered or could cover a Participant in this Plan, the Top-heavy Ratio is a fraction, the numerator of which is the sum of the present values of Accrued Pensions of all Key Employees as of the Determination Date (including any part of any Accrued Pensions distributed in the five-year period ending on the Determination Date), and the denominator of which is the sum of the present value of all Accrued Pensions (including any part of any Accrued Pension distributed in the five-year period ending on the Determination Date) of all Participants as of the Determination Date, determined pursuant to Section 416 of the Code and the regulations thereunder.
 - (ii) If the Employer maintains one or more defined benefit plans and the Employer maintains or has maintained one or more defined contribution plans (including any Simplified Employee Pension Plan) which during the five-year period ending on the Determination Date have covered or could cover a Participant in this Plan, the Top-heavy Ratio is a fraction, the numerator of which is the sum of the present value of Accrued Pensions under the defined benefit plans for all Key Employees and the sum of account balances under the defined contribution plans for all Key Employees and the denominator of which is the sum of the present value of Accrued Pensions under the defined benefit plans for all participants and the sum of the account balances under the defined contribution plans for all participants, all determined pursuant to Section 416 of the Code and the regulations thereunder. The present value of Accrued Pensions and the account balances in both the numerator and denominator of the Top-heavy Ratio are adjusted for any distribution of an account balance or Accrued Pension made in the five-year period ending on the Determination Date.
 - (iii) For purposes of (i) and (ii) above, the value of account balances and the present value of Accrued Pensions will be determined as of the most recent Valuation Date that falls within or ends with the 12-month period ending on the Determination Date. The account balances and Accrued Pension of a participant who is not a Key Employee but who was a Key Employee in a prior year will be disregarded. For Plan Years beginning after December 31, 1984, the Accrued Pension and account balance for any individual who has not received Compensation from any employer maintaining the Plan (other than plan benefits) during the five-year period ending on the Determination Date will not be taken into account. The calculation of the Top-heavy Ratio, and the extent to which distributions, rollovers, and transfers are taken into account, will be made in accordance with Code Section 416 and the regulations thereunder, and on a uniform, consistent, and nondiscriminatory basis.

Section 15.2 Minimum Accrued Pension

- (a) Notwithstanding any other provision in this Plan except (b) and (c) below, for any Plan Year in which this Plan is top-heavy, each Participant who has one year of Benefit Service will accrue a benefit of not less than 2% of his Top-heavy Average Compensation. The minimum accrual is determined without regard to any Social Security benefits. The minimum accrual applies even though under other Plan provisions the Participant would not otherwise be entitled to receive an accrual, or would have received a lesser accrual for the year because (i) the employer fails to make mandatory contributions to the Plan, (ii) the employee's Compensation is less than a stated amount, (iii) the employee is not employed on the last day of the accrual computation period, or (iv) the Plan is integral with Social Security.
- (b) No additional benefit accruals will be provided pursuant to (a) above to the extent that the total accruals on behalf of the Participant attributable to employer contributions will provide a benefit expressed as a life annuity commencing at Normal Retirement Age that equals or exceeds 20% of the Participant's Top-heavy Average Compensation.
- (c) The provisions in (a) above will not apply to any Participant to the extent that the Participant is covered under any other plan or plans of the employer and the employer has provided that the minimum allocation or benefit requirement applicable to this Top-heavy Plan will be met in the other plan or plans.

Section 15.3 Actuarial Equivalence of Alternate Benefit

If the form of benefit is other than a single life annuity, the Participant must receive an amount that is the Actuarial Equivalent of the minimum single life annuity benefit. If the benefit commences at a date other than at Normal Retirement Age, the Participant must receive at least an amount that is the Actuarial Equivalent of the minimum single life annuity benefit commencing at Normal Retirement Age.

Section 15.4 Non-Forfeitability of Minimum Accrued Benefit

The minimum accrued benefit required (to the extent required to be nonforfeitable under Section 416(b) of the Code) may not be forfeited under Section 411(a)(3)(B) or Section 411(a)(3)(D) of the Code.

Section 15.5 Compensation Limitation

For any Plan Year in which the Plan is top-heavy, only the first \$150,000 (or such larger amount as may be prescribed by the Secretary of Treasury or his delegate) of each Participant's annual Compensation will be taken into account for purposes of determining benefits under the Plan.

Section 15.6 Minimum Vesting During Top-Heavy Years

For any Plan Year in which this Plan is top-heavy, the minimum vesting schedule described below will automatically apply to the Plan. The minimum vesting schedule applies to all benefits within the meaning of Section 411(a)(7) of the Code except those attributable to employee contributions, including benefits accrued before the effective date of Section 416 of the Code and benefits accrued before the Plan became top-heavy. Further, no reduction in vested benefits may occur in the event the Plan's status as top-heavy changes for any Plan Year. However, this section does not apply to the Accrued Pension of any Participant who does not have an Hour or Service after the Plan has initially become top-heavy.

The nonforfeitable interest of each Participant in his employer-derived Accrued Pension will be determined on the basis of the vesting requirements that apply while the Plan is not top-heavy or the following table, whichever causes him to vest at an earlier date or provides him with a larger percentage (the basis that applies is the “minimum vesting schedule”):

20% vesting after 2 years of Vesting Service
40% vesting after 3 years of Vesting Service
60% vesting after 4 years of Vesting Service
80% vesting after 5 years of Vesting Service
100% vesting after 6 years of Vesting Service

If the vesting schedule under the Plan shifts in or out of the above schedule for any Plan Year because of the Plan’s top-heavy status, such shift is an amendment to the vesting schedule. Each Participant who has five or more years of service at the time of amendment will continue to have the above schedule apply to determine his nonforfeitable interest. For other participants the above schedule will apply only to their Accrued Pension at the time of amendment.

Section 15.7 Adjusted 415 Limit for Super Top-Heavy Plans

In any Plan Year where the Top-heavy Ratio exceeds 90% (i.e., the Plan becomes super top-heavy) the denominators of the Defined Benefit Fraction and the Defined Contribution Fraction will be computed using 1.0 times the dollar limit instead of 1.25.

Section 15.8 Additional Benefit to be Provided by a Top-Heavy Plan When Both a Defined Benefit and Defined Contribution Plan are Maintained

If the employer also maintains a defined contribution plan under which the Participants under this Plan may also be covered, then in any year where the Plan is top-heavy but not super top-heavy, the minimum Accrued Pension derived from employer contributions defined in and expressed as a life annuity beginning at Normal Retirement Age for each Participant who has earned one year of Benefit Service will be 3% of Top-heavy Average Compensation. No additional benefit accruals will be provided to the extent that the total accruals on behalf of the Participant attributable to employer contributions will provide a benefit expressed as a life annuity commencing at Normal Retirement Age that is at least equal to 30% of the Participant’s Top-heavy Average Compensation. No minimum benefit will accrue in any top-heavy year where the employer has provided that the additional minimum benefit will be met in another plan of the employer that covers the Participant. All other provisions of this Article will apply to this minimum accrual.

ARTICLE 16

NON-BARGAINED EMPLOYEES

Section 16.1 Employer

For purposes of identifying Highly Compensated Employees and applying the rules on participation, vesting and statutory limits on benefits under the Plan for such employees, but not for determining covered service, the term “Employer” includes all members of an affiliated service group with the Employer within the meaning of Section 414(m) of the Code and all other businesses aggregated with the Employer under Section 414(o) of the Code.

For this purpose, an “Employer” also includes all corporations, trades or businesses under common control with the Employer within the meaning of Sections 414(b) and (c) of the Code.

For all other purposes, the term “Employer” shall have the meaning stated at Section 2.1(g).

Section 16.2 Non-Bargained Employee

- (a) A “Non-Bargained Employee” means a person who is employed by an Employer and who is not covered by a Collective Bargaining Agreement, but is covered by another written agreement requiring Employer contributions on his or her behalf.
- (b) A Non-Bargained, Highly Compensated Employee shall not receive any Pension Credit (although vesting credit may be earned) for any Calendar Year in which the Employer fails to meet the requirements of Sections 410(b) and 401(a)(26) of the Code with respect to coverage and participation of Non-Bargained Employees. Section 401(a)(26) of the Code applies during any Calendar Year in which there are less than 50 Participants, including Participants covered by a Collective Bargaining Agreement.

Section 16.3 Highly Compensated Employee

- (a) The term “Highly Compensated Employee” includes highly compensated active employees and highly compensated former employees of an Employer. Whether an individual is a Highly Compensated Employee is determined separately with respect to each Employer, based solely on that individual’s compensation form or status with respect to that Employer.
- (b) A highly compensated active employee is an employee of the Employer who performs service for the Employer during the determination year and who during the look-back year:
 - (i) received compensation from the Employer in excess of \$155,000 (as adjusted under Section 414(q) of the Code); or
 - (ii) is a 5% owner at any time during the look-back year or the determination year.
- (c) A highly compensated former employee is an employee who separated from service, or was deemed to have separated, before the determination year, performs no service for the Employer during the determination year, and was a Highly Compensated Employee either for the separation year or for any determination year ending on or after the individual reaches age 55.
- (d) The “determination year” is the Calendar Year for which the test is being applied, and the look-back year is the 12-month period immediately preceding that Calendar Year.

- (e) The determination of who is a Highly Compensated Employee will be made in accordance with Section 414(q) of the Code and the regulations thereunder.

Section 16.4 Nondiscrimination, Coverage, and Participation

Participation in the Plan by Non-Bargained Employees shall be in compliance with Section 401(a)(4) (nondiscrimination rules), 410(b) coverage rules, and 401(a)(26) (minimum participation rules) of the Code, as applicable.

APPENDIX B

REHABILITATION PLAN FOR THE LOCAL 734 PENSION PLAN

Effective January 2, 2011
Amended and Restated Effective December 20, 2023

I. INTRODUCTION

Under the Pension Protection Act of 2006 (“PPA”), a multiemployer pension plan’s actuary must certify a plan’s funded status for a plan year within 90 days after the start of that plan year. As indicated in the August 27, 2010 Notice of Critical Status, the actuary for the Local 734 Pension Plan (the “Plan” or “Fund”) has certified the Plan as being in “critical status” (sometimes referred to as the “red zone”) for the Plan Year beginning May 1, 2010. For the Plan Years beginning May 1, 2015 through January 1, 2023, the Plan has been certified to be in “critical and declining” status.

The Fund’s Board of Trustees (the “Trustees”), as the plan sponsor of a critical status pension plan, is required under the PPA to adopt a “Rehabilitation Plan.” A Rehabilitation Plan contains one or more schedules showing revised benefits, contributions, or both, that are designed to have the Fund emerge from critical status by the end of the ten-year rehabilitation period as defined by the PPA, or where that is not reasonable, to emerge from critical status at a later time or to forestall possible insolvency (“Description of Schedules”).

In 2014, the Trustees updated the Fund’s Rehabilitation Plan. This update, the “2014 Amended Rehabilitation Plan”, was necessary due to the withdrawal and subsequent bankruptcy of a significant contributing employer.

In 2016, the Trustees again updated the Rehabilitation Plan. The “2016 Amended Rehabilitation Plan” was necessary in order to continue to forestall possible insolvency, as discussed in Section II.

In 2019, the Trustees again updated the Rehabilitation Plan. The “2019 Amended and Restated Rehabilitation Plan” was necessary in order to continue to forestall possible insolvency, as discussed in Section II.

In 2021, the Trustees again updated the Rehabilitation Plan. The “2021 Amended and Restated Rehabilitation Plan” was necessary in order to continue to forestall possible insolvency, as discussed in Section II.

In 2023, the Trustees again reviewed and updated the Rehabilitation Plan. The “2023 Amended and Restated Rehabilitation Plan” is necessary in order to continue to forestall possible insolvency, as discussed in Section II.

The Trustees must provide the Schedule or Schedules to the Fund’s Contributing Employers, Local Union, and other parties responsible for bargaining over agreements requiring contributions to the Fund (“Bargaining Parties”). Trustees of plans in critical status must include one proposal for reductions in the amount of future benefit accruals and other benefits necessary to allow the plan to emerge from critical status (or forestall insolvency), assuming no contribution increases other than those necessary after future benefit accruals and “Adjustable Benefits” (described below) have been reduced as much as possible under the law (the “Default Schedule”). A Rehabilitation Plan may also include an additional schedule or schedules.

Each Rehabilitation Plan schedule must reduce or eliminate “Adjustable Benefits” to the extent necessary to meet the legal requirements of the PPA. Adjustable Benefits include: (1) any early retirement benefit or retirement-type subsidy and any benefit payment option (other than the qualified joint and survivor annuity); (2) benefits and features, including post-retirement death benefits, disability benefits not in pay status, and similar benefits; and (3) benefit increases adopted or effective fewer than 60 months before a plan entered critical status.

Effective August 28, 2010, the Fund ceased making all lump sum payments (except those less than or equal to \$7,000 under Section 9.4 of the Plan document) as required by law, and the elimination of all such lump sum payments under the Plan shall continue under this Rehabilitation Plan.

The Trustees have the power, authority, and discretion to amend, construe and apply the provisions of this Rehabilitation Plan including the Schedules.

II. TRUSTEES' DETERMINATION TO UTILIZE ALTERNATIVE MEASURES TO EMERGE FROM CRITICAL STATUS

Under the PPA, a Rehabilitation Plan is intended to enable a pension fund to emerge from critical status by the end of its rehabilitation period. The PPA, however, provides the Board of Trustees with an alternative option if it "determines that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures," the Fund is not reasonably expected to emerge from critical status by the close of the plan's rehabilitation period. In such case, the Trustees are permitted to adopt a Rehabilitation Plan that includes reasonable measures designed to allow the Fund to emerge from critical status at a later time or forestall possible insolvency under Section 4245 of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

After consideration of various alternatives and exhaustion of all reasonable measures, the Trustees have determined that it would not be reasonably possible for the Fund to emerge from critical status under the PPA by the end of its rehabilitation period. This conclusion is based on the advice and recommendation of the Fund's actuaries and their use of reasonable actuarial assumptions.

Alternatives Considered

Under the 2014, 2016, 2019, and 2021 Amended Rehabilitation Plans, the Trustees determined that all reasonable measures to emerge from critical status have been exhausted and that instead the Trustees would take action to forestall the date of the Plan's possible insolvency. At that time, the Trustees determined that significant contribution increases would be harmful to the solvency of the Fund because:

- i. It would create a barrier to competition with non-union employers that do not sponsor a pension plan.
- ii. The contribution increases would likely result in additional employers withdrawing from the Fund rather than adopting a schedule that included such increases.
- iii. The withdrawal liability for any remaining employer will be limited by the 20-year cap under ERISA Section 4219(c)(1)(B).
- iv. A withdrawing employer would be more likely to file for bankruptcy rather than to pay the assessed withdrawal liability.

In making these determinations, the Trustees considered, among other things, the financial conditions of remaining contributing employers, noting in particular the 2012 bankruptcy of Hostess Brands, Inc., the largest contributing employer to the Fund.

After the 2016 Amended Rehabilitation Plan was adopted, a contributing employer approached the Trustees with a potential offer to transfer benefit liabilities to another multiemployer plan for the remaining participating employer's current employees plus a significant portion of their former employees who were entitled to benefits under the Plan. No assets were proposed to be transferred under this potential arrangement. In December 2018, the employer decided not to pursue such a transfer. Following that decision, the Trustees made the decision to further increase contributions at a

level consistent with current levels of inflation in order to continue to forestall insolvency. In addition to the contribution increases already made, the Trustees decided to eliminate all adjustable benefits.

After the 2019 Amended Rehabilitation Plan was adopted, the Trustees determined that contribution rates in excess of the \$180 per week level in effect as of May 1, 2020 were unaffordable and would potentially result in additional employers withdrawing from the Fund. The Trustees concluded that additional contribution increases would lead to annual contributions that further exceed the annual employer withdrawal liability payments if an employer withdrew from the Fund, noting the cap on contribution rates specified in Internal Revenue Code Section 432(g)(3) that excludes contribution rate increases for plan years starting on or after January 1, 2015 that are required under a Rehabilitation Plan. The Trustees determined that eliminating the future contribution rate increases scheduled after May 1, 2020 would make it more likely that a contributing employer would remain in the Fund, rather than withdrawing and triggering annual withdrawal liability payments that are much less than the ongoing contribution requirements.

To illustrate the difference between future employer contributions and withdrawal liability payments discussed in the paragraph above, note that all employers are currently required to contribute at a rate of \$180 per week. Under the Amended 2019 Rehabilitation Plan, the rate would increase to \$234 per week as of May 1, 2029. But if an employer withdraws from the Fund, then its annual withdrawal liability payments would be based on the rate in effect as of April 30, 2015. Depending on the contributing employer, this rate is only \$135 to \$145 per week.

Just prior to the adoption of the 2021 Amended Rehabilitation Plan, the American Rescue Plan Act (“ARPA”) was signed into law. ARPA provides eligible pension plans with Special Financial Assistance (“SFA”) to allow plans to remain solvent through 2051. The Trustees reviewed the provisions of ARPA with the Plan’s actuary to determine that the Plan would be eligible for SFA. The Trustees reviewed alternative contribution increase schedules, that combined with SFA, could extend the Plan’s solvency beyond 2051 and potentially emerge from critical status in 2052.

III. DESCRIPTION OF SCHEDULES

A. Introduction

The Rehabilitation Plan for 2011 as amended in 2014, 2016, 2019, and 2021 is incorporated as an Appendix to this 2021 Amended and Restated Rehabilitation Plan. The 2023 Amended and Restated Rehabilitation Plan includes only a Default Schedule.

The Default Schedule adopted by the Trustees under the 2023 Amended and Restated Rehabilitation Plan is set forth below. Unless otherwise indicated, all capitalized terms used in this Schedule shall have the definitions and meanings assigned to them in the Plan.

B. 2023 Rehabilitation Plan Schedule

1. Default Schedule

a. Contributions

Compliance with the Default Schedule requires the Contributing Employer’s contribution rate to be a minimum of \$192 per week (\$4.80 per hour) beginning January 1, 2025 with annual increases of \$6.00 per week (\$0.15 per hour) each year until the rate is equal to a minimum of \$268 per week (\$6.70 per hour) starting January 1, 2038.

Specifically, the following table shows the minimum weekly contribution rates that are required as of each effective date to maintain compliance with the Default Schedule:

Effective Date	Minimum Weekly Contribution Rate	Minimum Hourly Contribution Rate
January 1, 2025	\$192	\$4.80
January 1, 2026	\$198	\$4.95
January 1, 2027	\$204	\$5.10
January 1, 2028	\$210	\$5.25
January 1, 2029	\$216	\$5.40
January 1, 2030	\$222	\$5.55
January 1, 2031	\$228	\$5.70
January 1, 2032	\$234	\$5.85
January 1, 2033	\$240	\$6.00
January 1, 2034	\$246	\$6.15
January 1, 2035	\$252	\$6.30
January 1, 2036	\$258	\$6.45
January 1, 2037	\$264	\$6.60
January 1, 2038	\$268	\$6.70

CBAs can defer making annual increases as long as the contribution rate in the CBA meets or exceeds the minimum contribution rate as of a given effective date.

The per week and per hour amounts are to distinguish between CBAs that establish contributions to the Fund on either a weekly or an hourly basis. The Trustees shall have sole discretion in determining whether the CBA is in compliance with this Schedule.

b. Benefits

There is no change in benefit provisions from those summarized in the 2019 Amended Rehabilitation Plan. All remaining Adjustable Benefits were eliminated under the 2019 Amended Rehabilitation Plan.

C. Annual Review of Rehabilitation Plan and Schedules

The Trustees will review the Rehabilitation Plan and its Schedule annually with the assistance of the Fund's actuary, as they deem appropriate. If, for example, the Fund's actual experience does not reflect the assumptions used to develop the Rehabilitation Plan and its Schedules, the Trustees may amend or modify the Rehabilitation Plan and/or its Schedules, based on the advice of the Fund's actuary, to reflect the Fund's experience over the preceding plan year(s). However, if the Bargaining Parties have adopted a CBA that complies with one of the Schedules, the contribution rate requirements in the Schedules will continue for the duration of that CBA.

This Rehabilitation Plan was adopted as of the 20th day of December 2023.

**RESTATEMENT OF THE
LOCAL 734 PENSION FUND**

The Board of Trustees (the "Board") who maintain the Local 734 Pension Fund (the "Plan"), hereby adopt the following resolution:

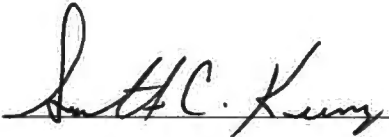

WHEREAS, under Article 11(a) of the Plan, the Plan may be amended to comply with the provisions of the Code and to make other changes that are in the best interest of Participants and Beneficiaries; and

WHEREAS, the Plan must be restated to conform to current legislation as well as to make other administrative changes;

NOW THEREFORE, BE IT RESOLVED that the Plan, as Amended and Restated effective January 1, 2024, incorporating amendments through December 31, 2023, is hereby adopted as set forth herein as length.

EXECUTED as of the 1st day of May, on behalf of the Board of Trustees.

amended and restated May 1, 2010**

WHEREAS, Bakery, Cracker, Pie & Yeast Wagon Drivers Union, Local 734, an affiliate of the International Brotherhood of Teamsters, Chauffeurs, Warehousemen & Helpers of American (herein "Union") and certain Employers whose employees are represented by the Union desire to aid the employees upon their retirement from employment; and

WHEREAS, the Employers, the Union, and the Trustees desire to amend the trust agreement previously entered into on May 1, 1956 and amended thereafter.

WHEREAS, the Union and the Employers have entered into Collective Bargaining Agreements under which the Employers have agreed to make periodic payments to a fund for the purpose of providing, in accordance with the Pension Plan, the pension benefits for their eligible Employees; and

WHEREAS, to effectuate the aforesaid purposes, the parties desire to establish a Trust to receive and apply said payments for the agreed upon purpose; and

WHEREAS, the Union and the Employer have heretofore entered into written Collective Bargaining Agreements under the terms of which it is provided that the Employer make certain payments to the Trust Fund and specifying the basis upon which such payments are to be made;

NOW, THEREFORE, for and in consideration of the premises and of the mutual covenants and agreements herein contained, the Union and the Employer hereby accept and adopt all of the provisions herein contained, and the Trustees declare that they will receive and hold the contributions and any other money or property which may come into their hands as Trustees of and for the Trust Fund, with the powers, duties, uses and purposes as hereinafter set forth:

ARTICLE 1

Definition of Terms:

SECTION 1. EMPLOYER. An individual or entity who has a written agreement with the Union or the Trust Fund which requires the person to contribute to the Plan and be bound by this Trust Agreement and the Plan. Such agreement may be in the form of a Collective Bargaining Agreement between the Union and the Employer or a Participation Agreement between the Employer and the Trust Fund. Subject to the consent of the Trustees, the Union, the Trust Fund and any other trust funds established for the purpose of providing pension or similar benefits when agreeing to make the necessary contributions, may be an Employer with respect to its salaried Employees.

SECTION 2. UNION. Union means Teamsters Union 734.

SECTION 3. EMPLOYEES. Any person whose "covered employment" with an Employer provides the basis for Employer Contributions to the Plan on behalf of such person, including employees of the Trust Fund and officers and employees of the Union.

SECTION 4. BOARD OF TRUSTEES. Trustees or Board of Trustees means the Trustees designated in the Trust Agreement and their successors appointed in accordance with the terms of this Trust Agreement.

SECTION 5. TRUST FUND. Trust Fund means all of the Trust's property of any kind and nature.

SECTION 6. PLAN. "Plan" or "Plans" means the program of benefits established by the Trustees pursuant to this agreement.

SECTION 7. EMPLOYER CONTRIBUTION. Employer Contribution means the payments made by Employers to the Trust Fund.

SECTION 8. THE AGREEMENT AND DECLARATION OF TRUST means the Agreement and Declaration of Trust made and entered into May 1, 1956, establishing the Teamsters Local 734 Pension Fund, and including any amendments that may be adopted from time to time.

ARTICLE 2

Creation of Trust Fund and Appointment of Trustees

SECTION 1. Designation – The Union and the Employer hereby create and establish, with the Trustees herein provided for, a Trust, to be known as the Teamsters Local 734 Pension Fund which shall be comprised of assets derived

from Employer contributions made pursuant to the collective bargaining agreement between the parties (plus any additional sums, from Employer contributions which may hereafter be agreed upon by the Employers and the Union, and set forth in collective bargaining agreements), together with all insurance contracts (including dividends, refunds, or other sums payable to the Trustees on account of such insurance contracts) and all investments made and held by the Trustees, all moneys received the Trustees as contributions or as income from investments made and held by the Trustees or otherwise, and any other property received and held by the Trustees for the uses, purposes and trusts, set forth in this Agreement where any of the foregoing is derived from the Employer contributions.

SECTION 2. Board of Trustees – There is hereby created a Board of Trustees consisting of four (4) persons representative of the Employees and four (4) persons representative of the Employers. The Employer Trustees are the Trustees serving on the effective date, and shall exercise the duties and powers on behalf of the Employer Trustees required in Section 3, 4, and 5 of this Article 2. Employee Trustees shall be designated by the Union.

SECTION 3. Manner of Acting in Event of Deadlock – In the event a deadlock develops between the Employer and Employee Trustees, or between the Trustees, the Trustees shall appoint a neutral party empowered to break such deadlock within a reasonable length of time. Such neutral party may be appointed in advance of any such deadlock. In the event the Trustees are unable to agree upon a neutral party, or in the event such neutral party is unable to act, either the Employer or the Employee Trustees may petition to the United States District Court for the Northern District of Illinois, Eastern Division, for the appointment of a neutral person, as provided in Section 301(c) of the Labor-Management Relations Act of 1947, as amended.

SECTION 4. Vacancies in Office of Trustees – In case of vacancies by death, legal incapacity, resignation, or otherwise, of the Employer Trustees or Employee Trustees, a successor thereto shall be appointed as provided in Article 2, Section 2, hereof. Any Trustee shall have the right to resign upon tendering ten (10) days written notice to the remaining Trustees. Any successor Trustee shall, immediately upon the acceptance of the Trusteeship, become vested with all the property, rights, powers and duties of a Trustee.

SECTION 5. Removal of Trustees – Any Employer Trustee may resign or be removed, with or without cause, at any time by the remaining Employer Trustees. In the event of removal of an Employer Trustee, the remaining Employer Trustees shall appoint a Successor Trustee. Any Employee Trustee may be removed, with or without cause, at any time by the Union. The Trustees shall have the authority and duty to act to remove a Trustee holding office.

SECTION 6. Limitation of Liability of Trustees – No Trustee shall be liable or responsible for any acts of defaults or any co-Trustee or predecessor Trustee, any other fiduciary, any party in interest, or any other person, except in accordance with applicable law, or for any losses or expenses resulting from or occasioned by anything done or neglected to be done in the administration of the Trust Fund prior to his becoming a Trustee, nor be required to inquire into or take any notice of the prior administration of the Trust Fund.

SECTION 7. Office of the Fund – The sole and principal office of the Trust Fund shall be in Chicago, Illinois, for the transaction of its business. At such office, and at such other places as may be required by law, there shall be maintained all, or any of, the books and records pertaining to the Trust Fund and its administration.

SECTION 8. No One is Agent Without Written Authority – No individual or person may act as agent for the Trust Fund unless specifically authorized in writing by the Trustees. No Employer or Union, or any representative of any Employer or Union in such capacity, is authorized to interpret the Trust Agreement and/or the Pension Plan, nor can any such person act as agent of the Trustees. Only the administrator, as designated by the Board of Trustees, and the Board of Trustees, are authorized to interpret the Pension Plan within the scope of their respective authorities.

ARTICLE 3

Contributions and Collections

SECTION 1. Amount of Contributions – Payments to the Trust Fund by an Employer on behalf of an Employee shall be made in the amount and upon the basis specified in the then existing collective bargaining agreement between the Union and the Employer or participation agreement between the Fund and the Employer.

SECTION 2. Time of Payment – The Trustees shall, by regulation, fix the time of payment for contributions and shall send a copy of such regulations to each Employer required to contribute. The Trustees shall have authority, consistent with their responsibilities under ERISA of crediting a year of service, to promulgate by resolution or regulation a requirement that the entire weekly or monthly contributions be received after a certain number of hours are worked in each week or month. All payments are due by the 10th of the following month and if payments are not received by the 20th of the month, a 10% liquidated damages will be imposed.

SECTION 3. Receipt of Payment and Other Property of Trust – The Trustees are hereby designated as the persons to receive the payments heretofore and hereafter made by the Employers to the Trust Fund, and the Trustees are hereby

vested with all right, title and interest in and such moneys and all interest accrued thereon, and are authorized to receive and be paid the same. The Trustees agree to receive all such payments, deposits, moneys, insurance and annuity contracts and other assets and properties described or referred to in Article 2 and this Article 3 and to hold the same in Trust hereunder for the uses and purposes of the Trust herein created.

SECTION 4. Collection Actions –

a) The Trustees may, but shall not be required to, institute legal proceedings to collect delinquent Employer Contributions, liquidated damages and attorney's fees. Such proceedings may be instituted by the Administrator of the Trust Fund if he has received general or specific instructions from the Trustees to do so, and may be brought in the name of the Trust Fund or the claim may be assigned to a third person for collection. If it is necessary to file suit to collect delinquent contributions, the employer shall be liable for the 10% liquidated damages as well as attorney's fees and court costs.

b) If an Employer becomes delinquent in paying any amounts required under this Article, he shall reimburse the Trust Fund for all reasonable attorney's fees and costs incurred by the Trust Fund in connection therewith, whether or not legal proceedings were instituted, it being recognized that the extent of legal services necessarily incurred in the collection of required Employer Contributions may in certain cases have no relation to the fact that the amount of the delinquency in question is relatively small.

c) The Trustees may allocate to two Trustees, normally the Chairman and Secretary, or to the Administrator, the authority to compromise and settle such collection actions on such terms and for such amounts as they consider reasonable, prudent and appropriate under the circumstances. Any such compromise and settlement shall be binding and conclusive on the Trustees, Trust Fund, Unions, Employers and Employees and their beneficiaries.

d) The above procedures are not exclusive, and are without prejudice to the rights of the Union to take whatever steps are deemed necessary.

e) It is recognized and acknowledged that the regular and prompt payment of required Employer Contributions is essential to the efficient and fair administration of the Trust Fund and that it would be extremely difficult and impractical to fix the actual expense and damage to the Trust Fund, over and above attorney's fees, which would result from the failure of an Employer to make timely payments of Employer Contributions required. Therefore, the Trustees shall have the right to determine, when appropriate, an amount of damage which shall be due and payable to the Trust Fund as liquidated damages at a time which they shall prescribe. No further notice of delinquency

need be given by the Administrator while the Employer remains in a delinquent status.

SECTION 5. Production of Records – Each Employer shall promptly furnish to the Trustees, upon reasonable demand, the names and current addresses of its Employees, their Social Security numbers, the hours worked by each Employee and past industry employment history in its files and such other information as the Trustees may reasonably require in connection with the administration of the Trust. The Trustees may, by their representatives, examine the pertinent records of each Employer at the Employer's place of business whenever such examination is deemed necessary or advisable by the Trustees in connection with the proper administration of the Trust. All Employers shall annually furnish to the Trustees, if requested by them, a statement showing whether (a) the organization is a corporation and the names of all of its officers; (b) if not a corporation, a certificate stating that it is either a partnership or an individual proprietorship and the names of the partners or the name of the individual proprietor. The Union will comply with any reasonable request of the Trustees to examine those records of the Union which may indicate the employment record of any Employee whose status is in dispute. The names and addresses of participants and beneficiaries are confidential information not to be disclosed by the Trustees except as required by an order of a court of competent jurisdiction, except where necessary for determination of benefits in accordance with the provisions of this Trust Agreement, or as required by law.

SECTION 6. Guarantee Deposits – The Trustees are given the power and authority, in their discretion, in appropriate cases, to require Employers to deposit with the Trustees, in advance (as a guarantee for the payment of monthly contributions, the amount to be determined by the Trustees) as a condition to such Employer's participation herein, and are given the right to require that said guarantee be continuously maintained by such Employer as a condition to the continued participation herein.

ARTICLE 4

Powers and Duties of Trustees

SECTION 1. The Trustees shall have authority to control and manage the operation and administration of the Trust in accordance with applicable law, and shall have the following powers and duties with regard to the administration of the Plan:

- a) To develop procedures to be followed by Employers in reporting contributions made in behalf of employees.

b) To develop procedures for establishment of credited service of Employees, including the means of affording Employees and Employers the opportunity to object thereto, and to establish such facts conclusively.

c) To prescribe rules and procedures governing the application by Employees and beneficiaries for benefits, and the furnishing of any evidence necessary to establish the rights of Employees and beneficiaries to such benefits.

d) To make determinations which shall be final and binding upon all parties as to the rights of any Employee and any beneficiary to benefits, including any rights any individual may have to request a hearing with respect to any such determination.

e) To obtain and evaluate all statistical and actuarial data which may be reasonably required with respect to the administration of the Plan.

f) To make reciprocal agreements with the Trustees of other plans established by Unions and Employers, to provide for the reciprocal transfer of credited service between such plans and this Plan in the case of Employees transferring their employment to or from such Employers.

g) To make such rules and regulations as may be necessary for the administration of the Plan and not inconsistent with the purposes of the Trust.

SECTION 2. The Trustees shall hold, manage, care for, and protect the Trust Fund and collect the income therefore and contributions thereto.

SECTION 3.

a) The Trustees shall have the power, in their sole discretion, to invest and reinvest the principal and income of the Trust Fund in such securities, common and preferred stock, mortgages, notes, real estate or other property as shall be permissible investments for Trustees in accordance with applicable law, and may sell or otherwise dispose of such securities or property at any time and from time to time as they see fit; provided, however, the Trustees may, in their sole discretion, invest the Trust Fund or any part thereof in retirement annuity contracts, annuity contracts, retirement income contracts, and such other forms of contracts, provided all such contracts are issued by legal reserve life insurance companies authorized to do business in the State of Illinois, as may be selected by the Trustees, for the purpose of providing for all or a part of the benefits provided under this Trust. The Trustees shall also have power (in addition to and not in limitation of common law and statutory authority) to invest in any stocks, bonds, or other property, real or personal, including improved or unimproved real estate and equity interests in real estate, where such an investment appears to the Trustees in their discretion and in accordance with their fiduciary obligations

to be in the best interest of the Trust Fund and its beneficiaries, judged by then present day business conditions and standards, and to exercise in respect to any stocks, bonds, or other property, real or personal, held by them as Trustees, all such rights, powers and privileges as might be lawfully exercised by any person owning similar stocks, bonds or other property in his own right.

b) The Board of Trustees, if they so desire, are authorized to allocate only to a committee of Trustees, or to one or more "Investment Managers" as defined in Section 3(38) of the Employee Retirement Income Security Act of 1974, appointed by the Trustees, such duties and responsibilities with respect to the Trust assets, including the responsibility to invest or reinvest such assets, as they shall specify in such allocation or appointment, and to invest in such collective employee benefit trust funds of the Investment Manager, acting as Trustee, pursuant to all the terms and conditions of the declaration of trust creating and governing the collective employee benefit trust fund, as amended from time to time. In connection with any such appointment, the Trustees shall from time to time adopt appropriate investment policies and also may delegate to such investment Manager the right to custody and possession of the Trust assets, or any part thereof. Any such appointment may be revoked at any time by notice in writing from the Trustees to such Investment Manager.

SECTION 4. All Trust Funds not invested shall be deposited by the Trustees in such depository or depositories as the Trustees shall from time to time select, and any such deposit or deposits, or disbursements, shall be made in the name of the trust in the manner designated by the Trustees and upon signature(s) designated by the Trustees.

SECTION 5. The Trustees shall keep true and accurate books of account and a record of all their transactions.

SECTION 6. The Trustees shall engage one or more independent qualified public accountants and enrolled actuaries to perform all services required by and in accordance with applicable law and such other services as the Trustees deem necessary.

SECTION 7. The Trustees, to the extent permitted by applicable law, shall incur no liability in acting upon any instrument, application, notice, request, signed letter, telegram, or other paper or document believed to them to be genuine and to contain a true statement of facts, and to be signed by the proper person.

SECTION 8. Any Trustee, to the extent permitted by applicable law, may rely upon any instrument in writing purporting to have been signed by a majority of the Trustees as conclusive evidence of the fact that a majority of the Trustees have taken the action stated to have been taken in such instrument.

SECTION 9. The Trustees are hereby authorized to formulate and promulgate a pension plan, any and all necessary rules and regulations which they deem necessary or desirable to facilitate the proper administration of the Trust, provided the same are not inconsistent with the terms of this Agreement and the articles in the collective bargaining agreements creating the Pension Fund. All rules and regulations adopted by action of the Trustees for the administration of the Trust Fund shall be binding upon all parties hereto, all parties dealing with the Trust, and all persons claiming any benefits hereunder.

SECTION 10.

a) The Trustees may assign from time to time various administrative matters to such committees and subcommittees of Trustees, experts, or other individuals or organizations as they may deem appropriate or necessary in their sole discretion. Committees and Subcommittees of Trustees shall consist of an equal number of Employer and Employee Trustees. Only the Trustees shall have the authority to approve, modify the terms of, or terminate any loan. The Trustees, from time to time as appropriate, shall determine and modify the loan and investment policies of the Fund, including the diversification of investments so as to minimize the risk of large losses, unless under the circumstances it is clearly prudent not to do so.

b) The Trustees shall have the authority to appoint an Administrator who shall be responsible to the Trustees and/or any committee thereof for the administration of the Fund's office and personnel, for the coordination and administration of accounting and actuarial services, for the preparation of all reports and other documents required to be filed or issued in accordance with law, for the performance of ministerial duties in conformance therewith, and for such other duties which shall be assigned to him by the Trustees in accordance with the procedures of Article 6. The Administrator shall be the custodian of the documents and other records of the Trust Fund.

SECTION 11. No party dealing with the Trustees shall be obligated (a) to see the application to the trust purposes herein stated of any money or property belonging to the Trust Fund, or (b) to see that the terms of this Agreement have been complied with, or (c) to inquire into the necessity or expediency of any act of the Trustees. Every instrument executed by the Trustees shall be conclusive evidence in favor of every person relying thereon (1) that at the time of the delivery of said instrument was executed in accordance with the terms and conditions of this Agreement, and (2) that the Trustees were duly authorized and empowered to execute the instrument.

SECTION 12. The Trustees shall, by regulation, establish rules relating to payments of contributions by Employers for Employees during periods of such Employees' illness or disability and related matters but not contrary to applicable collective bargaining agreements.

SECTIONS 13. The Trustees are hereby empowered, in addition to such other powers as are set forth herein or conferred by law:

a) To enter into any and all contracts and agreements for carrying out the terms of this Agreement and for the administration of the Trust Fund and to do all acts as they, in their discretion, may deem necessary or advisable, and such contracts and agreements and acts shall be binding and conclusive on the parties hereto and on the Employees involved.

b) To keep property and securities registered in the names of the Trustees or in the name of any other individual or entity duly designated by the Trustees.

c) To establish and accumulate as part of the Trust Fund a reserve or reserves adequate, in the opinion of the Trustees and in accordance with applicable law, to carry out the purposes of the Trust.

d) To pay out of the funds of the Trust all real and personal property taxes, income taxes, and other taxes of any and all kinds, levied or assessed under existing or future laws upon or in respect to the Trust Fund, or any money, property, or securities forming a part thereof.

e) To sell, exchange, lease, convey, mortgage or dispose of any property, whether real or personal, at any time forming a part of the Trust Fund upon such terms as they may deem proper, and to execute and deliver any and all instruments of conveyance, lease, mortgage, and transfer in connection therewith.

f) To do all acts, whether or not expressly authorized herein, which the Trustees may deem necessary or proper for the protection of the property held hereunder.

SECTION 14. The Trustees shall use and apply the Trust Fund for the following purposes:

a) To pay or provide (1) all reasonable and necessary expenses of collecting the contributions and administering the affairs of this Trust, including the employment of such administrative, legal, actuarial, expert, and clerical assistance, as may be reasonably necessary, (2) the purchasing, owning, or leasing of such premises as may be necessary for the operation of the affairs of the Trust, and (3) the purchase or leasing of such materials, supplies and equipment as the Trustees, in their discretion, find necessary or appropriate to the performance of their duties.

b) To pay or provide for the payment of death and related benefits to eligible Employees in accordance with the terms, provisions and conditions of the pension plan to be formulated and agreed upon hereunder by the Trustees.

SECTION 15. The Trustees, by majority action, shall have the power to construe the provisions of this Agreement and the terms and regulations of the Pension Plan, and any construction adopted by the Trustees in good faith shall be binding upon the Union, Employees and Employers.

SECTION 16. The Trustees, by resolution, shall provide for fidelity bonds, in such amounts as they may determine, for their Employees and for the Trustees, the cost of which shall be paid by the Fund. The Trustees may purchase insurance coverage to protect the Fund from liability arising out of any error or omission of any Trustee or Employee of the Trust, in accordance with applicable law, the cost of which policy shall be paid by the Fund.

SECTION 17. The Employer Trustees and Employee Trustees shall not be paid any compensation for their services hereunder for attendance at regular or special meetings of the Trustees; but the Trustees may be reimbursed for expenses properly and actually incurred for attending regular or special meetings of the Trustees or committees or subcommittees, or while performing specific assignments.

SECTION 18. Notice given to a Trustee, Union, Employer, or any other person shall, unless otherwise specified herein, be sufficient in writing and delivered to or sent by postpaid first class mail to the last address as filed with the Trustees. Except as herein otherwise provided, the delivery of any statement or document required hereunder to be made to a Trustee, Union, or Employer shall be sufficient if delivered in person or if sent by postpaid first class mail to his or its last address as filed with the Trustees.

SECTION 19. Any questions arising in connection with the discharge of this Agreement and Declaration of Trust not herein specifically provided for shall be left to the sole discretion of the Trustees and their independent judgment and acting under such advice as to them seems necessary and proper.

SECTION 20. To the extent allowed by law, the costs and expenses of any action, suit, or proceeding brought by or against the Trustees or any of them (including counsel fees) shall be paid from the Trust Fund, except in relation to matters as to which it shall be adjudged in such action, suit, or proceeding that such Trustee was acting in bad faith or was grossly negligent in the performance of his duties hereunder.

SECTION 21. The Trustees from time to time shall establish the levels of Plan benefits so that the Employer Contributions received by the Trust Fund will meet the requirements of Section 302 of the Employee Retirement Income Security Act of 1974, as amended, and Section 412 of the Internal Revenue Code of 1954, as amended. The Trustees shall review periodically in accordance with

applicable law with the Trust Actuary the status of compliance with the aforesaid provisions of law in order to assure that such requirements are being met.

ARTICLE 5

Controversies and Disputes

SECTION 1. In any controversy, claim demand, suit at law, or other proceeding between any Employee, participant, beneficiary, or any other person and the Trustees, the Trustees shall be entitled to rely upon any facts appearing in the records of the Trustees, any instruments on file with the Trustees, with the Union or with the Employer, any facts certified to the Trustees by the Union or the Employer, any facts which are of public record, and any other evidence pertinent to the issue involved.

SECTION 2. All questions or controversies, of whatsoever character, arising in any manner or between any parties or persons in connection with the Trust Fund or the operation thereof, whether as to any claim for any benefits preferred by any Employee, participant, beneficiary, or any other persons, or whether as to the construction of the language or meaning of the Pension Plan, or rules and regulations adopted by the Trustees, or this Agreement, or as to any writing, decision, instrument or accounts in connection with the operation of the Trust Fund, or otherwise, shall be timely submitted to the Trustees for decision.

SECTION 3. Denial of Claim: Any denial of a claim for benefits shall be explained in writing and such explanation shall include:

- a) the specific reasons for the denial;
- b) specific reference to the pertinent Plan provisions upon which the denial is based;
- c) a description of any additional information which might perfect the claim and an explanation of why such information is necessary; and
- d) an explanation of the Plan's claim review procedure.

Any denial of a claim for benefits may be appealed by submitting a written request for a fair hearing before the Trustees. In connection with such request, the appealing party may review pertinent documents applicable to the administration of the Plan and he may submit written comments outlining the basis of his appeal.

A request for fair hearing must be received by the Administrator within 60 days after the date of the written notice of denial of a claim. The fair hearing shall be held and a decision rendered not later than 120 days after receipt of the

request for fair hearing. The decision of the Trustees shall be final and binding as to all persons.

SECTION 4. The Trustees may, in their sole discretion, compromise or settle any claim or controversy in such manner as they think best, and any decision made by the Trustees in compromise or settlement of a claim or controversy, or any compromise or settlement agreement entered into by the Trustees, shall be conclusive and binding on all parties interested in this Trust.

ARTICLE 6

Operation of Board of Trustees

SECTION 1. Officers – The Trustees shall select a Chairman and Secretary who shall be Trustees and shall serve until successor is duly selected. The Chairman shall be an Employee Trustee, then the Secretary an Employer Trustee.

SECTION 2. Quorum – A quorum of the Trustees for the transaction of business, except as otherwise specifically provided herein, shall consist of at least four (4) Trustees comprised of 2 Employer and 2 Employee Trustees. All actions of the Trustees at meeting shall be by majority vote of those present and voting, a quorum being present. No Trustee may vote by proxy. A quorum of a committee or subcommittee shall consist of a majority of the members thereof.

SECTION 3. Power to Act in Case of Vacancy – No vacancy or vacancies in the Board of Trustees shall impair the power of the remaining Trustees, acting in the manner provided by this Agreement, to administer the affairs of the Trust notwithstanding the existence of such vacancy or vacancies.

SECTION 4. Meetings – Regular meetings of the Trustees shall be held at least three (3) times a year. Any five (5) Trustees may request a meeting of the Trustees at any time by notifying the Chairman who shall arrange the time and place thereof. Written notices of meetings may be delivered in person, by mail, or by telegram. Meetings of the Trustees may also be held at any time without notice if all the Trustees consent thereto.

SECTION 5. The Trustees shall make and maintain a record of the actions of the Trustees taken at any meeting thereof. Any action, which may be taken at a meeting of the Trustees, may be taken without a meeting if a consent in writing, setting forth the action so taken, should be signed by all of the Trustees.

ARTICLE 7

Establishment of Pension Plan

SECTION 1. Formulation of Plan – The Trustees shall formulate a plan for the payment of the retirement benefits for eligible employees and related benefits as are feasible. Such plan shall at all times comply with all applicable federal statutes and regulations and with the provisions of this Trust Agreement. The Trustees shall not be under any obligation to pay any benefit if the payment of such benefit will result in loss of the Trust Fund's tax exempt status under the then applicable Internal Revenue Code and any regulations or rulings issued pursuant thereto. The Trustees shall draft procedures, regulations, and conditions for the operation of the plan, including, by way of illustration and not limitation: conditions of eligibility for covered Employees, procedure for claiming benefits, schedules of type and amount of benefits to be paid, and procedure for the distribution of benefits. The Trustees have the authority to change the eligibility rules and other provisions of the Plan, to amend, increase, decrease or eliminate benefits, and to terminate the Plan in whole or in part at any time. All benefits are conditional and subject to the Trustees' authority to change or terminate them.

SECTION 2. The Trustees shall provide participants and beneficiaries such information as is required by law.

SECTION 3. Amendment of Plan – The Pension Plan may be amended by the Trustees from time to time, provided that such amendments comply with the applicable sections of the then applicable Internal Revenue Code, all applicable federal statutes and regulations, the contract articles creating the Pension Plan, and the purposes as set forth in this Agreement. Additionally and not by way of limitation, the Trustees may amend the Plan, in future, or retroactively, where they deem it necessary to maintain the continuation of the Fund's tax exempt status or to preserve compliance with the then applicable Internal Revenue Code, applicable federal statutes, and any regulations or rulings issued with respect thereto. A copy of each amendment of the Pension Plan shall be adopted and filed by the trustees as part of the records and minutes of the Trustees, and one copy thereof shall be distributed to the Union and to each Employer Trustee signatory to this Trust Agreement. The Trustees have the authority to change the eligibility rules and other provisions of the Plan, to amend, increase, decrease or eliminate benefits, and to terminate the Plan in whole or in part at any time. All benefits are conditional and subject to the Trustees' authority to change or terminate them.

ARTICLE 8

Spendthrift Clause

SECTION 1. No Amendment or Attachment of Benefits – Benefits payable under this plan shall not be subject in any manner to anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, charge, garnishment, execution or levy of any kind, either voluntary or involuntary, including any such liability which is for alimony or other payments for support for a spouse or former spouse or for any relative of the Employee, participant, or beneficiary, prior to actually being received by the person entitled to the benefit under the terms of any Plan, and any attempt to anticipate, alienate, sell, transfer, assign, pledge, encumber, charge or otherwise dispose of any right to benefits hereunder shall be void. The Trust Fund shall not in any manner be liable for or subject to the debts, contracts, liabilities, engagements or torts of any person entitled to benefits hereunder, including common fund doctrine, but excluding a requirement by ERISA such a QDRO.

ARTICLE 9

Payments to Persons Under Legal Disability

SECTION 1. In case any benefit payments hereunder become payable to a person under legal disability, or to a person not adjudicated incompetent but, by reason of mental or physical disability, in the opinion of the Trustees, is unable to administer properly such payments, then such payments may be paid out by the Trustees for the benefit of such person in such of the following ways as they think best, and the Trustees shall have no duty or obligation to see that the payments are used or applied for the purpose or purposes for which paid:

- a) directly to any such person;
- b) to the legally appointed guardian or conservator of such person;
- c) to any spouse, parent, brother or sister of such person for his welfare, support and maintenance;
- d) by the Trustees using such payment directly for the support, maintenance and welfare of any such person.

ARTICLE 10

Amendment of Agreement

It is anticipated that in the administration of the Trust conditions may arise that are not foreseen at the time of the execution of this Agreement and it is the

intention of the parties that the power of amendment, which is hereinafter given, be exercised in order to carry out the provisions of this Trust, among which is to pay the largest benefits possible which are consistent with the number of persons becoming and likely to become eligible for such payments, the amount of funds which are available and which will probably become available, and the following of sound actuarial practice. Therefore, the power is given to the Trustees to amend this Agreement by majority vote at any time and from time to time, and all parties to the Trust and all persons claiming an interest thereunder shall be bound thereby, and no Employee, participant, beneficiary, or any other person, shall have any vested interest or right in the Trust Fund or in any payment from the Trust Fund, except as provided by law. The Trustees have full authority to amend, repeal, add to, or take away any right of payment, retroactive or otherwise, that they deem proper for the preservation of this Trust; providing, however, in no event shall the Trust Fund be used for any other purpose other than the purpose set forth in this Agreement, and for the purposes of paying the necessary expenses incurred in the administration of this Trust. All amendments to this Agreement shall comply with the applicable sections of the then applicable Internal Revenue Code, and the contract articles creating the Pension Fund. All benefits are conditional and subject to the Trustees' authority to change or terminate them.

ARTICLE 11

Termination of Trust Agreement

SECTION 1. This Trust Agreement shall cease and terminate upon the happening of any one or more of the following events:

a) In the event the Trust Fund shall be, in the opinion of the Trustees, inadequate to carry out the intent and purpose of this Agreement, or to meet the payments due or to become due under this Agreement to persons already drawing benefits.

b) In the event there are no individuals living who can qualify as Employees hereunder.

SECTION 2. In the event this Trust shall terminate for any of the reasons set forth in Section 1 of this Article 11 hereof, the rights of all Employees to benefits accrued to the date of termination shall be nonforfeitable. The Trustees shall distribute the Trust Fund as required by law.

ARTICLE 12

Extension of Plan

The Trustees are authorized to extend the coverage of this Agreement and Trust to such other Employers and Employees as the Trustees shall agree upon, provided such Employers and Employees are required to conform to the terms and conditions of the Trust and to make the same rate of payments required of the Employers herein for the same benefits.

ARTICLE 13

Miscellaneous

SECTION 1. In no event shall an Employer, directly or indirectly, receive any refunds of contributions made to the Trust, except in cases of bona fide mistake, and as to which contributions are returned within one year after payment of the contributions, nor directly or indirectly participate in the disposition of the Trust Fund or receive any benefits from the Trust Fund. Upon transfer of each contribution to the Trustees, all responsibilities of the Employers for each contribution shall cease, and the Employers shall have no responsibilities for the acts of the Trustees. No Employee shall have any individual right, title, interest, or claim against any Employer, Employer's contribution, or the Trust Fund, except as may be provided expressly for in this Agreement or under federal law.

SECTION 2. The Union or the Employer may, at any time, demand of the Trustees an accounting with respect to any and all accounts upon agreement to pay necessary expenses thereof. The Trustees shall be entitled, at any time, to have a judicial settlement of their accounts and judicial determination of any questions in connection with the administration or distribution thereof. Any Trustees who has resigned, been removed from office, or not been re-appointed shall execute all instruments necessary to transfer the Trust Fund.

SECTION 3. In the event any question or dispute shall arise as to the proper person or persons to whom any payments shall be made hereunder, the Trustees may withhold such payment until an adjudication of such question or dispute, satisfactory to the Trustees, in their sole discretion, shall have been made, or the Trustees shall have been adequately indemnified against loss to their satisfaction.

SECTION 4. Where used in this Agreement, words in the masculine shall be read and construed as in the feminine, and words in the singular shall be read and construed as though used in the plural, in all cases where such construction would so apply.

SECTION 5. The Article titles are included solely for convenient and shall, in no event, to be construed to affect or modify any part of the provisions of this Agreement or be construed as part thereof.

SECTION 6. This Agreement is made and is to be administered in the State of Illinois, including without limitation, the exercise by the Trustees of the powers and duties in Articles 4 and 5. The pension plan formulated and amended by the Trustees is made and administered in the State of Illinois. Where there is presented to the Trustees by an Employee, participant, or beneficiary, a request for benefits under this Agreement or Pension Plan, a claim for other rights under this Agreement or Pension Plan, or a request for clarification of his rights to future benefits, the only place where the Trustees took action under this Agreement and any pension plan shall be the place where the Trustees met and decided the claim or request. This Agreement shall in all respects be construed according to and governed by the laws of the State of Illinois, including but not limited to the laws applicable to the rate of interest in the State of Illinois, except as such laws may be preempted by the laws and regulations of the Federal government.

ARTICLE 14

Beneficial Rights

No Employer or Union, or Employees, shall have any right, title or interest in or to the Trust Fund or any part thereof. There shall be no pro-rate or other distribution of any of the assets of the Trust Fund as a result of any Union, Employer or group of Employees or Employers, ceasing their participation in this Trust Fund for any purpose or reason except as required by law.

ARTICLE 15

Savings Clause

Should any provision of this Trust Agreement be held to be invalid or invalid as to any person or instance, such fact shall not adversely affect the other provisions herein contained or the application of said provisions to any other person or instance, unless such invalidity shall make impossible for the functioning of the plan. No Trustee shall be held liable for any act done or performed in pursuance of any provisions hereof prior to the time such act or provision shall be held invalid by a court of competent jurisdiction.

ARTICLE 16

Agreement of Employers

By accepting this Agreement and Declaration of Trust, all Employers agree to be bound by the provisions of these Articles, and all other Employer obligations set forth in this Agreement and Declaration of Trust.

ARTICLE 17

Effective Date

The effective date of this Amended and Re-Stated Agreement shall be May 1, 2010.

In witness whereof, the undersigned Trustees of the Teamsters Local Union 734 Pension Fund have caused this amended and restated Trust Agreement to be executed as of May 1, 2010.

**Actuarial Valuation as of
May 1, 2018**

December 19, 2018

Actuarial Statement

As requested by the Board of Trustees of the Local 734 Pension Plan (the “Board of Trustees”), this report documents the results of an actuarial valuation of the Local 734 Pension Plan (the “Plan”) as of May 1, 2018. This valuation is based on the Plan that was established on May 1, 1956, as amended through the valuation date.

In preparing this valuation, we have relied on information and data provided to us by the Board of Trustees and other persons or organizations designated by the Board of Trustees. We did not perform an audit of the financial and participant census data provided to us, but we have reviewed the data for reasonableness for the purpose of the valuation. We have relied on all information provided, including plan provisions and asset information, as being complete and accurate.

The valuation summarized in this report involves actuarial calculations that require assumptions about future events. We believe that the assumptions and methods used in this report are reasonable and appropriate for the purposes for which they have been used. However, other assumptions and methods could also be reasonable and could result in materially different results.

In our opinion, all methods, assumptions and calculations are in accordance with requirements of the Internal Revenue Code (the “Code”) and the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended by the Pension Protection Act of 2006 (“PPA”), the Pension Relief Act of 2010 (“PRA”), and the Multiemployer Pension Reform Act of 2014 (“MPRA”). Further, in our opinion, the procedures followed and presentation of results are in conformity with generally accepted actuarial principles and practices. The Board of Trustees was responsible for the selection of the actuarial cost and asset valuation methods.

This valuation report may not be reproduced or distributed without the consent of the Board of Trustees, other than to assist in the Plan’s administration and to meet the filing requirements of federal government agencies, and may be distributed only in its entirety. The results in this valuation may not be applicable for purposes other than those described in this report.

The undersigned consultants of Horizon Actuarial Services, LLC (“Horizon Actuarial”) with actuarial credentials meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. There is no relationship between the Board of Trustees and Horizon Actuarial that affects our objectivity.

Local 734 Pension Plan

Actuarial Valuation as of May 1, 2018

1. Introduction

Exhibit 1.2 – Commentary

Valuation Highlights

- As of the May 1, 2018 valuation date, the Plan's accrued benefit funded percentage, based on the actuarial value of assets, is 51.3%, compared to 56.5% as of May 1, 2017. The decrease in the Plan's funded percentage on an actuarial value of assets basis is primarily attributable to the continuing depletion of Plan assets as a result of the Plan's negative cash flow.
- The Plan's accrued benefit funded percentage, based on the market value of assets, is 51.1% as of May 1, 2018, compared to 52.3% as of May 1, 2017. The decrease in the Plan's funded percentage on a market value of assets basis is primarily attributable the continuing depletion of Plan assets as a result of the Plan's negative cash flow.
- The Plan's minimum funding credit balance decreased from \$11,920,461 as of April 30, 2017 to a funding deficiency of \$1,270,417 as of April 30, 2018. This is the result of contributions for the Plan Year less than the minimum required contribution.
- 41,136 weeks were worked in the 2017 Plan Year, fewer than the projected 43,214 weeks. The average weeks worked per active participant decreased from 48.14 weeks for the year ended April 30, 2017 to 46.68 weeks for the year ended April 30, 2018. A portion of the decrease was due to the withdrawal of a contributing employer during the prior Plan Year. The impact of work levels on the valuation results will continue to be monitored.
- In the 2017 Plan Year, the Plan's investment return was 9.5%, on a market value basis. The return on the actuarial value of assets, which reflects the "smoothing" of prior years' gains and losses, was 1.3%.
- The actuarial gain from sources other than investments was \$1,273,568 or 0.49% of the expected actuarial accrued liability. This gain was primarily due to fewer retirements than assumed, lower benefit payments than assumed, and more terminations than assumed.

1. Introduction

Exhibit 1.2 – Commentary

Pension Protection Act of 2006

The Plan was certified in critical and declining status (“Red Zone”) for 2018, the same status as the prior year. On September 20, 2010, the Trustees adopted a Rehabilitation Plan, as required under the Pension Protection Act of 2006 (PPA), to improve the Plan’s long term funding health, with provisions effective January 2, 2011. The Rehabilitation Plan was updated on March 26, 2014 and again on December 15, 2016.

The Rehabilitation Plan was developed under the expectation that all contributing employers would continue to participate in the Plan. However, in 2012, Hostess Brands, Inc., one of the largest contributing employers to the Plan, withdrew from that Plan and declared bankruptcy, leaving the Plan with a significant amount of unpaid employer withdrawal liability. The Board of Trustees continues to examine alternatives that will improve funding or forestall insolvency.

Purpose of the Valuation

This report presents the results of the actuarial valuation of the Local 734 Pension Plan as of May 1, 2018. The purposes of this report include the following:

- Determine whether the negotiated contributions are sufficient to fund the Plan’s benefits.
- Determine the minimum required contribution amount for the Plan Year under the Employee Retirement Income Security Act of 1974 (“ERISA”) funding basis.
- Determine the maximum tax-deductible contribution for the Plan Year.
- Review the actuarial assumptions in view of experience during the prior Plan Year.
- Determine the unfunded vested liability for computation of withdrawal liability under the Multiemployer Pension Plan Amendments Act of 1980.
- Develop information for disclosure in Form 5500 Schedule MB.
- Determine the contribution margin for the Plan Year.
- Develop the benefit liabilities that will serve as the basis for the Plan’s 2019 status certification under the Pension Protection Act of 2006.
- Determine the information required for the Plan’s ASC 960 financial reporting.

Participant Data

The participant census data needed to perform the actuarial valuation was provided by the Fund Office. Participant demographics are summarized in **Exhibit 1.3** and reviewed in more detail in **Appendix A**.

Plan Assets

The Plan's Auditor supplied us with the audited financial statements for the Plan Year ended April 30, 2018, which sets forth the assets of the Plan. A reconciliation of the Market Value of Assets can be found in **Exhibit 3.1**. The development of the Actuarial Value of Assets is shown in **Exhibit 3.2**.

1. Introduction

Exhibit 1.2 – Commentary

Actuarial Assumptions and Methods

The changes to the actuarial assumptions and methods from those used in the previous valuation are as follows:

Mortality Projection:

- The mortality projection assumption used for non-disabled mortality and disabled mortality has been updated from a projection back to 2006 using Scale MP-2014, then projected forward to 2016 using Scale MP-2016, to a projection back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2017.

Form of Payment:

- The assumed form of payment for married participants was changed from the single life annuity to the 50% joint and survivor annuity.

Terminated Vested Participants:

- Deferred vested participants over age 70 are no longer excluded from the valuation liabilities.

Impact:

- The changes to the mortality assumptions and to the assumption for terminated vested participants over age 70 resulted in an increase to Actuarial Accrued Liability, which was partially offset by a decrease in liability due to the change in form of payment assumption. The overall impact of these changes was an increase in Actuarial Accrual Liability of \$5,482,774 (2.14%).

Unfunded Vested Benefits for Withdrawal Liability:

- The interest rate for determining the present value of vested benefits for employer withdrawal liability was increased from 2.15% to 2.27% for the first 20 years, and lowered from 2.60% to 2.59% after 20 years to be consistent the change in the PBGC interest rates used to determine the present value of vested benefits for a mass withdrawal.

Current Liability:

- The interest rate and mortality assumptions used to determine the RPA '94 Current Liability were updated in accordance with the changes in the IRS prescribed assumptions.

The actuarial assumptions and methods used in the valuation are described in more detail in **Appendix B**.

Exhibit 1.2 – Commentary

Plan Provisions

There have been no changes in plan provisions from those used in the previous valuation.

Appendix C describes the principal provisions of the Plan being valued.

Actuarial Gain or Loss

An experience gain/(loss) is the difference between the actual and the expected unfunded actuarial liability. The expected unfunded liability is the amount projected from the previous year, based on the actuarial assumptions.

The Plan had a net actuarial experience loss of \$6,687,760 for the plan year ended April 30, 2018. The components of this loss are a gain of \$1,273,568 from sources related to benefit liabilities and a loss of \$7,961,328 on Plan assets.

There was a gain on the market value of assets for the plan year (9.52% net return versus the 7.00% assumption), however only a portion of that gain is recognized in the actuarial value of assets under the Plan's asset valuation method. The loss on the actuarial value of assets (1.25% net return versus the 7.00% assumption) results from continued recognition of prior years' gains/(losses).

The gain on liabilities (which represented about 0.49% of expected liabilities) was primarily due to fewer retirements than assumed, lower benefit payments than assumed, and more terminations than assumed. The gain from active termination experience was mainly due to the withdrawal of a contributing employer during the prior Plan Year. A consistent pattern of gains and losses may indicate a need to refine the actuarial assumptions. We will monitor trends as they emerge and evaluate possible updates to the assumptions as needed.

Actuarial gains and losses for the last ten years are shown in **Exhibit 7.1**.

Work Experience

As previously noted, 41,136 weeks were worked by all participants in the 2017 Plan Year, fewer than the assumed 43,214 for the year. The main reason for the decrease was the withdrawal of a contributing employer during the 2017 Plan Year. Active participants are assumed to work 41,856 weeks during the 2018 Plan Year. The current and projected funding results for the Plan are sensitive to the number of weeks worked (and contributed on), thus we will continue to closely monitor the Plan's reported hours.

Exhibit 1.2 – Commentary

PPA Certification Status

Horizon Actuarial Services, LLC, acting as actuary to the Plan, issued a certification to the Internal Revenue Service on July 27, 2018 indicating that the Plan is in critical and declining status under Section 432 of the Internal Revenue Code (i.e., in the “Red Zone”) for the 2018 Plan Year.

The calculations, data, assumptions, and methods used in the certification are documented in a separate report that was sent to the Board of Trustees on July 27, 2018.

The Plan is projected to continue to be in critical and declining status in future years as a result of the Hostess bankruptcy. We continue to work with the Board of Trustees to examine alternatives that will improve funding and forestall insolvency.

Pension Relief Act of 2010

The Trustees elected to apply the following special funding rules under the Pension Relief Act of 2010 (PRA), effective with the plan year beginning May 1, 2009:

- **Special amortization rule:** As permitted under Section 431(b)(8)(A) of the Internal Revenue Code (the “Code”), net investment losses incurred in the 2008 plan year are amortized in the funding standard account over the 29 years beginning May 1, 2009.
- **Special asset valuation rule:** As permitted under Section 431(b)(8)(B) of the Code, the asset valuation method was changed so that the difference between expected and actual returns for the plan year ending April 30, 2009 are spread over a period of 10 years.

The special rules permit the Plan to recognize the extraordinary investment losses that occurred in 2008 over a longer period of time. Applying the special rules increases the Plan’s funding standard account credit balance and its actuarial value of assets. While the special rules make the Plan appear to be better funded, it should be noted that they do not result in an increase to the Plan’s market value of assets or a reduction in the Plan’s benefit obligation.

2. Average Age	73.69	73.37
3. Average Monthly Benefit	\$ 907	\$ 904
D. Total Participants	3,545	3,532

Participants are generally classified into the following categories for valuation purposes:

- Active participants: Those participants who worked one or more weeks during the calendar year prior to the valuation date, provided they have not retired or terminated prior to the valuation date.
- Inactive vested participants: Those participants who are not active and who are entitled to receive a deferred vested pension. Deferred Beneficiaries are also included in this group.
- Participants and beneficiaries receiving benefits: Those participants and beneficiaries who were receiving a pension under the Plan as of the valuation date. Included in this category are non-disabled pensioners, disabled pensioners, and beneficiaries.

A summary of basic demographic statistics is shown above. Additional demographic information can be found in **Appendix A**.

2. Inactive and Retired Participants	18,147,915	17,870,546
3. Total	\$ 19,143,928	\$ 18,874,624

The table above summarizes the key actuarial benefit liabilities as of the current and preceding valuation dates. The present value of future benefits (item A.) represents the liability for benefits earned as of the valuation date plus the benefits expected to be earned in all future plan years. The normal cost (item B.) represents the cost of benefit accruals (item B.1.) expected to be earned during the plan year plus expected operating expenses during the plan year (item B.2.). The actuarial accrued liability is the liability for benefits earned through the valuation date, based on the unit credit cost method (item C.).

The Plan's contribution requirements for the plan year are a function of the normal cost and the portion of the actuarial accrued liability not funded by the actuarial value of assets. All amounts shown above are measured as of the beginning of the plan year. The actuarial accrued liability based on the unit credit cost method is also used to determine the PPA funded percentage.

The Expected Benefit Payments for the Plan Year in Item D assume that all participants who have attained Normal Retirement Age but have not commenced their benefit will do so as of the beginning of the Plan Year.

E. Grand Total	<u>\$ 278,290,698</u>	<u>\$ 262,044,821</u>	<u>\$ 3,125,693</u>

The present value of future benefits reflects both benefits earned through the valuation date and benefits expected to be earned in the future by active participants. The present value of future benefits and the actuarial accrued liability shown in the table above are measured as of the valuation date.

The normal cost and assumed operating expenses shown in the table above are payable as of the beginning of the year.

For the plan year ending April 30, 2018 employer contributions of \$6,034,049 were made during the plan year, and \$499,876 were receivable at the end of the plan year. In addition, withdrawal liability payments of \$175,128 were made during the plan year. For the plan year ending April 30, 2017 employer contributions of \$5,816,481 were made during the plan year, and \$609,384 were receivable at the end of the plan year. See item A.2., above.

3. Plan Assets

The Trustees have approved an actuarial asset valuation method that gradually adjusts to market value, as follows:

- The actuarial asset value is equal to the market value of assets less unrecognized returns in each of the last four years. Unrecognized return is equal to the difference between the actual market return and the projected return on the actuarial value, phased in at the rate of 25% per year.
- To comply with IRS regulations, the actuarial value is, in any event, not less than 80%, nor more than 120%, of current market value.

Under this valuation method the full value of market fluctuations is not recognized and as a result, the asset value and the actuarial cost are more stable. The adjustment in the asset value is referred to as a write-up or write-down. The development of the actuarial value of assets is shown on the next page.

In determining the actuarial value of assets, the amount of the adjustment to market value is treated as income, which may be positive or negative. Realized gains and losses and unrealized gains and losses are treated equally and, therefore, the sale of assets has no immediate effect on the actuarial value. This removes any consideration of the impact that sales of assets may have on the determination of the actuarial cost of the Plan.

For the purposes of determining the ERISA minimum contribution (and credit balance) and the Pension Protection Act funded percentage, the Trustees have elected to apply the special ten-year “smoothing rule” under the Pension Relief Act of 2010 (PRA). Under this special rule, the 2008 net investment loss is recognized over ten years, rather than four years.

This asset value is subtracted from the Plan's total actuarial accrued liability to determine the portion that is not funded. Amortization of the unfunded actuarial accrued liability is an important element in the actuarial cost of the Plan.

See **Appendix B** for more information regarding the Actuarial Value of Assets and the special PRA rules.

4. Contributions

Minimum Required Contribution

The ERISA minimum required contribution consists of the normal cost, plus payments to amortize the components of the unfunded actuarial liability over various time periods, less the “**credit balance**” in the “**funding standard account**” as of the end of the prior Plan Year (all adjusted for interest through the end of the Plan Year).

The funding standard account is used to determine the minimum required contribution. The credit balance in the funding standard account is the accumulated amount by which contributions made in prior Plan Years exceeded the ERISA minimum contribution requirements in those years. The credit balance acts as a reserve that may be drawn upon if employer contributions do not cover the net charges to the funding standard account.

Charges to the funding standard account include the normal cost and payments to amortize increases in the unfunded actuarial liability. **Credits** to the funding standard account include employer contributions and payments to amortize decreases in the unfunded actuarial liability. If the credits to the funding standard account – including employer contributions and the credit balance with applicable interest – exceed the charges, the credit balance will increase. On the other hand, if charges exceed the credits, the credit balance will decrease. If the credit balance decreases to below zero, there is an accumulated “funding deficiency” in the funding standard account.

Under the Pension Protection Act of 2006 (“PPA”), portions of unfunded actuarial liability recognized during or after the Plan Year beginning in 2008 are generally amortized in the funding standard account over 15 years. Although the funding standard account determines the amount of the ERISA minimum required contribution each Plan Year, the Plan’s long-term financial status can also be measured on the basis of a different amortization schedule adopted by the Board of Trustees. The contribution developed on that basis is shown as the “actuarial cost” in **Exhibit 4.3** (“Contribution Margin”).

Detail on the amortization bases in the funding standard account can be found in **Exhibit 4.2**.

Maximum Deductible Contribution

Generally, the IRS permits the deduction of contributions to fund benefits accruing under a qualified pension plan. However, there are certain limits that specify the maximum contribution that is permitted to be made and deducted. The maximum tax-deductible contribution for the current and preceding plan years, as determined under section 404 of the Code is shown in the following table. This amount is significantly greater than the expected contributions for the plan year. Accordingly, all employer contributions for the plan year are expected to be tax deductible.

4. Contributions

The table above shows the outstanding amortization bases in the funding standard account as of the valuation date. The amortization bases are grouped as charges, which represent increases in the unfunded actuarial liability, and credits, which represent decreases in the unfunded actuarial liability.

Different types of amortization bases are as follows:

Abbreviation	Description
Initial Liab	Initial unfunded actuarial accrued liability
Exper Loss	Actuarial experience loss (charge only)
Exper Gain	Actuarial experience loss (credit only)
ENIL (2008)	Eligible net investment loss under the Pension Relief Act of 2010
Amendment	Plan amendment
Assumption	Change in actuarial assumptions
Method	Change in the cost method or asset valuation method
Combined	Combined charge base or combined credit base
Offset	Combined and offset charge and credit bases

See **Appendix B** for more information regarding the special amortization rule.

4. Contributions

Contribution Margin

A key purpose of the actuarial valuation is to determine whether the expected contributions are sufficient to fund the Plan's benefits. The valuation develops an "actuarial cost," which includes the cost of benefits accruing during the plan year (item B.1.a.), expected operating expenses (item B.1.b.), and an amortization payment of the unfunded actuarial accrued liability (item B.2.). The amortization payment is based on the 15-year funding policy established by the Trustees.

If expected employer contributions (item C.3.) exceed the actuarial cost for the plan year (item B.3.), the Plan's contribution "margin" is positive. A positive margin usually (but not always) indicates that the Plan's funding levels will improve over time. A negative margin usually indicates that the Plan's funding levels will decline over time (or grow at a slower rate than expected under the assumed amortization period).

Exhibit 4.3 - Contribution Margin

2. Contribution Margin per Week (D.1. / C.1.)	\$ (245.74)	\$ (198.81)

Cost and contribution figures include interest adjustments to reflect payments at the middle of the year.

Notes:

- If the market value of assets were used in the above calculations, the margin for the plan year beginning May 1, 2018 would be \$(10,332,911) for the plan year and \$(246.87) per week. For the plan year beginning May 1, 2017, the margin would be \$(9,748,079) for the plan year and \$(225.58) per week.

5. ASC 960 Information

The present value of accumulated benefits as of the last day of the plan year is disclosed in the Plan's financial statements, in accordance with the Accounting Standards Codification (ASC) Number 960.

The present value of accumulated benefits is determined based on the unit credit cost method. The same actuarial assumptions that were used to determine the actuarial accrued liability as of the beginning of the plan year (e.g., May 1, 2018) were used to determine the actuarial present value of accumulated benefits as of the end of the prior plan year (e.g., April 30, 2018). See **Appendix B** for more information.

The present value of vested benefits includes disability benefits and qualified pre-retirement survivor annuity death benefits, which are excluded from the present value of vested benefits for withdrawal liability (see **Section 6**).

6. Withdrawal Liability

The Multiemployer Pension Plan Amendments Act of 1980 (MPPAA) provides that an employer who withdraws from a Plan after September 26, 1980 may be obligated to the plan for its share of any unfunded liability for vested benefits as of the last day of the plan year preceding the withdrawal.

The actuarial assumptions that were used to determine the present value of vested benefits were based on PBGC plan termination assumptions. See **Appendix B** for more information.

The present value of vested benefits reflects the plan provisions in effect on the measurement date. Plan benefits that are not considered to be vested for withdrawal liability – such as disability benefits (in excess of the value of deferred vested benefits) and death benefits – are not included in the calculation of the present value of vested benefits.

Unfunded vested benefits represent the shortfall between the Plan's asset value and the present value of vested benefits. Unfunded vested benefits are allocated among participating employers according to the presumptive method, as described under section 4211(c)(2)(A) of ERISA. The asset value is the market value of assets.

The table below shows the calculation of the unfunded vested benefits as of April 30, 2018, which will be allocated to employers withdrawing during the plan year beginning May 1, 2018. Calculations for the prior year are also shown, for reference.

3. Unamortized Balance Established 4/30/2018	\$ 12,890,662	N/A

Effective January 2, 2011, certain "adjustable benefits" (including subsidized early retirement benefits) were reduced or eliminated as part of the Rehabilitation Plan. The Affected Benefits shown above in Section C represent the present value of the adjustable benefit reductions under the Rehabilitation Plan.

7. Plan Experience

An experience gain or loss is the difference between the *actual* and the *expected* unfunded actuarial accrued liability. The *expected* unfunded accrued liability is the amount predicted from the previous year, based on the actuarial assumptions.

To evaluate the effectiveness of the actuarial assumptions, the aggregate gain or loss is broken down between the gain or loss due to investment experience and the gain or loss due to other sources (principally the demographic experience).

The experience gains (losses) have been as follows during the last ten Plan Years:

Exhibit 7.1 - Historical Experience Gains and (Losses)

Plan Year Ended April 30	From Investment Experience	From Other Sources	Total Experience Gain / (Loss)	Percent Gain/(Loss) from Other Sources*

* As a percent of Actuarial Accrued Liability

The actuarial assumptions for this valuation are summarized in **Appendix B**.

Notes

- The loss from Other Sources for the plan year ended April 30, 2014 was primarily due to changes in the accrued benefits of terminated vested participants that were verified by the Plan Administrator.
- The gain from Other Sources for the plan year ended April 30, 2013 was primarily due to the withdrawal of Hostess Brands, Inc. Active employees of Hostess Brands, Inc. no longer earn additional benefits or service under the Plan.
- The loss from Other Sources for the plan year ended April 30, 2011 was primarily due to additional retirements prior to the changes in benefits implemented under the Rehabilitation Plan.

7. Plan Experience

Investment income consists of: interest, dividends, rental and real estate income, and adjustment for market value changes, net of investment expenses. The rate of return is the net investment income as a percentage of the average value of assets during the year.

The assumed rate of Plan earnings, net of investment expenses, used in this valuation is 7.00%. Prior to the May 1, 2014 valuation, the assumed rate of plan earnings was 7.75%. The actual rates of return earned during the past ten plan years are shown below for both the actuarial value of assets and the market value of assets.

The rates of return on the actuarial value of assets are compared against the Plan's actuarially assumed return. Comparisons of performance with other funds, investment institutions and market indexes are generally based on rates of return that reflect the market value of assets. The market value rates of return by themselves do not, however, necessarily indicate the relative success of the Plan's investment policy.

Notes

- The decrease in total weeks for the plan year ended April 30, 2018 compared to the total weeks for the plan year ended April 30, 2017 is mainly due to the withdrawal of Kellogg's during the plan year ended April 30, 2018. The total weeks worked by Kellogg's employees decreased from 2,089 to 848 between these two periods.
- The total weeks for the plan year ended April 30, 2012 includes 9,710 weeks worked by 390 employees of Hostess Brands, Inc., who only worked a partial year.
- The average weeks for the plan year ended April 30, 2012 is based on the remaining active participants that are not employed by Hostess Brands, Inc.
- While this information is summarized by plan year, the information reflects weeks worked in the calendar year prior to the end of the plan year, as used for the crediting of Vesting Service and Benefit Service.

7. Plan Experience

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Plan Name	Local 734 Pension Plan
Plan Sponsor	Board of Trustees of Local 734 Pension Fund
EIN / PN	51-6040136 / 001
Interest Rates	<p>7.00% per annum, compounded annually, net of investment-related expenses for determining costs and liabilities.</p> <p>2.99% per annum for determining Current Liability for the plan year beginning May 1, 2018.</p> <p>The interest rate assumption used for purposes of the ERISA funding valuation is a reasonable estimate of the net investment return for the Local 734 Pension Plan assets over the long term and, in combination with the other assumptions used, provides our best estimate of anticipated experience under the Plan. This assumption was developed based on our professional judgement, the investment policy and asset allocation for the Local 734 Pension Plan, and considers the results of the 2018 edition of the Survey of Capital Market Assumptions by Horizon Actuarial Services, LLC.</p> <p>The interest rate assumption used to measure Current Liability represents the maximum rate permitted under the Internal Revenue Code, 105% the weighted average of the rates of interest on 30-year Treasury securities during the 4-year period ending on the last day before the beginning of the plan year.</p>
Operating Expenses	<p>Expenses are assumed to be \$900,000, as of the beginning of the plan year. Investment counseling fees are not included in assumed operating expenses.</p> <p>Expected operating expenses were developed based on actual prior and anticipated future experience and reflect professional judgment.</p>
Weeks Worked	For the purpose of projecting future benefit accruals, it is assumed that each active participant will work 48.5 weeks per year.
Active Participant	For valuation purposes, an active participant is a participant who worked one or more weeks during the calendar year prior to the valuation date, provided they have not retired or terminated prior to the valuation date.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Non-Disabled Mortality *Active and inactive vested participants:*

The sex-distinct RP-2014 mortality tables for Blue Collar Employees, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2017.

Participants and beneficiaries receiving benefits:

The sex-distinct RP-2014 mortality tables for Blue Collar Healthy Annuitants, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2017.

The non-disabled mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, expectations regarding future mortality improvement, and professional judgment.

For determining the RPA '94 Current Liability, the mortality tables prescribed by the Pension Protection Act of 2006 were used.

Disabled Mortality

The sex-distinct RP-2014 Disabled Retiree mortality tables, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2017.

The disabled mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, the Plan's definition of disabled, expectations regarding future mortality improvement, and professional judgment.

For determining the RPA '94 Current Liability, the mortality tables prescribed by the Pension Protection Act of 2006 were used.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Retirement Age

Active participants: Per the rates in the table below.

Retirement Rates (per 100 participants)

Age	≥ 30 Years of Benefit Service	< 30 Years of Benefit Service
50-54	0.02	N/A
55-56	0.06	0.02
57	0.10	0.02
58	0.15	0.02
59	0.20	0.02
60-61	0.20	0.05
62	0.50	0.20
63	0.40	0.10
64	0.45	0.10
65	1.00	1.00

Inactive vested participants: Age 65.

The weighted average retirement age for active participants is age 62.7. This average is based on the active population in the May, 1, 2018 valuation. All decrements are considered when projecting the current population to retirement. The weighted average retirement age is the average age at which the lives that reach the retirement decrement retire.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Disability

Illustrations of the annual rates of disablement are shown in the table below for selected ages (the same rates are used for males and females):

Representative Disability Rates (per 100 participants)

Age	Rate
20	0.03
25	0.04
30	0.05
35	0.07
40	0.11
45	0.18
50	0.30
55	0.50
60	0.81

These assumptions were developed based on a review of historical and current demographic data, adjusted to reflect anticipated future experience and professional judgment.

Withdrawal

Illustrations of the annual rates of withdrawal (for reasons other than mortality or disablement) are shown in the table below for selected ages:

Representative Withdrawal Rates (per 100 participants)

Age	Rate
20	0.1948
25	0.1579
30	0.1314
35	0.1129
40	0.0922
45	0.0706
50	0.0347
55	0.0000
60 and over	0.0000

These assumptions were developed based on a review of historical and current demographic data, adjusted to reflect anticipated future experience and professional judgment.

Reemployment

It is assumed that participants will not be reemployed following a break in service.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Form of Payment

Single participants are assumed to elect the single life annuity.

Married participants are assumed to elect the 50% joint and survivor annuity.

Marriage

80% of non-retired participants are assumed to be married.

Spouse Ages

Females are assumed to be three years younger than their spouses.

Cost Method

The Unit Credit Cost Method is used to determine the normal cost and the actuarial accrued liability. The actuarial accrued liability is the present value of the accrued benefits as of the beginning of the year for active participants and is the present value of all benefits for other participants. The normal cost is the present value of the difference between the accrued benefits as of the beginning and end of the year. The normal cost and actuarial accrued liability for the plan are the sums of the individually computed normal costs and actuarial accrued liabilities for all plan participants.

Asset Valuation Method

The actuarial value of assets is determined by adjusting the market value of assets to reflect the investment gains and losses (the difference between the actual investment return and the expected investment return) during each of the last four years at the rate of 25% per year. Expected investment return is calculated using the actuarial value of assets as of the beginning of the plan year and the benefit payments, employer contributions and operating expenses, weighted based on the timing of the transactions during the year.

The actuarial value is subject to a restriction that it be not less than 80% nor more than 120% of the market value.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Pension Relief Act of 2010

The following special rules were elected by the Trustees under the Pension Relief Act of 2010:

- Special amortization rule: The portions of experience losses attributable to the eligible net investment losses incurred during the plan year ending April 30, 2009 are amortized in the funding standard account over a period ending April 30, 2038.
- Special asset valuation rule:
 - Expanded Smoothing: Eligible net investment losses incurred during the plan year ending April 30, 2009 are smoothed in the actuarial value of assets over a period of 10 years.

The special rules apply retroactively to the plan year beginning May 1, 2009. For purposes of determining the amounts of the eligible net investment losses to be recognized in the funding standard account under the special amortization rule, the “prospective” method described in IRS Notice 2010-83 was used.

Participant Data

Participant census data as of May 1, 2018 was provided by the Fund Office.

Missing or Incomplete Participant Data

Assumptions were made to adjust for participants and beneficiaries with missing or incomplete data, based on those exhibited by participants with similar known characteristics.

Financial Information

Financial information was obtained from the audited financial statements.

Future Increases in Maximum Benefits

It is assumed that the maximum benefit under the Internal Revenue Code will not increase in the future.

Assumed Cost-of-Living Adjustments

None.

Benefits not Included in Valuation

None.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Nature of Actuarial Calculations

The valuation results presented in this report are estimates. The results are based on data that may be imperfect and on assumptions made about future events. Certain plan provisions may be approximated or deemed immaterial for the purposes of the valuation. Assumptions may be made about missing or incomplete participant census data or other factors. Reasonable efforts were made to ensure that significant items and factors are included in the valuation and treated appropriately. A range of results different from those presented in this report could also be considered reasonable.

The actuarial assumptions selected for this valuation – including the valuation interest rate – generally reflect average expectations over the long term. If overall future demographic or investment experience is less favorable than assumed, the relative level of plan costs determined in this valuation will likely increase in future valuations. Investment returns and demographic factors may fluctuate significantly from year to year. The deterministic actuarial models used in this valuation do not take into consideration the possibility of such volatility.

Unfunded Vested Benefits for Employer Withdrawal Liability

For purposes of determining the Unfunded Vested Benefits for Employer Withdrawal Liability, the same assumptions as presented in this Appendix are used with the exception of the following:

- The mortality assumption described in 29 CFR 4044, Appendix A, effective on the measurement date,
- The interest rate assumption described in 29 CFR 4044, Appendix B, effective on the measurement date, and
- The administrative expense assumption described in 29 CFR 4044, Appendix C.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Changes in Assumptions Since the prior valuation, the following assumptions have been changed:

- The mortality projection assumption used for non-disabled mortality and disabled mortality has been updated from a projection back to 2006 using Scale MP-2014, then projected forward to 2016 using Scale MP-2016, to a projection back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2017.
- The assumed form of payment for married participants was changed from the single life annuity to the 50% joint and survivor annuity.
- Deferred vested participants over age 70 are no longer excluded from the valuation liabilities.
- The interest rate and mortality assumptions used to determine the RPA '94 Current Liability were updated in accordance with the changes in the IRS prescribed assumptions.

**Justification for
Changes in Assumptions
and Methods**

The mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, expectations regarding future mortality improvement, and professional judgment.

The changes in the interest rate and mortality tables used to determine the RPA '94 Current Liability were mandated legislative changes.

Other changes were made to better reflect anticipated plan experience.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

This appendix summarizes the major provisions of the Plan that were reflected in the actuarial valuation. This summary of provisions is not intended to be a comprehensive statement of all provisions of the Plan.

Plan Name	Local 734 Pension Plan
Plan Sponsor	Board of Trustees of Local 734 Pension Fund
EIN / PN	51-6040136 / 001
Effective Date and Most Recent Amendment	<p>The original effective date of the Plan is May 1, 1956.</p> <p>The most recent amendment to the Plan is effective April 1, 2018.</p>
Plan Year	The twelve-month period beginning May 1 and ending April 30.
Employers	A participating Employer is any person or entity that has been accepted for participation in the Plan and that is required to contribute to the Plan pursuant to a collective bargaining agreement or participation agreement.
Participation	December 31 of the calendar year during which employment began.
Vesting Service	<p>Vesting Service is used for purposes of determining participation in the Plan, vesting, and eligibility for certain benefits.</p> <p>A participant receives one year of Vesting Service for 22 weeks or more of covered employment in each calendar year.</p>
Normal Retirement Age	A participant attains Normal Retirement Age at the later of attaining age 65 or the fifth anniversary of an active Participant's Plan participation.
Break-In-Service	<p>Completion of less than 11 weeks of covered employment in a Plan Year.</p> <p><i>Note:</i> For non-vested benefits, a permanent break occurs when the number of consecutive one-year breaks-in-service equals or exceeds the greater of five years or years of vesting service.</p>

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Regular / Reduced Regular Pension

1. For retirements prior to January 2, 2011:

Age Requirement: 60
Service Requirement: 15 years of benefit service
Amount: \$2,100

The full benefit is payable to participants with 20 or more years of service. For other participants, the full benefit is multiplied by the ratio of the participant's benefit service to 20.

2. For retirements after January 1, 2011:

Age Requirement: 65
Service Requirement: 15 years of benefit service
Amount: \$2,100 for members whose employers adopt the Alternative Schedule under the Rehabilitation Plan.
\$1,300 for members whose employers adopt the Default Schedule under the Rehabilitation Plan.

The full benefit is payable to participants with 20 or more years of benefit service. For other participants, the full benefit is multiplied by the ratio of the participant's benefit service to 20.

Service (Normal) Pension

1. For retirements prior to January 2, 2011:

Eligibility: Age 65 with 25 years of benefit service or any age with 30 years of benefit service
Amount: \$2,125

2. For retirements after January 1, 2011:

Eligibility: Age 65 with 25 years of benefit service or Age 62 with 30 years of benefit service
Amount: \$2,125 for members whose employers adopt the Alternative Schedule under the Rehabilitation Plan.
\$1,325 for members whose employers adopt the Default Schedule under the Rehabilitation Plan.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Early Retirement

1. For retirements prior to January 2, 2011:

Age Requirement: 55
Service Requirement: 15 years of benefit service
Amount: Regular Pension reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 60.

2. For retirements after January 1, 2011:

Age Requirement: 55
Service Requirement: 15 years of benefit service
Amount: Regular Pension reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 65.

If a participant has 30 years of benefit service, the Normal Pension is reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 62.

Vested Benefit

Age Requirement: None
Service Requirement: 5 years of vesting service
Amount: 3% of the normal pension multiplied by the number of years of benefit service, up to a maximum of 33-1/3 years of benefit service.
Early Payment: A participant with 15 or more years of benefit service may elect to receive a reduced deferred vested pension that will commence after age 55 but before age 65 and the monthly amount will be reduced by 2/3 of 1% for each of the first 60 months that the pension commencement date precedes the participant's normal retirement date, and 1/3% for each additional month thereafter.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Disability Pension

Age Requirement: None

Service Requirement: 15 years of benefit service

Other Requirement: Eligible for a disability insurance benefit under the Federal Social Security Act.

1. For disability retirements prior to January 2, 2011:

Amount: Early retirement pension payable at date of disability. If the participant is disabled before age 55, reduction for early retirement is limited to 30%, as if he or she had reached age 55 on the date of disability.

When Paid: Disability benefits commence with the 7th month after the month disability began and continues until age 60 or recovery from disability. At age 60, the participant becomes entitled to a regular pension or reduced pension.

2. For disability retirements after January 1, 2011 and prior to May 1, 2015:

Amount: Early retirement pension payable at date of disability. If the participant is disabled before age 55 and prior to May 1, 2015, the reduction for early retirement is limited to 60%. If the participant is disabled before age 55 and on or after May 1, 2015, an additional actuarially equivalent reduction from age 55 applies.

When Paid: Disability benefits commence with the 7th month after the month disability began and continues until age 65 or recovery from disability. At age 65, the participant becomes entitled to a regular pension or reduced pension.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Spouse's Pre-Retirement Death Benefit

Age Requirement: None

Service Requirement: 5 years of vesting service

Amount: 50% of the benefit the participant would have received had he or she retired the day before death and elected the joint and 50% survivor option. If the participant died before eligibility for an immediate pension, the spouse's benefit is deferred to the earliest retirement date the participant would have been eligible for an early retirement pension.

If the participant dies in active employment after completing at least 27 years of benefit service, the spouse's benefit may commence on the date the participant would be eligible for the service pension had he or she remained in active employment, if that is earlier than his or her earliest retirement age.

Post-Retirement Death Benefit

If a participant is receiving payments under a joint and survivor form (J&S), the surviving spouse will receive the survivor portion based on the form elected following the participant's death.

If a participant is receiving payments under the 10 year certain and life option, and dies before receiving 120 monthly payments, the named beneficiary will continue to receive payments until 120 monthly payments have been made.

Forms of Payment

Normal Form

- (a) For married participants, retirement benefits are paid in the form of a 50% Joint and Survivor Annuity unless this form is rejected by a Participant and his or her spouse. If not rejected, the benefit amount otherwise payable is reduced to reflect the joint and survivor form.
- (b) If the 50% Joint and Survivor Annuity is rejected or if the Participant is not married, benefits are payable as a Life Annuity.

Optional Forms

- (a) 75% Joint and Survivor Annuity
- (b) 100% Joint and Survivor Annuity
- (c) 50% Joint and Survivor Annuity with a Pop-Up Feature
- (d) 75% Joint and Survivor Annuity with a Pop-Up Feature
- (e) 100% Joint and Survivor Annuity with a Pop-Up Feature
- (f) 10-Year Certain and Life Option
- (g) Level Income Option (unavailable while Plan is in "Critical Status" as defined by the Pension Protection Act)

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Actuarial Equivalence

Benefits under optional forms of payment are converted from the amount payable under the Life Annuity, based on assumptions of 7.00% interest and the Unisex Pension 1984 Mortality Table.

Contribution Rates

Varies by employer and job classification from \$139.50 to \$167.43 per week with an average of \$155.32 per week for the Plan Year beginning May 1, 2018. Certain collective bargaining agreements reflect equivalent hourly rates assuming a forty hour work week.

Under the terms of the Rehabilitation Plan, the Alternative Schedule requires certain increases in the employer contribution rate. On or after May 1, 2011, the employer contribution rate must increase by at least \$3.50 per week (or \$0.0875 per hour) for each of the next four years of a collective bargaining agreement(s), followed by increases of at least \$6.00 per week (or \$0.15 per hour) for each of the next nine years of a collective bargaining agreement. The \$6.00 per week increases are reflected in the amended and restated Rehabilitation Plan effective March 26, 2014. The Rehabilitation Plan was again revised effective December 15, 2016 and requires a minimum contribution rate of \$180 per week for all contributing employers by May 1, 2020.

Contributions different from those indicated may be deemed to satisfy the requirements of the Alternative Schedule if the present value of all increases under the collective bargaining agreement(s) exceeds the present value of the increases indicated.

Benefit Service

The sum of past and future benefit service determined as follows:

Past Benefit Service – Prior to January 1, 1976, equal to pension credits determined under the prior plan.

Future Benefit Service – After January 1, 1976, determined as follows:

Weeks of Covered Employment during Calendar Year	Future Benefit Service
27 to 52 weeks	1 year
22 to 26 weeks	½ year
Less than 22 weeks	None

Changes in Plan Provisions

None.

3. Expected Disbursements [Sch. MB Line 1d(3)]	19,417,725	19,157,230

The primary use for Current Liability is to determine the amount of the maximum tax-deductible contribution for the plan year. Current Liability is also reported on the Schedule MB to the Form 5500; however, it rarely affects the determination of the ERISA minimum required contribution.

Current Liability is calculated similarly to the actuarial accrued liability under the unit credit cost method, but based on interest and mortality assumptions that are mandated by the Internal Revenue Service (IRS). The Current Liability interest rate assumption is based on 30-year Treasury yields and does not reflect the expected return on plan assets.

Current Liability and the expected increase in Current Liability attributable to benefits accruing during the plan year are shown above, as of the valuation date. Also shown above are the expected benefit payments for the plan year, based the same actuarial assumptions used to measure Current Liability.

Appendix E: Glossary

Actuarial Accrued Liability: This is computed differently under different actuarial cost methods. The Actuarial Accrued Liability generally represents the portion of the cost of the participants' anticipated retirement, termination, death and disability benefits allocated to the years before the current plan year.

Actuarial Cost: This is the contribution required for a plan year in accordance with the Trustees' funding policy. It consists of the Normal Cost plus an amortization payment to pay interest on and amortize the Unfunded Actuarial Accrued Liability based on the amortization schedule adopted by the Trustees.

Actuarial Gain or Loss: From one plan year to the next, if the experience of the plan differs from that anticipated using the actuarial assumptions, an actuarial gain or loss occurs. For example, an actuarial gain would occur if the assets in the trust earned 12% for the year while the assumed rate of return used in the valuation was 7%.

Actuarial Value of Assets: This is the value of cash, investments and other property belonging to a pension plan, as used by the actuary for the purposes of an actuarial valuation. It may be equal to the market value, or a smoothed value that recognizes changes in market value systematically over time.

Credit Balance: The Credit Balance represents the excess of actual contributions over the minimum required contributions under ERISA. The Credit Balance is also equal to the cumulative excess of credits over charges to the Funding Standard Account.

Current Liability: This is computed the same as the Present Value of Accumulated Benefits, but using interest rate and mortality assumptions specified by the IRS. This quantity is used in the calculation to determine the maximum tax deductible contribution to the plan for the year.

Funding Standard Account: This is the account which a plan is required to maintain in compliance with the minimum funding standards under ERISA. It consists of annual charges and credits needed to fund the Normal Cost and amortize the cost of plan amendments, actuarial method and assumption changes, and experience gains and losses.

Normal Cost: The Normal Cost is computed differently under different actuarial cost methods. The Normal Cost generally represents the portion of the cost of the participants' anticipated retirement, termination, death and disability benefits allocated to the current plan year. Employer Normal Cost generally also includes the cost of anticipated operating expenses.

Present Value of Accumulated Benefits: The Present Value of Accumulated Benefits is computed in accordance with ASC 960. This quantity is determined independently from the plan's actuarial cost method. This is the present value of a participant's accrued benefit as of the valuation date, assuming the participant will earn no more credited service and will receive no future salary.

Present Value of Future Benefits: This is computed by projecting the total future benefit cash flow from the plan, using actuarial assumptions, and then discounting the cash flow to the valuation date.

Present Value of Vested Benefits: This is the portion of the Present Value of Accumulated Benefits in which the employee would have a vested interest if the employee were to separate from service with the employer on the valuation date. It is also referred to as Vested Benefit Liability.

Unfunded Actuarial Accrued Liability: This is the amount by which the Actuarial Accrued Liability exceeds the Actuarial Value of Assets.

Withdrawal Liability: This is the amount an employer is required to pay upon certain types of withdrawal from a pension plan. It is an employer's allocated portion of the unfunded Present Value of Vested Benefits.

**Actuarial Valuation as of
May 1, 2019**

December 9, 2019

Actuarial Statement

As requested by the Board of Trustees of the Local 734 Pension Plan (the “Board of Trustees”), this report documents the results of an actuarial valuation of the Local 734 Pension Plan (the “Plan”) as of May 1, 2019. This valuation is based on the Plan that was established on May 1, 1956, as amended through the valuation date and reflecting the updated rehabilitation plan adopted July 8, 2019.

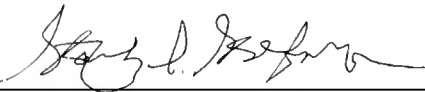

In preparing this valuation, we have relied on information and data provided to us by the Board of Trustees and other persons or organizations designated by the Board of Trustees. We did not perform an audit of the financial and participant census data provided to us, but we have reviewed the data for reasonableness for the purpose of the valuation. We have relied on all information provided, including plan provisions and asset information, as being complete and accurate.

The valuation summarized in this report involves actuarial calculations that require assumptions about future events. We believe that the assumptions and methods used in this report are reasonable and appropriate for the purposes for which they have been used. However, other assumptions and methods could also be reasonable and could result in materially different results.

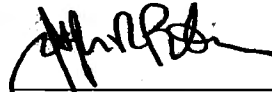

In our opinion, all methods, assumptions and calculations are in accordance with requirements of the Internal Revenue Code (the “Code”) and the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended by the Pension Protection Act of 2006 (“PPA”), and the Multiemployer Pension Reform Act of 2014 (“MPRA”). Further, in our opinion, the procedures followed and presentation of results are in conformity with generally accepted actuarial principles and practices. The Board of Trustees was responsible for the selection of the actuarial cost and asset valuation methods.

This valuation report may not be reproduced or distributed without the consent of the Board of Trustees, other than to assist in the Plan’s administration and to meet the filing requirements of federal government agencies, and may be distributed only in its entirety. The results in this valuation may not be applicable for purposes other than those described in this report.

The undersigned consultants of Horizon Actuarial Services, LLC (“Horizon Actuarial”) with actuarial credentials meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. There is no relationship between the Board of Trustees and Horizon Actuarial that affects our objectivity.

Local 734 Pension Plan

Actuarial Valuation as of May 1, 2019

1. Introduction

Exhibit 1.2 – Commentary

Valuation Highlights

- As of the May 1, 2019 valuation date, the Plan's accrued benefit funded percentage, based on the actuarial value of assets, is 51.8%, compared to 51.3% as of May 1, 2018. The increase in the Plan's funded percentage on an actuarial value of assets basis is primarily attributable to the decrease in liability associated with the 2019 update to the Rehabilitation Plan.
- The Plan's accrued benefit funded percentage, based on the market value of assets, is 51.1% as of May 1, 2019, compared to 51.1% as of May 1, 2018. The Plan's funded percentage on a market value of assets basis remained at 51.1% because the lower-than-expected return on the market value of assets was offset by the decrease in liability associated with the 2019 update to the Rehabilitation Plan.
- The Plan's funding deficiency increased from \$1,270,417 as of April 30, 2018 to a funding deficiency of \$13,652,192 as of April 30, 2019. This is the result of contributions for the Plan Year being less than the minimum required contribution.
- 39,030 weeks were worked in the 2018 Plan Year, fewer than the projected 41,856 weeks. The average weeks worked per active participant increased from 46.68 weeks for the year ended April 30, 2018 to 47.60 weeks for the year ended April 30, 2019. The impact of work levels on the valuation results will continue to be monitored.
- In the 2018 Plan Year, the Plan's investment return was 3.0%, on a market value basis. The return on the actuarial value of assets, which reflects the "smoothing" of prior years' gains and losses, was 4.0%.
- The actuarial gain from sources other than investments was \$977,512 or 0.40% of the expected actuarial accrued liability. This gain was primarily due to fewer retirements and more terminations than assumed.
- The most recent update to the Rehabilitation Plan, effective September 2, 2019, resulted in a number of Plan provision changes. The cumulative impact of these changes is a decrease in the Actuarial Accrued Liability of \$16.4 million (6.24%).

1. Introduction

Exhibit 1.2 – Commentary

Pension Protection Act of 2006

The Plan was certified in critical and declining status (“Red Zone”) for 2019, the same status as the prior year. On September 20, 2010, the Trustees adopted a Rehabilitation Plan, as required under the Pension Protection Act of 2006 (PPA), to improve the Plan’s long term funding health, with provisions effective January 2, 2011. The Rehabilitation Plan was updated on March 26, 2014, again on December 15, 2016, and again on July 8, 2019.

The Rehabilitation Plan was developed under the expectation that all contributing employers would continue to participate in the Plan. However, in 2012, Hostess Brands, Inc., one of the largest contributing employers to the Plan, withdrew from that Plan and declared bankruptcy, leaving the Plan with a significant amount of unpaid employer withdrawal liability. The Board of Trustees continues to examine alternatives that will improve funding or forestall insolvency.

Purpose of the Valuation

This report presents the results of the actuarial valuation of the Local 734 Pension Plan as of May 1, 2019. The purposes of this report include the following:

- Determine whether the negotiated contributions are sufficient to fund the Plan’s benefits.
- Determine the minimum required contribution amount for the Plan Year under the Employee Retirement Income Security Act of 1974 (“ERISA”) funding basis.
- Determine the maximum tax-deductible contribution for the Plan Year.
- Review the actuarial assumptions in view of experience during the prior Plan Year.
- Determine the unfunded vested liability for computation of withdrawal liability under the Multiemployer Pension Plan Amendments Act of 1980.
- Develop information for disclosure in Form 5500 Schedule MB.
- Determine the contribution margin for the Plan Year.
- Develop the benefit liabilities that will serve as the basis for the Plan’s 2020 status certification under the Pension Protection Act of 2006.
- Determine the information required for the Plan’s ASC 960 financial reporting.

Actuarial Assumptions and Methods

The changes to the actuarial assumptions and methods from those used in the previous valuation are as follows:

Mortality Projection:

- The mortality projection assumption used for non-disabled mortality and disabled mortality has been updated from Scale MP-2017 to Scale MP-2018.

Form of Payment:

- The assumed form of payment for married participants was changed from the 50% joint and survivor annuity to the following:
 - 42% are assumed to elect a single life annuity, 33% are assumed to elect a 50% joint and survivor annuity, and 25% are assumed to elect a 100% joint and survivor annuity.

Retirement Rates:

- Assumed rate of retirement changed for active and inactive vested participants based on recent Plan experience and anticipated Plan experience following the 2019 update to the Rehabilitation Plan.

Operating Expenses:

- The assumed operating expenses were changed from \$900,000 to \$950,000 to reflect anticipated plan experience.

Impact:

- The overall impact of these changes was an increase in Actuarial Accrual Liability of \$326,478 (0.12%).

Unfunded Vested Benefits for Withdrawal Liability:

- The interest rate for determining the present value of vested benefits for employer withdrawal liability was increased from 2.27% to 3.07% for the first 20 years, and from 2.59% to 3.05% after 20 years to be consistent the change in the PBGC interest rates used to determine the present value of vested benefits for a mass withdrawal.

Current Liability:

- The interest rate and mortality assumptions used to determine the RPA '94 Current Liability were updated in accordance with the changes in the IRS prescribed assumptions.

The actuarial assumptions and methods used in the valuation are described in more detail in **Appendix B**.

Exhibit 1.2 – Commentary

Plan Provisions

The following Plan Provision changes have been made since the prior valuation to reflect updates to the Rehabilitation Plan effective for all retirements on and after September 2, 2019:

- The Regular, Reduced Regular, 30 & Out, Early, and Disability Pensions were eliminated.
- The benefit formula for all participants is now based on the Deferred Vested formula: $\$2,125 \times 3\% \times \text{Years of Benefit Service}$ (to a maximum of 33.33 years).
- All benefits commencing prior to Normal Retirement Age are reduced 8% per year for the first 5 years and 4% per year for the next 5 years that commencement precedes Normal Retirement Age.
- Eliminated the joint and survivor with pop up forms of payment and the 10 year certain and life annuity form of payment.

These changes resulted in a decrease to the Actuarial Accrued Liability of \$16,726,253 million (6.36%).

Appendix C describes the principal provisions of the Plan being valued.

Actuarial Gain or Loss

An experience gain/(loss) is the difference between the actual and the expected unfunded actuarial liability. The expected unfunded liability is the amount projected from the previous year, based on the actuarial assumptions.

The Plan had a net actuarial experience loss of \$2,850,454 for the plan year ended April 30, 2019. The components of this loss are a gain of \$977,512 from sources related to benefit liabilities and a loss of \$3,827,966 on Plan assets.

There was a loss on the market value of assets for the plan year (2.97% net return versus the 7.00% assumption), however only a portion of that loss is recognized in the actuarial value of assets under the Plan's asset valuation method. The gain on the actuarial value of assets (4.01% net return versus the 7.00% assumption) results from continued recognition of prior years' gains/(losses).

The gain on liabilities (which represented about 0.40% of expected liabilities) was primarily due to fewer retirements than assumed and more terminations than assumed. A consistent pattern of gains and losses may indicate a need to refine the actuarial assumptions. We will monitor trends as they emerge and evaluate possible updates to the assumptions as needed.

Actuarial gains and losses for the last ten years are shown in **Exhibit 8.1**.

1. Introduction

Exhibit 1.2 – Commentary

Work Experience

As previously noted, 39,030 weeks were worked by all participants in the 2018 Plan Year, fewer than the assumed 41,856 for the year. Active participants are assumed to work 39,770 weeks during the 2019 Plan Year. The current and projected funding results for the Plan are sensitive to the number of weeks worked (and contributed on), thus we will continue to closely monitor the Plan's reported hours.

PPA Certification Status

Horizon Actuarial Services, LLC, acting as actuary to the Plan, issued a certification to the Internal Revenue Service on July 23, 2019 indicating that the Plan is in critical and declining status under Section 432 of the Internal Revenue Code (i.e., in the "Red Zone") for the 2019 Plan Year.

The calculations, data, assumptions, and methods used in the certification are documented in a separate report that was sent to the Board of Trustees on July 23, 2019.

The Plan is projected to continue to be in critical and declining status in future years as a result of the Hostess bankruptcy. We continue to work with the Board of Trustees to examine alternatives that will improve funding and forestall insolvency.

Participant Data

The participant census data needed to perform the actuarial valuation was provided by the Fund Office. Participant demographics are summarized in **Exhibit 1.3** and reviewed in more detail in **Appendix A**.

Plan Assets

The Plan's Auditor supplied us with the audited financial statements for the Plan Year ended April 30, 2019, which sets forth the assets of the Plan. A reconciliation of the Market Value of Assets can be found in **Exhibit 3.1**. The development of the Actuarial Value of Assets is shown in **Exhibit 3.2**.

1. Introduction

Exhibit 1.3 - Participant Demographic Summary

Measurement Date	5/1/2019	5/1/2018
A. Active Participants		
1. Count	820	863
2. Average Age	47.63	47.18
3. Average Accumulated Benefit	\$ 10,719	\$ 10,204
4. Average Credited Service	14.01	13.52
5. Actual Weeks of Contributions in Prior Year	47.60	46.68
6. Assumed Weeks Per Active Participant	48.50	48.50
B. Inactive Vested Participants		
1. Count	993	1,024
2. Average Age	53.93	53.56
3. Average Monthly Benefit	\$ 630	\$ 642
C. Retired Participants and Beneficiaries		
1. Count	1,666	1,658
2. Average Age	73.71	73.69
3. Average Monthly Benefit	\$ 914	\$ 907
D. Total Participants	3,479	3,545

Participants are generally classified into the following categories for valuation purposes:

- Active participants: Those participants who worked one or more weeks during the calendar year prior to the valuation date, provided they have not retired or terminated prior to the valuation date.
- Inactive vested participants: Those participants who are not active and who are entitled to receive a deferred vested pension. Deferred Beneficiaries are also included in this group.
- Participants and beneficiaries receiving benefits: Those participants and beneficiaries who were receiving a pension under the Plan as of the valuation date. Included in this category are non-disabled pensioners, disabled pensioners, and beneficiaries.

A summary of basic demographic statistics is shown above. Additional demographic information can be found in **Appendix A**.

2. Inactive and Retired Participants	18,953,124	18,147,915
3. Total	\$ 19,414,203	\$ 19,143,928

The table above summarizes the key actuarial benefit liabilities as of the current and preceding valuation dates. The present value of future benefits (item A.) represents the liability for benefits earned as of the valuation date plus the benefits expected to be earned in all future plan years. The normal cost (item B.) represents the cost of benefit accruals (item B.1.) expected to be earned during the plan year plus expected operating expenses during the plan year (item B.2.). The actuarial accrued liability is the liability for benefits earned through the valuation date, based on the unit credit cost method (item C.).

The Plan's contribution requirements for the plan year are a function of the normal cost and the portion of the actuarial accrued liability not funded by the actuarial value of assets. All amounts shown above are measured as of the beginning of the plan year. The actuarial accrued liability based on the unit credit cost method is also used to determine the PPA funded percentage.

The Expected Benefit Payments for the Plan Year in Item D assume that all participants who have attained Normal Retirement Age but have not commenced their benefit will do so as of the beginning of the Plan Year.

2. Actuarial Liabilities

D. Assumed Operating Expenses			\$ 950,000
E. Grand Total	\$ 261,663,765	\$ 246,516,648	\$ 2,860,805

The present value of future benefits reflects both benefits earned through the valuation date and benefits expected to be earned in the future by active participants. The present value of future benefits and the actuarial accrued liability shown in the table above are measured as of the valuation date.

The normal cost and assumed operating expenses shown in the table above are payable as of the beginning of the year.

3. Plan Assets

Asset figures shown below are based on the Plan's audited financial statements.

For the plan year ending April 30, 2019 employer contributions of \$6,457,200 were made during the plan year, and \$531,133 were receivable at the end of the plan year. In addition, withdrawal liability payments of \$350,256 were made during the plan year. For the plan year ending April 30, 2018 employer contributions of \$6,034,049 were made during the plan year, \$499,876 were receivable at the end of the plan year. In addition, withdrawal liability payments of \$175,128 were made during the plan year. See item A.2., above.

3. Plan Assets

The Trustees have approved an actuarial asset valuation method that gradually adjusts to market value, as follows:

- The actuarial asset value is equal to the market value of assets less unrecognized returns in each of the last four years. Unrecognized return is equal to the difference between the actual market return and the projected return on the actuarial value, phased in at the rate of 25% per year.
- To comply with IRS regulations, the actuarial value is, in any event, not less than 80%, nor more than 120%, of current market value.

Under this valuation method the full value of market fluctuations is not recognized and as a result, the asset value and the actuarial cost are more stable. The adjustment in the asset value is referred to as a write-up or write-down. The development of the actuarial value of assets is shown on the next page.

In determining the actuarial value of assets, the amount of the adjustment to market value is treated as income, which may be positive or negative. Realized gains and losses and unrealized gains and losses are treated equally and, therefore, the sale of assets has no immediate effect on the actuarial value. This removes any consideration of the impact that sales of assets may have on the determination of the actuarial cost of the Plan.

This asset value is subtracted from the Plan's total actuarial accrued liability to determine the portion that is not funded. Amortization of the unfunded actuarial accrued liability is an important element in the actuarial cost of the Plan.

See **Appendix B** for more information regarding the Actuarial Value of Assets.

4. Contributions

Minimum Required Contribution

The ERISA minimum required contribution consists of the normal cost, plus payments to amortize the components of the unfunded actuarial liability over various time periods, less the “**credit balance**” in the “**funding standard account**” as of the end of the prior Plan Year (all adjusted for interest through the end of the Plan Year).

The funding standard account is used to determine the minimum required contribution. The credit balance in the funding standard account is the accumulated amount by which contributions made in prior Plan Years exceeded the ERISA minimum contribution requirements in those years. The credit balance acts as a reserve that may be drawn upon if employer contributions do not cover the net charges to the funding standard account.

Charges to the funding standard account include the normal cost and payments to amortize increases in the unfunded actuarial liability. **Credits** to the funding standard account include employer contributions and payments to amortize decreases in the unfunded actuarial liability. If the credits to the funding standard account – including employer contributions and the credit balance with applicable interest – exceed the charges, the credit balance will increase. On the other hand, if charges exceed the credits, the credit balance will decrease. If the credit balance decreases to below zero, there is an accumulated “funding deficiency” in the funding standard account.

Under the Pension Protection Act of 2006 (“PPA”), portions of unfunded actuarial liability recognized during or after the Plan Year beginning in 2008 are generally amortized in the funding standard account over 15 years. Although the funding standard account determines the amount of the ERISA minimum required contribution each Plan Year, the Plan’s long-term financial status can also be measured on the basis of a different amortization schedule adopted by the Board of Trustees. The contribution developed on that basis is shown as the “actuarial cost” in **Exhibit 4.3** (“Contribution Margin”).

Detail on the amortization bases in the funding standard account can be found in **Exhibit 4.2**.

Maximum Deductible Contribution

Generally, the IRS permits the deduction of contributions to fund benefits accruing under a qualified pension plan. However, there are certain limits that specify the maximum contribution that is permitted to be made and deducted. The maximum tax-deductible contribution for the current and preceding plan years, as determined under section 404 of the Code is shown in the following table. This amount is significantly greater than the expected contributions for the plan year. Accordingly, all employer contributions for the plan year are expected to be tax deductible.

The table above shows the outstanding amortization bases in the funding standard account as of the valuation date. The amortization bases are grouped as charges, which represent increases in the unfunded actuarial liability, and credits, which represent decreases in the unfunded actuarial liability.

Different types of amortization bases are as follows:

Abbreviation	Description
Initial Liab	Initial unfunded actuarial accrued liability
Exper Loss	Actuarial experience loss (charge only)
Exper Gain	Actuarial experience loss (credit only)
ENIL (2008)	Eligible net investment loss under the Pension Relief Act of 2010
Amendment	Plan amendment
Assumption	Change in actuarial assumptions
Method	Change in the cost method or asset valuation method
Combined	Combined charge base or combined credit base
Offset	Combined and offset charge and credit bases

See **Appendix B** for more information regarding the special amortization rule.

4. Contributions

Contribution Margin

A key purpose of the actuarial valuation is to determine whether the expected contributions are sufficient to fund the Plan's benefits. The valuation develops an "actuarial cost," which includes the cost of benefits accruing during the plan year (item B.1.a.), expected operating expenses (item B.1.b.), and an amortization payment of the unfunded actuarial accrued liability (item B.2.). The amortization payment is based on the 15-year funding policy established by the Trustees.

If expected employer contributions (item C.3.) exceed the actuarial cost for the plan year (item B.3.), the Plan's contribution "margin" is positive. A positive margin usually (but not always) indicates that the Plan's funding levels will improve over time. A negative margin usually indicates that the Plan's funding levels will decline over time (or grow at a slower rate than expected under the assumed amortization period).

2. Contribution Margin per Week (D.1. / C.1.)	\$ (222.50)	\$ (245.73)

Cost and contribution figures include interest adjustments to reflect payments at the middle of the year.

Notes:

- If the market value of assets were used in the above calculations, the margin for the plan year beginning May 1, 2019 would be \$(9,037,952) for the plan year and \$(227.26) per week. For the plan year beginning May 1, 2018, the margin would be \$(10,332,119) for the plan year and \$(246.85) per week.

Local 734 Pension Plan

Actuarial Valuation as of May 1, 2019

5. ASC 960 Information

The present value of accumulated benefits as of the last day of the plan year is disclosed in the Plan's financial statements, in accordance with the Accounting Standards Codification (ASC) Number 960.

The present value of accumulated benefits is determined based on the unit credit cost method. The same actuarial assumptions that were used to determine the actuarial accrued liability as of the beginning of the plan year (e.g., May 1, 2019) were used to determine the actuarial present value of accumulated benefits as of the end of the prior plan year (e.g., April 30, 2019). See **Appendix B** for more information.

The present value of vested benefits includes disability benefits and qualified pre-retirement survivor annuity death benefits, which are excluded from the present value of vested benefits for withdrawal liability (see **Section 6**).

For the column 4/30/2019, Item 2a. includes the effect of the plan changes effective September 2, 2019.

6. Withdrawal Liability

The Multiemployer Pension Plan Amendments Act of 1980 (MPPAA) provides that an employer who withdraws from a Plan after September 26, 1980 may be obligated to the plan for its share of any unfunded liability for vested benefits as of the last day of the plan year preceding the withdrawal.

The actuarial assumptions that were used to determine the present value of vested benefits were based on PBGC plan termination assumptions. See **Appendix B** for more information.

The present value of vested benefits reflects the plan provisions in effect on the measurement date. Plan benefits that are not considered to be vested for withdrawal liability – such as disability benefits (in excess of the value of deferred vested benefits) and death benefits – are not included in the calculation of the present value of vested benefits.

Unfunded vested benefits represent the shortfall between the Plan's asset value and the present value of vested benefits. Unfunded vested benefits are allocated among participating employers according to the presumptive method, as described under section 4211(c)(2)(A) of ERISA. The asset value is the market value of assets.

The table below shows the calculation of the unfunded vested benefits as of April 30, 2019, which will be allocated to employers withdrawing during the plan year beginning May 1, 2019. Calculations for the prior year are also shown, for reference.

3. Unamortized Balance Established 4/30/2018	\$ 12,246,129	\$ 12,890,662

The Rehabilitation Plan, as effective on January 2, 2011 and updated in 2014 and 2016, has eliminated certain "adjustable benefits". The Affected Benefits shown above in Section C represent the present value of the adjustable benefit reductions under the Rehabilitation Plan. These values do not reflect subsequent changes in adjustable benefits adopted after April 30, 2019.

7. Risk

The deterministic actuarial models used in this valuation are based on a single set of assumptions and do not take into consideration the risk associated with deviations from those assumptions. The assumptions selected for this valuation – including the valuation interest rate – generally reflect average expectations over the long term.

If overall future economic or demographic experience is different than assumed, the level of plan costs determined in this valuation could increase or decrease dramatically in future valuations. In order to better understand the Plan's risk exposure, a summary of the significant risk factors for this pension plan is provided below.

Specific Risk Factors

The following is a brief overview of the most significant risk factors inherent in the Plan. We have identified these risks to be significant because small deviations will materially impact the results, or the likelihood of volatility is high, or both.

- **Investment Risk** is the risk that investment returns will be higher or lower than assumed.
 - Based on the market value of assets of \$126 million, underperformance of 1% during the plan year (e.g., 6.0% versus the assumed rate of 7.0%) is equal to \$1.26 million, or about \$3.36 per week for 15 years assuming 48.5 weeks worked per year per active participant.
- **Contribution Risk** is the risk that actual contributions will differ from assumed contributions.
 - For example, if a large employer or a significant number of smaller employers were to withdraw from the Fund, the required contributions for remaining employers would likely increase.
- **Longevity Risk** is the risk that mortality rates will be higher or lower than assumed.
 - While the mortality tables we have selected for this valuation represent our best estimate of future experience under the Plan, it is important to understand how future changes in longevity would impact Plan funding. For example, advancements in medicine and health care could result in longer lifespans, which increases the Plan's liability, since promised benefits will be paid for a longer period of time. Such increases could have a significant impact on the contribution requirements shown in this valuation.

7. Risk

Risk Assessment

The commentary on the prior page is a broad overview of pension plan risk factors and includes information on the risk factors that are most significant for this pension plan. Other risks also apply. A more detailed risk assessment would allow the Trustees to better understand how deviations from the assumptions may affect the plan, and ultimately, how to better position the plan to respond to the inevitable deviations that will occur. A more detailed risk assessment may include scenario tests, sensitivity tests, stochastic modeling, stress tests, or other information.

Plan Maturity

More mature pension plans generally have more risk exposure than less mature plans because they have fewer options to correct funding shortfalls that may develop as a result of adverse experience. For example, the contribution rate increase required to offset a year with a poor investment return would be larger for a plan with a decreasing active population than it would be for an otherwise similar plan with an increasing active population.

Historical actuarial measurements – including plan maturity measures – are shown in **Section 8** of this report.

8. Plan Experience

An experience gain or loss is the difference between the *actual* and the *expected* unfunded actuarial accrued liability. The *expected* unfunded accrued liability is the amount predicted from the previous year, based on the actuarial assumptions.

To evaluate the effectiveness of the actuarial assumptions, the aggregate gain or loss is broken down between the gain or loss due to investment experience and the gain or loss due to other sources (principally the demographic experience).

The experience gains (losses) have been as follows during the last ten Plan Years:

Exhibit 8.1 - Historical Experience Gains and (Losses)

Plan Year Ended April 30	From Investment Experience	From Other Sources	Total Experience Gain / (Loss)	Percent Gain/(Loss) from Other Sources*
2019	(3,827,966)	977,512	(2,850,454)	0.40%

* As a percent of Actuarial Accrued Liability

The actuarial assumptions for this valuation are summarized in **Appendix B**.

Notes

- The loss from Other Sources for the plan year ended April 30, 2014 was primarily due to changes in the accrued benefits of terminated vested participants that were verified by the Plan Administrator.
- The gain from Other Sources for the plan year ended April 30, 2013 was primarily due to the withdrawal of Hostess Brands, Inc. Active employees of Hostess Brands, Inc. no longer earn additional benefits or service under the Plan.
- The loss from Other Sources for the plan year ended April 30, 2011 was primarily due to additional retirements prior to the changes in benefits implemented under the Rehabilitation Plan.

8. Plan Experience

Investment income consists of: interest, dividends, rental and real estate income, and adjustment for market value changes, net of investment expenses. The rate of return is the net investment income as a percentage of the average value of assets during the year.

The assumed rate of Plan earnings, net of investment expenses, used in this valuation is 7.00%. Prior to the May 1, 2014 valuation, the assumed rate of plan earnings was 7.75%. The actual rates of return earned during the past ten plan years are shown below for both the actuarial value of assets and the market value of assets.

The rates of return on the actuarial value of assets are compared against the Plan's actuarially assumed return. Comparisons of performance with other funds, investment institutions and market indexes are generally based on rates of return that reflect the market value of assets. The market value rates of return by themselves do not, however, necessarily indicate the relative success of the Plan's investment policy.

Notes

- The decrease in total weeks for the plan year ended April 30, 2018 compared to the total weeks for the plan year ended April 30, 2017 is mainly due to the withdrawal of Kellogg's during the plan year ended April 30, 2018. The total weeks worked by Kellogg's employees decreased from 2,089 to 848 between these two periods.
- The total weeks for the plan year ended April 30, 2012 includes 9,710 weeks worked by 390 employees of Hostess Brands, Inc., who only worked a partial year.
- The average weeks for the plan year ended April 30, 2012 is based on the remaining active participants that are not employed by Hostess Brands, Inc.
- While this information is summarized by plan year, the information reflects weeks worked in the calendar year prior to the end of the plan year, as used for the crediting of Vesting Service and Benefit Service.

Notes

- **Inactive to active participant ratio** = number of inactive participants / number of active participants.
- **Inactive to active liability ratio** = accrued liability for inactive participants / accrued liability for active participants.
 - Inactive participants include vested participants with deferred benefits, retirees in payment status, and beneficiaries in payment status.
 - It is generally more difficult for plans with higher inactive to active ratios to improve plan funding via changes to contributions and/or future benefit accruals.
- **Total liability per active** = total plan actuarial accrued liability / number of active participants.
 - In general, higher values of liability per active equate to higher levels of risk in the plan. It may be more difficult for plans with higher levels of liability per active to correct funding shortfalls that develop.
- **Unfunded liability per active** = (total plan actuarial accrued liability – market value of assets) / number of active participants.
 - Higher levels of unfunded liability per active equate to lower levels of current and future plan benefits because a more significant portion of the contributions are needed to fund legacy liabilities.
 - Historical changes in the amount of unfunded liability per active can provide insight into plan specific risk factors such as investment risk.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Plan Name	Local 734 Pension Plan
Plan Sponsor	Board of Trustees of Local 734 Pension Fund
EIN / PN	51-6040136 / 001
Interest Rates	<p>7.00% per annum, compounded annually, net of investment-related expenses for determining costs and liabilities.</p> <p>3.09% per annum for determining Current Liability for the plan year beginning May 1, 2019.</p> <p>The interest rate assumption used for purposes of the ERISA funding valuation is a reasonable estimate of the net investment return for the Local 734 Pension Plan assets over the long term and, in combination with the other assumptions used, provides our best estimate of anticipated experience under the Plan. This assumption was developed based on our professional judgement, the investment policy and asset allocation for the Local 734 Pension Plan, and considers the results of the 2019 edition of the Survey of Capital Market Assumptions by Horizon Actuarial Services, LLC.</p> <p>The interest rate assumption used to measure Current Liability represents the maximum rate permitted under the Internal Revenue Code, 105% the weighted average of the rates of interest on 30-year Treasury securities during the 4-year period ending on the last day before the beginning of the plan year.</p>
Operating Expenses	<p>Expenses are assumed to be \$950,000, as of the beginning of the plan year. Investment counseling fees are not included in assumed operating expenses.</p> <p>Expected operating expenses were developed based on actual prior and anticipated future experience and reflect professional judgment.</p>
Weeks Worked	For the purpose of projecting future benefit accruals, it is assumed that each active participant will work 48.5 weeks per year.
Active Participant	For valuation purposes, an active participant is a participant who worked one or more weeks during the calendar year prior to the valuation date, provided they have not retired or terminated prior to the valuation date.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Non-Disabled Mortality *Active and inactive vested participants:*

The sex-distinct RP-2014 mortality tables for Blue Collar Employees, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

Participants and beneficiaries receiving benefits:

The sex-distinct RP-2014 mortality tables for Blue Collar Healthy Annuitants, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

The non-disabled mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, expectations regarding future mortality improvement, and professional judgment.

For determining the RPA '94 Current Liability, the mortality tables prescribed by the Pension Protection Act of 2006 were used.

Disabled Mortality

The sex-distinct RP-2014 Disabled Retiree mortality tables, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

The disabled mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, the Plan's definition of disabled, expectations regarding future mortality improvement, and professional judgment.

For determining the RPA '94 Current Liability, the mortality tables prescribed by the Pension Protection Act of 2006 were used.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Retirement Age

Active participants: Per the rates in the table below.

Retirement Rates (per 100 participants)

Age	Active Participants
50-54	0.00
55-59	0.02
60-61	0.05
62	0.20
63	0.25
64	0.05
65	0.25
66	0.45
67-69	0.25
70	1.00

Inactive vested participants: Age 60 for Participants with 15 or more years of Benefit Service; otherwise, age 65.

The weighted average retirement age for active participants is age 64.6. This average is based on the active population in the May, 1, 2019 valuation. All decrements are considered when projecting the current population to retirement. The weighted average retirement age is the average age at which the lives that reach the retirement decrement retire.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Disability

Illustrations of the annual rates of disablement are shown in the table below for selected ages (the same rates are used for males and females):

Representative Disability Rates (per 100 participants)

Age	Rate
20	0.03
25	0.04
30	0.05
35	0.07
40	0.11
45	0.18
50	0.30
55	0.50
60	0.81

These assumptions were developed based on a review of historical and current demographic data, adjusted to reflect anticipated future experience and professional judgment.

Withdrawal

Illustrations of the annual rates of withdrawal (for reasons other than mortality or disablement) are shown in the table below for selected ages:

Representative Withdrawal Rates (per 100 participants)

Age	Rate
20	0.1948
25	0.1579
30	0.1314
35	0.1129
40	0.0922
45	0.0706
50	0.0347
55	0.0000
60 and over	0.0000

These assumptions were developed based on a review of historical and current demographic data, adjusted to reflect anticipated future experience and professional judgment.

Reemployment

It is assumed that participants will not be reemployed following a break in service.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Form of Payment	<p>Single participants are assumed to elect the single life annuity.</p> <p>For married participants, 42% are assumed to elect a single life annuity, 33% are assumed to elect the 50% joint and survivor annuity, and 25% are assumed to elect a 100% joint and survivor annuity.</p>
Marriage	<p>80% of non-retired participants are assumed to be married.</p>
Spouse Ages	<p>Females are assumed to be three years younger than their spouses.</p>
Cost Method	<p>The Unit Credit Cost Method is used to determine the normal cost and the actuarial accrued liability. The actuarial accrued liability is the present value of the accrued benefits as of the beginning of the year for active participants and is the present value of all benefits for other participants. The normal cost is the present value of the difference between the accrued benefits as of the beginning and end of the year. The normal cost and actuarial accrued liability for the plan are the sums of the individually computed normal costs and actuarial accrued liabilities for all plan participants.</p>
Asset Valuation Method	<p>The actuarial value of assets is determined by adjusting the market value of assets to reflect the investment gains and losses (the difference between the actual investment return and the expected investment return) during each of the last four years at the rate of 25% per year. Expected investment return is calculated using the actuarial value of assets as of the beginning of the plan year and the benefit payments, employer contributions and operating expenses, weighted based on the timing of the transactions during the year.</p> <p>The actuarial value is subject to a restriction that it be not less than 80% nor more than 120% of the market value.</p>
Participant Data	<p>Participant census data as of May 1, 2019 was provided by the Fund Office.</p>
Missing or Incomplete Participant Data	<p>Assumptions were made to adjust for participants and beneficiaries with missing or incomplete data, based on those exhibited by participants with similar known characteristics.</p>
Financial Information	<p>Financial information was obtained from the audited financial statements.</p>

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

**Future Increases in
Maximum Benefits**

It is assumed that the maximum benefit under the Internal Revenue Code will not increase in the future.

**Assumed Cost-of-Living
Adjustments**

None.

**Benefits not Included in
Valuation**

None.

**Nature of Actuarial
Calculations**

The valuation results presented in this report are estimates. The results are based on data that may be imperfect and on assumptions made about future events. Certain plan provisions may be approximated or deemed immaterial for the purposes of the valuation. Assumptions may be made about missing or incomplete participant census data or other factors. Reasonable efforts were made to ensure that significant items and factors are included in the valuation and treated appropriately. A range of results different from those presented in this report could also be considered reasonable.

The actuarial assumptions selected for this valuation – including the valuation interest rate – generally reflect average expectations over the long term. If overall future demographic or investment experience is less favorable than assumed, the relative level of plan costs determined in this valuation will likely increase in future valuations. Investment returns and demographic factors may fluctuate significantly from year to year. The deterministic actuarial models used in this valuation do not take into consideration the possibility of such volatility.

**Unfunded Vested
Benefits for Employer
Withdrawal Liability**

For purposes of determining the Unfunded Vested Benefits for Employer Withdrawal Liability, the same assumptions as presented in this Appendix are used with the exception of the following:

- The mortality assumption described in 29 CFR 4044, Appendix A, effective on the measurement date,
 - The interest rate assumption described in 29 CFR 4044, Appendix B, effective on the measurement date, and
 - The administrative expense assumption described in 29 CFR 4044, Appendix C.
-

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Changes in Assumptions Since the prior valuation, the following assumptions have been changed:

- The mortality projection assumption used for non-disabled mortality and disabled mortality has been updated from a projection back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2017, to a projection back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.
- The assumed form of payment for married participants was updated based on recent Plan experience.
- The assumed rates of retirement were updated for active and inactive participants.
- The assumed operating expenses were update to reflect anticipated plan experience.
- The interest rate and mortality assumptions used to determine the RPA '94 Current Liability were updated in accordance with the changes in the IRS prescribed assumptions.

**Justification for
Changes in Assumptions
and Methods**

The mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, expectations regarding future mortality improvement, and professional judgment.

The updates to retirement rates and the form of payment assumption were made to better reflect recent Plan experience and anticipated Plan experience following the 2019 update to the rehabilitation plan.

The update to the assumed operating expenses were made to reflect anticipated plan experience.

The changes in the interest rate and mortality tables used to determine the RPA '94 Current Liability were mandated legislative changes.

Other changes were made to better reflect anticipated plan experience.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

This appendix summarizes the major provisions of the Plan that were reflected in the actuarial valuation. This summary of provisions is not intended to be a comprehensive statement of all provisions of the Plan.

Plan Name	Local 734 Pension Plan
Plan Sponsor	Board of Trustees of Local 734 Pension Fund
EIN / PN	51-6040136 / 001
Effective Date and Most Recent Amendment	<p>The original effective date of the Plan is May 1, 1956.</p> <p>The most recent amendment to the Plan is effective September 2, 2019.</p>
Plan Year	The twelve-month period beginning May 1 and ending April 30.
Employers	A participating Employer is any person or entity that has been accepted for participation in the Plan and that is required to contribute to the Plan pursuant to a collective bargaining agreement or participation agreement.
Participation	December 31 of the calendar year during which employment began.
Vesting Service	<p>Vesting Service is used for purposes of determining participation in the Plan, vesting, and eligibility for certain benefits.</p> <p>A participant receives one year of Vesting Service for 22 weeks or more of covered employment in each calendar year.</p>
Normal Retirement Age	A participant attains Normal Retirement Age at the later of attaining age 65 or the fifth anniversary of an active Participant's Plan participation.
Break-In-Service	<p>Completion of less than 11 weeks of covered employment in a Plan Year.</p> <p><i>Note:</i> For non-vested benefits, a permanent break occurs when the number of consecutive one-year breaks-in-service equals or exceeds the greater of five years or years of vesting service.</p>

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Normal Pension

1. For retirements after September 1, 2019:

Eligibility:	Attainment of Normal Retirement Age
Amount:	\$2,125 multiplied by 3% multiplied by the number of years of benefit service, up to a maximum of 33-1/3 years of benefit service.

2. For retirements after January 1, 2011 and before September 2, 2019:

Eligibility:	Age 65 with 25 years of benefit service or Age 62 with 30 years of benefit service
Amount:	\$2,125 for members whose employers adopt the Alternative Schedule under the Rehabilitation Plan. \$1,325 for members whose employers adopt the Default Schedule under the Rehabilitation Plan.

3. For retirements prior to January 2, 2011:

Eligibility:	Age 65 with 25 years of benefit service or any age with 30 years of benefit service
Amount:	\$2,125

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Regular / Reduced Regular Pension

This benefit has been eliminated for all retirements after September 1, 2019.

1. For retirements prior to January 2, 2011:

Age Requirement: 60
Service Requirement: 15 years of benefit service
Amount: \$2,100

The full benefit is payable to participants with 20 or more years of service. For other participants, the full benefit is multiplied by the ratio of the participant's benefit service to 20.

2. For retirements after January 1, 2011 and before September 2, 2019:

Age Requirement: 65
Service Requirement: 15 years of benefit service
Amount: \$2,100 for members whose employers adopt the Alternative Schedule under the Rehabilitation Plan.
\$1,300 for members whose employers adopt the Default Schedule under the Rehabilitation Plan.

The full benefit is payable to participants with 20 or more years of benefit service. For other participants, the full benefit is multiplied by the ratio of the participant's benefit service to 20.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Early Retirement

This benefit has been eliminated for all retirements after September 1, 2019.

1. For retirements prior to January 2, 2011:

Age Requirement: 55
Service Requirement: 15 years of benefit service
Amount: Regular Pension reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 60.

2. For retirements after January 1, 2011 and before September 2, 2019:

Age Requirement: 55
Service Requirement: 15 years of benefit service
Amount: Regular Pension reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 65.

If a participant has 30 years of benefit service, the Normal Pension is reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 62.

Vested Benefit

Age Requirement: None
Service Requirement: 5 years of vesting service
Amount: **\$2,125 multiplied by 3% multiplied by the number of years of benefit service, up to a maximum of 33-1/3 years of benefit service.**
Early Payment: A participant with 15 or more years of benefit service may elect to receive a reduced deferred vested pension that will commence after age 55 but before age 65 and the monthly amount will be reduced by 2/3rds of 1% for each of the first 60 months that the pension commencement date precedes the participant's normal retirement date, and 1/3rd of 1% for each additional month thereafter.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Disability Pension

This benefit has been eliminated for all retirements after September 1, 2019.

Age Requirement: None

Service Requirement: 15 years of benefit service

Other Requirement: Eligible for a disability insurance benefit under the Federal Social Security Act.

1. For disability retirements prior to January 2, 2011:

Amount: Early retirement pension payable at date of disability. If the participant is disabled before age 55, reduction for early retirement is limited to 30%, as if he or she had reached age 55 on the date of disability.

When Paid: Disability benefits commence with the 7th month after the month disability began and continues until age 60 or recovery from disability. At age 60, the participant becomes entitled to a regular pension or reduced pension.

2. For disability retirements after January 1, 2011 and before September 2, 2019:

Amount: Early retirement pension payable at date of disability. If the participant is disabled before age 55 and prior to May 1, 2015, the reduction for early retirement is limited to 60%. If the participant is disabled before age 55 and on or after May 1, 2015, an additional actuarially equivalent reduction from age 55 applies.

When Paid: Disability benefits commence with the 7th month after the month disability began and continues until age 65 or recovery from disability. At age 65, the participant becomes entitled to a regular pension or reduced pension.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Spouse's Pre-Retirement Death Benefit

Age Requirement: None

Service Requirement: 5 years of vesting service

Amount: 50% of the benefit the participant would have received had he or she retired the day before death and elected the joint and 50% survivor option. If the participant died before eligibility for an immediate pension, the spouse's benefit is deferred to the earliest retirement date the participant would have been eligible for an early retirement pension.

If the participant dies in active employment after completing at least 27 years of benefit service, the spouse's benefit may commence on the date the participant would be eligible for the service pension had he or she remained in active employment, if that is earlier than his or her earliest retirement age.

Post-Retirement Death Benefit

If a participant is receiving payments under a joint and survivor form (J&S), the surviving spouse will receive the survivor portion based on the form elected following the participant's death.

If a participant is receiving payments under the 10 year certain and life option, and dies before receiving 120 monthly payments, the named beneficiary will continue to receive payments until 120 monthly payments have been made.

Forms of Payment

Normal Form

- (a) For married participants, retirement benefits are paid in the form of a 50% Joint and Survivor Annuity unless this form is rejected by a Participant and his or her spouse. If not rejected, the benefit amount otherwise payable is reduced to reflect the joint and survivor form.
- (b) If the 50% Joint and Survivor Annuity is rejected or if the Participant is not married, benefits are payable as a Life Annuity.

Optional Forms

- (a) 75% Joint and Survivor Annuity
- (b) 100% Joint and Survivor Annuity

The following payment forms were eliminated for all benefits commencing after September 1, 2019:

- (a) 50%, 75%, and 100% Joint and Survivor Annuity with a Pop-Up Feature
- (b) 10-Year Certain and Life Option
- (c) Level Income Option (unavailable while Plan is in "Critical Status" as defined by the Pension Protection Act)

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Actuarial Equivalence

Benefits under optional forms of payment are converted from the amount payable under the Life Annuity, based on assumptions of 7.00% interest and the Unisex Pension 1984 Mortality Table.

Contribution Rates

Varies by employer and job classification from \$151.21 to \$180.00 per week with an average of \$169.06 per week for the Plan Year beginning May 1, 2019. Certain collective bargaining agreements reflect equivalent hourly rates assuming a forty hour work week.

Under the terms of the Rehabilitation Plan, the Alternative Schedule requires certain increases in the employer contribution rate. On or after May 1, 2011, the employer contribution rate must increase by at least \$3.50 per week (or \$0.0875 per hour) for each of the next four years of a collective bargaining agreement(s), followed by increases of at least \$6.00 per week (or \$0.15 per hour) for each of the next nine years of a collective bargaining agreement. The \$6.00 per week increases are reflected in the amended and restated Rehabilitation Plan effective March 26, 2014. The Rehabilitation Plan was again revised effective December 15, 2016 and requires a minimum contribution rate of \$180 per week for all contributing employers by May 1, 2020.

Contributions different from those indicated may be deemed to satisfy the requirements of the Alternative Schedule if the present value of all increases under the collective bargaining agreement(s) exceeds the present value of the increases indicated.

Benefit Service

The sum of past and future benefit service determined as follows:

Past Benefit Service – Prior to January 1, 1976, equal to pension credits determined under the prior plan.

Future Benefit Service – After January 1, 1976, determined as follows:

Weeks of Covered Employment during Calendar Year	Future Benefit Service
27 to 52 weeks	1 year
22 to 26 weeks	½ year
Less than 22 weeks	None

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Changes in Plan Provisions

The following Plan Provision changes have been made since the prior valuation to reflect updates to the Rehabilitation Plan effective for all retirements on and after September 2, 2019:

- The Regular, Reduced Regular, 30 & Out, Early, and Disability Pensions were eliminated.
- The benefit formula for all participants is now based on the Deferred Vested formula: $\$2,125 \times 3\% \times \text{Years of Benefit Service}$ (to a maximum of 33.33 years).
- All benefits commencing prior to Normal Retirement Age are reduced 8% per year for the first 5 years and 4% per year for the next 5 years that commencement precedes Normal Retirement Age. Eliminated the joint and survivor with pop up forms of payment and the year certain and life annuity form of payment.

3. Expected Disbursements [Sch. MB Line 1d(3)]	19,729,159	19,417,725

The primary use for Current Liability is to determine the amount of the maximum tax-deductible contribution for the plan year. Current Liability is also reported on the Schedule MB to the Form 5500; however, it rarely affects the determination of the ERISA minimum required contribution.

Current Liability is calculated similarly to the actuarial accrued liability under the unit credit cost method, but based on interest and mortality assumptions that are mandated by the Internal Revenue Service (IRS). The Current Liability interest rate assumption is based on 30-year Treasury yields and does not reflect the expected return on plan assets.

Current Liability and the expected increase in Current Liability attributable to benefits accruing during the plan year are shown above, as of the valuation date. Also shown above are the expected benefit payments for the plan year, based the same actuarial assumptions used to measure Current Liability.

Appendix E: Glossary

Actuarial Accrued Liability: This is computed differently under different actuarial cost methods. The Actuarial Accrued Liability generally represents the portion of the cost of the participants' anticipated retirement, termination, death and disability benefits allocated to the years before the current plan year.

Actuarial Cost: This is the contribution required for a plan year in accordance with the Trustees' funding policy. It consists of the Normal Cost plus an amortization payment to pay interest on and amortize the Unfunded Actuarial Accrued Liability based on the amortization schedule adopted by the Trustees.

Actuarial Gain or Loss: From one plan year to the next, if the experience of the plan differs from that anticipated using the actuarial assumptions, an actuarial gain or loss occurs. For example, an actuarial gain would occur if the assets in the trust earned 12% for the year while the assumed rate of return used in the valuation was 7%.

Actuarial Value of Assets: This is the value of cash, investments and other property belonging to a pension plan, as used by the actuary for the purposes of an actuarial valuation. It may be equal to the market value, or a smoothed value that recognizes changes in market value systematically over time.

Credit Balance: The Credit Balance represents the excess of actual contributions over the minimum required contributions under ERISA. The Credit Balance is also equal to the cumulative excess of credits over charges to the Funding Standard Account.

Current Liability: This is computed the same as the Present Value of Accumulated Benefits, but using interest rate and mortality assumptions specified by the IRS. This quantity is used in the calculation to determine the maximum tax deductible contribution to the plan for the year.

Funding Standard Account: This is the account which a plan is required to maintain in compliance with the minimum funding standards under ERISA. It consists of annual charges and credits needed to fund the Normal Cost and amortize the cost of plan amendments, actuarial method and assumption changes, and experience gains and losses.

Normal Cost: The Normal Cost is computed differently under different actuarial cost methods. The Normal Cost generally represents the portion of the cost of the participants' anticipated retirement, termination, death and disability benefits allocated to the current plan year. Employer Normal Cost generally also includes the cost of anticipated operating expenses.

Present Value of Accumulated Benefits: The Present Value of Accumulated Benefits is computed in accordance with ASC 960. This quantity is determined independently from the plan's actuarial cost method. This is the present value of a participant's accrued benefit as of the valuation date, assuming the participant will earn no more credited service and will receive no future salary.

Present Value of Future Benefits: This is computed by projecting the total future benefit cash flow from the plan, using actuarial assumptions, and then discounting the cash flow to the valuation date.

Present Value of Vested Benefits: This is the portion of the Present Value of Accumulated Benefits in which the employee would have a vested interest if the employee were to separate from service with the employer on the valuation date. It is also referred to as Vested Benefit Liability.

Unfunded Actuarial Accrued Liability: This is the amount by which the Actuarial Accrued Liability exceeds the Actuarial Value of Assets.

Withdrawal Liability: This is the amount an employer is required to pay upon certain types of withdrawal from a pension plan. It is an employer's allocated portion of the unfunded Present Value of Vested Benefits.

Local 734

Pension Plan

**Actuarial Valuation as of
May 1, 2020**

December 4, 2020

Actuarial Statement

As requested by the Board of Trustees of the Local 734 Pension Plan (the “Board of Trustees”), this report documents the results of an actuarial valuation of the Local 734 Pension Plan (the “Plan”) as of May 1, 2020. This valuation is based on the Plan that was established on May 1, 1956, as amended through the valuation date.

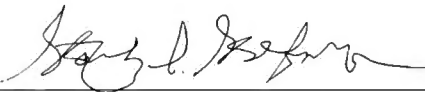

In preparing this valuation, we have relied on information and data provided to us by the Board of Trustees and other persons or organizations designated by the Board of Trustees. We did not perform an audit of the financial and participant census data provided to us, but we have reviewed the data for reasonableness for the purpose of the valuation. We have relied on all information provided, including plan provisions and asset information, as being complete and accurate.

The valuation summarized in this report involves actuarial calculations that require assumptions about future events. We believe that the assumptions and methods used in this report are reasonable and appropriate for the purposes for which they have been used. However, other assumptions and methods could also be reasonable and could result in materially different results.

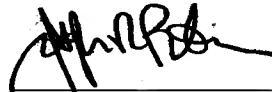

In our opinion, all methods, assumptions and calculations are in accordance with requirements of the Internal Revenue Code (the “Code”) and the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended by the Pension Protection Act of 2006 (“PPA”), and the Multiemployer Pension Reform Act of 2014 (“MPRA”). Further, in our opinion, the procedures followed and presentation of results are in conformity with generally accepted actuarial principles and practices. The Board of Trustees was responsible for the selection of the actuarial cost and asset valuation methods.

This valuation report may not be reproduced or distributed without the consent of the Board of Trustees, other than to assist in the Plan’s administration and to meet the filing requirements of federal government agencies, and may be distributed only in its entirety. The results in this valuation may not be applicable for purposes other than those described in this report.

The undersigned consultants of Horizon Actuarial Services, LLC (“Horizon Actuarial”) with actuarial credentials meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. There is no relationship between the Board of Trustees and Horizon Actuarial that affects our objectivity.

Local 734 Pension Plan

Actuarial Valuation as of May 1, 2020

1. Introduction

Exhibit 1.2 – Commentary

Valuation Highlights

- As of the May 1, 2020 valuation date, the Plan's accrued benefit funded percentage, based on the actuarial value of assets, is 44.2%, compared to 51.8% as of May 1, 2019. The decrease in the Plan's funded percentage on an actuarial value of assets basis is primarily attributable to the reduction in the valuation interest rate assumption from 7.0% to 6.0% and lower investment returns than expected on the actuarial value of assets for the Plan Year ending April 30, 2020.
- The Plan's accrued benefit funded percentage, based on the market value of assets, is 39.3% as of May 1, 2020, compared to 51.1% as of May 1, 2019. The decrease in the Plan's funded percentage on a market value of assets basis is primarily attributable to the reduction in the valuation interest rate assumption from 7.0% to 6.0% and lower investment returns than expected on the market value of assets for the Plan Year ending April 30, 2020.
- The Plan's funding deficiency increased from \$13,652,192 as of April 30, 2019 to a funding deficiency of \$23,587,451 as of April 30, 2020. This is the result of contributions for the Plan Year being less than the minimum required contribution.
- 36,936 weeks were worked in the 2019 Plan Year, fewer than the assumed 39,770 weeks for the year. The average weeks worked per active participant decreased from 47.60 weeks for the year ended April 30, 2019 to 44.98 weeks for the year ended April 30, 2020. This decrease is primarily attributable to an increase in retirements prior to the September 2, 2019 plan changes (resulting from the 2019 Rehabilitation Plan Update). The impact of work levels on the valuation results will continue to be monitored.
- In the 2019 Plan Year, the Plan's investment return was -5.6%, on a market value basis. The return on the actuarial value of assets, which reflects the "smoothing" of prior years' gains and losses, was 4.0%.
- The actuarial loss from sources other than investments was \$458,054 or 0.17% of the expected actuarial accrued liability. This loss was primarily due to active participants who retired before the September 2, 2019 plan changes (resulting from the 2019 Rehabilitation Plan Update), partially offset by a gain due to more retiree deaths than expected.

1. Introduction

Exhibit 1.2 – Commentary

Pension Protection Act of 2006

The Plan was certified in critical and declining status (“Red Zone”) for the 2020 Plan Year, the same status as the prior year. On September 20, 2010, the Trustees adopted a Rehabilitation Plan, as required under the Pension Protection Act of 2006 (PPA), to improve the Plan’s long term funding health, with provisions effective January 2, 2011. The Rehabilitation Plan was updated on March 26, 2014, again on December 15, 2016, and again on July 8, 2019.

The Rehabilitation Plan was developed under the expectation that all contributing employers would continue to participate in the Plan. However, in 2012, Hostess Brands, Inc., one of the largest contributing employers to the Plan, withdrew from that Plan and declared bankruptcy, leaving the Plan with a significant amount of unpaid employer withdrawal liability. The Board of Trustees continues to examine alternatives that will improve funding or forestall insolvency.

Purpose of the Valuation

This report presents the results of the actuarial valuation of the Local 734 Pension Plan as of May 1, 2020. The purposes of this report include the following:

- Determine whether the negotiated contributions are sufficient to fund the Plan’s benefits.
- Determine the minimum required contribution amount for the Plan Year under the Employee Retirement Income Security Act of 1974 (“ERISA”) funding basis.
- Determine the maximum tax-deductible contribution for the Plan Year.
- Review the actuarial assumptions in view of experience during the prior Plan Year.
- Determine the unfunded vested liability for computation of withdrawal liability under the Multiemployer Pension Plan Amendments Act of 1980.
- Develop information for disclosure in Form 5500 Schedule MB.
- Determine the contribution margin for the Plan Year.
- Develop the benefit liabilities that will serve as the basis for the Plan’s 2021 Plan Year status certification under the Pension Protection Act of 2006.
- Determine the information required for the Plan’s ASC 960 financial reporting.

Exhibit 1.2 – Commentary

Actuarial Assumptions and Methods

The changes to the actuarial assumptions and methods from those used in the previous valuation are as follows:

Valuation Interest Rate:

- The assumed interest rate for ERISA funding purposes was reduced from 7.00% to 6.00% to reflect anticipated plan experience.
- The impact of this change was an increase in Actuarial Accrual Liability of \$25,146,265 (10.2%).

Operating Expenses:

- The assumed operating expenses were changed from \$950,000 to \$900,000 to reflect anticipated plan experience.

Unfunded Vested Benefits for Withdrawal Liability:

- The interest rates for determining the present value of vested benefits for employer withdrawal liability were decreased from 3.07% to 2.11% for the first 20 years, and from 3.05% to 1.92% after 20 years to be consistent the change in the PBGC interest rates used to determine the present value of vested benefits for a mass withdrawal.

Current Liability:

- The interest rate and mortality assumptions used to determine the RPA '94 Current Liability were updated in accordance with the changes in the IRS prescribed assumptions.

The actuarial assumptions and methods used in the valuation are described in more detail in **Appendix B**.

Plan Provisions

There have been no changes to the Plan Provisions valued from the prior valuation.

Appendix C describes the principal provisions of the Plan being valued.

Actuarial Gain or Loss

An experience gain/(loss) is the difference between the actual and the expected unfunded actuarial liability. The expected unfunded liability is the amount projected from the previous year, based on the actuarial assumptions.

The Plan had a net actuarial experience loss of \$4,065,842 for the plan year ended April 30, 2020. The components of this loss are a loss of \$458,054 from sources related to benefit liabilities and a loss of \$3,607,788 on Plan assets.

There was a loss on the market value of assets for the plan year (-5.56% net return versus the 7.00% assumption), however only a portion of that loss is recognized in the actuarial value of assets under the Plan's asset valuation method. The loss on the actuarial value of assets (4.02% net return versus the 7.00% assumption) results from continued recognition of prior years' gains/(losses).

The loss on liabilities (which represented about -0.17 % of expected liabilities) was primarily due to actives that retired before the September 2, 2019 plan changes (resulting from the 2019 Rehabilitation Plan Update), partially offset by a gain due to more retiree deaths than expected. A consistent pattern of gains and losses may indicate a need to refine the actuarial assumptions. We will monitor trends as they emerge and evaluate possible updates to the assumptions as needed.

Actuarial gains and losses for the last ten years are shown in **Exhibit 8.1**.

1. Introduction

Exhibit 1.2 – Commentary

Work Experience

As previously noted, 36,936 weeks were worked by all participants in the 2019 Plan Year, fewer than the assumed 39,770 for the year. This decrease is primarily attributable to an increase in retirements prior to the September 2, 2019 plan changes (resulting from the 2019 Rehabilitation Plan Update). Active participants are assumed to work 38,655 weeks during the 2020 Plan Year. The current and projected funding results for the Plan are sensitive to the number of weeks worked (and contributed on), thus we will continue to closely monitor the Plan's reported hours.

PPA Certification Status

Horizon Actuarial Services, LLC, acting as actuary to the Plan, issued a certification to the Internal Revenue Service on July 27, 2020 indicating that the Plan is in critical and declining status under Section 432 of the Internal Revenue Code (i.e., in the "Red Zone") for the 2020 Plan Year.

The calculations, data, assumptions, and methods used in the certification are documented in a separate report that was sent to the Board of Trustees on July 27, 2020

The Plan is projected to continue to be in critical and declining status in future years as a result of the Hostess bankruptcy. We continue to work with the Board of Trustees to examine alternatives that will improve funding and forestall insolvency.

Participant Data

The participant census data needed to perform the actuarial valuation was provided by the Fund Office. Participant demographics are summarized in **Exhibit 1.3** and reviewed in more detail in **Appendix A**.

Plan Assets

The Plan's Auditor supplied us with the audited financial statements for the Plan Year ended April 30, 2020, which sets forth the assets of the Plan. A reconciliation of the Market Value of Assets can be found in **Exhibit 3.1**. The development of the Actuarial Value of Assets is shown in **Exhibit 3.2**.

2. Average Age	73.69	73.71
3. Average Monthly Benefit	\$ 927	\$ 914
D. Total Participants	3,488	3,479

Participants are generally classified into the following categories for valuation purposes:

- Active participants: Those participants who worked one or more weeks during the calendar year prior to the valuation date, provided they have not retired or terminated prior to the valuation date.
- Inactive vested participants: Those participants who are not active and who are entitled to receive a deferred vested pension. Deferred Beneficiaries are also included in this group.
- Participants and beneficiaries receiving benefits: Those participants and beneficiaries who were receiving a pension under the Plan as of the valuation date. Included in this category are non-disabled pensioners, disabled pensioners, and beneficiaries.

A summary of basic demographic statistics is shown above. Additional demographic information can be found in **Appendix A**.

2. Inactive and Retired Participants	19,969,039	18,953,124
3. Total	\$ 20,279,679	\$ 19,414,203

The table above summarizes the key actuarial benefit liabilities as of the current and preceding valuation dates. The present value of future benefits (item A.) represents the liability for benefits earned as of the valuation date plus the benefits expected to be earned in all future plan years. The normal cost (item B.) represents the cost of benefit accruals (item B.1.) expected to be earned during the plan year plus expected operating expenses during the plan year (item B.2.). The actuarial accrued liability is the liability for benefits earned through the valuation date, based on the unit credit cost method (item C.).

The Plan's contribution requirements for the plan year are a function of the normal cost and the portion of the actuarial accrued liability not funded by the actuarial value of assets. All amounts shown above are measured as of the beginning of the plan year. The actuarial accrued liability based on the unit credit cost method is also used to determine the PPA funded percentage.

The Expected Benefit Payments for the Plan Year in Item D assume that all participants who have attained Normal Retirement Age but have not commenced their benefit will do so as of the beginning of the Plan Year.

E. Grand Total	\$ 290,978,675	\$ 272,087,550	\$ 3,050,609

The present value of future benefits reflects both benefits earned through the valuation date and benefits expected to be earned in the future by active participants. The present value of future benefits and the actuarial accrued liability shown in the table above are measured as of the valuation date.

The normal cost and assumed operating expenses shown in the table above are payable as of the beginning of the year.

For the plan year ending April 30, 2020 employer contributions of \$6,580,955 were made during the plan year, and \$504,302 were receivable at the end of the plan year. In addition, withdrawal liability payments of \$350,256 were made during the plan year. For the plan year ending April 30, 2019 employer contributions of \$6,457,200 were made during the plan year, and \$531,133 were receivable at the end of the plan year. In addition, withdrawal liability payments of \$350,256 were made during the plan year. See item A.2., above.

3. Plan Assets

The Trustees have approved an actuarial asset valuation method that gradually adjusts to market value, as follows:

- The actuarial asset value is equal to the market value of assets less unrecognized returns in each of the last four years. Unrecognized return is equal to the difference between the actual market return and the projected return on the actuarial value, phased in at the rate of 25% per year.
- To comply with IRS regulations, the actuarial value is, in any event, not less than 80%, nor more than 120%, of current market value.

Under this valuation method the full value of market fluctuations is not recognized and as a result, the asset value and the actuarial cost are more stable. The adjustment in the asset value is referred to as a write-up or write-down. The development of the actuarial value of assets is shown on the next page.

In determining the actuarial value of assets, the amount of the adjustment to market value is treated as income, which may be positive or negative. Realized gains and losses and unrealized gains and losses are treated equally and, therefore, the sale of assets has no immediate effect on the actuarial value. This removes any consideration of the impact that sales of assets may have on the determination of the actuarial cost of the Plan.

This asset value is subtracted from the Plan's total actuarial accrued liability to determine the portion that is not funded. Amortization of the unfunded actuarial accrued liability is an important element in the actuarial cost of the Plan.

See **Appendix B** for more information regarding the Actuarial Value of Assets.

Minimum Required Contribution

The ERISA minimum required contribution consists of the normal cost, plus payments to amortize the components of the unfunded actuarial liability over various time periods, less the “**credit balance**” in the “**funding standard account**” as of the end of the prior Plan Year (all adjusted for interest through the end of the Plan Year).

The funding standard account is used to determine the minimum required contribution. The credit balance in the funding standard account is the accumulated amount by which contributions made in prior Plan Years exceeded the ERISA minimum contribution requirements in those years. The credit balance acts as a reserve that may be drawn upon if employer contributions do not cover the net charges to the funding standard account.

Charges to the funding standard account include the normal cost and payments to amortize increases in the unfunded actuarial liability. **Credits** to the funding standard account include employer contributions and payments to amortize decreases in the unfunded actuarial liability. If the credits to the funding standard account – including employer contributions and the credit balance with applicable interest – exceed the charges, the credit balance will increase. On the other hand, if charges exceed the credits, the credit balance will decrease. If the credit balance decreases to below zero, there is an accumulated “funding deficiency” in the funding standard account.

Under the Pension Protection Act of 2006 (“PPA”), portions of unfunded actuarial liability recognized during or after the Plan Year beginning in 2008 are generally amortized in the funding standard account over 15 years. Although the funding standard account determines the amount of the ERISA minimum required contribution each Plan Year, the Plan’s long-term financial status can also be measured on the basis of a different amortization schedule adopted by the Board of Trustees. The contribution developed on that basis is shown as the “actuarial cost” in **Exhibit 4.3** (“Contribution Margin”).

Detail on the amortization bases in the funding standard account can be found in **Exhibit 4.2**.

Maximum Deductible Contribution

Generally, the IRS permits the deduction of contributions to fund benefits accruing under a qualified pension plan. However, there are certain limits that specify the maximum contribution that is permitted to be made and deducted. The maximum tax-deductible contribution for the current and preceding plan years, as determined under section 404 of the Code is shown in the following table. This amount is significantly greater than the expected contributions for the plan year. Accordingly, all employer contributions for the plan year are expected to be tax deductible.

The table above shows the outstanding amortization bases in the funding standard account as of the valuation date. The amortization bases are grouped as charges, which represent increases in the unfunded actuarial liability, and credits, which represent decreases in the unfunded actuarial liability.

Different types of amortization bases are as follows:

Abbreviation	Description
Initial Liab	Initial unfunded actuarial accrued liability
Exper Loss	Actuarial experience loss (charge only)
Exper Gain	Actuarial experience loss (credit only)
ENIL (2008)	Eligible net investment loss under the Pension Relief Act of 2010
Amendment	Plan amendment
Assumption	Change in actuarial assumptions
Method	Change in the cost method or asset valuation method
Combined	Combined charge base or combined credit base
Offset	Combined and offset charge and credit bases

See **Appendix B** for more information regarding the special amortization rule.

4. Contributions

Contribution Margin

A key purpose of the actuarial valuation is to determine whether the expected contributions are sufficient to fund the Plan's benefits. The valuation develops an "actuarial cost," which includes the cost of benefits accruing during the plan year (item B.1.a.), expected operating expenses (item B.1.b.), and an amortization payment of the unfunded actuarial accrued liability (item B.2.). The amortization payment is based on the 15-year funding policy established by the Trustees.

If expected employer contributions (item C.3.) exceed the actuarial cost for the plan year (item B.3.), the Plan's contribution "margin" is positive. A positive margin usually (but not always) indicates that the Plan's funding levels will improve over time. A negative margin usually indicates that the Plan's funding levels will decline over time (or grow at a slower rate than expected under the assumed amortization period).

2. Contribution Margin per Week (D.1. / C.1.)	\$ (293.81)	\$ (222.50)

Cost and contribution figures include interest adjustments to reflect payments at the middle of the year.

Notes:

- If the market value of assets were used in the above calculations, the margin for the plan year beginning May 1, 2020 would be \$(12,690,464) for the plan year and \$(328.30) per week. For the plan year beginning May 1, 2019, the margin would be \$(9,037,952) for the plan year and \$(227.26) per week.

5. ASC 960 Information

The present value of accumulated benefits as of the last day of the plan year is disclosed in the Plan's financial statements, in accordance with the Accounting Standards Codification (ASC) Number 960.

The present value of accumulated benefits is determined based on the unit credit cost method. The same actuarial assumptions that were used to determine the actuarial accrued liability as of the beginning of the plan year (e.g., May 1, 2020) were used to determine the actuarial present value of accumulated benefits as of the end of the prior plan year (e.g., April 30, 2020). See **Appendix B** for more information.

The present value of vested benefits includes disability benefits and qualified pre-retirement survivor annuity death benefits, which are excluded from the present value of vested benefits for withdrawal liability (see **Section 6**).

For the column 4/30/2019, Item 2a. includes the effect of the plan changes effective September 2, 2019.

6. Withdrawal Liability

The Multiemployer Pension Plan Amendments Act of 1980 (MPPAA) provides that an employer who withdraws from a Plan after September 26, 1980 may be obligated to the plan for its share of any unfunded liability for vested benefits as of the last day of the plan year preceding the withdrawal.

The actuarial assumptions that were used to determine the present value of vested benefits were based on PBGC plan termination assumptions. See **Appendix B** for more information.

The present value of vested benefits reflects the plan provisions in effect on the measurement date. Plan benefits that are not considered to be vested for withdrawal liability – such as disability benefits (in excess of the value of deferred vested benefits) and death benefits – are not included in the calculation of the present value of vested benefits.

Unfunded vested benefits represent the shortfall between the Plan's asset value and the present value of vested benefits. Unfunded vested benefits are allocated among participating employers according to the presumptive method, as described under section 4211(c)(2)(A) of ERISA. The asset value is the market value of assets.

The table below shows the calculation of the unfunded vested benefits as of April 30, 2020, which will be allocated to employers withdrawing during the plan year beginning May 1, 2020. Calculations for the prior year are also shown, for reference.

The Rehabilitation Plan, as effective on January 2, 2011 and updated in 2014, 2016 and 2019, has eliminated certain "adjustable benefits". The Affected Benefits shown above in Section C represent the present value of the adjustable benefit reductions under the Rehabilitation Plan.

7. Risk

The deterministic actuarial models used in this valuation are based on a single set of assumptions and do not take into consideration the risk associated with deviations from those assumptions. The assumptions selected for this valuation – including the valuation interest rate – generally reflect average expectations over the long term.

If overall future economic or demographic experience is different than assumed, the level of plan costs determined in this valuation could increase or decrease dramatically in future valuations. In order to better understand the Plan's risk exposure, a summary of the significant risk factors for this pension plan is provided below.

Specific Risk Factors

The following is a brief overview of the most significant risk factors inherent in the Plan. We have identified these risks to be significant because small deviations will materially impact the results, or the likelihood of volatility is high, or both.

- **Investment Risk** is the risk that investment returns will be higher or lower than assumed.
 - Based on the market value of assets of \$107 million, underperformance of 1% during the plan year (e.g., 5.0% versus the assumed rate of 6.0%) is equal to \$1.07 million, or about \$2.77 per week for 15 years assuming 48.5 weeks worked per year per active participant.
- **Contribution Risk** is the risk that actual contributions will differ from assumed contributions.
 - For example, if a large employer or a significant number of smaller employers were to withdraw from the Fund, the required contributions for remaining employers would likely increase.
- **Longevity Risk** is the risk that mortality rates will be higher or lower than assumed.
 - While the mortality tables we have selected for this valuation represent our best estimate of future experience under the Plan, it is important to understand how future changes in longevity would impact Plan funding. For example, advancements in medicine and health care could result in longer lifespans, which increases the Plan's liability, since promised benefits will be paid for a longer period of time. Such increases could have a significant impact on the contribution requirements shown in this valuation.

7. Risk

Risk Assessment

The commentary on the prior page is a broad overview of pension plan risk factors and includes information on the risk factors that are most significant for this pension plan. Other risks also apply. A more detailed risk assessment would allow the Trustees to better understand how deviations from the assumptions may affect the plan, and ultimately, how to better position the plan to respond to the inevitable deviations that will occur. A more detailed risk assessment may include scenario tests, sensitivity tests, stochastic modeling, stress tests, or other information.

Plan Maturity

More mature pension plans generally have more risk exposure than less mature plans because they have fewer options to correct funding shortfalls that may develop as a result of adverse experience. For example, the contribution rate increase required to offset a year with a poor investment return would be larger for a plan with a decreasing active population than it would be for an otherwise similar plan with an increasing active population.

Historical actuarial measurements – including plan maturity measures – are shown in **Section 8** of this report.

8. Plan Experience

An experience gain or loss is the difference between the *actual* and the *expected* unfunded actuarial accrued liability. The *expected* unfunded accrued liability is the amount predicted from the previous year, based on the actuarial assumptions.

To evaluate the effectiveness of the actuarial assumptions, the aggregate gain or loss is broken down between the gain or loss due to investment experience and the gain or loss due to other sources (principally the demographic experience).

The experience gains (losses) have been as follows during the last ten Plan Years:

Exhibit 8.1 - Historical Experience Gains and (Losses)

Plan Year Ended April 30	From Investment Experience	From Other Sources	Total Experience Gain / (Loss)	Percent Gain/(Loss) from Other Sources*
2020	(3,607,788)	(458,054)	(4,065,842)	-0.17%

* As a percent of Actuarial Accrued Liability

The actuarial assumptions for this valuation are summarized in **Appendix B**.

Notes

- The loss from Other Sources for the plan year ended April 30, 2014 was primarily due to changes in the accrued benefits of terminated vested participants that were verified by the Plan Administrator.
- The gain from Other Sources for the plan year ended April 30, 2013 was primarily due to the withdrawal of Hostess Brands, Inc. Active employees of Hostess Brands, Inc. no longer earn additional benefits or service under the Plan.
- The loss from Other Sources for the plan year ended April 30, 2011 was primarily due to additional retirements prior to the changes in benefits implemented under the Rehabilitation Plan.

8. Plan Experience

Investment income consists of: interest, dividends, rental and real estate income, and adjustment for market value changes, net of investment expenses. The rate of return is the net investment income as a percentage of the average value of assets during the year.

The assumed rate of Plan earnings, net of investment expenses, used in this valuation is 6.00%. The actual rates of return earned during the past ten plan years are shown below for both the actuarial value of assets and the market value of assets.

The rates of return on the actuarial value of assets are compared against the Plan's actuarially assumed return. Comparisons of performance with other funds, investment institutions and market indexes are generally based on rates of return that reflect the market value of assets. The market value rates of return by themselves do not, however, necessarily indicate the relative success of the Plan's investment policy.

5-Year Average	40,328		46.85	
10-Year Average	43,662		47.62	

Notes

- The decrease in total weeks for the plan year ended April 30, 2019 compared to the total weeks for the plan year ended April 30, 2018 is mainly due to a group of approximately 40 active participants that retired prior to the September 2, 2019 effective date of the 2019 Rehabilitation Plan changes.
- The decrease in total weeks for the plan year ended April 30, 2018 compared to the total weeks for the plan year ended April 30, 2017 is mainly due to the withdrawal of Kellogg's during the plan year ended April 30, 2018. The total weeks worked by Kellogg's employees decreased from 2,089 to 848 between these two periods.
- The total weeks for the plan year ended April 30, 2012 includes 9,710 weeks worked by 390 employees of Hostess Brands, Inc., who only worked a partial year.
- The average weeks for the plan year ended April 30, 2012 is based on the remaining active participants that are not employed by Hostess Brands, Inc.
- While this information is summarized by plan year, the information reflects weeks worked in the calendar year prior to the end of the plan year, as used for the crediting of Vesting Service and Benefit Service.

8. Plan Experience

A ten-year summary of the Plan's cash flow is provided in the table below.

* Based on the Market Value of Assets

Notes

- **Inactive to active participant ratio** = number of inactive participants / number of active participants.
- **Inactive to active liability ratio** = accrued liability for inactive participants / accrued liability for active participants.
 - Inactive participants include vested participants with deferred benefits, retirees in payment status, and beneficiaries in payment status.
 - It is generally more difficult for plans with higher inactive to active ratios to improve plan funding via changes to contributions and/or future benefit accruals.
- **Total liability per active** = total plan actuarial accrued liability / number of active participants.
 - In general, higher values of liability per active equate to higher levels of risk in the plan. It may be more difficult for plans with higher levels of liability per active to correct funding shortfalls that develop.
- **Unfunded liability per active** = (total plan actuarial accrued liability – market value of assets) / number of active participants.
 - Higher levels of unfunded liability per active equate to lower levels of current and future plan benefits because a more significant portion of the contributions are needed to fund legacy liabilities.
 - Historical changes in the amount of unfunded liability per active can provide insight into plan specific risk factors such as investment risk.

Plan Name	Local 734 Pension Plan
Plan Sponsor	Board of Trustees of Local 734 Pension Fund
EIN / PN	51-6040136 / 001
Interest Rates	<p>6.00% per annum, compounded annually, net of investment-related expenses for determining costs and liabilities.</p> <p>2.78% per annum for determining Current Liability for the plan year beginning May 1, 2020.</p> <p>The interest rate assumption used for purposes of the ERISA funding valuation is a reasonable estimate of the net investment return for the Local 734 Pension Plan assets over the long term and, in combination with the other assumptions used, provides our best estimate of anticipated experience under the Plan. This assumption was developed based on our professional judgement, the investment policy and asset allocation for the Local 734 Pension Plan, and considers the results of the 2020 edition of the Survey of Capital Market Assumptions by Horizon Actuarial Services, LLC.</p> <p>The interest rate assumption used to measure Current Liability represents the maximum rate permitted under the Internal Revenue Code, 105% the weighted average of the rates of interest on 30-year Treasury securities during the 4-year period ending on the last day before the beginning of the plan year.</p>
Operating Expenses	<p>Expenses are assumed to be \$900,000, as of the beginning of the plan year. Investment counseling fees are not included in assumed operating expenses.</p> <p>Expected operating expenses were developed based on actual prior and anticipated future experience and reflect professional judgment.</p>
Weeks Worked	For the purpose of projecting future benefit accruals, it is assumed that each active participant will work 48.5 weeks per year.
Active Participant	For valuation purposes, an active participant is a participant who worked one or more weeks during the calendar year prior to the valuation date, provided they have not retired or terminated prior to the valuation date.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Non-Disabled Mortality *Active and inactive vested participants:*

The sex-distinct RP-2014 mortality tables for Blue Collar Employees, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

Participants and beneficiaries receiving benefits:

The sex-distinct RP-2014 mortality tables for Blue Collar Healthy Annuitants, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

The non-disabled mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, expectations regarding future mortality improvement, and professional judgment.

For determining the RPA '94 Current Liability, the mortality tables prescribed by the Pension Protection Act of 2006 were used.

Disabled Mortality

The sex-distinct RP-2014 Disabled Retiree mortality tables, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

The disabled mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, the Plan's definition of disabled, expectations regarding future mortality improvement, and professional judgment.

For determining the RPA '94 Current Liability, the mortality tables prescribed by the Pension Protection Act of 2006 were used.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Retirement Age

Active participants: Per the rates in the table below.

Retirement Rates (per 100 participants)

Age	Active Participants
50-54	0.00
55-59	0.02
60-61	0.05
62	0.20
63	0.25
64	0.05
65	0.25
66	0.45
67-69	0.25
70	1.00

Inactive vested participants: Age 60 for Participants with 15 or more years of Benefit Service; otherwise, age 65.

The weighted average retirement age for active participants is age 64.6. This average is based on the active population in the May, 1, 2020 valuation. All decrements are considered when projecting the current population to retirement. The weighted average retirement age is the average age at which the lives that reach the retirement decrement retire.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Disability

Illustrations of the annual rates of disablement are shown in the table below for selected ages (the same rates are used for males and females):

Representative Disability Rates (per 100 participants)

Age	Rate
20	0.03
25	0.04
30	0.05
35	0.07
40	0.11
45	0.18
50	0.30
55	0.50
60	0.81

These assumptions were developed based on a review of historical and current demographic data, adjusted to reflect anticipated future experience and professional judgment.

Withdrawal

Illustrations of the annual rates of withdrawal (for reasons other than mortality or disablement) are shown in the table below for selected ages:

Representative Withdrawal Rates (per 100 participants)

Age	Rate
20	0.1948
25	0.1579
30	0.1314
35	0.1129
40	0.0922
45	0.0706
50	0.0347
55	0.0000
60 and over	0.0000

These assumptions were developed based on a review of historical and current demographic data, adjusted to reflect anticipated future experience and professional judgment.

Reemployment

It is assumed that participants will not be reemployed following a break in service.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Form of Payment	<p>Single participants are assumed to elect the single life annuity.</p> <p>For married participants, 42% are assumed to elect a single life annuity, 33% are assumed to elect the 50% joint and survivor annuity, and 25% are assumed to elect a 100% joint and survivor annuity.</p>
Marriage	<p>80% of non-retired participants are assumed to be married.</p>
Spouse Ages	<p>Females are assumed to be three years younger than their spouses.</p>
Cost Method	<p>The Unit Credit Cost Method is used to determine the normal cost and the actuarial accrued liability. The actuarial accrued liability is the present value of the accrued benefits as of the beginning of the year for active participants and is the present value of all benefits for other participants. The normal cost is the present value of the difference between the accrued benefits as of the beginning and end of the year. The normal cost and actuarial accrued liability for the plan are the sums of the individually computed normal costs and actuarial accrued liabilities for all plan participants.</p>
Asset Valuation Method	<p>The actuarial value of assets is determined by adjusting the market value of assets to reflect the investment gains and losses (the difference between the actual investment return and the expected investment return) during each of the last four years at the rate of 25% per year. Expected investment return is calculated using the actuarial value of assets as of the beginning of the plan year and the benefit payments, employer contributions and operating expenses, weighted based on the timing of the transactions during the year.</p> <p>The actuarial value is subject to a restriction that it be not less than 80% nor more than 120% of the market value.</p>
Participant Data	<p>Participant census data as of May 1, 2020 was provided by the Fund Office.</p>
Missing or Incomplete Participant Data	<p>Assumptions were made to adjust for participants and beneficiaries with missing or incomplete data, based on those exhibited by participants with similar known characteristics.</p>
Financial Information	<p>Financial information was obtained from the audited financial statements.</p>

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

**Future Increases in
Maximum Benefits**

It is assumed that the maximum benefit under the Internal Revenue Code will not increase in the future.

**Assumed Cost-of-Living
Adjustments**

None.

**Benefits not Included in
Valuation**

None.

**Nature of Actuarial
Calculations**

The valuation results presented in this report are estimates. The results are based on data that may be imperfect and on assumptions made about future events. Certain plan provisions may be approximated or deemed immaterial for the purposes of the valuation. Assumptions may be made about missing or incomplete participant census data or other factors. Reasonable efforts were made to ensure that significant items and factors are included in the valuation and treated appropriately. A range of results different from those presented in this report could also be considered reasonable.

The actuarial assumptions selected for this valuation – including the valuation interest rate – generally reflect average expectations over the long term. If overall future demographic or investment experience is less favorable than assumed, the relative level of plan costs determined in this valuation will likely increase in future valuations. Investment returns and demographic factors may fluctuate significantly from year to year. The deterministic actuarial models used in this valuation do not take into consideration the possibility of such volatility.

**Unfunded Vested
Benefits for Employer
Withdrawal Liability**

For purposes of determining the Unfunded Vested Benefits for Employer Withdrawal Liability, the same assumptions as presented in this Appendix are used with the exception of the following:

- The mortality assumption described in 29 CFR 4044, Appendix A, effective on the measurement date,
 - The interest rate assumption described in 29 CFR 4044, Appendix B, effective on the measurement date, and
 - The administrative expense assumption described in 29 CFR 4044, Appendix C.
-

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Changes in Assumptions Since the prior valuation, the following assumptions have been changed:

- The assumed interest rate for ERISA funding purposes was reduced from 7.00% to 6.00%.
- The assumed operating expenses were update to reflect anticipated plan experience.
- The interest rate and mortality assumptions used to determine the RPA '94 Current Liability were updated in accordance with the changes in the IRS prescribed assumptions.

**Justification for
Changes in Assumptions
and Methods**

The update to the assumed valuation interest rate was made to reflect anticipated plan experience.

The update to the assumed operating expenses was made to reflect anticipated plan experience.

The changes in the interest rate and mortality tables used to determine the RPA '94 Current Liability were mandated legislative changes.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

This appendix summarizes the major provisions of the Plan that were reflected in the actuarial valuation. This summary of provisions is not intended to be a comprehensive statement of all provisions of the Plan.

Plan Name	Local 734 Pension Plan
Plan Sponsor	Board of Trustees of Local 734 Pension Fund
EIN / PN	51-6040136 / 001
Effective Date and Most Recent Amendment	<p>The original effective date of the Plan is May 1, 1956.</p> <p>The most recent amendment to the Plan is effective September 2, 2019.</p>
Plan Year	The twelve-month period beginning May 1 and ending April 30.
Employers	A participating Employer is any person or entity that has been accepted for participation in the Plan and that is required to contribute to the Plan pursuant to a collective bargaining agreement or participation agreement.
Participation	December 31 of the calendar year during which employment began.
Vesting Service	<p>Vesting Service is used for purposes of determining participation in the Plan, vesting, and eligibility for certain benefits.</p> <p>A participant receives one year of Vesting Service for 22 weeks or more of covered employment in each calendar year.</p>
Normal Retirement Age	A participant attains Normal Retirement Age at the later of attaining age 65 or the fifth anniversary of an active Participant's Plan participation.
Break-In-Service	<p>Completion of less than 11 weeks of covered employment in a Plan Year.</p> <p><i>Note:</i> For non-vested benefits, a permanent break occurs when the number of consecutive one-year breaks-in-service equals or exceeds the greater of five years or years of vesting service.</p>

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Normal Pension

1. For retirements after September 1, 2019:

Eligibility:	Attainment of Normal Retirement Age
Amount:	\$2,125 multiplied by 3% multiplied by the number of years of benefit service, up to a maximum of 33-1/3 years of benefit service.

2. For retirements after January 1, 2011 and before September 2, 2019:

Eligibility:	Age 65 with 25 years of benefit service or Age 62 with 30 years of benefit service
Amount:	\$2,125 for members whose employers adopt the Alternative Schedule under the Rehabilitation Plan. \$1,325 for members whose employers adopt the Default Schedule under the Rehabilitation Plan.

3. For retirements prior to January 2, 2011:

Eligibility:	Age 65 with 25 years of benefit service or any age with 30 years of benefit service
Amount:	\$2,125

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Regular / Reduced Regular Pension

This benefit has been eliminated for all retirements after September 1, 2019.

1. For retirements prior to January 2, 2011:

Age Requirement: 60
Service Requirement: 15 years of benefit service
Amount: \$2,100

The full benefit is payable to participants with 20 or more years of service. For other participants, the full benefit is multiplied by the ratio of the participant's benefit service to 20.

2. For retirements after January 1, 2011 and before September 2, 2019:

Age Requirement: 65
Service Requirement: 15 years of benefit service
Amount: \$2,100 for members whose employers adopt the Alternative Schedule under the Rehabilitation Plan.
\$1,300 for members whose employers adopt the Default Schedule under the Rehabilitation Plan.

The full benefit is payable to participants with 20 or more years of benefit service. For other participants, the full benefit is multiplied by the ratio of the participant's benefit service to 20.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Early Retirement

This benefit has been eliminated for all retirements after September 1, 2019.

1. For retirements prior to January 2, 2011:

Age Requirement: 55
Service Requirement: 15 years of benefit service
Amount: Regular Pension reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 60.

2. For retirements after January 1, 2011 and before September 2, 2019:

Age Requirement: 55
Service Requirement: 15 years of benefit service
Amount: Regular Pension reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 65.

If a participant has 30 years of benefit service, the Normal Pension is reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 62.

Vested Benefit

Age Requirement: None
Service Requirement: 5 years of vesting service
Amount: \$2,125 multiplied by 3% multiplied by the number of years of benefit service, up to a maximum of 33-1/3 years of benefit service.
Early Payment: A participant with 15 or more years of benefit service may elect to receive a reduced deferred vested pension that will commence on or after age 55 but before age 65; the monthly amount will be reduced by 2/3rds of 1% for each of the first 60 months that the pension commencement date precedes the participant's normal retirement date, and 1/3rd of 1% for each additional month thereafter.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Disability Pension

This benefit has been eliminated for all retirements after September 1, 2019.

Age Requirement: None

Service Requirement: 15 years of benefit service

Other Requirement: Eligible for a disability insurance benefit under the Federal Social Security Act.

1. For disability retirements prior to January 2, 2011:

Amount: Early retirement pension payable at date of disability. If the participant is disabled before age 55, reduction for early retirement is limited to 30%, as if he or she had reached age 55 on the date of disability.

When Paid: Disability benefits commence with the 7th month after the month disability began and continues until age 60 or recovery from disability. At age 60, the participant becomes entitled to a regular pension or reduced pension.

2. For disability retirements after January 1, 2011 and before September 2, 2019:

Amount: Early retirement pension payable at date of disability. If the participant is disabled before age 55 and prior to May 1, 2015, the reduction for early retirement is limited to 60%. If the participant is disabled before age 55 and on or after May 1, 2015, an additional actuarially equivalent reduction from age 55 applies.

When Paid: Disability benefits commence with the 7th month after the month disability began and continues until age 65 or recovery from disability. At age 65, the participant becomes entitled to a regular pension or reduced pension.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Spouse's Pre-Retirement Death Benefit

Age Requirement: None

Service Requirement: 5 years of vesting service

Amount: 50% of the benefit the participant would have received had he or she retired the day before death and elected the joint and 50% survivor option. If the participant died before eligibility for an immediate pension, the spouse's benefit is deferred to the earliest retirement date the participant would have been eligible for an early retirement pension.

If the participant dies in active employment after completing at least 27 years of benefit service, the spouse's benefit may commence on the date the participant would be eligible for the service pension had he or she remained in active employment, if that is earlier than his or her earliest retirement age.

Post-Retirement Death Benefit

If a participant is receiving payments under a joint and survivor form (J&S), the surviving spouse will receive the survivor portion based on the form elected following the participant's death.

If a participant is receiving payments under the 10 year certain and life option, and dies before receiving 120 monthly payments, the named beneficiary will continue to receive payments until 120 monthly payments have been made.

Forms of Payment

Normal Form

- (a) For married participants, retirement benefits are paid in the form of a 50% Joint and Survivor Annuity unless this form is rejected by a Participant and his or her spouse. If not rejected, the benefit amount otherwise payable is reduced to reflect the joint and survivor form.
- (b) If the 50% Joint and Survivor Annuity is rejected or if the Participant is not married, benefits are payable as a Life Annuity.

Optional Forms

- (a) 75% Joint and Survivor Annuity
- (b) 100% Joint and Survivor Annuity

The following payment forms were eliminated for all benefits commencing after September 1, 2019:

- (a) 50%, 75%, and 100% Joint and Survivor Annuity with a Pop-Up Feature
- (b) 10-Year Certain and Life Option
- (c) Level Income Option (unavailable while Plan is in "Critical Status" as defined by the Pension Protection Act)

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Actuarial Equivalence

Benefits under optional forms of payment are converted from the amount payable under the Life Annuity, based on assumptions of 7.00% interest and the Unisex Pension 1984 Mortality Table.

Contribution Rates

Varies by employer and job classification from \$180.00 to \$198.00 per week with an average of \$181.01 per week for the Plan Year beginning May 1, 2020. Certain collective bargaining agreements reflect equivalent hourly rates assuming a forty hour work week.

Under the terms of the Rehabilitation Plan, the Alternative Schedule requires certain increases in the employer contribution rate. On or after May 1, 2011, the employer contribution rate must increase by at least \$3.50 per week (or \$0.0875 per hour) for each of the next four years of a collective bargaining agreement(s), followed by increases of at least \$6.00 per week (or \$0.15 per hour) for each of the next nine years of a collective bargaining agreement. The \$6.00 per week increases are reflected in the amended and restated Rehabilitation Plan effective March 26, 2014. The Rehabilitation Plan was again revised effective December 15, 2016 and requires a minimum contribution rate of \$180 per week for all contributing employers by May 1, 2020.

Contributions different from those indicated may be deemed to satisfy the requirements of the Alternative Schedule if the present value of all increases under the collective bargaining agreement(s) exceeds the present value of the increases indicated.

Benefit Service

The sum of past and future benefit service determined as follows:

Past Benefit Service – Prior to January 1, 1976, equal to pension credits determined under the prior plan.

Future Benefit Service – After January 1, 1976, determined as follows:

Weeks of Covered Employment during Calendar Year	Future Benefit Service
27 to 52 weeks	1 year
22 to 26 weeks	½ year
Less than 22 weeks	None

Changes in Plan Provisions

None

3. Expected Disbursements [Sch. MB Line 1d(3)]	20,605,726	19,729,159

The primary use for Current Liability is to determine the amount of the maximum tax-deductible contribution for the plan year. Current Liability is also reported on the Schedule MB to the Form 5500; however, it rarely affects the determination of the ERISA minimum required contribution.

Current Liability is calculated similarly to the actuarial accrued liability under the unit credit cost method, but based on interest and mortality assumptions that are mandated by the Internal Revenue Service (IRS). The Current Liability interest rate assumption is based on 30-year Treasury yields and does not reflect the expected return on plan assets.

Current Liability and the expected increase in Current Liability attributable to benefits accruing during the plan year are shown above, as of the valuation date. Also shown above are the expected benefit payments for the plan year, based the same actuarial assumptions used to measure Current Liability.

Appendix E: Glossary

Actuarial Accrued Liability: This is computed differently under different actuarial cost methods. The Actuarial Accrued Liability generally represents the portion of the cost of the participants' anticipated retirement, termination, death and disability benefits allocated to the years before the current plan year.

Actuarial Cost: This is the contribution required for a plan year in accordance with the Trustees' funding policy. It consists of the Normal Cost plus an amortization payment to pay interest on and amortize the Unfunded Actuarial Accrued Liability based on the amortization schedule adopted by the Trustees.

Actuarial Gain or Loss: From one plan year to the next, if the experience of the plan differs from that anticipated using the actuarial assumptions, an actuarial gain or loss occurs. For example, an actuarial gain would occur if the assets in the trust earned 12% for the year while the assumed rate of return used in the valuation was 6%.

Actuarial Value of Assets: This is the value of cash, investments and other property belonging to a pension plan, as used by the actuary for the purposes of an actuarial valuation. It may be equal to the market value, or a smoothed value that recognizes changes in market value systematically over time.

Credit Balance: The Credit Balance represents the excess of actual contributions over the minimum required contributions under ERISA. The Credit Balance is also equal to the cumulative excess of credits over charges to the Funding Standard Account.

Current Liability: This is computed the same as the Present Value of Accumulated Benefits, but using interest rate and mortality assumptions specified by the IRS. This quantity is used in the calculation to determine the maximum tax deductible contribution to the plan for the year.

Funding Standard Account: This is the account which a plan is required to maintain in compliance with the minimum funding standards under ERISA. It consists of annual charges and credits needed to fund the Normal Cost and amortize the cost of plan amendments, actuarial method and assumption changes, and experience gains and losses.

Normal Cost: The Normal Cost is computed differently under different actuarial cost methods. The Normal Cost generally represents the portion of the cost of the participants' anticipated retirement, termination, death and disability benefits allocated to the current plan year. Employer Normal Cost generally also includes the cost of anticipated operating expenses.

Present Value of Accumulated Benefits: The Present Value of Accumulated Benefits is computed in accordance with ASC 960. This quantity is determined independently from the plan's actuarial cost method. This is the present value of a participant's accrued benefit as of the valuation date, assuming the participant will earn no more credited service and will receive no future salary.

Present Value of Future Benefits: This is computed by projecting the total future benefit cash flow from the plan, using actuarial assumptions, and then discounting the cash flow to the valuation date.

Present Value of Vested Benefits: This is the portion of the Present Value of Accumulated Benefits in which the employee would have a vested interest if the employee were to separate from service with the employer on the valuation date. It is also referred to as Vested Benefit Liability.

Unfunded Actuarial Accrued Liability: This is the amount by which the Actuarial Accrued Liability exceeds the Actuarial Value of Assets.

Withdrawal Liability: This is the amount an employer is required to pay upon certain types of withdrawal from a pension plan. It is an employer's allocated portion of the unfunded Present Value of Vested Benefits.

Actuarial Statement

As requested by the Board of Trustees of the Local 734 Pension Plan (the “Board of Trustees”), this report documents the results of an actuarial valuation of the Local 734 Pension Plan (the “Plan”) as of May 1, 2021. This valuation is based on the Plan that was established on May 1, 1956, as amended through the valuation date.

In preparing this valuation, we have relied on information and data provided to us by the Board of Trustees and other persons or organizations designated by the Board of Trustees. We did not perform an audit of the financial and participant census data provided to us, but we have reviewed the data for reasonableness for the purpose of the valuation. We have relied on all information provided, including plan provisions and asset information, as being complete and accurate.

The valuation summarized in this report involves actuarial calculations that require assumptions about future events. These calculations are performed using actuarial models, the intended purpose of which is the estimation and projection of the Plan’s liabilities, assets, zone status, and other related information summarized herein. We believe that the assumptions and methods used in this report are reasonable individually and in the aggregate, and are appropriate for the purposes for which they have been used. However, other assumptions and methods could also be reasonable and could generate materially different results. We have relied on the input of experts in developing certain assumptions, such as mortality and the valuation interest rate.

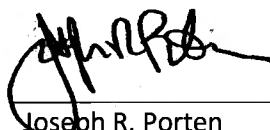

In our opinion, all methods, assumptions and calculations are in accordance with requirements of the Internal Revenue Code (the “Code”) and the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended by the Pension Protection Act of 2006 (“PPA”), the Pension Relief Act of 2010 (“PRA”), and the Multiemployer Pension Reform Act of 2014 (“MPRA”). On March 11, 2021, the American Rescue Plan Act of 2021 (“ARPA”) was signed into law. Any potentially applicable provisions of ARPA have not been included in this report. Further, in our opinion, the procedures followed and presentation of results are in conformity with generally accepted actuarial principles and practices. The Board of Trustees was responsible for the selection of the actuarial cost and asset valuation methods.

This valuation report may not be reproduced or distributed without the consent of the Board of Trustees, other than to assist in the Plan’s administration and to meet the filing requirements of federal government agencies, and may be distributed only in its entirety. The results in this valuation may not be applicable for purposes other than those described in this report.

The undersigned consultants of Horizon Actuarial Services, LLC (“Horizon Actuarial”) with actuarial credentials meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. There is no relationship between the Board of Trustees and Horizon Actuarial that affects our objectivity.

Valuation Highlights

- As of the May 1, 2021 valuation date, the Plan's accrued benefit funded percentage, based on the actuarial value of assets, is 42.9%, compared to 44.2% as of May 1, 2020. The decrease in the Plan's funded percentage on an actuarial value of assets basis is primarily attributable to the Plan's significant negative cashflow and the recognition of only a portion of the higher than expected investment return for the Plan Year ending April 30, 2021 in the smoothed actuarial value of assets.
- The Plan's accrued benefit funded percentage, based on the market value of assets, is 45.8% as of May 1, 2021, compared to 39.3% as of May 1, 2020. The increase in the Plan's funded percentage on a market value of assets basis is primarily attributable to the higher investment return than expected on the market value of assets for the Plan Year ending April 30, 2021.
- The Plan's funding deficiency increased from \$23,587,451 as of April 30, 2020 to a funding deficiency of \$36,798,941 as of April 30, 2021. This is the result of contributions for the Plan Year being less than the minimum required contribution. The Plan continues to operate under a valid Rehabilitation Plan which protects employers from potential excise taxes due to the funding deficiency.
- 35,995 weeks were worked in the 2020 Plan Year, fewer than the assumed 38,655 weeks for the year. The average weeks worked per active participant increased from 44.98 weeks for the year ended April 30, 2020 to 47.49 weeks for the year ended April 30, 2021. The impact of work levels on the valuation results will continue to be monitored.
- In the 2020 Plan Year, the Plan's investment return was 28.8%, on a market value basis. The return on the actuarial value of assets, which reflects the "smoothing" of prior years' gains and losses, was 6.9%.
- The actuarial gain from sources other than investments was \$1,398,750 or 0.52% of the expected actuarial accrued liability. This gain was primarily due to more retiree deaths than expected and lower work levels for 2020 than assumed.

1. Introduction

Exhibit 1.2 – Commentary

Pension Protection Act of 2006

The Plan was certified in critical and declining status (“Red Zone”) for the 2021 Plan Year, the same status as the prior year. On September 20, 2010, the Trustees adopted a Rehabilitation Plan, as required under the Pension Protection Act of 2006 (PPA), to improve the Plan’s long term funding health, with provisions effective January 2, 2011. The Rehabilitation Plan was updated on March 26, 2014, again on December 15, 2016, again on July 8, 2019, and again on March 31, 2021.

The Rehabilitation Plan was developed under the expectation that all contributing employers would continue to participate in the Plan. However, in 2012, Hostess Brands, Inc., one of the largest contributing employers to the Plan, withdrew from that Plan and declared bankruptcy, leaving the Plan with a significant amount of unpaid employer withdrawal liability. The Board of Trustees continues to examine alternatives that will improve funding or forestall insolvency.

Purpose of the Valuation

This report presents the results of the actuarial valuation of the Local 734 Pension Plan as of May 1, 2021. The purposes of this report include the following:

- Determine whether the negotiated contributions are sufficient to fund the Plan’s benefits.
- Determine the minimum required contribution amount for the Plan Year under the Employee Retirement Income Security Act of 1974 (“ERISA”) funding basis.
- Determine the maximum tax-deductible contribution for the Plan Year.
- Review the actuarial assumptions in view of experience during the prior Plan Year.
- Determine the unfunded vested liability for computation of withdrawal liability under the Multiemployer Pension Plan Amendments Act of 1980.
- Develop information for disclosure in Form 5500 Schedule MB.
- Determine the contribution margin for the Plan Year.
- Develop the benefit liabilities that will serve as the basis for the Plan’s 2022 Plan Year status certification under the Pension Protection Act of 2006.

Actuarial Assumptions and Methods

The changes to the actuarial assumptions and methods from those used in the previous valuation are as follows:

Unfunded Vested Benefits for Withdrawal Liability:

- The interest rates for determining the present value of vested benefits for employer withdrawal liability were decreased from 2.11% to 1.82% for the first 20 years and from 1.92% to 1.68% after 20 years to be consistent the change in the PBGC interest rates used to determine the present value of vested benefits for a mass withdrawal.

Current Liability:

- The interest rate and mortality assumptions used to determine the RPA '94 Current Liability were updated in accordance with the changes in the IRS prescribed assumptions.

There was also a change in software which had a negligible impact on the results. This is considered a change in actuarial method that is automatically approved under Revenue Procedure 2000-40 when certain conditions are met. Since the change in valuation software resulted in a minimal change in benefit liabilities and the net changes to the funding standard account change by less than 2%, the change in software is treated as an experience gain or loss, rather than as a method change, for purposes of the funding standard account.

The actuarial assumptions and methods used in the valuation are described in more detail in **Appendix B**.

Plan Provisions

There have been no changes to the Plan Provisions valued from the prior valuation.

Appendix C describes the principal provisions of the Plan being valued.

Actuarial Gain or Loss

An experience gain/(loss) is the difference between the actual and the expected unfunded actuarial liability. The expected unfunded liability is the amount projected from the previous year, based on the actuarial assumptions.

The Plan had a net actuarial experience gain of \$2,493,384 for the plan year ended April 30, 2021. The components of this gain are a gain of \$1,398,750 from sources related to benefit liabilities and a gain of \$1,094,634 on Plan assets.

There was a gain on the market value of assets for the plan year (28.78% net return versus the 6.00% assumption), however only a portion of that gain is recognized in the actuarial value of assets under the Plan's asset valuation method. The gain on the actuarial value of assets (6.94% net return versus the 6.00% assumption) results from the current year investment gain outpacing the continued recognition of prior years' gains/(losses).

The gain on liabilities (which represented about 0.52% of expected liabilities) was primarily due to more retiree deaths than expected and lower work levels for 2020 than assumed. A consistent pattern of gains and losses may indicate a need to refine the actuarial assumptions. We will monitor trends as they emerge and evaluate possible updates to the assumptions as needed.

Actuarial gains and losses for the last ten years are shown in **Exhibit 8.1**.

Exhibit 1.2 – Commentary

Work Experience

As previously noted, 35,995 weeks were worked by all participants in the 2020 Plan Year, fewer than the assumed 38,655 for the year. This decrease is primarily attributable to the continued decline in the active population. Active participants are assumed to work 36,763 weeks during the 2021 Plan Year. The current and projected funding results for the Plan are sensitive to the number of weeks worked (and contributed on), thus we will continue to closely monitor the Plan's reported hours.

PPA Certification Status

Horizon Actuarial Services, LLC, acting as actuary to the Plan, issued a certification to the Internal Revenue Service on July 29, 2021 indicating that the Plan is in critical and declining status under Section 432 of the Internal Revenue Code (i.e., in the "Red Zone") for the 2021 Plan Year.

The calculations, data, assumptions, and methods used in the certification are documented in a separate report that was sent to the Board of Trustees on July 29, 2021.

The Plan is projected to continue to be in critical and declining status in future years as a result of the Hostess bankruptcy. We continue to work with the Board of Trustees to examine alternatives that will improve funding and forestall insolvency.

Participant Data

The participant census data needed to perform the actuarial valuation was provided by the Fund Office. Participant demographics are summarized in **Exhibit 1.3** and reviewed in more detail in **Appendix A**.

Plan Assets

The Plan's Auditor supplied us with the audited financial statements for the Plan Year ended April 30, 2021, which sets forth the assets of the Plan. A reconciliation of the Market Value of Assets can be found in **Exhibit 3.1**. The development of the Actuarial Value of Assets is shown in **Exhibit 3.2**.

1. Introduction

Exhibit 1.3 - Participant Demographic Summary

Measurement Date	5/1/2021	5/1/2020
A. Active Participants		
1. Count	758	797
2. Average Age	47.13	46.49
3. Average Accumulated Benefit	\$ 9,977	\$ 9,510
4. Average Credited Service	13.04	12.43
5. Actual Weeks of Contributions in Prior Year	47.49	44.98
6. Assumed Weeks Per Active Participant	48.50	48.50
B. Inactive Vested Participants		
1. Count	950	983
2. Average Age	54.61	54.25
3. Average Monthly Benefit	\$ 639	\$ 646
C. Retired Participants and Beneficiaries		
1. Count	1,720	1,708
2. Average Age	74.05	73.69
3. Average Monthly Benefit	\$ 927	\$ 927
D. Total Participants	3,428	3,488

Participants are generally classified into the following categories for valuation purposes:

- Active participants: Those participants who worked one or more weeks during the calendar year prior to the valuation date, provided they have not retired or terminated prior to the valuation date.
- Inactive vested participants: Those participants who are not active and who are entitled to receive a deferred vested pension. Deferred Beneficiaries are also included in this group.
- Participants and beneficiaries receiving benefits: Those participants and beneficiaries who were receiving a pension under the Plan as of the valuation date. Included in this category are non-disabled pensioners, disabled pensioners, and beneficiaries.

A summary of basic demographic statistics is shown above. Additional demographic information can be found in **Appendix A**.

2. Inactive and Retired Participants	20,107,033	19,969,039
3. Total	\$ 20,451,061	\$ 20,279,679

The table above summarizes the key actuarial benefit liabilities as of the current and preceding valuation dates. The present value of future benefits (item A.) represents the liability for benefits earned as of the valuation date plus the benefits expected to be earned in all future plan years. The normal cost (item B.) represents the cost of benefit accruals (item B.1.) expected to be earned during the plan year plus expected operating expenses during the plan year (item B.2.). The actuarial accrued liability is the liability for benefits earned through the valuation date, based on the unit credit cost method (item C.).

The Plan's contribution requirements for the plan year are a function of the normal cost and the portion of the actuarial accrued liability not funded by the actuarial value of assets. All amounts shown above are measured as of the beginning of the plan year. The actuarial accrued liability based on the unit credit cost method is also used to determine the PPA funded percentage.

The Expected Benefit Payments for the Plan Year in Item D assume that all participants who have attained Normal Retirement Age but have not commenced their benefit will do so as of the beginning of the Plan Year.

E. Grand Total	<u>\$ 288,065,149</u>	<u>\$ 269,940,609</u>	<u>\$ 3,047,010</u>

The present value of future benefits reflects both benefits earned through the valuation date and benefits expected to be earned in the future by active participants. The present value of future benefits and the actuarial accrued liability shown in the table above are measured as of the valuation date.

The normal cost and assumed operating expenses shown in the table above are payable as of the beginning of the year.

3. Plan Assets

Asset figures shown below are based on the Plan's audited financial statements.

For the plan year ending April 30, 2021 employer contributions of \$6,490,433 were made during the plan year, and \$529,508 were receivable at the end of the plan year. In addition, withdrawal liability payments of \$350,256 were made during the plan year. For the plan year ending April 30, 2020 employer contributions of \$6,580,955 were made during the plan year, and \$504,302 were receivable at the end of the plan year. In addition, withdrawal liability payments of \$350,256 were made during the plan year. See item A.2., above.

3. Plan Assets

The Trustees have approved an actuarial asset valuation method that gradually adjusts to market value, as follows:

- The actuarial asset value is equal to the market value of assets less unrecognized returns in each of the last four years. Unrecognized return is equal to the difference between the actual market return and the projected return on the actuarial value, phased in at the rate of 25% per year.
- To comply with IRS regulations, the actuarial value is, in any event, not less than 80%, nor more than 120%, of current market value.

Under this valuation method the full value of market fluctuations is not recognized and as a result, the asset value and the actuarial cost are more stable. The adjustment in the asset value is referred to as a write-up or write-down. The development of the actuarial value of assets is shown on the next page.

In determining the actuarial value of assets, the amount of the adjustment to market value is treated as income, which may be positive or negative. Realized gains and losses and unrealized gains and losses are treated equally and, therefore, the sale of assets has no immediate effect on the actuarial value. This removes any consideration of the impact that sales of assets may have on the determination of the actuarial cost of the Plan.

This asset value is subtracted from the Plan's total actuarial accrued liability to determine the portion that is not funded. Amortization of the unfunded actuarial accrued liability is an important element in the actuarial cost of the Plan.

See **Appendix B** for more information regarding the Actuarial Value of Assets.

4. Contributions

Minimum Required Contribution

The ERISA minimum required contribution consists of the normal cost, plus payments to amortize the components of the unfunded actuarial liability over various time periods, less the “**credit balance**” in the “**funding standard account**” as of the end of the prior Plan Year (all adjusted for interest through the end of the Plan Year).

The funding standard account is used to determine the minimum required contribution. The credit balance in the funding standard account is the accumulated amount by which contributions made in prior Plan Years exceeded the ERISA minimum contribution requirements in those years. The credit balance acts as a reserve that may be drawn upon if employer contributions do not cover the net charges to the funding standard account.

Charges to the funding standard account include the normal cost and payments to amortize increases in the unfunded actuarial liability. **Credits** to the funding standard account include employer contributions and payments to amortize decreases in the unfunded actuarial liability. If the credits to the funding standard account – including employer contributions and the credit balance with applicable interest – exceed the charges, the credit balance will increase. On the other hand, if charges exceed the credits, the credit balance will decrease. If the credit balance decreases to below zero, there is an accumulated “funding deficiency” in the funding standard account.

Under the Pension Protection Act of 2006 (“PPA”), portions of unfunded actuarial liability recognized during or after the Plan Year beginning in 2008 are generally amortized in the funding standard account over 15 years. Although the funding standard account determines the amount of the ERISA minimum required contribution each Plan Year, the Plan’s long-term financial status can also be measured on the basis of a different amortization schedule adopted by the Board of Trustees. The contribution developed on that basis is shown as the “actuarial cost” in **Exhibit 4.3** (“Contribution Margin”).

Detail on the amortization bases in the funding standard account can be found in **Exhibit 4.2**.

Maximum Deductible Contribution

Generally, the IRS permits the deduction of contributions to fund benefits accruing under a qualified pension plan. However, there are certain limits that specify the maximum contribution that is permitted to be made and deducted. The maximum tax-deductible contribution for the current and preceding plan years, as determined under section 404 of the Code is shown in the following table. This amount is significantly greater than the expected contributions for the plan year. Accordingly, all employer contributions for the plan year are expected to be tax deductible.

The table above shows the outstanding amortization bases in the funding standard account as of the valuation date. The amortization bases are grouped as charges, which represent increases in the unfunded actuarial liability, and credits, which represent decreases in the unfunded actuarial liability.

Different types of amortization bases are as follows:

Abbreviation	Description
Initial Liab	Initial unfunded actuarial accrued liability
Exper Loss	Actuarial experience loss (charge only)
Exper Gain	Actuarial experience loss (credit only)
ENIL (2008)	Eligible net investment loss under the Pension Relief Act of 2010
Amendment	Plan amendment
Assumption	Change in actuarial assumptions
Method	Change in the cost method or asset valuation method
Combined	Combined charge base or combined credit base
Offset	Combined and offset charge and credit bases

4. Contributions

Contribution Margin

A key purpose of the actuarial valuation is to determine whether the expected contributions are sufficient to fund the Plan's benefits. The valuation develops an "actuarial cost," which includes the cost of benefits accruing during the plan year (item B.1.a.), expected operating expenses (item B.1.b.), and an amortization payment of the unfunded actuarial accrued liability (item B.2.). The amortization payment is based on the 15-year funding policy established by the Trustees.

If expected employer contributions (item C.3.) exceed the actuarial cost for the plan year (item B.3.), the Plan's contribution "margin" is positive. A positive margin usually (but not always) indicates that the Plan's funding levels will improve over time. A negative margin usually indicates that the Plan's funding levels will decline over time (or grow at a slower rate than expected under the assumed amortization period).

Exhibit 4.3 - Contribution Margin

Plan Year Beginning	5/1/2021	5/1/2020
Valuation Interest Rate	6.00%	6.00%
Asset Value	Actuarial Value	Actuarial Value

a. Cost of Benefit Accruals	\$ 2,211,420	\$ 2,215,127
b. Assumed Operating Expenses	927,000	927,000
c. Total	\$ 3,138,420	\$ 3,142,127
2. Unfunded Liability Amortization Payment	15,399,556	15,173,023
3. Total Actuarial Cost for Plan Year	\$ 18,537,976	\$ 18,315,150
C. Expected Employer Contributions		
1. Expected Weeks	36,763	38,655
2. Average Expected Contribution Rate per Week	\$ 184.76	\$ 180.00
3. Expected Contributions	\$ 6,792,328	\$ 6,957,900
D. Contribution Margin		
1. Contribution Margin for Plan Year (C.3. - B.3.)	\$ (11,745,648)	\$ (11,357,250)
2. Contribution Margin per Week (D.1. / C.1.)	\$ (319.50)	\$ (293.81)

Cost and contribution figures include interest adjustments to reflect payments at the middle of the year.

Notes:

- If the market value of assets were used in the above calculations, the margin for the plan year beginning May 1, 2021 would be \$(10,966,693) for the plan year and \$(298.31) per week. For the plan year beginning May 1, 2020, the margin would be \$(12,690,464) for the plan year and \$(328.30) per week.

5. ASC 960 Information

The present value of accumulated benefits as of the last day of the plan year is disclosed in the Plan's financial statements, in accordance with the Accounting Standards Codification (ASC) Number 960.

The present value of accumulated benefits is determined based on the unit credit cost method. The same actuarial assumptions that were used to determine the actuarial accrued liability as of the beginning of the plan year (e.g., May 1, 2021) were used to determine the actuarial present value of accumulated benefits as of the end of the prior plan year (e.g., April 30, 2021). See **Appendix B** for more information.

The present value of vested benefits includes disability benefits and qualified pre-retirement survivor annuity death benefits, which are excluded from the present value of vested benefits for withdrawal liability (see **Section 6**).

6. Withdrawal Liability

The Multiemployer Pension Plan Amendments Act of 1980 (MPPAA) provides that an employer who withdraws from a Plan after September 26, 1980 may be obligated to the plan for its share of any unfunded liability for vested benefits as of the last day of the plan year preceding the withdrawal.

The actuarial assumptions that were used to determine the present value of vested benefits were based on PBGC plan termination assumptions. See **Appendix B** for more information.

The present value of vested benefits reflects the plan provisions in effect on the measurement date. Plan benefits that are not considered to be vested for withdrawal liability – such as disability benefits (in excess of the value of deferred vested benefits) and death benefits – are not included in the calculation of the present value of vested benefits.

Unfunded vested benefits represent the shortfall between the Plan's asset value and the present value of vested benefits. Unfunded vested benefits are allocated among participating employers according to the presumptive method, as described under section 4211(c)(2)(A) of ERISA. The asset value is the market value of assets.

The table below shows the calculation of the unfunded vested benefits as of April 30, 2021, which will be allocated to employers withdrawing during the plan year beginning May 1, 2021. Calculations for the prior year are also shown, for reference.

The Rehabilitation Plan, as effective on January 2, 2011 and updated in 2014, 2016, 2019, and again in 2021, has eliminated certain "adjustable benefits". The Affected Benefits shown above in Section C represent the present value of the adjustable benefit reductions under the Rehabilitation Plan.

7. Risk

The deterministic actuarial models used in this valuation are based on a single set of assumptions and do not take into consideration the risk associated with deviations from those assumptions. The assumptions selected for this valuation – including the valuation interest rate – generally reflect average expectations over the long term.

If overall future economic or demographic experience is different than assumed, the level of plan costs determined in this valuation could increase or decrease dramatically in future valuations. In order to better understand the Plan's risk exposure, a summary of the significant risk factors for this pension plan is provided below.

Specific Risk Factors

The following is a brief overview of the most significant risk factors inherent in the Plan. We have identified these risks to be significant because small deviations will materially impact the results, or the likelihood of volatility is high, or both.

- **Investment Risk** is the risk that investment returns will be higher or lower than assumed.
 - Based on the market value of assets of \$124 million, underperformance of 1% during the plan year (e.g., 5.0% versus the assumed rate of 6.0%) is equal to \$1.24 million, or about \$3.37 per week for 15 years assuming 48.5 weeks worked per year per active participant.
- **Contribution Risk** is the risk that actual contributions will differ from assumed contributions.
 - For example, if a large employer or a significant number of smaller employers were to withdraw from the Fund, the required contributions for remaining employers would likely increase.
- **Longevity Risk** is the risk that mortality rates will be higher or lower than assumed.
 - While the mortality tables we have selected for this valuation represent our best estimate of future experience under the Plan, it is important to understand how future changes in longevity would impact Plan funding. For example, advancements in medicine and health care could result in longer lifespans, which increases the Plan's liability, since promised benefits will be paid for a longer period of time. Such increases could have a significant impact on the contribution requirements shown in this valuation.

7. Risk

Risk Assessment

The commentary on the prior page is a broad overview of pension plan risk factors and includes information on the risk factors that are most significant for this pension plan. Other risks also apply. A more detailed risk assessment would allow the Trustees to better understand how deviations from the assumptions may affect the plan, and ultimately, how to better position the plan to respond to the inevitable deviations that will occur. A more detailed risk assessment may include scenario tests, sensitivity tests, stochastic modeling, stress tests, or other information.

Plan Maturity

More mature pension plans generally have more risk exposure than less mature plans because they have fewer options to correct funding shortfalls that may develop as a result of adverse experience. For example, the contribution rate increase required to offset a year with a poor investment return would be larger for a plan with a decreasing active population than it would be for an otherwise similar plan with an increasing active population.

Historical actuarial measurements – including plan maturity measures – are shown in **Section 8** of this report.

8. Plan Experience

An experience gain or loss is the difference between the *actual* and the *expected* unfunded actuarial accrued liability. The *expected* unfunded accrued liability is the amount predicted from the previous year, based on the actuarial assumptions.

To evaluate the effectiveness of the actuarial assumptions, the aggregate gain or loss is broken down between the gain or loss due to investment experience and the gain or loss due to other sources (principally the demographic experience).

The experience gains (losses) have been as follows during the last ten Plan Years:

Exhibit 8.1 - Historical Experience Gains and (Losses)

<u>Plan Year Ended</u> <u>April 30</u>	<u>From Investment</u> <u>Experience</u>	<u>From Other</u> <u>Sources</u>	<u>Total Experience</u> <u>Gain / (Loss)</u>	<u>Percent Gain/(Loss)</u> <u>from Other Sources*</u>

* As a percent of Actuarial Accrued Liability

The actuarial assumptions for this valuation are summarized in **Appendix B**.

Notes

- The loss from Other Sources for the plan year ended April 30, 2014 was primarily due to changes in the accrued benefits of terminated vested participants that were verified by the Plan Administrator.
- The gain from Other Sources for the plan year ended April 30, 2013 was primarily due to the withdrawal of Hostess Brands, Inc. Active employees of Hostess Brands, Inc. no longer earn additional benefits or service under the Plan.

8. Plan Experience

Investment income consists of: interest, dividends, rental and real estate income, and adjustment for market value changes, net of investment expenses. The rate of return is the net investment income as a percentage of the average value of assets during the year.

The assumed rate of Plan earnings, net of investment expenses, used in this valuation is 6.00%. The actual rates of return earned during the past ten plan years are shown below for both the actuarial value of assets and the market value of assets.

The rates of return on the actuarial value of assets are compared against the Plan's actuarially assumed return. Comparisons of performance with other funds, investment institutions and market indexes are generally based on rates of return that reflect the market value of assets. The market value rates of return by themselves do not, however, necessarily indicate the relative success of the Plan's investment policy.

5-Year Average	39,236		46.98	
10-Year Average	41,348		47.54	

Notes

- The decrease in total weeks for the plan year ended April 30, 2019 compared to the total weeks for the plan year ended April 30, 2018 is mainly due to a group of approximately 40 active participants that retired prior to the September 2, 2019 effective date of the 2019 Rehabilitation Plan changes.
- The decrease in total weeks for the plan year ended April 30, 2018 compared to the total weeks for the plan year ended April 30, 2017 is mainly due to the withdrawal of Kellogg's during the plan year ended April 30, 2018. The total weeks worked by Kellogg's employees decreased from 2,089 to 848 between these two periods.
- The total weeks for the plan year ended April 30, 2012 includes 9,710 weeks worked by 390 employees of Hostess Brands, Inc., who only worked a partial year.
- The average weeks for the plan year ended April 30, 2012 is based on the remaining active participants that are not employed by Hostess Brands, Inc.
- While this information is summarized by plan year, the information reflects weeks worked in the calendar year prior to the end of the plan year, as used for the crediting of Vesting Service and Benefit Service.

Notes

- **Inactive to active participant ratio** = number of inactive participants / number of active participants.
- **Inactive to active liability ratio** = accrued liability for inactive participants / accrued liability for active participants.
 - Inactive participants include vested participants with deferred benefits, retirees in payment status, and beneficiaries in payment status.
 - It is generally more difficult for plans with higher inactive to active ratios to improve plan funding via changes to contributions and/or future benefit accruals.
- **Total liability per active** = total plan actuarial accrued liability / number of active participants.
 - In general, higher values of liability per active equate to higher levels of risk in the plan. It may be more difficult for plans with higher levels of liability per active to correct funding shortfalls that develop.
- **Unfunded liability per active** = (total plan actuarial accrued liability – market value of assets) / number of active participants.
 - Higher levels of unfunded liability per active equate to lower levels of current and future plan benefits because a more significant portion of the contributions are needed to fund legacy liabilities.
 - Historical changes in the amount of unfunded liability per active can provide insight into plan specific risk factors such as investment risk.

(Form 5500 Schedule MB, line 6)

Plan Name	Local 734 Pension Plan
Plan Sponsor	Board of Trustees of Local 734 Pension Fund
EIN / PN	51-6040136 / 001
Interest Rates	<p>6.00% per annum, compounded annually, net of investment-related expenses for determining costs and liabilities.</p> <p>2.35% per annum for determining Current Liability for the plan year beginning May 1, 2021.</p> <p>The valuation interest rate was chosen in consideration of the purpose of the measurement (long-term contribution budgeting), current and historical investment data, and the Plan's asset allocation as set by the Plan Sponsor. As a part of the analysis, we considered the results of the current and prior editions of our Survey of Capital Market Assumptions and the expectations of the Plan's investment advisor. The ultimate selection of the interest rate is our best estimate and reflects professional judgment.</p> <p>The interest rate assumption used to measure Current Liability represents the maximum rate permitted under the Internal Revenue Code, 105% the weighted average of the rates of interest on 30-year Treasury securities during the 4-year period ending on the last day before the beginning of the plan year.</p>
Operating Expenses	<p>Expenses are assumed to be \$900,000, as of the beginning of the plan year. Investment counseling fees are not included in assumed operating expenses.</p> <p>Expected operating expenses were developed based on actual prior and anticipated future experience and reflect professional judgment.</p>
Weeks Worked	For the purpose of projecting future benefit accruals, it is assumed that each active participant will work 48.5 weeks per year.
Active Participant	For valuation purposes, an active participant is a participant who worked one or more weeks during the calendar year prior to the valuation date, provided they have not retired or terminated prior to the valuation date.

Non-Disabled Mortality *Active and inactive vested participants:*

The sex-distinct RP-2014 mortality tables for Blue Collar Employees, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

Participants and beneficiaries receiving benefits:

The sex-distinct RP-2014 mortality tables for Blue Collar Healthy Annuitants, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

The non-disabled mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, expectations regarding future mortality improvement, and professional judgment.

For determining the RPA '94 Current Liability, the mortality tables prescribed by the Pension Protection Act of 2006 were used.

Disabled Mortality

The sex-distinct RP-2014 Disabled Retiree mortality tables, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

The disabled mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, the Plan's definition of disabled, expectations regarding future mortality improvement, and professional judgment.

For determining the RPA '94 Current Liability, the mortality tables prescribed by the Pension Protection Act of 2006 were used.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Retirement Age

Active participants: Per the rates in the table below.

Retirement Rates (per 100 participants)

Age	Active Participants
50-54	0.00
55-59	0.02
60-61	0.05
62	0.20
63	0.25
64	0.05
65	0.25
66	0.45
67-69	0.25
70	1.00

Inactive vested participants: Age 60 for Participants with 15 or more years of Benefit Service; otherwise, age 65.

The weighted average retirement age for active participants is age 64.6. This average is based on the active population in the May, 1, 2021 valuation. All decrements are considered when projecting the current population to retirement. The weighted average retirement age is the average age at which the lives that reach the retirement decrement retire.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Disability

Illustrations of the annual rates of disablement are shown in the table below for selected ages (the same rates are used for males and females):

Representative Disability Rates (per 100 participants)

Age	Rate
20	0.03
25	0.04
30	0.05
35	0.07
40	0.11
45	0.18
50	0.30
55	0.50
60	0.81

These assumptions were developed based on a review of historical and current demographic data, adjusted to reflect anticipated future experience and professional judgment.

Withdrawal

Illustrations of the annual rates of withdrawal (for reasons other than mortality or disablement) are shown in the table below for selected ages:

Representative Withdrawal Rates (per 100 participants)

Age	Rate
20	0.1948
25	0.1579
30	0.1314
35	0.1129
40	0.0922
45	0.0706
50	0.0347
55	0.0000
60 and over	0.0000

These assumptions were developed based on a review of historical and current demographic data, adjusted to reflect anticipated future experience and professional judgment.

Reemployment

It is assumed that participants will not be reemployed following a break in service.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Form of Payment	<p>Single participants are assumed to elect the single life annuity.</p> <p>For married participants, 42% are assumed to elect a single life annuity, 33% are assumed to elect the 50% joint and survivor annuity, and 25% are assumed to elect a 100% joint and survivor annuity.</p>
Marriage	<p>80% of non-retired participants are assumed to be married.</p>
Spouse Ages	<p>Females are assumed to be three years younger than their spouses.</p>
Cost Method	<p>The Unit Credit Cost Method is used to determine the normal cost and the actuarial accrued liability. The actuarial accrued liability is the present value of the accrued benefits as of the beginning of the year for active participants and is the present value of all benefits for other participants. The normal cost is the present value of the difference between the accrued benefits as of the beginning and end of the year. The normal cost and actuarial accrued liability for the plan are the sums of the individually computed normal costs and actuarial accrued liabilities for all plan participants.</p>
Asset Valuation Method	<p>The actuarial value of assets is determined by adjusting the market value of assets to reflect the investment gains and losses (the difference between the actual investment return and the expected investment return) during each of the last four years at the rate of 25% per year. Expected investment return is calculated using the actuarial value of assets as of the beginning of the plan year and the benefit payments, employer contributions and operating expenses, weighted based on the timing of the transactions during the year.</p> <p>The actuarial value is subject to a restriction that it be not less than 80% nor more than 120% of the market value.</p>
Participant Data	<p>Participant census data as of May 1, 2021 was provided by the Fund Office.</p>
Missing or Incomplete Participant Data	<p>Assumptions were made to adjust for participants and beneficiaries with missing or incomplete data, based on those exhibited by participants with similar known characteristics.</p>
Financial Information	<p>Financial information was obtained from the audited financial statements.</p>

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

**Future Increases in
Maximum Benefits**

It is assumed that the maximum benefit under the Internal Revenue Code will not increase in the future.

**Assumed Cost-of-Living
Adjustments**

None.

**Benefits not Included in
Valuation**

None.

**Nature of Actuarial
Calculations**

The valuation results presented in this report are estimates. The results are based on data that may be imperfect and on assumptions made about future events. Certain plan provisions may be approximated or deemed immaterial for the purposes of the valuation. Assumptions may be made about missing or incomplete participant census data or other factors. Reasonable efforts were made to ensure that significant items and factors are included in the valuation and treated appropriately. A range of results different from those presented in this report could also be considered reasonable.

The actuarial assumptions selected for this valuation – including the valuation interest rate – generally reflect average expectations over the long term. If overall future demographic or investment experience is less favorable than assumed, the relative level of plan costs determined in this valuation will likely increase in future valuations. Investment returns and demographic factors may fluctuate significantly from year to year. The deterministic actuarial models used in this valuation do not take into consideration the possibility of such volatility.

**Unfunded Vested
Benefits for Employer
Withdrawal Liability**

For purposes of determining the Unfunded Vested Benefits for Employer Withdrawal Liability, the same assumptions as presented in this Appendix are used with the exception of the following:

- The mortality assumption described in 29 CFR 4044, Appendix A, effective on the measurement date,
- The interest rate assumption described in 29 CFR 4044, Appendix B, effective on the measurement date, and
- The administrative expense assumption described in 29 CFR 4044, Appendix C.

The withdrawal liability discount rate was selected in consideration of the purpose of the measurement (a settlement calculation) and factors that are particular to the Plan and the industry. The ultimate selection of the discount rate is our best estimate and reflects professional judgment.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Changes in Assumptions Since the prior valuation, the following assumptions have been changed:

- The interest rate and mortality assumptions used to determine the RPA '94 Current Liability were updated in accordance with the changes in the IRS prescribed assumptions.
- There was a change in software which had a negligible impact on the results. This is considered a change in actuarial method that is automatically approved under Revenue Procedure 2000-40 when certain conditions are met. Since the change in valuation software resulted in a minimal change in benefit liabilities and the net changes to the funding standard account change by less than 2%, the change in software is treated as an experience gain or loss, rather than as a method change, for purposes of the funding standard account.

Justification for Changes in Assumptions and Methods The changes in the interest rate and mortality tables used to determine the RPA '94 Current Liability were mandated legislative changes.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

This appendix summarizes the major provisions of the Plan that were reflected in the actuarial valuation. This summary of provisions is not intended to be a comprehensive statement of all provisions of the Plan.

Plan Name	Local 734 Pension Plan
Plan Sponsor	Board of Trustees of Local 734 Pension Fund
EIN / PN	51-6040136 / 001
Effective Date and Most Recent Amendment	<p>The original effective date of the Plan is May 1, 1956.</p> <p>The most recent amendment to the Plan is effective September 2, 2019.</p>
Plan Year	The twelve-month period beginning May 1 and ending April 30.
Employers	A participating Employer is any person or entity that has been accepted for participation in the Plan and that is required to contribute to the Plan pursuant to a collective bargaining agreement or participation agreement.
Participation	December 31 of the calendar year during which employment began.
Vesting Service	<p>Vesting Service is used for purposes of determining participation in the Plan, vesting, and eligibility for certain benefits.</p> <p>A participant receives one year of Vesting Service for 22 weeks or more of covered employment in each calendar year.</p>
Normal Retirement Age	A participant attains Normal Retirement Age at the later of attaining age 65 or the fifth anniversary of an active Participant's Plan participation.
Break-In-Service	<p>Completion of less than 11 weeks of covered employment in a Plan Year.</p> <p><i>Note:</i> For non-vested benefits, a permanent break occurs when the number of consecutive one-year breaks-in-service equals or exceeds the greater of five years or years of vesting service.</p>

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Normal Pension

1. For retirements after September 1, 2019:

Eligibility:	Attainment of Normal Retirement Age
Amount:	\$2,125 multiplied by 3% multiplied by the number of years of benefit service, up to a maximum of 33-1/3 years of benefit service.

2. For retirements after January 1, 2011 and before September 2, 2019:

Eligibility:	Age 65 with 25 years of benefit service or Age 62 with 30 years of benefit service
Amount:	\$2,125 for members whose employers adopt the Alternative Schedule under the Rehabilitation Plan. \$1,325 for members whose employers adopt the Default Schedule under the Rehabilitation Plan.

3. For retirements prior to January 2, 2011:

Eligibility:	Age 65 with 25 years of benefit service or any age with 30 years of benefit service
Amount:	\$2,125

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Regular / Reduced Regular Pension

This benefit has been eliminated for all retirements after September 1, 2019.

1. For retirements prior to January 2, 2011:

Age Requirement: 60
Service Requirement: 15 years of benefit service
Amount: \$2,100

The full benefit is payable to participants with 20 or more years of service. For other participants, the full benefit is multiplied by the ratio of the participant's benefit service to 20.

2. For retirements after January 1, 2011 and before September 2, 2019:

Age Requirement: 65
Service Requirement: 15 years of benefit service
Amount: \$2,100 for members whose employers adopt the Alternative Schedule under the Rehabilitation Plan.
\$1,300 for members whose employers adopt the Default Schedule under the Rehabilitation Plan.

The full benefit is payable to participants with 20 or more years of benefit service. For other participants, the full benefit is multiplied by the ratio of the participant's benefit service to 20.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Early Retirement

This benefit has been eliminated for all retirements after September 1, 2019.

1. For retirements prior to January 2, 2011:

Age Requirement: 55
Service Requirement: 15 years of benefit service
Amount: Regular Pension reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 60.

2. For retirements after January 1, 2011 and before September 2, 2019:

Age Requirement: 55
Service Requirement: 15 years of benefit service
Amount: Regular Pension reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 65.

If a participant has 30 years of benefit service, the Normal Pension is reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 62.

Vested Benefit

Age Requirement: None
Service Requirement: 5 years of vesting service
Amount: \$2,125 multiplied by 3% multiplied by the number of years of benefit service, up to a maximum of 33- $\frac{1}{3}$ years of benefit service.
Early Payment: A participant with 15 or more years of benefit service may elect to receive a reduced deferred vested pension that will commence on or after age 55 but before age 65; the monthly amount will be reduced by $\frac{2}{3}$ rd of 1% for each of the first 60 months that the pension commencement date precedes the participant's normal retirement date, and $\frac{1}{3}$ rd of 1% for each additional month thereafter.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Disability Pension

This benefit has been eliminated for all retirements after September 1, 2019.

Age Requirement: None

Service Requirement: 15 years of benefit service

Other Requirement: Eligible for a disability insurance benefit under the Federal Social Security Act.

1. For disability retirements prior to January 2, 2011:

Amount: Early retirement pension payable at date of disability. If the participant is disabled before age 55, reduction for early retirement is limited to 30%, as if he or she had reached age 55 on the date of disability.

When Paid: Disability benefits commence with the 7th month after the month disability began and continues until age 60 or recovery from disability. At age 60, the participant becomes entitled to a regular pension or reduced pension.

2. For disability retirements after January 1, 2011 and before September 2, 2019:

Amount: Early retirement pension payable at date of disability. If the participant is disabled before age 55 and prior to May 1, 2015, the reduction for early retirement is limited to 60%. If the participant is disabled before age 55 and on or after May 1, 2015, an additional actuarially equivalent reduction from age 55 applies.

When Paid: Disability benefits commence with the 7th month after the month disability began and continues until age 65 or recovery from disability. At age 65, the participant becomes entitled to a regular pension or reduced pension.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Spouse's Pre-Retirement Death Benefit

Age Requirement: None

Service Requirement: 5 years of vesting service

Amount: 50% of the benefit the participant would have received had he or she retired the day before death and elected the joint and 50% survivor option. If the participant died before eligibility for an immediate pension, the spouse's benefit is deferred to the earliest retirement date the participant would have been eligible for an early retirement pension.

If the participant dies in active employment after completing at least 27 years of benefit service, the spouse's benefit may commence on the date the participant would be eligible for the service pension had he or she remained in active employment, if that is earlier than his or her earliest retirement age.

Post-Retirement Death Benefit

If a participant is receiving payments under a joint and survivor form (J&S), the surviving spouse will receive the survivor portion based on the form elected following the participant's death.

If a participant is receiving payments under the 10 year certain and life option, and dies before receiving 120 monthly payments, the named beneficiary will continue to receive payments until 120 monthly payments have been made.

Forms of Payment

Normal Form

- (a) For married participants, retirement benefits are paid in the form of a 50% Joint and Survivor Annuity unless this form is rejected by a Participant and his or her spouse. If not rejected, the benefit amount otherwise payable is reduced to reflect the joint and survivor form.
- (b) If the 50% Joint and Survivor Annuity is rejected or if the Participant is not married, benefits are payable as a Life Annuity.

Optional Forms

- (a) 75% Joint and Survivor Annuity
- (b) 100% Joint and Survivor Annuity

The following payment forms were eliminated for all benefits commencing after September 1, 2019:

- (a) 50%, 75%, and 100% Joint and Survivor Annuity with a Pop-Up Feature
- (b) 10-Year Certain and Life Option
- (c) Level Income Option (unavailable while Plan is in "Critical Status" as defined by the Pension Protection Act)

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Actuarial Equivalence

Benefits under optional forms of payment are converted from the amount payable under the Life Annuity, based on assumptions of 7.00% interest and the Unisex Pension 1984 Mortality Table.

Contribution Rates

Varies by employer and job classification from \$180.00 to \$214.00 per week with an average of \$184.76 per week for the Plan Year beginning May 1, 2021. Certain collective bargaining agreements reflect equivalent hourly rates assuming a forty hour work week.

Under the terms of the Rehabilitation Plan, the Alternative Schedule requires certain increases in the employer contribution rate. On or after May 1, 2011, the employer contribution rate must increase by at least \$3.50 per week (or \$0.0875 per hour) for each of the next four years of a collective bargaining agreement(s), followed by increases of at least \$6.00 per week (or \$0.15 per hour) for each of the next nine years of a collective bargaining agreement. The \$6.00 per week increases are reflected in the amended and restated Rehabilitation Plan effective March 26, 2014. The Rehabilitation Plan was again revised effective December 15, 2016 and requires a minimum contribution rate of \$180 per week for all contributing employers by May 1, 2020. The Rehabilitation Plan was again revised effective March 31, 2021 to remove future contribution increase requirements that were not already reflected in the collective bargaining agreements in effect on March 31, 2021.

Contributions different from those indicated may be deemed to satisfy the requirements of the Alternative Schedule if the present value of all increases under the collective bargaining agreement(s) exceeds the present value of the increases indicated.

Benefit Service

The sum of past and future benefit service determined as follows:

Past Benefit Service – Prior to January 1, 1976, equal to pension credits determined under the prior plan.

Future Benefit Service – After January 1, 1976, determined as follows:

Weeks of Covered Employment during Calendar Year	Future Benefit Service
27 to 52 weeks	1 year
22 to 26 weeks	½ year
Less than 22 weeks	None

Changes in Plan Provisions

None

The primary use for Current Liability is to determine the amount of the maximum tax-deductible contribution for the plan year. Current Liability is also reported on the Schedule MB to the Form 5500; however, it rarely affects the determination of the ERISA minimum required contribution.

Current Liability is calculated similarly to the actuarial accrued liability under the unit credit cost method, but based on interest and mortality assumptions that are mandated by the Internal Revenue Service (IRS). The Current Liability interest rate assumption is based on 30-year Treasury yields and does not reflect the expected return on plan assets.

Current Liability and the expected increase in Current Liability attributable to benefits accruing during the plan year are shown above, as of the valuation date. Also shown above are the expected benefit payments for the plan year, based the same actuarial assumptions used to measure Current Liability.

Appendix E: Glossary

Actuarial Accrued Liability: This is computed differently under different actuarial cost methods. The Actuarial Accrued Liability generally represents the portion of the cost of the participants' anticipated retirement, termination, death and disability benefits allocated to the years before the current plan year.

Actuarial Cost: This is the contribution required for a plan year in accordance with the Trustees' funding policy. It consists of the Normal Cost plus an amortization payment to pay interest on and amortize the Unfunded Actuarial Accrued Liability based on the amortization schedule adopted by the Trustees.

Actuarial Gain or Loss: From one plan year to the next, if the experience of the plan differs from that anticipated using the actuarial assumptions, an actuarial gain or loss occurs. For example, an actuarial gain would occur if the assets in the trust earned 12% for the year while the assumed rate of return used in the valuation was 6%.

Actuarial Value of Assets: This is the value of cash, investments and other property belonging to a pension plan, as used by the actuary for the purposes of an actuarial valuation. It may be equal to the market value, or a smoothed value that recognizes changes in market value systematically over time.

Credit Balance: The Credit Balance represents the excess of actual contributions over the minimum required contributions under ERISA. The Credit Balance is also equal to the cumulative excess of credits over charges to the Funding Standard Account.

Current Liability: This is computed the same as the Present Value of Accumulated Benefits, but using interest rate and mortality assumptions specified by the IRS. This quantity is used in the calculation to determine the maximum tax deductible contribution to the plan for the year.

Funding Standard Account: This is the account which a plan is required to maintain in compliance with the minimum funding standards under ERISA. It consists of annual charges and credits needed to fund the Normal Cost and amortize the cost of plan amendments, actuarial method and assumption changes, and experience gains and losses.

Normal Cost: The Normal Cost is computed differently under different actuarial cost methods. The Normal Cost generally represents the portion of the cost of the participants' anticipated retirement, termination, death and disability benefits allocated to the current plan year. Employer Normal Cost generally also includes the cost of anticipated operating expenses.

Present Value of Accumulated Benefits: The Present Value of Accumulated Benefits is computed in accordance with ASC 960. This quantity is determined independently from the plan's actuarial cost method. This is the present value of a participant's accrued benefit as of the valuation date, assuming the participant will earn no more credited service and will receive no future salary.

Present Value of Future Benefits: This is computed by projecting the total future benefit cash flow from the plan, using actuarial assumptions, and then discounting the cash flow to the valuation date.

Present Value of Vested Benefits: This is the portion of the Present Value of Accumulated Benefits in which the employee would have a vested interest if the employee were to separate from service with the employer on the valuation date. It is also referred to as Vested Benefit Liability.

Unfunded Actuarial Accrued Liability: This is the amount by which the Actuarial Accrued Liability exceeds the Actuarial Value of Assets.

Withdrawal Liability: This is the amount an employer is required to pay upon certain types of withdrawal from a pension plan. It is an employer's allocated portion of the unfunded Present Value of Vested Benefits.

Actuarial Statement

As requested by the Board of Trustees of the Local 734 Pension Plan (the “Board of Trustees”), this report documents the results of an actuarial valuation of the Local 734 Pension Plan (the “Plan”) as of May 1, 2022. This valuation is based on the Plan that was established on May 1, 1956, as amended through the valuation date.

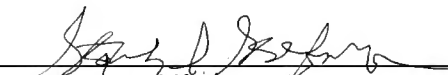

In preparing this valuation, we have relied on information and data provided to us by the Board of Trustees and other persons or organizations designated by the Board of Trustees. We did not perform an audit of the financial and participant census data provided to us, but we have reviewed the data for reasonableness for the purpose of the valuation. We have relied on all information provided, including plan provisions and asset information, as being complete and accurate.

The valuation summarized in this report involves actuarial calculations that require assumptions about future events. These calculations are performed using actuarial models, the intended purpose of which is the estimation and projection of the Plan’s liabilities, assets, zone status, and other related information summarized herein. We believe that the assumptions and methods used in this report are reasonable individually and in the aggregate, and are appropriate for the purposes for which they have been used. However, other assumptions and methods could also be reasonable and could generate materially different results. We have relied on the input of experts in developing certain assumptions, such as mortality and the valuation interest rate.

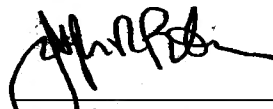

In our opinion, all methods, assumptions and calculations are in accordance with requirements of the Internal Revenue Code (the “Code”) and the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended by the Pension Protection Act of 2006 (“PPA”), the Pension Relief Act of 2010 (“PRA”), and the Multiemployer Pension Reform Act of 2014 (“MPRA”), and the American Rescue Plan Act of 2021 (“ARPA”). Further, in our opinion, the procedures followed and presentation of results are in conformity with generally accepted actuarial principles and practices. The Board of Trustees was responsible for the selection of the actuarial cost and asset valuation methods.

This valuation report may not be reproduced or distributed without the consent of the Board of Trustees, other than to assist in the Plan’s administration and to meet the filing requirements of federal government agencies, and may be distributed only in its entirety. The results in this valuation may not be applicable for purposes other than those described in this report.

The undersigned consultants of Horizon Actuarial Services, LLC (“Horizon Actuarial”) with actuarial credentials meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. There is no relationship between the Board of Trustees and Horizon Actuarial that affects our objectivity.

Local 734 Pension Plan

Actuarial Valuation as of May 1, 2022

1. Introduction

Exhibit 1.2 – Commentary

Valuation Highlights

- As of the May 1, 2022 valuation date, the Plan's accrued benefit funded percentage, based on the actuarial value of assets, is 40.8%, compared to 42.9% as of May 1, 2021. The decrease in the Plan's funded percentage on an actuarial value of assets basis is primarily attributable to the Plan's significant negative cashflow and the recognition of a portion of the lower than expected investment return for the Plan Year ending April 30, 2022 in the smoothed actuarial value of assets.
- The Plan's accrued benefit funded percentage, based on the market value of assets, is 40.8% as of May 1, 2022, compared to 45.8% as of May 1, 2021. The decrease in the Plan's funded percentage on a market value of assets basis is primarily attributable to the Plan's significant negative cashflow and the lower investment return than expected on the market value of assets for the Plan Year ending April 30, 2022.
- The Plan's funding deficiency increased from \$36,798,941 as of April 30, 2021 to a funding deficiency of \$49,564,843 as of April 30, 2022. This is the result of contributions for the Plan Year being less than the minimum required contribution. The Plan continues to operate under a valid Rehabilitation Plan which protects employers from potential excise taxes due to the funding deficiency.
- 35,494 weeks were worked in the 2021 Plan Year, fewer than the assumed 36,763 weeks for the year. The average weeks worked per active participant decreased from 47.49 weeks for the year ended April 30, 2021 to 44.20 weeks for the year ended April 30, 2022. The impact of work levels on the valuation results will continue to be monitored.
- In the 2021 Plan Year, the Plan's investment return was -2.7%, on a market value basis. The return on the actuarial value of assets, which reflects the "smoothing" of prior years' gains and losses, was 4.2%.
- The actuarial gain from sources other than investments was \$2,882,784 or 1.08% of the expected actuarial accrued liability. This gain was primarily due to more retiree deaths than expected.

1. Introduction

Exhibit 1.2 – Commentary

Pension Protection Act of 2006

The Plan was certified in critical and declining status (“Red Zone”) for the 2022 Plan Year, the same status as the prior year. On September 20, 2010, the Trustees adopted a Rehabilitation Plan, as required under the Pension Protection Act of 2006 (PPA), to improve the Plan’s long term funding health, with provisions effective January 2, 2011. The Rehabilitation Plan was updated on March 26, 2014, again on December 15, 2016, again on July 8, 2019, and again on March 31, 2021.

The Rehabilitation Plan was developed under the expectation that all contributing employers would continue to participate in the Plan. However, in 2012, Hostess Brands, Inc., one of the largest contributing employers to the Plan, withdrew from that Plan and declared bankruptcy, leaving the Plan with a significant amount of unpaid employer withdrawal liability. The Board of Trustees continues to examine alternatives that will improve funding or forestall insolvency.

Purpose of the Valuation

This report presents the results of the actuarial valuation of the Local 734 Pension Plan as of May 1, 2022. The purposes of this report include the following:

- Determine whether the negotiated contributions are sufficient to fund the Plan’s benefits.
- Determine the minimum required contribution amount for the Plan Year under the Employee Retirement Income Security Act of 1974 (“ERISA”) funding basis.
- Determine the maximum tax-deductible contribution for the Plan Year.
- Review the actuarial assumptions in view of experience during the prior Plan Year.
- Determine the unfunded vested liability for computation of withdrawal liability under the Multiemployer Pension Plan Amendments Act of 1980.
- Develop information for disclosure in Form 5500 Schedule MB.
- Determine the contribution margin for the Plan Year.
- Develop the benefit liabilities that will serve as the basis for the Plan’s 2023 Plan Year status certification under the Pension Protection Act of 2006.
- Determine the information required for the Plan’s ASC 960 financial reporting.

Exhibit 1.2 – Commentary

Actuarial Assumptions and Methods

The changes to the actuarial assumptions and methods from those used in the previous valuation are as follows:

Unfunded Vested Benefits for Withdrawal Liability:

- The interest rates for determining the present value of vested benefits for employer withdrawal liability were increased from 1.82% to 2.40% for the first 20 years and from 1.68% to 2.12% after 20 years to be consistent the change in the PBGC interest rates used to determine the present value of vested benefits for a mass withdrawal.

Current Liability:

- The interest rate and mortality assumptions used to determine the RPA '94 Current Liability were updated in accordance with the changes in the IRS prescribed assumptions.

The actuarial assumptions and methods used in the valuation are described in more detail in **Appendix B**.

Plan Provisions

There have been no changes to the Plan Provisions valued from the prior valuation.

Appendix C describes the principal provisions of the Plan being valued.

1. Introduction

Exhibit 1.2 – Commentary

Actuarial Gain or Loss

An experience gain/(loss) is the difference between the actual and the expected unfunded actuarial liability. The expected unfunded liability is the amount projected from the previous year, based on the actuarial assumptions.

The Plan had a net actuarial experience gain of \$928,797 for the plan year ended April 30, 2022. The components of this gain are a gain of \$2,882,784 from sources related to benefit liabilities and a loss of \$1,953,987 on Plan assets.

There was a loss on the market value of assets for the plan year (-2.65% net return versus the 6.00% assumption), however only a portion of that loss is recognized in the actuarial value of assets under the Plan's asset valuation method. The loss on the actuarial value of assets (4.20% net return versus the 6.00% assumption) results from the current year investment loss blended with the continued recognition of prior years' gains/(losses).

The gain on liabilities (which represented about 1.08% of expected liabilities) was primarily due to more retiree deaths than expected. A consistent pattern of gains and losses may indicate a need to refine the actuarial assumptions. We will monitor trends as they emerge and evaluate possible updates to the assumptions as needed.

Actuarial gains and losses for the last ten years are shown in **Exhibit 8.1**.

Work Experience

As previously noted, 35,494 weeks were worked by all participants in the 2021 Plan Year, fewer than the assumed 36,763 for the year. This decrease is primarily attributable to active population working fewer weeks, on average, than in prior years. Active participants are assumed to work 38,946 weeks during the 2022 Plan Year. The current and projected funding results for the Plan are sensitive to the number of weeks worked (and contributed on), thus we will continue to closely monitor the Plan's reported hours.

PPA Certification Status

Horizon Actuarial Services, LLC, acting as actuary to the Plan, issued a certification to the Internal Revenue Service on July 29, 2022 indicating that the Plan is in critical and declining status under Section 432 of the Internal Revenue Code (i.e., in the "Red Zone") for the 2022 Plan Year.

The calculations, data, assumptions, and methods used in the certification are documented in a separate report that was sent to the Board of Trustees on July 29, 2022.

The Plan is projected to continue to be in critical and declining status in future years as a result of the Hostess bankruptcy. We continue to work with the Board of Trustees to examine alternatives that will improve funding and forestall insolvency.

Participant Data

The participant census data needed to perform the actuarial valuation was provided by the Fund Office. Participant demographics are summarized in **Exhibit 1.3** and reviewed in more detail in **Appendix A**.

Plan Assets

The Plan's Auditor supplied us with the audited financial statements for the Plan Year ended April 30, 2022, which sets forth the assets of the Plan. A reconciliation of the Market Value of Assets can be found in **Exhibit 3.1**. The development of the Actuarial Value of Assets is shown in **Exhibit 3.2**.

2. Average Age	74.17	74.05
3. Average Monthly Benefit	\$ 920	\$ 927
D. Total Participants	3,431	3,428

Participants are generally classified into the following categories for valuation purposes:

- Active participants: Those participants who worked one or more weeks during the calendar year prior to the valuation date, provided they have not retired or terminated prior to the valuation date.
- Inactive vested participants: Those participants who are not active and who are entitled to receive a deferred vested pension. Deferred Beneficiaries are also included in this group.
- Participants and beneficiaries receiving benefits: Those participants and beneficiaries who were receiving a pension under the Plan as of the valuation date. Included in this category are non-disabled pensioners, disabled pensioners, and beneficiaries.

A summary of basic demographic statistics is shown above. Additional demographic information can be found in **Appendix A**.

2. Inactive and Retired Participants	19,840,105	20,107,033
3. Total	\$ 20,255,549	\$ 20,451,061

The table above summarizes the key actuarial benefit liabilities as of the current and preceding valuation dates. The present value of future benefits (item A.) represents the liability for benefits earned as of the valuation date plus the benefits expected to be earned in all future plan years. The normal cost (item B.) represents the cost of benefit accruals (item B.1.) expected to be earned during the plan year plus expected operating expenses during the plan year (item B.2.). The actuarial accrued liability is the liability for benefits earned through the valuation date, based on the unit credit cost method (item C.).

The Plan's contribution requirements for the plan year are a function of the normal cost and the portion of the actuarial accrued liability not funded by the actuarial value of assets. All amounts shown above are measured as of the beginning of the plan year. The actuarial accrued liability based on the unit credit cost method is also used to determine the PPA funded percentage.

The Expected Benefit Payments for the Plan Year in Item D assume that all participants who have attained Normal Retirement Age but have not commenced their benefit will do so as of the beginning of the Plan Year.

2. Actuarial Liabilities

D. Assumed Operating Expenses			\$ 900,000
E. Grand Total	\$ 285,069,092	\$ 266,167,315	\$ 3,131,032

The present value of future benefits reflects both benefits earned through the valuation date and benefits expected to be earned in the future by active participants. The present value of future benefits and the actuarial accrued liability shown in the table above are measured as of the valuation date.

The normal cost and assumed operating expenses shown in the table above are payable as of the beginning of the year.

3. Plan Assets

For the plan year ending April 30, 2022 employer contributions of \$6,712,684 were made during the plan year, and \$723,231 were receivable at the end of the plan year. In addition, withdrawal liability payments of \$350,256 were made during the plan year. For the plan year ending April 30, 2021 employer contributions of \$6,490,433 were made during the plan year, and \$529,508 were receivable at the end of the plan year. In addition, withdrawal liability payments of \$350,256 were made during the plan year. See item A.2., above.

3. Plan Assets

The Trustees have approved an actuarial asset valuation method that gradually adjusts to market value, as follows:

- The actuarial asset value is equal to the market value of assets less unrecognized returns in each of the last four years. Unrecognized return is equal to the difference between the actual market return and the projected return on the actuarial value, phased in at the rate of 25% per year.
- To comply with IRS regulations, the actuarial value is, in any event, not less than 80%, nor more than 120%, of current market value.

Under this valuation method the full value of market fluctuations is not recognized and as a result, the asset value and the actuarial cost are more stable. The adjustment in the asset value is referred to as a write-up or write-down. The development of the actuarial value of assets is shown on the next page.

In determining the actuarial value of assets, the amount of the adjustment to market value is treated as income, which may be positive or negative. Realized gains and losses and unrealized gains and losses are treated equally and, therefore, the sale of assets has no immediate effect on the actuarial value. This removes any consideration of the impact that sales of assets may have on the determination of the actuarial cost of the Plan.

This asset value is subtracted from the Plan's total actuarial accrued liability to determine the portion that is not funded. Amortization of the unfunded actuarial accrued liability is an important element in the actuarial cost of the Plan.

See **Appendix B** for more information regarding the Actuarial Value of Assets.

4. Contributions

Minimum Required Contribution

The ERISA minimum required contribution consists of the normal cost, plus payments to amortize the components of the unfunded actuarial liability over various time periods, less the “**credit balance**” in the “**funding standard account**” as of the end of the prior Plan Year (all adjusted for interest through the end of the Plan Year).

The funding standard account is used to determine the minimum required contribution. The credit balance in the funding standard account is the accumulated amount by which contributions made in prior Plan Years exceeded the ERISA minimum contribution requirements in those years. The credit balance acts as a reserve that may be drawn upon if employer contributions do not cover the net charges to the funding standard account.

Charges to the funding standard account include the normal cost and payments to amortize increases in the unfunded actuarial liability. **Credits** to the funding standard account include employer contributions and payments to amortize decreases in the unfunded actuarial liability. If the credits to the funding standard account – including employer contributions and the credit balance with applicable interest – exceed the charges, the credit balance will increase. On the other hand, if charges exceed the credits, the credit balance will decrease. If the credit balance decreases to below zero, there is an accumulated “funding deficiency” in the funding standard account.

Under the Pension Protection Act of 2006 (“PPA”), portions of unfunded actuarial liability recognized during or after the Plan Year beginning in 2008 are generally amortized in the funding standard account over 15 years. Although the funding standard account determines the amount of the ERISA minimum required contribution each Plan Year, the Plan’s long-term financial status can also be measured on the basis of a different amortization schedule adopted by the Board of Trustees. The contribution developed on that basis is shown as the “actuarial cost” in **Exhibit 4.3** (“Contribution Margin”).

Detail on the amortization bases in the funding standard account can be found in **Exhibit 4.2**.

Maximum Deductible Contribution

Generally, the IRS permits the deduction of contributions to fund benefits accruing under a qualified pension plan. However, there are certain limits that specify the maximum contribution that is permitted to be made and deducted. The maximum tax-deductible contribution for the current and preceding plan years, as determined under section 404 of the Code is shown in the following table. This amount is significantly greater than the expected contributions for the plan year. Accordingly, all employer contributions for the plan year are expected to be tax deductible.

The table above shows the outstanding amortization bases in the funding standard account as of the valuation date. The amortization bases are grouped as charges, which represent increases in the unfunded actuarial liability, and credits, which represent decreases in the unfunded actuarial liability.

Different types of amortization bases are as follows:

Abbreviation	Description
Initial Liab	Initial unfunded actuarial accrued liability
Exper Loss	Actuarial experience loss (charge only)
Exper Gain	Actuarial experience loss (credit only)
ENIL (2008)	Eligible net investment loss under the Pension Relief Act of 2010
Amendment	Plan amendment
Assumption	Change in actuarial assumptions
Method	Change in the cost method or asset valuation method
Combined	Combined charge base or combined credit base
Offset	Combined and offset charge and credit bases

4. Contributions

Contribution Margin

A key purpose of the actuarial valuation is to determine whether the expected contributions are sufficient to fund the Plan's benefits. The valuation develops an "actuarial cost," which includes the cost of benefits accruing during the plan year (item B.1.a.), expected operating expenses (item B.1.b.), and an amortization payment of the unfunded actuarial accrued liability (item B.2.). The amortization payment is based on the 15-year funding policy established by the Trustees.

If expected employer contributions (item C.3.) exceed the actuarial cost for the plan year (item B.3.), the Plan's contribution "margin" is positive. A positive margin usually (but not always) indicates that the Plan's funding levels will improve over time. A negative margin usually indicates that the Plan's funding levels will decline over time (or grow at a slower rate than expected under the assumed amortization period).

2. Contribution Margin per Week (D.1. / C.1.)	\$ (299.92)	\$ (319.50)

Cost and contribution figures include interest adjustments to reflect payments at the middle of the year.

Notes:

- If the market value of assets were used in the above calculations, the margin for the plan year beginning May 1, 2022 would be \$(11,676,719) for the plan year and \$(299.82) per week. For the plan year beginning May 1, 2021, the margin would be \$(10,966,693) for the plan year and \$(298.31) per week.

5. ASC 960 Information

The present value of accumulated benefits as of the last day of the plan year is disclosed in the Plan's financial statements, in accordance with the Accounting Standards Codification (ASC) Number 960.

The present value of accumulated benefits is determined based on the unit credit cost method. The same actuarial assumptions that were used to determine the actuarial accrued liability as of the beginning of the plan year (e.g., May 1, 2022) were used to determine the actuarial present value of accumulated benefits as of the end of the prior plan year (e.g., April 30, 2022). See **Appendix B** for more information.

The present value of vested benefits includes disability benefits and qualified pre-retirement survivor annuity death benefits, which are excluded from the present value of vested benefits for withdrawal liability (see **Section 6**).

6. Withdrawal Liability

The Multiemployer Pension Plan Amendments Act of 1980 (MPPAA) provides that an employer who withdraws from a Plan after September 26, 1980 may be obligated to the plan for its share of any unfunded liability for vested benefits as of the last day of the plan year preceding the withdrawal.

The actuarial assumptions that were used to determine the present value of vested benefits were based on PBGC plan termination assumptions. See **Appendix B** for more information.

The present value of vested benefits reflects the plan provisions in effect on the measurement date. Plan benefits that are not considered to be vested for withdrawal liability – such as disability benefits (in excess of the value of deferred vested benefits) and death benefits – are not included in the calculation of the present value of vested benefits.

Unfunded vested benefits represent the shortfall between the Plan's asset value and the present value of vested benefits. Unfunded vested benefits are allocated among participating employers according to the presumptive method, as described under section 4211(c)(2)(A) of ERISA. The asset value is the market value of assets.

The table below shows the calculation of the unfunded vested benefits as of April 30, 2022, which will be allocated to employers withdrawing during the plan year beginning May 1, 2022. Calculations for the prior year are also shown, for reference.

The Rehabilitation Plan, as effective on January 2, 2011 and updated in 2014, 2016, 2019, and again in 2021, has eliminated certain "adjustable benefits". The Affected Benefits shown above in Section C represent the present value of the adjustable benefit reductions under the Rehabilitation Plan.

7. Risk

The deterministic actuarial models used in this valuation are based on a single set of assumptions and do not take into consideration the risk associated with deviations from those assumptions. The assumptions selected for this valuation – including the valuation interest rate – generally reflect average expectations over the long term.

If overall future economic or demographic experience is different than assumed, the level of plan costs determined in this valuation could increase or decrease dramatically in future valuations. In order to better understand the Plan's risk exposure, a summary of the significant risk factors for this pension plan is provided below.

Specific Risk Factors

The following is a brief overview of the most significant risk factors inherent in the Plan. We have identified these risks to be significant because small deviations will materially impact the results, or the likelihood of volatility is high, or both.

- **Investment Risk** is the risk that investment returns will be higher or lower than assumed.
 - Based on the market value of assets of \$109 million, underperformance of 1% during the plan year (e.g., 5.0% versus the assumed rate of 6.0%) is equal to \$1.09 million, or about \$2.79 per week for 15 years assuming 48.5 weeks worked per year per active participant.
- **Contribution Risk** is the risk that actual contributions will differ from assumed contributions.
 - For example, if a large employer or a significant number of smaller employers were to withdraw from the Fund, the required contributions for remaining employers would likely increase.
- **Longevity Risk** is the risk that mortality rates will be higher or lower than assumed.
 - While the mortality tables we have selected for this valuation represent our best estimate of future experience under the Plan, it is important to understand how future changes in longevity would impact Plan funding. For example, advancements in medicine and health care could result in longer lifespans, which increases the Plan's liability, since promised benefits will be paid for a longer period of time. Such increases could have a significant impact on the contribution requirements shown in this valuation.

7. Risk

Risk Assessment

The commentary on the prior page is a broad overview of pension plan risk factors and includes information on the risk factors that are most significant for this pension plan. Other risks also apply. A more detailed risk assessment would allow the Trustees to better understand how deviations from the assumptions may affect the plan, and ultimately, how to better position the plan to respond to the inevitable deviations that will occur. A more detailed risk assessment may include scenario tests, sensitivity tests, stochastic modeling, stress tests, or other information.

Plan Maturity

More mature pension plans generally have more risk exposure than less mature plans because they have fewer options to correct funding shortfalls that may develop as a result of adverse experience. For example, the contribution rate increase required to offset a year with a poor investment return would be larger for a plan with a decreasing active population than it would be for an otherwise similar plan with an increasing active population.

Historical actuarial measurements – including plan maturity measures – are shown in **Section 8** of this report.

8. Plan Experience

An experience gain or loss is the difference between the *actual* and the *expected* unfunded actuarial accrued liability. The *expected* unfunded accrued liability is the amount predicted from the previous year, based on the actuarial assumptions.

To evaluate the effectiveness of the actuarial assumptions, the aggregate gain or loss is broken down between the gain or loss due to investment experience and the gain or loss due to other sources (principally the demographic experience).

The experience gains (losses) have been as follows during the last ten Plan Years:

Exhibit 8.1 - Historical Experience Gains and (Losses)

Plan Year Ended April 30	From Investment Experience	From Other Sources	Total Experience Gain / (Loss)	Percent Gain/(Loss) from Other Sources*

* As a percent of Actuarial Accrued Liability

The actuarial assumptions for this valuation are summarized in **Appendix B**.

Notes

- The loss from Other Sources for the plan year ended April 30, 2014 was primarily due to changes in the accrued benefits of terminated vested participants that were verified by the Plan Administrator.
- The gain from Other Sources for the plan year ended April 30, 2013 was primarily due to the withdrawal of Hostess Brands, Inc. Active employees of Hostess Brands, Inc. no longer earn additional benefits or service under the Plan.

8. Plan Experience

Investment income consists of: interest, dividends, rental and real estate income, and adjustment for market value changes, net of investment expenses. The rate of return is the net investment income as a percentage of the average value of assets during the year.

The assumed rate of Plan earnings, net of investment expenses, used in this valuation is 6.00%. The actual rates of return earned during the past ten plan years are shown below for both the actuarial value of assets and the market value of assets.

The rates of return on the actuarial value of assets are compared against the Plan's actuarially assumed return. Comparisons of performance with other funds, investment institutions and market indexes are generally based on rates of return that reflect the market value of assets. The market value rates of return by themselves do not, however, necessarily indicate the relative success of the Plan's investment policy.

5-Year Average	37,718		46.19	
10-Year Average	39,761		47.02	

Notes

- The decrease in total weeks for the plan year ended April 30, 2019 compared to the total weeks for the plan year ended April 30, 2018 is mainly due to a group of approximately 40 active participants that retired prior to the September 2, 2019 effective date of the 2019 Rehabilitation Plan changes.
- The decrease in total weeks for the plan year ended April 30, 2018 compared to the total weeks for the plan year ended April 30, 2017 is mainly due to the withdrawal of Kellogg's during the plan year ended April 30, 2018. The total weeks worked by Kellogg's employees decreased from 2,089 to 848 between these two periods.
- While this information is summarized by plan year, the information reflects weeks worked in the calendar year prior to the end of the plan year, as used for the crediting of Vesting Service and Benefit Service.

Notes

- **Inactive to active participant ratio** = number of inactive participants / number of active participants.
- **Inactive to active liability ratio** = accrued liability for inactive participants / accrued liability for active participants.
 - Inactive participants include vested participants with deferred benefits, retirees in payment status, and beneficiaries in payment status.
 - It is generally more difficult for plans with higher inactive to active ratios to improve plan funding via changes to contributions and/or future benefit accruals.
- **Total liability per active** = total plan actuarial accrued liability / number of active participants.
 - In general, higher values of liability per active equate to higher levels of risk in the plan. It may be more difficult for plans with higher levels of liability per active to correct funding shortfalls that develop.
- **Unfunded liability per active** = (total plan actuarial accrued liability – market value of assets) / number of active participants.
 - Higher levels of unfunded liability per active equate to lower levels of current and future plan benefits because a more significant portion of the contributions are needed to fund legacy liabilities.
 - Historical changes in the amount of unfunded liability per active can provide insight into plan specific risk factors such as investment risk.

Plan Name	Local 734 Pension Plan
Plan Sponsor	Board of Trustees of Local 734 Pension Fund
EIN / PN	51-6040136 / 001
Interest Rates	<p>6.00% per annum, compounded annually, net of investment-related expenses for determining costs and liabilities.</p> <p>2.21% per annum for determining Current Liability for the plan year beginning May 1, 2022.</p> <p>The valuation interest rate was chosen in consideration of the purpose of the measurement (long-term contribution budgeting), current and historical investment data, and the Plan's asset allocation as set by the Plan Sponsor. As a part of the analysis, we considered the results of the current and prior editions of our Survey of Capital Market Assumptions and the expectations of the Plan's investment advisor. The ultimate selection of the interest rate is our best estimate and reflects professional judgment.</p> <p>The interest rate assumption used to measure Current Liability represents the maximum rate permitted under the Internal Revenue Code, 105% the weighted average of the rates of interest on 30-year Treasury securities during the 4-year period ending on the last day before the beginning of the plan year.</p>
Operating Expenses	<p>Expenses are assumed to be \$900,000, as of the beginning of the plan year. Investment counseling fees are not included in assumed operating expenses.</p> <p>Expected operating expenses were developed based on actual prior and anticipated future experience and reflect professional judgment.</p>
Weeks Worked	For the purpose of projecting future benefit accruals, it is assumed that each active participant will work 48.5 weeks per year.
Active Participant	For valuation purposes, an active participant is a participant who worked one or more weeks during the calendar year prior to the valuation date, provided they have not retired or terminated prior to the valuation date.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Non-Disabled Mortality *Active and inactive vested participants:*

The sex-distinct RP-2014 mortality tables for Blue Collar Employees, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

Participants and beneficiaries receiving benefits:

The sex-distinct RP-2014 mortality tables for Blue Collar Healthy Annuitants, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

The non-disabled mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, expectations regarding future mortality improvement, and professional judgment.

For determining the RPA '94 Current Liability, the mortality tables prescribed by the Pension Protection Act of 2006 were used.

Disabled Mortality

The sex-distinct RP-2014 Disabled Retiree mortality tables, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

The disabled mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, the Plan's definition of disabled, expectations regarding future mortality improvement, and professional judgment.

For determining the RPA '94 Current Liability, the mortality tables prescribed by the Pension Protection Act of 2006 were used.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Retirement Age

Active participants: Per the rates in the table below.

Retirement Rates (per 100 participants)

Age	Active Participants
50-54	0.00
55-59	0.02
60-61	0.05
62	0.20
63	0.25
64	0.05
65	0.25
66	0.45
67-69	0.25
70	1.00

Inactive vested participants: Age 60 for Participants with 15 or more years of Benefit Service; otherwise, age 65.

The weighted average retirement age for active participants is age 64.7. This average is based on the active population in the May, 1, 2022 valuation. All decrements are considered when projecting the current population to retirement. The weighted average retirement age is the average age at which the lives that reach the retirement decrement retire.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Disability

Illustrations of the annual rates of disablement are shown in the table below for selected ages (the same rates are used for males and females):

Representative Disability Rates (per 100 participants)

Age	Rate
20	0.03
25	0.04
30	0.05
35	0.07
40	0.11
45	0.18
50	0.30
55	0.50
60	0.81

These assumptions were developed based on a review of historical and current demographic data, adjusted to reflect anticipated future experience and professional judgment.

Withdrawal

Illustrations of the annual rates of withdrawal (for reasons other than mortality or disablement) are shown in the table below for selected ages:

Representative Withdrawal Rates (per 100 participants)

Age	Rate
20	0.1948
25	0.1579
30	0.1314
35	0.1129
40	0.0922
45	0.0706
50	0.0347
55	0.0000
60 and over	0.0000

These assumptions were developed based on a review of historical and current demographic data, adjusted to reflect anticipated future experience and professional judgment.

Reemployment

It is assumed that participants will not be reemployed following a break in service.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Form of Payment

Single participants are assumed to elect the single life annuity.

For married participants, 42% are assumed to elect a single life annuity, 33% are assumed to elect the 50% joint and survivor annuity, and 25% are assumed to elect a 100% joint and survivor annuity.

Marriage

80% of non-retired participants are assumed to be married.

Spouse Ages

Females are assumed to be three years younger than their spouses.

Cost Method

The Unit Credit Cost Method is used to determine the normal cost and the actuarial accrued liability. The actuarial accrued liability is the present value of the accrued benefits as of the beginning of the year for active participants and is the present value of all benefits for other participants. The normal cost is the present value of the difference between the accrued benefits as of the beginning and end of the year. The normal cost and actuarial accrued liability for the plan are the sums of the individually computed normal costs and actuarial accrued liabilities for all plan participants.

Asset Valuation Method

The actuarial value of assets is determined by adjusting the market value of assets to reflect the investment gains and losses (the difference between the actual investment return and the expected investment return) during each of the last four years at the rate of 25% per year. Expected investment return is calculated using the actuarial value of assets as of the beginning of the plan year and the benefit payments, employer contributions and operating expenses, weighted based on the timing of the transactions during the year.

The actuarial value is subject to a restriction that it be not less than 80% nor more than 120% of the market value.

Participant Data

Participant census data as of May 1, 2022 was provided by the Fund Office.

Missing or Incomplete Participant Data

Assumptions were made to adjust for participants and beneficiaries with missing or incomplete data, based on those exhibited by participants with similar known characteristics.

Financial Information

Financial information was obtained from the audited financial statements.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

**Future Increases in
Maximum Benefits**

It is assumed that the maximum benefit under the Internal Revenue Code will not increase in the future.

**Assumed Cost-of-Living
Adjustments**

None.

**Benefits not Included in
Valuation**

None.

**Nature of Actuarial
Calculations**

The valuation results presented in this report are estimates. The results are based on data that may be imperfect and on assumptions made about future events. Certain plan provisions may be approximated or deemed immaterial for the purposes of the valuation. Assumptions may be made about missing or incomplete participant census data or other factors. Reasonable efforts were made to ensure that significant items and factors are included in the valuation and treated appropriately. A range of results different from those presented in this report could also be considered reasonable.

The actuarial assumptions selected for this valuation – including the valuation interest rate – generally reflect average expectations over the long term. If overall future demographic or investment experience is less favorable than assumed, the relative level of plan costs determined in this valuation will likely increase in future valuations. Investment returns and demographic factors may fluctuate significantly from year to year. The deterministic actuarial models used in this valuation do not take into consideration the possibility of such volatility.

**Unfunded Vested
Benefits for Employer
Withdrawal Liability**

For purposes of determining the Unfunded Vested Benefits for Employer Withdrawal Liability, the same assumptions as presented in this Appendix are used with the exception of the following:

- The mortality assumption described in 29 CFR 4044, Appendix A, effective on the measurement date,
- The interest rate assumption described in 29 CFR 4044, Appendix B, effective on the measurement date, and
- The administrative expense assumption described in 29 CFR 4044, Appendix C.

The withdrawal liability discount rate was selected in consideration of the purpose of the measurement (a settlement calculation) and factors that are particular to the Plan and the industry. The ultimate selection of the discount rate is our best estimate and reflects professional judgment.

Appendix B: Actuarial Assumptions and Methods

(Form 5500 Schedule MB, line 6)

Changes in Assumptions Since the prior valuation, the following assumptions have been changed:

- The interest rate and mortality assumptions used to determine the RPA '94 Current Liability were updated in accordance with the changes in the IRS prescribed assumptions.

Justification for Changes in Assumptions and Methods The changes in the interest rate and mortality tables used to determine the RPA '94 Current Liability were mandated legislative changes.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

This appendix summarizes the major provisions of the Plan that were reflected in the actuarial valuation. This summary of provisions is not intended to be a comprehensive statement of all provisions of the Plan.

Plan Name	Local 734 Pension Plan
Plan Sponsor	Board of Trustees of Local 734 Pension Fund
EIN / PN	51-6040136 / 001
Effective Date and Most Recent Amendment	<p>The original effective date of the Plan is May 1, 1956.</p> <p>The most recent amendment to the Plan is effective January 1, 2021.</p>
Plan Year	The twelve-month period beginning May 1 and ending April 30.
Employers	A participating Employer is any person or entity that has been accepted for participation in the Plan and that is required to contribute to the Plan pursuant to a collective bargaining agreement or participation agreement.
Participation	December 31 of the calendar year during which employment began.
Vesting Service	<p>Vesting Service is used for purposes of determining participation in the Plan, vesting, and eligibility for certain benefits.</p> <p>A participant receives one year of Vesting Service for 22 weeks or more of covered employment in each calendar year.</p>
Normal Retirement Age	A participant attains Normal Retirement Age at the later of attaining age 65 or the fifth anniversary of an active Participant's Plan participation.
Break-In-Service	<p>Completion of less than 11 weeks of covered employment in a Plan Year.</p> <p><i>Note:</i> For non-vested benefits, a permanent break occurs when the number of consecutive one-year breaks-in-service equals or exceeds the greater of five years or years of vesting service.</p>

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Normal Pension

1. For retirements after September 1, 2019:

Eligibility:	Attainment of Normal Retirement Age
Amount:	\$2,125 multiplied by 3% multiplied by the number of years of benefit service, up to a maximum of 33-1/3 years of benefit service.

2. For retirements after January 1, 2011 and before September 2, 2019:

Eligibility:	Age 65 with 25 years of benefit service or Age 62 with 30 years of benefit service
Amount:	\$2,125 for members whose employers adopt the Alternative Schedule under the Rehabilitation Plan. \$1,325 for members whose employers adopt the Default Schedule under the Rehabilitation Plan.

3. For retirements prior to January 2, 2011:

Eligibility:	Age 65 with 25 years of benefit service or any age with 30 years of benefit service
Amount:	\$2,125

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Regular / Reduced Regular Pension

This benefit has been eliminated for all retirements after September 1, 2019.

1. For retirements prior to January 2, 2011:

Age Requirement: 60
Service Requirement: 15 years of benefit service
Amount: \$2,100

The full benefit is payable to participants with 20 or more years of service. For other participants, the full benefit is multiplied by the ratio of the participant's benefit service to 20.

2. For retirements after January 1, 2011 and before September 2, 2019:

Age Requirement: 65
Service Requirement: 15 years of benefit service
Amount: \$2,100 for members whose employers adopt the Alternative Schedule under the Rehabilitation Plan.
\$1,300 for members whose employers adopt the Default Schedule under the Rehabilitation Plan.

The full benefit is payable to participants with 20 or more years of benefit service. For other participants, the full benefit is multiplied by the ratio of the participant's benefit service to 20.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Early Retirement

This benefit has been eliminated for all retirements after September 1, 2019.

1. For retirements prior to January 2, 2011:

Age Requirement: 55
Service Requirement: 15 years of benefit service
Amount: Regular Pension reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 60.

2. For retirements after January 1, 2011 and before September 2, 2019:

Age Requirement: 55
Service Requirement: 15 years of benefit service
Amount: Regular Pension reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 65.

If a participant has 30 years of benefit service, the Normal Pension is reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 62.

Vested Benefit

Age Requirement: None
Service Requirement: 5 years of vesting service
Amount: \$2,125 multiplied by 3% multiplied by the number of years of benefit service, up to a maximum of 33- $\frac{1}{3}$ years of benefit service.
Early Payment: A participant with 15 or more years of benefit service may elect to receive a reduced deferred vested pension that will commence on or after age 55 but before age 65; the monthly amount will be reduced by $\frac{2}{3}$ of 1% for each of the first 60 months that the pension commencement date precedes the participant's normal retirement date, and $\frac{1}{3}$ of 1% for each additional month thereafter.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Disability Pension

This benefit has been eliminated for all retirements after September 1, 2019.

Age Requirement: None

Service Requirement: 15 years of benefit service

Other Requirement: Eligible for a disability insurance benefit under the Federal Social Security Act.

1. For disability retirements prior to January 2, 2011:

Amount: Early retirement pension payable at date of disability. If the participant is disabled before age 55, reduction for early retirement is limited to 30%, as if he or she had reached age 55 on the date of disability.

When Paid: Disability benefits commence with the 7th month after the month disability began and continues until age 60 or recovery from disability. At age 60, the participant becomes entitled to a regular pension or reduced pension.

2. For disability retirements after January 1, 2011 and before September 2, 2019:

Amount: Early retirement pension payable at date of disability. If the participant is disabled before age 55 and prior to May 1, 2015, the reduction for early retirement is limited to 60%. If the participant is disabled before age 55 and on or after May 1, 2015, an additional actuarially equivalent reduction from age 55 applies.

When Paid: Disability benefits commence with the 7th month after the month disability began and continues until age 65 or recovery from disability. At age 65, the participant becomes entitled to a regular pension or reduced pension.

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Spouse's Pre-Retirement Death Benefit

Age Requirement: None

Service Requirement: 5 years of vesting service

Amount: 50% of the benefit the participant would have received had he or she retired the day before death and elected the joint and 50% survivor option. If the participant died before eligibility for an immediate pension, the spouse's benefit is deferred to the earliest retirement date the participant would have been eligible for an early retirement pension.

If the participant dies in active employment after completing at least 27 years of benefit service, the spouse's benefit may commence on the date the participant would be eligible for the service pension had he or she remained in active employment, if that is earlier than his or her earliest retirement age.

Post-Retirement Death Benefit

If a participant is receiving payments under a joint and survivor form (J&S), the surviving spouse will receive the survivor portion based on the form elected following the participant's death.

If a participant is receiving payments under the 10 year certain and life option, and dies before receiving 120 monthly payments, the named beneficiary will continue to receive payments until 120 monthly payments have been made.

Forms of Payment

Normal Form

- (a) For married participants, retirement benefits are paid in the form of a 50% Joint and Survivor Annuity unless this form is rejected by a Participant and his or her spouse. If not rejected, the benefit amount otherwise payable is reduced to reflect the joint and survivor form.
- (b) If the 50% Joint and Survivor Annuity is rejected or if the Participant is not married, benefits are payable as a Life Annuity.

Optional Forms

- (a) 75% Joint and Survivor Annuity
- (b) 100% Joint and Survivor Annuity

The following payment forms were eliminated for all benefits commencing after September 1, 2019:

- (a) 50%, 75%, and 100% Joint and Survivor Annuity with a Pop-Up Feature
- (b) 10-Year Certain and Life Option
- (c) Level Income Option (unavailable while Plan is in "Critical Status" as defined by the Pension Protection Act)

Appendix C: Summary of Plan Provisions

(Form 5500 Schedule MB, line 6)

Actuarial Equivalence

Benefits under optional forms of payment are converted from the amount payable under the Life Annuity, based on assumptions of 7.00% interest and the Unisex Pension 1984 Mortality Table.

Contribution Rates

Varies by employer and job classification from \$180.00 to \$214.00 per week with an average of \$187.38 per week for the Plan Year beginning May 1, 2022. Certain collective bargaining agreements reflect equivalent hourly rates assuming a forty hour work week.

Under the terms of the Rehabilitation Plan, the Alternative Schedule requires certain increases in the employer contribution rate. On or after May 1, 2011, the employer contribution rate must increase by at least \$3.50 per week (or \$0.0875 per hour) for each of the next four years of a collective bargaining agreement(s), followed by increases of at least \$6.00 per week (or \$0.15 per hour) for each of the next nine years of a collective bargaining agreement. The \$6.00 per week increases are reflected in the amended and restated Rehabilitation Plan effective March 26, 2014. The Rehabilitation Plan was again revised effective December 15, 2016 and requires a minimum contribution rate of \$180 per week for all contributing employers by May 1, 2020. The Rehabilitation Plan was again revised effective March 31, 2021 to remove future contribution increase requirements that were not already reflected in the collective bargaining agreements in effect on March 31, 2021.

Contributions different from those indicated may be deemed to satisfy the requirements of the Alternative Schedule if the present value of all increases under the collective bargaining agreement(s) exceeds the present value of the increases indicated.

Benefit Service

The sum of past and future benefit service determined as follows:

Past Benefit Service – Prior to January 1, 1976, equal to pension credits determined under the prior plan.

Future Benefit Service – After January 1, 1976, determined as follows:

Weeks of Covered Employment during Calendar Year	Future Benefit Service
27 to 52 weeks	1 year
22 to 26 weeks	½ year
Less than 22 weeks	None

The primary use for Current Liability is to determine the amount of the maximum tax-deductible contribution for the plan year. Current Liability is also reported on the Schedule MB to the Form 5500; however, it rarely affects the determination of the ERISA minimum required contribution.

Current Liability is calculated similarly to the actuarial accrued liability under the unit credit cost method, but based on interest and mortality assumptions that are mandated by the Internal Revenue Service (IRS). The Current Liability interest rate assumption is based on 30-year Treasury yields and does not reflect the expected return on plan assets.

Current Liability and the expected increase in Current Liability attributable to benefits accruing during the plan year are shown above, as of the valuation date. Also shown above are the expected benefit payments for the plan year, based the same actuarial assumptions used to measure Current Liability.

Appendix E: Glossary

Actuarial Accrued Liability: This is computed differently under different actuarial cost methods. The Actuarial Accrued Liability generally represents the portion of the cost of the participants' anticipated retirement, termination, death and disability benefits allocated to the years before the current plan year.

Actuarial Cost: This is the contribution required for a plan year in accordance with the Trustees' funding policy. It consists of the Normal Cost plus an amortization payment to pay interest on and amortize the Unfunded Actuarial Accrued Liability based on the amortization schedule adopted by the Trustees.

Actuarial Gain or Loss: From one plan year to the next, if the experience of the plan differs from that anticipated using the actuarial assumptions, an actuarial gain or loss occurs. For example, an actuarial gain would occur if the assets in the trust earned 12% for the year while the assumed rate of return used in the valuation was 6%.

Actuarial Value of Assets: This is the value of cash, investments and other property belonging to a pension plan, as used by the actuary for the purposes of an actuarial valuation. It may be equal to the market value, or a smoothed value that recognizes changes in market value systematically over time.

Credit Balance: The Credit Balance represents the excess of actual contributions over the minimum required contributions under ERISA. The Credit Balance is also equal to the cumulative excess of credits over charges to the Funding Standard Account.

Current Liability: This is computed the same as the Present Value of Accumulated Benefits, but using interest rate and mortality assumptions specified by the IRS. This quantity is used in the calculation to determine the maximum tax deductible contribution to the plan for the year.

Funding Standard Account: This is the account which a plan is required to maintain in compliance with the minimum funding standards under ERISA. It consists of annual charges and credits needed to fund the Normal Cost and amortize the cost of plan amendments, actuarial method and assumption changes, and experience gains and losses.

Normal Cost: The Normal Cost is computed differently under different actuarial cost methods. The Normal Cost generally represents the portion of the cost of the participants' anticipated retirement, termination, death and disability benefits allocated to the current plan year. Employer Normal Cost generally also includes the cost of anticipated operating expenses.

Present Value of Accumulated Benefits: The Present Value of Accumulated Benefits is computed in accordance with ASC 960. This quantity is determined independently from the plan's actuarial cost method. This is the present value of a participant's accrued benefit as of the valuation date, assuming the participant will earn no more credited service and will receive no future salary.

Present Value of Future Benefits: This is computed by projecting the total future benefit cash flow from the plan, using actuarial assumptions, and then discounting the cash flow to the valuation date.

Present Value of Vested Benefits: This is the portion of the Present Value of Accumulated Benefits in which the employee would have a vested interest if the employee were to separate from service with the employer on the valuation date. It is also referred to as Vested Benefit Liability.

Unfunded Actuarial Accrued Liability: This is the amount by which the Actuarial Accrued Liability exceeds the Actuarial Value of Assets.

Withdrawal Liability: This is the amount an employer is required to pay upon certain types of withdrawal from a pension plan. It is an employer's allocated portion of the unfunded Present Value of Vested Benefits.

**REHABILITATION PLAN FOR THE
LOCAL 734 PENSION PLAN**

Amended and Restated Effective December 20, 2023

I. INTRODUCTION

Under the Pension Protection Act of 2006 ("PPA"), a multiemployer pension plan's actuary must certify a plan's funded status for a plan year within 90 days after the start of that plan year. As indicated in the August 27, 2010 Notice of Critical Status, the actuary for the Local 734 Pension Plan (the "Plan" or "Fund") has certified the Plan as being in "critical status" (sometimes referred to as the "red zone") for the Plan Year beginning May 1, 2010. For the Plan Years beginning May 1, 2015 through January 1, 2023, the Plan has been certified to be in "critical and declining" status.

The Fund's Board of Trustees (the "Trustees"), as the plan sponsor of a critical status pension plan, is required under the PPA to adopt a "Rehabilitation Plan." A Rehabilitation Plan contains one or more schedules showing revised benefits, contributions, or both, that are designed to have the Fund emerge from critical status by the end of the ten-year rehabilitation period as defined by the PPA, or where that is not reasonable, to emerge from critical status at a later time or to forestall possible insolvency ("Description of Schedules").

In 2014, the Trustees updated the Fund's Rehabilitation Plan. This update, the "2014 Amended Rehabilitation Plan", was necessary due to the withdrawal and subsequent bankruptcy of a significant contributing employer.

In 2016, the Trustees again updated the Rehabilitation Plan. The "2016 Amended Rehabilitation Plan" was necessary in order to continue to forestall possible insolvency, as discussed in Section II.

In 2019, the Trustees again updated the Rehabilitation Plan. The "2019 Amended and Restated Rehabilitation Plan" was necessary in order to continue to forestall possible insolvency, as discussed in Section II.

In 2021, the Trustees again updated the Rehabilitation Plan. The "2021 Amended and Restated Rehabilitation Plan" was necessary in order to continue to forestall possible insolvency, as discussed in Section II.

In 2023, the Trustees have again reviewed and updated the Rehabilitation Plan. The "2023 Amended and Restated Rehabilitation Plan" is necessary in order to continue to forestall possible insolvency, as discussed in Section II.

The Trustees must provide the Schedule or Schedules to the Fund's Contributing Employers, Local Union, and other parties responsible for bargaining over agreements requiring contributions to the Fund ("Bargaining Parties"). Trustees of plans in critical status must include one proposal for reductions in the amount of future benefit accruals and other benefits necessary to allow the plan to emerge from critical status (or forestall insolvency), assuming no contribution increases other than those necessary after future benefit accruals and "Adjustable

Benefits” (described below) have been reduced as much as possible under the law (the “Default Schedule”). A Rehabilitation Plan may also include an additional schedule or schedules.

Each Rehabilitation Plan schedule must reduce or eliminate “Adjustable Benefits” to the extent necessary to meet the legal requirements of the PPA. Adjustable Benefits include: (1) any early retirement benefit or retirement-type subsidy and any benefit payment option (other than the qualified joint and survivor annuity); (2) benefits and features, including post-retirement death benefits, disability benefits not in pay status, and similar benefits; and (3) benefit increases adopted or effective fewer than 60 months before a plan entered critical status.

Effective August 28, 2010, the Fund ceased making all lump sum payments (except those less than or equal to \$5,000 under Section 14.4 of the Plan document) as required by law, and the elimination of all such lump sum payments under the Plan shall continue under this Rehabilitation Plan.

The Trustees have the power, authority, and discretion to amend, construe and apply the provisions of this Rehabilitation Plan including the Schedules.

II. TRUSTEES’ DETERMINATION TO UTILIZE ALTERNATIVE MEASURES TO EMERGE FROM CRITICAL STATUS

Under the PPA, a Rehabilitation Plan is intended to enable a pension fund to emerge from critical status by the end of its rehabilitation period. The PPA, however, provides the Board of Trustees with an alternative option if it “determines that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures,” the Fund is not reasonably expected to emerge from critical status by the close of the plan’s rehabilitation period. In such case, the Trustees are permitted to adopt a Rehabilitation Plan that includes reasonable measures designed to allow the Fund to emerge from critical status at a later time or forestall possible insolvency under Section 4245 of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

After consideration of various alternatives and exhaustion of all reasonable measures, the Trustees have determined that it would not be reasonably possible for the Fund to emerge from critical status under the PPA by the end of its rehabilitation period. This conclusion is based on the advice and recommendation of the Fund’s actuaries and their use of reasonable actuarial assumptions.

Alternatives Considered

Under the 2014, 2016, 2019 and 2021 Amended Rehabilitation Plans, the Trustees determined that all reasonable measures to emerge from critical status have been exhausted and that instead the Trustees would take action to forestall the date of the Plan’s possible insolvency. At that time, the Trustees determined that significant contribution increases would be harmful to the solvency of the Fund because:

- i. It would create a barrier to competition with non-union employers that do not sponsor a pension plan.

- ii. The contribution increases would likely result in additional employers withdrawing from the Fund rather than adopting a schedule that included such increases.
- iii. The withdrawal liability for any remaining employer will be limited by the 20-year cap under ERISA Section 4219(c)(1)(B).
- iv. A withdrawing employer would be more likely to file for bankruptcy rather than to pay the assessed withdrawal liability.

In making these determinations, the Trustees considered, among other things, the financial conditions of remaining contributing employers, noting in particular the 2012 bankruptcy of Hostess Brands, Inc., the largest contributing employer to the Fund.

After the 2016 Amended Rehabilitation Plan was adopted, a contributing employer approached the Trustees with a potential offer to transfer benefit liabilities to another multiemployer plan for the remaining participating employer's current employees plus a significant portion of their former employees who were entitled to benefits under the Plan. No assets were proposed to be transferred under this potential arrangement. In December 2018, the employer decided not to pursue such a transfer. Following that decision, the Trustees made the decision to further increase contributions at a level consistent with current levels of inflation in order to continue to forestall insolvency. In addition to the contribution increases already made, the Trustees decided to eliminate all adjustable benefits.

After the 2019 Amended Rehabilitation Plan was adopted, the Trustees determined that contribution rates in excess of the \$180 per week level in effect as of May 1, 2020 were unaffordable and would potentially result in additional employers withdrawing from the Fund. The Trustees concluded that additional contribution increases would lead to annual contributions that further exceed the annual employer withdrawal liability payments if an employer withdrew from the Fund, noting the cap on contribution rates specified in Internal Revenue Code Section 432(g)(3) that excludes contribution rate increases for plan years starting on or after January 1, 2015 that are required under a Rehabilitation Plan. The Trustees determined that eliminating the future contribution rate increases scheduled after May 1, 2020 would make it more likely that a contributing employer would remain in the Fund, rather than withdrawing and triggering annual withdrawal liability payments that are much less than the ongoing contribution requirements.

To illustrate the difference between future employer contributions and withdrawal liability payments discussed in the paragraph above, note that all employers are currently required to contribute at a rate of \$180 per week. Under the Amended 2019 Rehabilitation Plan, the rate would increase to \$234 per week as of May 1, 2029. But if an employer withdraws from the Fund, then its annual withdrawal liability payments would be based on the rate in effect as of April 30, 2015. Depending on the contributing employer, this rate is only \$135 to \$145 per week.

Just prior to the adoption of the 2021 Amended Rehabilitation Plan, the American Rescue Plan Act ("ARPA") was signed into law. ARPA provides eligible pension plans with Special Financial Assistance ("SFA") to allow plans to remain solvent through 2051.

The Trustees reviewed the provisions of ARPA with the Plan's actuary to determine that the Plan would be eligible for SFA. The Trustees reviewed alternative contribution increase schedules, that combined with SFA, could extend the Plan's solvency beyond 2051 and potentially emerge from critical status in 2052.

III. DESCRIPTION OF SCHEDULES

A. Introduction

The Rehabilitation Plan for 2011 as amended in 2014, 2016, 2019, and 2021 is incorporated as an Appendix to this 2023 Amended and Restated Rehabilitation Plan. The 2023 Amended and Restated Rehabilitation Plan includes only a Default Schedule.

The Default Schedule adopted by the Trustees under the 2023 Amended and Restated Rehabilitation Plan is set forth below. Unless otherwise indicated, all capitalized terms used in this Schedule shall have the definitions and meanings assigned to them in the Plan.

B. 2023 Rehabilitation Plan Schedule

1. Default Schedule

a. Contributions

Compliance with the Default Schedule requires the Contributing Employer's contribution rate to be a minimum of \$192 per week (\$4.80 per hour) beginning January 1, 2025 with annual increases of \$6.00 per week (\$0.15 per hour) each year until the rate is equal to a minimum of \$268 per week (\$6.70 per hour) starting January 1, 2038.

Specifically, the following table shows the minimum weekly contribution rates that are required as of each effective date to maintain compliance with the Default Schedule:

Effective Date	Minimum Weekly Contribution Rate	Minimum Hourly Contribution Rate
January 1, 2025	\$192	\$4.80
January 1, 2026	\$198	\$4.95
January 1, 2027	\$204	\$5.10
January 1, 2028	\$210	\$5.25
January 1, 2029	\$216	\$5.40
January 1, 2030	\$222	\$5.55
January 1, 2031	\$228	\$5.70
January 1, 2032	\$234	\$5.85
January 1, 2033	\$240	\$6.00
January 1, 2034	\$246	\$6.15

January 1, 2035	\$252	\$6.30
January 1, 2036	\$258	\$6.45
January 1, 2037	\$264	\$6.60
January 1, 2038	\$268	\$6.70

CBAs can defer making annual increases as long as the contribution rate in the CBA meets or exceeds the minimum contribution rate as of a given effective date.

The per week and per hour amounts are to distinguish between CBAs that establish contributions to the Fund on either a weekly or an hourly basis. The Trustees shall have sole discretion in determining whether the CBA is in compliance with this Schedule.

b. Benefits

There is no change in benefit provisions from those summarized in the 2019 Amended Rehabilitation Plan. All remaining Adjustable Benefits were eliminated under the 2019 Amended Rehabilitation Plan.

C. Annual Review of Rehabilitation Plan and Schedules

The Trustees will review the Rehabilitation Plan and its Schedule annually with the assistance of the Fund's actuary, as they deem appropriate. If, for example, the Fund's actual experience does not reflect the assumptions used to develop the Rehabilitation Plan and its Schedules, the Trustees may amend or modify the Rehabilitation Plan and/or its Schedules, based on the advice of the Fund's actuary, to reflect the Fund's experience over the preceding plan year(s). However, if the Bargaining Parties have adopted a CBA that complies with one of the Schedules, the contribution rate requirements in the Schedules will continue for the duration of that CBA.

Local 734 Pension Plan

Actuarial Certification for the Plan Year Beginning May 1, 2018

July 27, 2018

Atlanta ■ Cleveland ■ Denver ■ Irvine ■ Los Angeles
Miami ■ San Diego ■ Washington, D.C.

Purpose and Actuarial Statement

This report provides the status certification of the Local 734 Pension Plan (the "Plan") as required under section 432(b)(3) of the Internal Revenue Code (the "Code") for the plan year beginning May 1, 2018 (the "2018 Plan Year").

Under section 432(b)(3) of the Code, the plan actuary of a multiemployer pension plan is required to certify the plan's status (endangered, seriously endangered, critical, critical and declining, or none of the above) to the Secretary of the Treasury and the plan sponsor no later than the 90th day of the plan year. For plans that were certified as in endangered or critical status for the previous plan year and have begun either the funding improvement or rehabilitation period (respectively), the plan actuary must also certify whether the plan is making scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

In preparing this report, we have relied upon information and data provided to us by the Board of Trustees of the Local 734 Pension Plan, the Fund administrator, and other persons or organizations designated by the Board of Trustees. We did not perform an audit of the financial and participant census data provided to us, but we have reviewed the data for reasonableness for the purpose of the certification. We have relied on all of the information provided, including plan provisions and asset information, as complete and accurate.

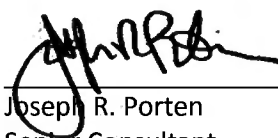

In our opinion, all methods, assumptions and calculations used in this certification are in accordance with requirements of the Code and the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended by the Pension Protection Act of 2006 ("PPA"), the Pension Relief Act of 2010 ("PRA 2010"), and the Multiemployer Pension Reform Act of 2014 ("MPRA"). Further, in our opinion, the procedures followed and presentation of results are in conformity with generally accepted actuarial principles and practices.

This report is based on actuarial calculations that require assumptions about future events. We believe that the assumptions and methods used in this report are reasonable and appropriate for the purposes for which they have been used. However, other assumptions and methods could also be reasonable and could result in materially different results. The Board of Trustees was responsible for the selection of the actuarial cost and asset valuation methods for purposes of this certification. The Board of Trustees also provided information regarding the levels of projected industry activity and future contribution levels, which was used in performing the actuarial projections required for this certification.

The undersigned consultants of Horizon Actuarial Services, LLC with actuarial credentials meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. There is no relationship between the Board of Trustees of the Local 734 Pension Plan and Horizon Actuarial Services, LLC that affects our objectivity.

Certification Results

Under section 432(b)(3) of the Code, the plan actuary of a multiemployer pension plan is required to perform an annual certification to the Secretary of the Treasury and the plan sponsor. The certification must be made no later than the 90th day of the plan year. There are two parts to the certification:

- Section 432(b)(3)(A)(i): whether or not the plan is in endangered status for such plan year, or would be in endangered status if not for a special rule; whether or not the plan is or will be in critical status for such plan year or for any of the succeeding 5 plan years; and whether or not the plan is or will be in critical and declining status for such plan year, and
- Section 432(b)(3)(A)(ii): in the case of a plan which is in a funding improvement or rehabilitation period, whether or not the plan is making the scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

The key results for the certification for the 2018 Plan Year are summarized below.

Section 432(b)(3)(A)(i): Certification Status

Critical and Declining

Section 432(b)(1): The Plan is not in endangered status for the current plan year.

Section 432(b)(5): The special rule under section 432(b)(5) does not apply for the current plan year.

Section 432(b)(2): The Plan is in critical status for the current plan year.

Section 432(b)(4): The special rule under section 432(b)(4) does not apply for the current plan year.

Section 432(b)(6): The Plan is in critical and declining status for the current plan year.

Section 432(b)(3)(A)(ii): Scheduled Progress

Making Scheduled Progress

As shown above, the Plan is in critical and declining status for the 2018 Plan Year.

As the Board of Trustees has taken actions to forestall possible insolvency, and the Plan continues pay its full benefit obligations, the Plan is making scheduled progress in meeting the requirements of its adopted Rehabilitation Plan.

Explanations of the certification results and the key calculations used in performing the certification are included in later sections of this report.

1. Certification Results

Notice Requirements

Under section 432(b)(3)(D) of the Code, the sponsor of a multiemployer plan that is certified in endangered or critical status for a plan year must provide notification of the endangered or critical status to participants and beneficiaries, the bargaining parties, the Pension Benefit Guaranty Corporation ("PBGC"), and the Secretary of Labor. Such notice must be provided not later than 30 days after the date of the certification.

The notice requirement also applies to a plan sponsor that elects to be in critical status under the special rule described in section 432(b)(4). If a plan sponsor elects to be in critical status under the special rule described in section 432(b)(4), it must notify the Secretary of Treasury of such election not later than 30 days after the date of certification.

In the case of a plan that would be in endangered status if not for the special rule described in section 432(b)(5), the plan sponsor must provide notification to the bargaining parties and the PBGC that the plan would be in endangered status if not for the special rule.

In the case of a plan that is projected to be in critical status in any of the 5 succeeding plan years (but not for the current plan year) and the plan sponsor has not made an election to be in critical status for the plan year, the plan sponsor must provide notification of the projected critical status to the PBGC not later than 30 days after the date of certification.

The Secretary of Treasury and Secretary of Labor have prescribed a model notice to satisfy the notification requirements described above. The model notice can be found at the Department of Labor website: www.dol.gov/ebsa/criticalstatusnotices.html.

Because the Plan is in critical and declining status for the 2018 Plan Year, the Board of Trustees is required to provide notification of critical status to covered participants and beneficiaries, bargaining parties, the PBGC, and the Secretary of the Labor within 30 days following the date of the certification (no later than August 26, 2018).

2. Certification Explanation

This section of the report includes explanations of the different certification results. Explanations are shown separately for endangered status, critical status, critical and declining status, and making scheduled progress to the funding improvement or rehabilitation plan (if applicable).

Endangered Status

Under section 432(c), the sponsor of a multiemployer plan in endangered status must adopt a funding improvement plan to enable the plan to attain certain funding benchmarks.

Under section 432(b)(1), a plan is in “endangered” status for the plan year if it is not in critical status (as defined in section 432(b)(2)) and if at least one of two following tests is met. If both tests are met, the plan is considered to be in “seriously endangered” status. See Exhibit 1 for applicable calculations.

- Section 432(b)(1)(A): its funded percentage is less than 80%; or
- Section 432(b)(1)(B): it is projected to have an accumulated funding deficiency in its funding standard account in the current plan year or succeeding 6 plan years, taking into account any extensions of amortization periods under section 431(d).

Notwithstanding the above, under a special rule in section 432(b)(5), a plan is not in endangered status for the current plan year if the plan actuary certifies that the plan is projected, as of the end of the tenth plan year ending after the current plan year, to have a funded percentage that is at least 80% and no projected funding deficiencies for the tenth plan year and succeeding six plan years. This special rule applies only to plans that were in the “green zone” in the preceding plan year. In other words, under the special rule, if a plan was in the green zone for the preceding plan year, and it is projected to be in the green zone at the end of the tenth succeeding plan year, it is considered to be in the green zone for the current plan year.

The Plan is in critical and declining status for the 2018 Plan Year. Therefore, it is not in endangered status for the 2018 Plan Year.

2. Certification Explanation

Critical Status

Under section 432(e), the sponsor of a multiemployer plan in critical status must adopt a rehabilitation plan to enable the plan to emerge from critical status within a given timeframe or, under certain circumstances, to avoid or forestall insolvency.

Under section 432(b)(2), a plan is in “critical” status for the plan year if at least one of four following tests are met. See Exhibit 2 for applicable calculations.

- Section 432(b)(2)(A): the plan’s funded percentage is less than 65% and the plan is projected to go insolvent in the current or next 6 plan years;
- Section 432(b)(2)(B): the plan is projected to have an accumulated funding deficiency in the current or next 3 plan years (current or next 4 plan years if the funded percentage is less than 65%), disregarding any extension of amortization periods under section 431(d);
- Section 432(b)(2)(C): the plan’s normal cost for the plan year plus interest on the unfunded accrued liability exceeds the present value of reasonably anticipated employer contributions for the plan year, the present value of non-forfeitable benefits for inactive participants exceeds the present value of non-forfeitable benefits for active participants, and the plan is projected to have an accumulated funding deficiency in the current or next 4 plan years, disregarding any extension of amortization periods under section 431(d); or
- Section 432(b)(2)(D): the plan is projected to go insolvent in the current or next 4 plan years.

The Plan is in critical status for the 2018 Plan Year (prior to testing for critical and declining status) because:

- a) It was certified in critical status for the 2010 Plan Year and has not emerged from critical status; and,*
- b) It has a projected funding deficiency in the current or next 3 plan years.*

Election to be in Critical Status

Under section 432(b)(4), the sponsor of a multiemployer plan that is not in critical status for the current plan year but that is projected to be in critical status in any of the next 5 plan years may elect to be in critical status for the current plan year. The election must be made not later than 30 days after the date of the certification of status.

The Plan is in critical status for the 2018 Plan Year (prior to testing for critical and declining status). Therefore, the rule under section 432(b)(4) to elect to be in critical status does not apply.

2. Certification Explanation

Critical and Declining Status

Under section 432(e)(9), the sponsor of a multiemployer plan in critical and declining status may suspend benefits which the sponsor deems appropriate, including certain benefits that would otherwise be protected, if the benefit suspensions would enable the plan to avoid insolvency.

Under section 432(b)(6), a plan is in “critical and declining” status for the plan year if it is in critical status and it is projected to go insolvent within the current or next 14 plan years. The solvency projection period is the current or next 19 plan years if the plan’s ratio of inactive participants to active participants exceeds 2 to 1 or if its funded percentage is less than 80%. See Exhibit 4 for applicable calculations.

For purposes of determining whether a plan is in critical and declining status, projections by the plan actuary shall assume that each contributing employer is currently in compliance with the adopted rehabilitation plan and will continue to be in compliance. In other words, projections by the plan actuary shall reflect future contribution rate increases from the adopted rehabilitation plan, even if those increases are scheduled after the expiration of the collective bargaining agreements currently in effect.

The Plan is in critical and declining status for the 2018 Plan Year because it is projected to go insolvent in the current or next 19 plan years. Specifically, the Plan is projected to go insolvent in the plan year beginning May 1, 2033. Because the Plan’s ratio of inactive participants to active participants exceeds 2 to 1, the applicable solvency projection period is the current and next 19 plan years.

Scheduled Progress

Under section 432(b)(3)(A)(ii), in the case of a plan which is in a funding improvement or rehabilitation period, the plan actuary shall certify whether the plan is making scheduled progress in meeting the requirements of its adopted funding improvement or rehabilitation plan.

The Board of Trustees has determined, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, that the Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period. Therefore, as described in section 432(e)(3)(A)(ii) of the Code, the Rehabilitation Plan consists of actions to forestall possible insolvency.

As the Board of Trustees has taken significant actions to forestall possible insolvency, and the Plan continues to pay its full benefit obligations, the Plan is making scheduled progress in meeting the requirements of its adopted Rehabilitation Plan.

3. Certification Calculations

The following tables summarize the key measures that were used in performing the certification of status. All figures below were determined under the methods prescribed by section 432(b)(3)(B) of the Code. Projections of assets and liabilities were based on data, results, assumptions and methods, and plan provisions that were used in the Plan's actuarial valuation as of May 1, 2017. See the description of the actuarial basis (later in this report) for more information.

Exhibit 1 below summarizes the key measures used in determining whether or not the Plan is in endangered status for the current plan year. The exhibit shows the basic tests for determining endangered status under PPA, as defined in section 432(b)(1) of the Code, and calculations required under the special rule under MPRA, as defined in section 432(b)(5) of the Code, as applicable. See Exhibit 3 for a projection of the funding standard account (in other words, projected credit balances and funding deficiencies).

Exhibit 2 summarizes the key measures used in determining whether or not the Plan is in critical status for the current plan year. The exhibit shows the basic tests for determining critical status under PPA, as defined in section 432(b)(2) of the Code. Also shown is information about whether the Plan is projected to be in critical status for the succeeding 5 plan years, and therefore eligible to elect to be in critical status for the current plan year under MPRA, as defined in section 432(b)(4). See Exhibit 3 for a projection of the funding standard account (in other words, projected credit balances and funding deficiencies).

4. Actuarial Basis

As required under section 432(b)(3)(B) of the Code, this certification is based on actuarial projections for the current and succeeding plan years for the current value of Plan assets and Plan liabilities related to participants and beneficiaries covered under the Plan. The projections are based on reasonable actuarial estimates, assumptions, and methods that (except as noted below) offer the actuary's best estimate of anticipated experience under the Plan.

Most Recent Actuarial Valuation

For this certification for the 2018 Plan Year, projections of Plan liabilities are based on the actuarial valuation as of May 1, 2017, as set forth in the report dated December 5, 2017. The actuarial assumptions and methods used in that actuarial valuation, including a valuation interest rate assumption of 7.00%, are the same as those used in this certification. Please refer to the May 1, 2017 actuarial valuation report for a summary of applicable data, assumptions, methods, and plan provisions.

The demographic actuarial assumptions used in the actuarial valuation and this certification were developed based on a review of past experience and anticipated future experience for the Plan, given the particular characteristics of the Plan's participant population. The valuation interest rate was selected based consideration of the Plan's asset allocation, past experience, discussions with the Plan's investment advisor, and the results of the 2017 edition of the Survey of Capital Market Assumptions by Horizon Actuarial Services, LLC.

Projection of Plan Assets

The actuarial value of assets was projected to each succeeding plan year, as required under this certification, by assuming that investment return on the underlying market value of assets will equal the valuation interest rate assumption of 7.00% for each year in the future. The preliminary estimate of the market value of assets as of April 30, 2018 was provided by the Plan's auditor.

Projection of Future Work Levels and Contributions

The projection of Plan assets is also based on a projection of covered employment levels and employer contributions for current and succeeding plan years. The projection of covered employment levels is based on information provided in good faith by the Board of Trustees. It was assumed that the number of active participants and annual weeks worked per active participant would remain level in future years and equal the levels reported in the actuarial valuation as of May 1, 2017, except for the exclusion of active participants employed by Kellogg's which withdrew from the Plan during the 2017 Plan Year.

The projected weekly employer contribution rates reflect the amounts agreed to in collective bargaining agreements in effect as of May 1, 2018. Projections of employer contributions for purposes of determining critical and declining status, however, assume that each contributing employer currently in compliance with the adopted rehabilitation plan will continue to be in compliance during the current and succeeding plan years.

Projection of Plan Liabilities

The projection of Plan liabilities was performed using an open-group, roll-forward technique. Each year, the liability of the Plan is assumed to increase due to a decrease in the period of discounting and decrease by the value of expected benefit payments made to participants. Additionally, Plan liabilities are assumed to increase each year by the amount of benefits accrued by active participants and anticipated operating expenses (Normal Cost).

Local 734 Pension Plan

Status Certification for Plan Year Beginning May 1, 2018

4. Actuarial Basis

For projection purposes, hypothetical new entrants were added to the population to achieve the expected level of projected industry activity, which was developed based on information provided by the Board of Trustees. The demographic characteristics of the assumed new entrants were developed based on a review of new participants under the Plan in recent years.

Pension Relief Act of 2010

Projections of the funding standard account and actuarial value of assets for the current and each succeeding plan year reflect the relief provisions of the Pension Relief Act of 2010 as adopted by the Board of Trustees.

- Critical and Declining Status
- Making scheduled progress toward Rehabilitation Plan

This is the annual certification by the Plan Actuary as required under section 432(b) of the Internal Revenue Code (the "Code") for the above-named multiemployer plan (the "Plan") and plan year (the "Plan Year"). For the Plan Year, the Plan is in critical and declining status.

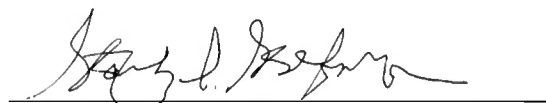

Under the terms of the rehabilitation plan in place as of May 1, 2018, we further certify, that the Plan is making scheduled progress in meeting the requirements of the rehabilitation plan. The Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period, though the Board of Trustees has taken significant actions to forestall possible insolvency, and the Plan continues to pay its full benefit obligations.

This certification was performed based upon actuarial projections of assets and liabilities for the current and succeeding plan years, as described under section 432(b)(3)(B). These projections are based on reasonable actuarial estimates, assumptions, and methods that offer my best estimate of anticipated experience under the Plan. The projected Plan liabilities as of the beginning of the Plan Year was determined based on a projection of the actuarial valuation of the Plan as of May 1, 2017. The projections of Plan assets are based on the preliminary audited market value of assets of the Plan as of April 30, 2018, provided by the Plan's auditor, and the assumption that future net investment returns will be 7.0% per year, beginning May 1, 2018.

This certification is also based on projections of industry activity, including future covered employment and contribution levels, which are based on information provided in good faith by the Plan Sponsor. This certification assumes that the current terms of the collective bargaining agreements under which contributions are made to the Plan will remain in effect for all succeeding plan years. This certification reflects the decision by the Board of Trustees to apply special funding relief rules as permitted under the Pension Relief Act of 2010.

To the best of my knowledge, the actuarial assumptions and methods used in the preparation of this certification comply with all applicable Actuarial Standards of Practice.

Purpose and Actuarial Statement

This report provides the status certification of the Local 734 Pension Plan (the "Plan") as required under section 432(b)(3) of the Internal Revenue Code (the "Code") for the plan year beginning May 1, 2019 (the "2019 Plan Year").

Under section 432(b)(3) of the Code, the plan actuary of a multiemployer pension plan is required to certify the plan's status (endangered, seriously endangered, critical, critical and declining, or none of the above) to the Secretary of the Treasury and the plan sponsor no later than the 90th day of the plan year. For plans that were certified as in endangered or critical status for the previous plan year and have begun either the funding improvement or rehabilitation period (respectively), the plan actuary must also certify whether the plan is making scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

In preparing this report, we have relied upon information and data provided to us by the Board of Trustees of the Local 734 Pension Plan, the Fund administrator, and other persons or organizations designated by the Board of Trustees. We did not perform an audit of the financial and participant census data provided to us, but we have reviewed the data for reasonableness for the purpose of the certification. We have relied on all of the information provided, including plan provisions and asset information, as complete and accurate.

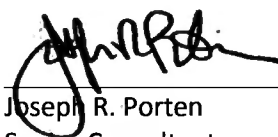

In our opinion, all methods, assumptions and calculations used in this certification are in accordance with requirements of the Code and the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended by the Pension Protection Act of 2006 ("PPA"), the Pension Relief Act of 2010 ("PRA 2010"), and the Multiemployer Pension Reform Act of 2014 ("MPRA"). Further, in our opinion, the procedures followed and presentation of results are in conformity with generally accepted actuarial principles and practices.

This report is based on actuarial calculations that require assumptions about future events. We believe that the assumptions and methods used in this report are reasonable and appropriate for the purposes for which they have been used. However, other assumptions and methods could also be reasonable and could result in materially different results. The Board of Trustees was responsible for the selection of the actuarial cost and asset valuation methods for purposes of this certification. The Board of Trustees also provided information regarding the levels of projected industry activity and future contribution levels, which was used in performing the actuarial projections required for this certification.

The undersigned consultants of Horizon Actuarial Services, LLC with actuarial credentials meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. There is no relationship between the Board of Trustees of the Local 734 Pension Plan and Horizon Actuarial Services, LLC that affects our objectivity.

Certification Results

Under section 432(b)(3) of the Code, the plan actuary of a multiemployer pension plan is required to perform an annual certification to the Secretary of the Treasury and the plan sponsor. The certification must be made no later than the 90th day of the plan year. There are two parts to the certification:

- Section 432(b)(3)(A)(i): whether or not the plan is in endangered status for such plan year, or would be in endangered status if not for a special rule; whether or not the plan is or will be in critical status for such plan year or for any of the succeeding 5 plan years; and whether or not the plan is or will be in critical and declining status for such plan year, and
- Section 432(b)(3)(A)(ii): in the case of a plan which is in a funding improvement or rehabilitation period, whether or not the plan is making the scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

The key results for the certification for the 2019 Plan Year are summarized below.

Section 432(b)(3): Annual Certification by Plan Actuary – Certification Results

Plan Year Beginning May 1, 2019

Section 432(b)(3)(A)(i): Certification Status

Critical and Declining

Section 432(b)(1): The Plan is not in endangered status for the current plan year.

Section 432(b)(5): The special rule under section 432(b)(5) does not apply for the current plan year.

Section 432(b)(2): The Plan is in critical status for the current plan year.

Section 432(b)(4): The special rule under section 432(b)(4) does not apply for the current plan year.

Section 432(b)(6): The Plan is in critical and declining status for the current plan year.

Section 432(b)(3)(A)(ii): Scheduled Progress

Making Scheduled Progress

As shown above, the Plan is in critical and declining status for the 2019 Plan Year.

As the Board of Trustees has taken actions to forestall possible insolvency, and the Plan continues pay its full benefit obligations, the Plan is making scheduled progress in meeting the requirements of its adopted Rehabilitation Plan.

Explanations of the certification results and the key calculations used in performing the certification are included in later sections of this report.

1. Certification Results

Notice Requirements

Under section 432(b)(3)(D) of the Code, the sponsor of a multiemployer plan that is certified in endangered or critical status for a plan year must provide notification of the endangered or critical status to participants and beneficiaries, the bargaining parties, the Pension Benefit Guaranty Corporation ("PBGC"), and the Secretary of Labor. Such notice must be provided not later than 30 days after the date of the certification.

The notice requirement also applies to a plan sponsor that elects to be in critical status under the special rule described in section 432(b)(4). If a plan sponsor elects to be in critical status under the special rule described in section 432(b)(4), it must notify the Secretary of Treasury of such election not later than 30 days after the date of certification.

In the case of a plan that would be in endangered status if not for the special rule described in section 432(b)(5), the plan sponsor must provide notification to the bargaining parties and the PBGC that the plan would be in endangered status if not for the special rule.

In the case of a plan that is projected to be in critical status in any of the 5 succeeding plan years (but not for the current plan year) and the plan sponsor has not made an election to be in critical status for the plan year, the plan sponsor must provide notification of the projected critical status to the PBGC not later than 30 days after the date of certification.

The Secretary of Treasury and Secretary of Labor have prescribed a model notice to satisfy the notification requirements described above. The model notice can be found at the Department of Labor website: <https://www.dol.gov/agencies/ebsa/about-ebsa/our-activities/public-disclosure/critical-status-notices>.

Because the Plan is in critical and declining status for the 2019 Plan Year, the Board of Trustees is required to provide notification of critical status to covered participants and beneficiaries, bargaining parties, the PBGC, and the Secretary of the Labor within 30 days following the date of the certification (no later than August 22, 2019).

2. Certification Explanation

This section of the report includes explanations of the different certification results. Explanations are shown separately for endangered status, critical status, critical and declining status, and making scheduled progress to the funding improvement or rehabilitation plan (if applicable).

Endangered Status

Under section 432(c), the sponsor of a multiemployer plan in endangered status must adopt a funding improvement plan to enable the plan to attain certain funding benchmarks.

Under section 432(b)(1), a plan is in “endangered” status for the plan year if it is not in critical status (as defined in section 432(b)(2)) and if at least one of two following tests is met. If both tests are met, the plan is considered to be in “seriously endangered” status. See Exhibit 1 for applicable calculations.

- Section 432(b)(1)(A): its funded percentage is less than 80%; or
- Section 432(b)(1)(B): it is projected to have an accumulated funding deficiency in its funding standard account in the current plan year or succeeding 6 plan years, taking into account any extensions of amortization periods under section 431(d).

Notwithstanding the above, under a special rule in section 432(b)(5), a plan is not in endangered status for the current plan year if the plan actuary certifies that the plan is projected, as of the end of the tenth plan year ending after the current plan year, to have a funded percentage that is at least 80% and no projected funding deficiencies for the tenth plan year and succeeding six plan years. This special rule applies only to plans that were in the “green zone” in the preceding plan year. In other words, under the special rule, if a plan was in the green zone for the preceding plan year, and it is projected to be in the green zone at the end of the tenth succeeding plan year, it is considered to be in the green zone for the current plan year.

The Plan is in critical and declining status for the 2019 Plan Year. Therefore, it is not in endangered status for the 2019 Plan Year.

2. Certification Explanation

Critical Status

Under section 432(e), the sponsor of a multiemployer plan in critical status must adopt a rehabilitation plan to enable the plan to emerge from critical status within a given timeframe or, under certain circumstances, to avoid or forestall insolvency.

Under section 432(b)(2), a plan is in “critical” status for the plan year if at least one of four following tests are met. See Exhibit 2 for applicable calculations.

- Section 432(b)(2)(A): the plan’s funded percentage is less than 65% and the plan is projected to go insolvent in the current or next 6 plan years;
- Section 432(b)(2)(B): the plan is projected to have an accumulated funding deficiency in the current or next 3 plan years (current or next 4 plan years if the funded percentage is less than 65%), disregarding any extension of amortization periods under section 431(d);
- Section 432(b)(2)(C): the plan’s normal cost for the plan year plus interest on the unfunded accrued liability exceeds the present value of reasonably anticipated employer contributions for the plan year, the present value of non-forfeitable benefits for inactive participants exceeds the present value of non-forfeitable benefits for active participants, and the plan is projected to have an accumulated funding deficiency in the current or next 4 plan years, disregarding any extension of amortization periods under section 431(d); or
- Section 432(b)(2)(D): the plan is projected to go insolvent in the current or next 4 plan years.

The Plan is in critical status for the 2019 Plan Year (prior to testing for critical and declining status) because:

- a) It was certified in critical status for the 2010 Plan Year and has not emerged from critical status; and,*
- b) It has a projected funding deficiency in the current or next 3 plan years.*

Election to be in Critical Status

Under section 432(b)(4), the sponsor of a multiemployer plan that is not in critical status for the current plan year but that is projected to be in critical status in any of the next 5 plan years may elect to be in critical status for the current plan year. The election must be made not later than 30 days after the date of the certification of status.

The Plan is in critical status for the 2019 Plan Year (prior to testing for critical and declining status). Therefore, the rule under section 432(b)(4) to elect to be in critical status does not apply.

2. Certification Explanation

Critical and Declining Status

Under section 432(e)(9), the sponsor of a multiemployer plan in critical and declining status may suspend benefits which the sponsor deems appropriate, including certain benefits that would otherwise be protected, if the benefit suspensions would enable the plan to avoid insolvency.

Under section 432(b)(6), a plan is in “critical and declining” status for the plan year if it is in critical status and it is projected to go insolvent within the current or next 14 plan years. The solvency projection period is the current or next 19 plan years if the plan’s ratio of inactive participants to active participants exceeds 2 to 1 or if its funded percentage is less than 80%. See Exhibit 4 for applicable calculations.

For purposes of determining whether a plan is in critical and declining status, projections by the plan actuary shall assume that each contributing employer is currently in compliance with the adopted rehabilitation plan and will continue to be in compliance. In other words, projections by the plan actuary shall reflect future contribution rate increases from the adopted rehabilitation plan, even if those increases are scheduled after the expiration of the collective bargaining agreements currently in effect.

The Plan is in critical and declining status for the 2019 Plan Year because it is projected to go insolvent in the current or next 19 plan years. Specifically, the Plan is projected to go insolvent in the plan year beginning May 1, 2035. Because the Plan’s ratio of inactive participants to active participants exceeds 2 to 1, the applicable solvency projection period is the current and next 19 plan years.

Scheduled Progress

Under section 432(b)(3)(A)(ii), in the case of a plan which is in a funding improvement or rehabilitation period, the plan actuary shall certify whether the plan is making scheduled progress in meeting the requirements of its adopted funding improvement or rehabilitation plan.

The Board of Trustees has determined, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, that the Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period. Therefore, as described in section 432(e)(3)(A)(ii) of the Code, the Rehabilitation Plan consists of actions to forestall possible insolvency.

As the Board of Trustees has taken significant actions to forestall possible insolvency, and the Plan continues to pay its full benefit obligations, the Plan is making scheduled progress in meeting the requirements of its adopted Rehabilitation Plan.

3. Certification Calculations

The following tables summarize the key measures that were used in performing the certification of status. All figures below were determined under the methods prescribed by section 432(b)(3)(B) of the Code. Projections of assets and liabilities were based on data, results, assumptions and methods, and plan provisions were used in the Plan's actuarial valuation as of May 1, 2018 adjusted to reflect demographic experience demographic experience for the year-ended April 30, 2019 and the updated rehabilitation plan effective September 2, 2019. See the description of the actuarial basis (later in this report) for more information.

Exhibit 1 below summarizes the key measures used in determining whether or not the Plan is in endangered status for the current plan year. The exhibit shows the basic tests for determining endangered status under PPA, as defined in section 432(b)(1) of the Code, and calculations required under the special rule under MPRA, as defined in section 432(b)(5) of the Code, as applicable. See Exhibit 3 for a projection of the funding standard account (in other words, projected credit balances and funding deficiencies).

3. Certification Calculations

Exhibit 2 summarizes the key measures used in determining whether or not the Plan is in critical status for the current plan year. The exhibit shows the basic tests for determining critical status under PPA, as defined in section 432(b)(2) of the Code. Also shown is information about whether the Plan is projected to be in critical status for the succeeding 5 plan years, and therefore eligible to elect to be in critical status for the current plan year under MPRA, as defined in section 432(b)(4). See Exhibit 3 for a projection of the funding standard account (in other words, projected credit balances and funding deficiencies).

4. Actuarial Basis

Exhibit 4 summarizes the key measures used in determining whether or not the Plan is in critical and declining status. For purposes of determining whether a plan is in critical and declining status, projections by the plan actuary shall assume that each contributing employer currently in compliance with the adopted rehabilitation plan will continue to be in compliance.

The contributions in the exhibit include EWL payments of \$350,256 in all plan years ending 4/30 through 4/30/2037 and then \$175,128 from 5/1/2037 through 4/30/2038.

4. Actuarial Basis

As required under section 432(b)(3)(B) of the Code, this certification is based on actuarial projections for the current and succeeding plan years for the current value of Plan assets and Plan liabilities related to participants and beneficiaries covered under the Plan. The projections are based on reasonable actuarial estimates, assumptions, and methods that (except as noted below) offer the actuary's best estimate of anticipated experience under the Plan.

Most Recent Actuarial Valuation

For this certification for the 2019 Plan Year, projections of Plan liabilities are based on the actuarial valuation as of May 1, 2018, as set forth in the report dated December 31, 2018, adjusted to reflect demographic experience for the year ended April 30, 2019 and the updated rehabilitation plan effective September 2, 2019. The actuarial assumptions and methods used in that actuarial valuation, including a valuation interest rate assumption of 7.00%, are the same as those used in this certification. Please refer to the May 1, 2018 actuarial valuation report and to the updated rehabilitation plan effective September 2, 2019, for a summary of applicable data, assumptions, methods, and plan provisions.

The demographic actuarial assumptions used in the actuarial valuation and this certification were developed based on a review of past experience and anticipated future experience for the Plan, given the particular characteristics of the Plan's participant population. The valuation interest rate was selected based consideration of the Plan's asset allocation, past experience, discussions with the Plan's investment advisor, and the results of the 2018 edition of the Survey of Capital Market Assumptions by Horizon Actuarial Services, LLC.

Projection of Plan Assets

The actuarial projection of Plan assets used in this certification is based on the preliminary market value of assets as of April 30, 2019, which was provided by the Plan's auditor. Future net investment returns are assumed to be 7.00% per year, the assumed rate of return on Plan assets.

Projection of Future Work Levels and Contributions

The projection of Plan assets is also based on a projection of covered employment levels and employer contributions for current and succeeding plan years. The projection of covered employment levels is based on information provided in good faith by the Board of Trustees. It was assumed that the number of active participants and annual weeks worked per active participant would remain level in future years and equal the levels reported in the census data provided for the May 1, 2019 valuation.

The projected weekly employer contribution rates reflect the amounts agreed to in collective bargaining agreements in effect as of May 1, 2019. Projections of employer contributions for purposes of determining critical and declining status, however, assume that each contributing employer currently in compliance with the adopted rehabilitation plan will continue to be in compliance during the current and succeeding plan years.

Projection of Plan Liabilities

The projection of Plan liabilities was performed using an open-group, roll-forward technique. Each year, the liability of the Plan is assumed to increase due to a decrease in the period of discounting and decrease by the value of expected benefit payments made to participants. Additionally, Plan liabilities are assumed to increase each year by the amount of benefits accrued by active participants and anticipated operating expenses (Normal Cost).

4. Actuarial Basis

For projection purposes, hypothetical new entrants were added to the population to achieve the expected level of projected industry activity, which was developed based on information provided by the Board of Trustees. The demographic characteristics of the assumed new entrants were developed based on a review of new participants under the Plan in recent years.

This is the annual certification by the Plan Actuary as required under section 432(b) of the Internal Revenue Code (the "Code") for the above-named multiemployer plan (the "Plan") and plan year (the "Plan Year"). For the Plan Year, the Plan is in critical and declining status.

Under the terms of the rehabilitation plan in place as of May 1, 2019, we further certify, that the Plan is making scheduled progress in meeting the requirements of the rehabilitation plan. The Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period, though the Board of Trustees has taken significant actions to forestall possible insolvency, and the Plan continues to pay its full benefit obligations.

This certification was performed based upon actuarial projections of assets and liabilities for the current and succeeding plan years, as described under section 432(b)(3)(B). These projections are based on reasonable actuarial estimates, assumptions, and methods that offer my best estimate of anticipated experience under the Plan. The projected Plan liabilities as of the beginning of the Plan Year was determined based on a projection of the actuarial valuation of the Plan as of May 1, 2018 adjusted to reflect demographic experience for the year-ended April 30, 2019 and the updated rehabilitation plan effective September 2, 2019. The projections of Plan assets are based on the preliminary audited market value of assets of the Plan as of April 30, 2019, provided by the Plan's auditor, and the assumption that future net investment returns will be 7.0% per year, beginning May 1, 2019.

This certification is also based on projections of industry activity, including future covered employment and contribution levels, which are based on information provided in good faith by the Plan Sponsor. This certification assumes that the current terms of the collective bargaining agreements under which contributions are made to the Plan will remain in effect for all succeeding plan years. This certification reflects the decision by the Board of Trustees to apply special funding relief rules as permitted under the Pension Relief Act of 2010.

To the best of my knowledge, the actuarial assumptions and methods used in the preparation of this certification comply with all applicable Actuarial Standards of Practice.

Purpose and Actuarial Statement

This report provides the status certification of the Local 734 Pension Plan (the “Plan”) as required under section 432(b)(3) of the Internal Revenue Code (the “Code”) for the plan year beginning May 1, 2020 (the “2020 Plan Year”).

Under section 432(b)(3) of the Code, the plan actuary of a multiemployer pension plan is required to certify the plan’s status (endangered, seriously endangered, critical, critical and declining, or none of the above) to the Secretary of the Treasury and the plan sponsor no later than the 90th day of the plan year. For plans that were certified as in endangered or critical status for the previous plan year and have begun either the funding improvement or rehabilitation period (respectively), the plan actuary must also certify whether the plan is making scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

In preparing this report, we have relied upon information and data provided to us by the Board of Trustees of the Local 734 Pension Plan, the Fund administrator, and other persons or organizations designated by the Board of Trustees. We did not perform an audit of the financial and participant census data provided to us, but we have reviewed the data for reasonableness for the purpose of the certification. We have relied on all of the information provided, including plan provisions and asset information, as complete and accurate.

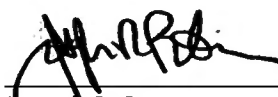

In our opinion, all methods, assumptions and calculations used in this certification are in accordance with requirements of the Code and the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended by the Pension Protection Act of 2006 (“PPA”), the Pension Relief Act of 2010 (“PRA 2010”), and the Multiemployer Pension Reform Act of 2014 (“MPRA”). Further, in our opinion, the procedures followed and presentation of results are in conformity with generally accepted actuarial principles and practices.

This report is based on actuarial calculations that require assumptions about future events. We believe that the assumptions and methods used in this report are reasonable and appropriate for the purposes for which they have been used. However, other assumptions and methods could also be reasonable and could result in materially different results. The Board of Trustees was responsible for the selection of the actuarial cost and asset valuation methods for purposes of this certification. The Board of Trustees also provided information regarding the levels of projected industry activity and future contribution levels, which was used in performing the actuarial projections required for this certification.

The undersigned consultants of Horizon Actuarial Services, LLC with actuarial credentials meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinions contained herein. There is no relationship between the Board of Trustees of the Local 734 Pension Plan and Horizon Actuarial Services, LLC that affects our objectivity.

1. Certification Results

Certification Results

Under section 432(b)(3) of the Code, the plan actuary of a multiemployer pension plan is required to perform an annual certification to the Secretary of the Treasury and the plan sponsor. The certification must be made no later than the 90th day of the plan year. There are two parts to the certification:

- Section 432(b)(3)(A)(i): whether or not the plan is in endangered status for such plan year, or would be in endangered status if not for a special rule; whether or not the plan is or will be in critical status for such plan year or for any of the succeeding 5 plan years; and whether or not the plan is or will be in critical and declining status for such plan year, and
- Section 432(b)(3)(A)(ii): in the case of a plan which is in a funding improvement or rehabilitation period, whether or not the plan is making the scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

The key results for the certification for the 2020 Plan Year are summarized below.

Section 432(b)(3): Annual Certification by Plan Actuary – Certification Results

Plan Year Beginning May 1, 2020

Section 432(b)(3)(A)(i): Certification Status

Critical and Declining

Section 432(b)(1): The Plan is not in endangered status for the current plan year.

Section 432(b)(5): The special rule under section 432(b)(5) does not apply for the current plan year.

Section 432(b)(2): The Plan is in critical status for the current plan year.

Section 432(b)(4): The special rule under section 432(b)(4) does not apply for the current plan year.

Section 432(b)(6): The Plan is in critical and declining status for the current plan year.

Section 432(b)(3)(A)(ii): Scheduled Progress

Making Scheduled Progress

As shown above, the Plan is in critical and declining status for the 2020 Plan Year.

As the Board of Trustees has taken actions to forestall possible insolvency, and the Plan continues pay its full benefit obligations, the Plan is making scheduled progress in meeting the requirements of its adopted Rehabilitation Plan.

Explanations of the certification results and the key calculations used in performing the certification are included in later sections of this report.

1. Certification Results

Notice Requirements

Under section 432(b)(3)(D) of the Code, the sponsor of a multiemployer plan that is certified in endangered or critical status for a plan year must provide notification of the endangered or critical status to participants and beneficiaries, the bargaining parties, the Pension Benefit Guaranty Corporation ("PBGC"), and the Secretary of Labor. Such notice must be provided not later than 30 days after the date of the certification.

The notice requirement also applies to a plan sponsor that elects to be in critical status under the special rule described in section 432(b)(4). If a plan sponsor elects to be in critical status under the special rule described in section 432(b)(4), it must notify the Secretary of Treasury of such election not later than 30 days after the date of certification.

In the case of a plan that would be in endangered status if not for the special rule described in section 432(b)(5), the plan sponsor must provide notification to the bargaining parties and the PBGC that the plan would be in endangered status if not for the special rule.

In the case of a plan that is projected to be in critical status in any of the 5 succeeding plan years (but not for the current plan year) and the plan sponsor has not made an election to be in critical status for the plan year, the plan sponsor must provide notification of the projected critical status to the PBGC not later than 30 days after the date of certification.

The Secretary of Treasury and Secretary of Labor have prescribed a model notice to satisfy the notification requirements described above. The model notice can be found at the Department of Labor website: <https://www.dol.gov/agencies/ebsa/about-ebsa/our-activities/public-disclosure/critical-status-notices>.

Because the Plan is in critical and declining status for the 2020 Plan Year, the Board of Trustees is required to provide notification of critical status to covered participants and beneficiaries, bargaining parties, the PBGC, and the Secretary of the Labor within 30 days following the date of the certification (no later than August 26, 2020).

2. Certification Explanation

This section of the report includes explanations of the different certification results. Explanations are shown separately for endangered status, critical status, critical and declining status, and making scheduled progress to the funding improvement or rehabilitation plan (if applicable).

Endangered Status

Under section 432(c), the sponsor of a multiemployer plan in endangered status must adopt a funding improvement plan to enable the plan to attain certain funding benchmarks.

Under section 432(b)(1), a plan is in “endangered” status for the plan year if it is not in critical status (as defined in section 432(b)(2)) and if at least one of two following tests is met. If both tests are met, the plan is considered to be in “seriously endangered” status. See Exhibit 1 for applicable calculations.

- Section 432(b)(1)(A): its funded percentage is less than 80%; or
- Section 432(b)(1)(B): it is projected to have an accumulated funding deficiency in its funding standard account in the current plan year or succeeding 6 plan years, taking into account any extensions of amortization periods under section 431(d).

Notwithstanding the above, under a special rule in section 432(b)(5), a plan is not in endangered status for the current plan year if the plan actuary certifies that the plan is projected, as of the end of the tenth plan year ending after the current plan year, to have a funded percentage that is at least 80% and no projected funding deficiencies for the tenth plan year and succeeding six plan years. This special rule applies only to plans that were in the “green zone” in the preceding plan year. In other words, under the special rule, if a plan was in the green zone for the preceding plan year, and it is projected to be in the green zone at the end of the tenth succeeding plan year, it is considered to be in the green zone for the current plan year.

The Plan is in critical and declining status for the 2020 Plan Year. Therefore, it is not in endangered status for the 2020 Plan Year.

2. Certification Explanation

Critical Status

Under section 432(e), the sponsor of a multiemployer plan in critical status must adopt a rehabilitation plan to enable the plan to emerge from critical status within a given timeframe or, under certain circumstances, to avoid or forestall insolvency.

Under section 432(b)(2), a plan is in “critical” status for the plan year if at least one of four following tests are met. See Exhibit 2 for applicable calculations.

- Section 432(b)(2)(A): the plan’s funded percentage is less than 65% and the plan is projected to go insolvent in the current or next 6 plan years;
- Section 432(b)(2)(B): the plan is projected to have an accumulated funding deficiency in the current or next 3 plan years (current or next 4 plan years if the funded percentage is less than 65%), disregarding any extension of amortization periods under section 431(d);
- Section 432(b)(2)(C): the plan’s normal cost for the plan year plus interest on the unfunded accrued liability exceeds the present value of reasonably anticipated employer contributions for the plan year, the present value of non-forfeitable benefits for inactive participants exceeds the present value of non-forfeitable benefits for active participants, and the plan is projected to have an accumulated funding deficiency in the current or next 4 plan years, disregarding any extension of amortization periods under section 431(d); or
- Section 432(b)(2)(D): the plan is projected to go insolvent in the current or next 4 plan years.

The Plan is in critical status for the 2020 Plan Year (prior to testing for critical and declining status) because:

- a) It was certified in critical status for the 2010 Plan Year and has not emerged from critical status; and,*
- b) It has a projected funding deficiency in the current or next 3 plan years.*

Election to be in Critical Status

Under section 432(b)(4), the sponsor of a multiemployer plan that is not in critical status for the current plan year but that is projected to be in critical status in any of the next 5 plan years may elect to be in critical status for the current plan year. The election must be made not later than 30 days after the date of the certification of status.

The Plan is in critical status for the 2020 Plan Year (prior to testing for critical and declining status). Therefore, the rule under section 432(b)(4) to elect to be in critical status does not apply.

2. Certification Explanation

Critical and Declining Status

Under section 432(e)(9), the sponsor of a multiemployer plan in critical and declining status may suspend benefits which the sponsor deems appropriate, including certain benefits that would otherwise be protected, if the benefit suspensions would enable the plan to avoid insolvency.

Under section 432(b)(6), a plan is in “critical and declining” status for the plan year if it is in critical status and it is projected to go insolvent within the current or next 14 plan years. The solvency projection period is the current or next 19 plan years if the plan’s ratio of inactive participants to active participants exceeds 2 to 1 or if its funded percentage is less than 80%. See Exhibit 4 for applicable calculations.

For purposes of determining whether a plan is in critical and declining status, projections by the plan actuary shall assume that each contributing employer is currently in compliance with the adopted rehabilitation plan and will continue to be in compliance. In other words, projections by the plan actuary shall reflect future contribution rate increases from the adopted rehabilitation plan, even if those increases are scheduled after the expiration of the collective bargaining agreements currently in effect.

The Plan is in critical and declining status for the 2020 Plan Year because it is projected to go insolvent in the current or next 19 plan years. Specifically, the Plan is projected to go insolvent in the plan year beginning May 1, 2031. Because the Plan’s ratio of inactive participants to active participants exceeds 2 to 1, the applicable solvency projection period is the current and next 19 plan years.

Scheduled Progress

Under section 432(b)(3)(A)(ii), in the case of a plan which is in a funding improvement or rehabilitation period, the plan actuary shall certify whether the plan is making scheduled progress in meeting the requirements of its adopted funding improvement or rehabilitation plan.

The Board of Trustees has determined, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, that the Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period. Therefore, as described in section 432(e)(3)(A)(ii) of the Code, the Rehabilitation Plan consists of actions to forestall possible insolvency.

As the Board of Trustees has taken significant actions to forestall possible insolvency, and the Plan continues to pay its full benefit obligations, the Plan is making scheduled progress in meeting the requirements of its adopted Rehabilitation Plan.

3. Certification Calculations

The following tables summarize the key measures that were used in performing the certification of status. All figures below were determined under the methods prescribed by section 432(b)(3)(B) of the Code. Projections of assets and liabilities were based on data, results, assumptions and methods, and plan provisions were used in the Plan's actuarial valuation as of May 1, 2019, adjusted to reflect the actual retirements that occurred from May 1, 2019 through September 1, 2019 and the updated rehabilitation plan effective September 2, 2019. See the description of the actuarial basis (later in this report) for more information.

Exhibit 1 below summarizes the key measures used in determining whether or not the Plan is in endangered status for the current plan year. The exhibit shows the basic tests for determining endangered status under PPA, as defined in section 432(b)(1) of the Code, and calculations required under the special rule under MPRA, as defined in section 432(b)(5) of the Code, as applicable. See Exhibit 3 for a projection of the funding standard account (in other words, projected credit balances and funding deficiencies).

The special rule under section 432(b)(5) does not apply.

3. Certification Calculations

Exhibit 2 summarizes the key measures used in determining whether or not the Plan is in critical status for the current plan year. The exhibit shows the basic tests for determining critical status under PPA, as defined in section 432(b)(2) of the Code. Also shown is information about whether the Plan is projected to be in critical status for the succeeding 5 plan years, and therefore eligible to elect to be in critical status for the current plan year under MPRA, as defined in section 432(b)(4). See Exhibit 3 for a projection of the funding standard account (in other words, projected credit balances and funding deficiencies).

4. Actuarial Basis

Exhibit 4 summarizes the key measures used in determining whether or not the Plan is in critical and declining status. For purposes of determining whether a plan is in critical and declining status, projections by the plan actuary shall assume that each contributing employer currently in compliance with the adopted rehabilitation plan will continue to be in compliance.

4. Actuarial Basis

As required under section 432(b)(3)(B) of the Code, this certification is based on actuarial projections for the current and succeeding plan years for the current value of Plan assets and Plan liabilities related to participants and beneficiaries covered under the Plan. The projections are based on reasonable actuarial estimates, assumptions, and methods that (except as noted below) offer the actuary's best estimate of anticipated experience under the Plan.

Most Recent Actuarial Valuation

For this certification for the 2020 Plan Year, projections of Plan liabilities are based on the actuarial valuation as of May 1, 2019, as set forth in the report dated December 9, 2019, adjusted to reflect the actual retirements that occurred from May 1, 2019 through September 1, 2019 and the updated rehabilitation plan effective September 2, 2019. The actuarial assumptions and methods used in that actuarial valuation, including a valuation interest rate assumption of 7.00%, are the same as those used in this certification. Please refer to the May 1, 2019 actuarial valuation report, for a summary of applicable data, assumptions, methods, and plan provisions.

The demographic actuarial assumptions used in the actuarial valuation and this certification were developed based on a review of past experience and anticipated future experience for the Plan, given the particular characteristics of the Plan's participant population. The valuation interest rate was selected based consideration of the Plan's asset allocation, past experience, discussions with the Plan's investment advisor, and the results of the 2019 edition of the Survey of Capital Market Assumptions by Horizon Actuarial Services, LLC.

Projection of Plan Assets

The actuarial projection of Plan assets used in this certification is based on the preliminary market value of assets as of April 30, 2020, which was provided by the Plan's auditor. Future net investment returns are assumed to be 7.00% per year, the assumed rate of return on Plan assets.

Projection of Future Work Levels and Contributions

The projection of Plan assets is also based on a projection of covered employment levels and employer contributions for current and succeeding plan years. The projection of covered employment levels is based on information provided in good faith by the Board of Trustees. It was assumed that the number of active participants and annual weeks worked per active participant would remain level in future years and equal the levels reported in the census data provided for the May 1, 2019 valuation, with an adjustment for retirements preceding the September 2, 2019 effective date of the updated rehabilitation plan.

The projected weekly employer contribution rates reflect the amounts agreed to in collective bargaining agreements in effect as of May 1, 2020. Projections of employer contributions for purposes of determining critical and declining status, however, assume that each contributing employer currently in compliance with the adopted rehabilitation plan will continue to be in compliance during the current and succeeding plan years.

4. Actuarial Basis

Projection of Plan Liabilities

The projection of Plan liabilities was performed using an open-group, roll-forward technique. Each year, the liability of the Plan is assumed to increase due to a decrease in the period of discounting and decrease by the value of expected benefit payments made to participants. Additionally, Plan liabilities are assumed to increase each year by the amount of benefits accrued by active participants and anticipated operating expenses (Normal Cost).

For projection purposes, hypothetical new entrants were added to the population to achieve the expected level of projected industry activity, which was developed based on information provided by the Board of Trustees. The demographic characteristics of the assumed new entrants were developed based on a review of new participants under the Plan in recent years.

This is the annual certification by the Plan Actuary as required under section 432(b) of the Internal Revenue Code (the "Code") for the above-named multiemployer plan (the "Plan") and plan year (the "Plan Year"). For the Plan Year, the Plan is in critical and declining status.

Under the terms of the rehabilitation plan in place as of May 1, 2020, we further certify, that the Plan is making scheduled progress in meeting the requirements of the rehabilitation plan. The Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period, though the Board of Trustees has taken significant actions to forestall possible insolvency, and the Plan continues to pay its full benefit obligations.

This certification was performed based upon actuarial projections of assets and liabilities for the current and succeeding plan years, as described under section 432(b)(3)(B). These projections are based on reasonable actuarial estimates, assumptions, and methods that offer my best estimate of anticipated experience under the Plan. The projected Plan liabilities as of the beginning of the Plan Year was determined based on a projection of the actuarial valuation of the Plan as of May 1, 2019, adjusted to reflect the actual retirements that occurred from May 1, 2019 through September 1, 2019 and the updated rehabilitation plan effective September 2, 2019. The projections of Plan assets are based on the preliminary audited market value of assets of the Plan as of April 30, 2020, provided by the Plan's auditor, and the assumption that future net investment returns will be 7.0% per year, beginning May 1, 2020.

This certification is also based on projections of industry activity, including future covered employment and contribution levels, which are based on information provided in good faith by the Plan Sponsor. This certification assumes that the current terms of the collective bargaining agreements under which contributions are made to the Plan will remain in effect for all succeeding plan years. This certification reflects the decision by the Board of Trustees to apply special funding relief rules as permitted under the Pension Relief Act of 2010.

To the best of my knowledge, the actuarial assumptions and methods used in the preparation of this certification comply with all applicable Actuarial Standards of Practice.

Purpose and Actuarial Statement

This report provides the status certification of the Local 734 Pension Plan (the “Plan”) as required under section 432(b)(3) of the Internal Revenue Code (the “Code”) for the plan year beginning May 1, 2021 (the “2021 Plan Year”).

Under section 432(b)(3) of the Code, the plan actuary of a multiemployer pension plan is required to certify the plan’s status (endangered, seriously endangered, critical, critical and declining, or none of the above) to the Secretary of the Treasury and the plan sponsor no later than the 90th day of the plan year. For plans that were certified as in endangered or critical status for the previous plan year and have begun either the funding improvement or rehabilitation period (respectively), the plan actuary must also certify whether the plan is making scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

In preparing this report, we have relied upon information and data provided to us by the Board of Trustees of the Local 734 Pension Plan, the Fund administrator, and other persons or organizations designated by the Board of Trustees. We did not perform an audit of the financial and participant census data provided to us, but we have reviewed the data for reasonableness for the purpose of the certification. We have relied on all of the information provided, including plan provisions and asset information, as complete and accurate.

In our opinion, all methods, assumptions and calculations used in this certification are in accordance with requirements of the Code and the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended by the Pension Protection Act of 2006 (“PPA”), the Pension Relief Act of 2010 (“PRA 2010”), and the Multiemployer Pension Reform Act of 2014 (“MPRA”). On March 11, 2021, the American Rescue Plan Act of 2021 (“ARPA”) was signed into law. Eventually, the Fund may apply for special financial assistance under ARPA. However, no projected special financial assistance has been included in the projected results in this certification. In our opinion, the procedures followed and presentation of results are in conformity with generally accepted actuarial principles and practices.

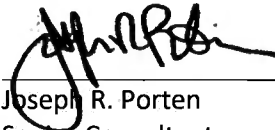

This report is based on actuarial calculations that require assumptions about future events. These calculations are performed using actuarial models, the intended purpose of which is the estimation and projection of the Plan’s liabilities, assets, zone status, and other related information summarized herein. We believe that the assumptions and methods used in this report are reasonable individually and in the aggregate, and are appropriate for the purposes for which they have been used. However, other assumptions and methods could also be reasonable and could generate materially different results. We have relied on the input of experts in developing certain assumptions, such as mortality and the valuation interest rate. The Board of Trustees was responsible for the selection of the actuarial cost and asset valuation methods for purposes of this certification. The Board of Trustees also provided information regarding the levels of projected industry activity and future contribution levels, which was used in performing the actuarial projections required for this certification.

1. Certification Results

Certification Results

Under section 432(b)(3) of the Code, the plan actuary of a multiemployer pension plan is required to perform an annual certification to the Secretary of the Treasury and the plan sponsor. The certification must be made no later than the 90th day of the plan year. There are two parts to the certification:

- Section 432(b)(3)(A)(i): whether or not the plan is in endangered status for such plan year, or would be in endangered status if not for a special rule; whether or not the plan is or will be in critical status for such plan year or for any of the succeeding 5 plan years; and whether or not the plan is or will be in critical and declining status for such plan year, and
- Section 432(b)(3)(A)(ii): in the case of a plan which is in a funding improvement or rehabilitation period, whether or not the plan is making the scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

The key results for the certification for the 2021 Plan Year are summarized below.

Section 432(b)(3): Annual Certification by Plan Actuary – Certification Results

Plan Year Beginning May 1, 2021

Section 432(b)(3)(A)(i): Certification Status

Critical and Declining

Section 432(b)(1): The Plan is not in endangered status for the current plan year.

Section 432(b)(5): The special rule under section 432(b)(5) does not apply for the current plan year.

Section 432(b)(2): The Plan is in critical status for the current plan year.

Section 432(b)(4): The special rule under section 432(b)(4) does not apply for the current plan year.

Section 432(b)(6): The Plan is in critical and declining status for the current plan year.

Section 432(b)(3)(A)(ii): Scheduled Progress

Making Scheduled Progress

As shown above, the Plan is in critical and declining status for the 2021 Plan Year.

As the Board of Trustees has taken actions to forestall possible insolvency, and the Plan continues pay its full benefit obligations, the Plan is making scheduled progress in meeting the requirements of its adopted Rehabilitation Plan.

Explanations of the certification results and the key calculations used in performing the certification are included in later sections of this report.

1. Certification Results

Notice Requirements

Under section 432(b)(3)(D) of the Code, the sponsor of a multiemployer plan that is certified in endangered or critical status for a plan year must provide notification of the endangered or critical status to participants and beneficiaries, the bargaining parties, the Pension Benefit Guaranty Corporation ("PBGC"), and the Secretary of Labor. Such notice must be provided not later than 30 days after the date of the certification.

The notice requirement also applies to a plan sponsor that elects to be in critical status under the special rule described in section 432(b)(4). If a plan sponsor elects to be in critical status under the special rule described in section 432(b)(4), it must notify the Secretary of Treasury of such election not later than 30 days after the date of certification.

In the case of a plan that would be in endangered status if not for the special rule described in section 432(b)(5), the plan sponsor must provide notification to the bargaining parties and the PBGC that the plan would be in endangered status if not for the special rule.

In the case of a plan that is projected to be in critical status in any of the 5 succeeding plan years (but not for the current plan year) and the plan sponsor has not made an election to be in critical status for the plan year, the plan sponsor must provide notification of the projected critical status to the PBGC not later than 30 days after the date of certification.

The Secretary of Treasury and Secretary of Labor have prescribed a model notice to satisfy the notification requirements described above. The model notice can be found at the Department of Labor website: <https://www.dol.gov/agencies/ebsa/about-ebsa/our-activities/public-disclosure/critical-status-notices>.

Because the Plan is in critical and declining status for the 2021 Plan Year, the Board of Trustees is required to provide notification of critical status to covered participants and beneficiaries, bargaining parties, the PBGC, and the Secretary of the Labor within 30 days following the date of the certification (no later than August 28, 2021).

2. Certification Explanation

This section of the report includes explanations of the different certification results. Explanations are shown separately for endangered status, critical status, critical and declining status, and making scheduled progress to the funding improvement or rehabilitation plan (if applicable).

Endangered Status

Under section 432(c), the sponsor of a multiemployer plan in endangered status must adopt a funding improvement plan to enable the plan to attain certain funding benchmarks.

Under section 432(b)(1), a plan is in “endangered” status for the plan year if it is not in critical status (as defined in section 432(b)(2)) and if at least one of two following tests is met. If both tests are met, the plan is considered to be in “seriously endangered” status. See Exhibit 1 for applicable calculations.

- Section 432(b)(1)(A): its funded percentage is less than 80%; or
- Section 432(b)(1)(B): it is projected to have an accumulated funding deficiency in its funding standard account in the current plan year or succeeding 6 plan years, taking into account any extensions of amortization periods under section 431(d).

Notwithstanding the above, under a special rule in section 432(b)(5), a plan is not in endangered status for the current plan year if the plan actuary certifies that the plan is projected, as of the end of the tenth plan year ending after the current plan year, to have a funded percentage that is at least 80% and no projected funding deficiencies for the tenth plan year and succeeding six plan years. This special rule applies only to plans that were in the “green zone” in the preceding plan year. In other words, under the special rule, if a plan was in the green zone for the preceding plan year, and it is projected to be in the green zone at the end of the tenth succeeding plan year, it is considered to be in the green zone for the current plan year.

The Plan is in critical and declining status for the 2021 Plan Year. Therefore, it is not in endangered status for the 2021 Plan Year.

2. Certification Explanation

Critical Status

Under section 432(e), the sponsor of a multiemployer plan in critical status must adopt a rehabilitation plan to enable the plan to emerge from critical status within a given timeframe or, under certain circumstances, to avoid or forestall insolvency.

Under section 432(b)(2), a plan is in “critical” status for the plan year if at least one of four following tests are met. See Exhibit 2 for applicable calculations.

- Section 432(b)(2)(A): the plan’s funded percentage is less than 65% and the plan is projected to go insolvent in the current or next 6 plan years;
- Section 432(b)(2)(B): the plan is projected to have an accumulated funding deficiency in the current or next 3 plan years (current or next 4 plan years if the funded percentage is less than 65%), disregarding any extension of amortization periods under section 431(d);
- Section 432(b)(2)(C): the plan’s normal cost for the plan year plus interest on the unfunded accrued liability exceeds the present value of reasonably anticipated employer contributions for the plan year, the present value of non-forfeitable benefits for inactive participants exceeds the present value of non-forfeitable benefits for active participants, and the plan is projected to have an accumulated funding deficiency in the current or next 4 plan years, disregarding any extension of amortization periods under section 431(d); or
- Section 432(b)(2)(D): the plan is projected to go insolvent in the current or next 4 plan years.

The Plan is in critical status for the 2021 Plan Year (prior to testing for critical and declining status) because:

- a) It was certified in critical status for the 2010 Plan Year and has not emerged from critical status; and,*
- b) It has a projected funding deficiency in the current or next 3 plan years.*

Election to be in Critical Status

Under section 432(b)(4), the sponsor of a multiemployer plan that is not in critical status for the current plan year but that is projected to be in critical status in any of the next 5 plan years may elect to be in critical status for the current plan year. The election must be made not later than 30 days after the date of the certification of status.

The Plan is in critical status for the 2021 Plan Year (prior to testing for critical and declining status). Therefore, the rule under section 432(b)(4) to elect to be in critical status does not apply.

2. Certification Explanation

Critical and Declining Status

Under section 432(e)(9), the sponsor of a multiemployer plan in critical and declining status may suspend benefits which the sponsor deems appropriate, including certain benefits that would otherwise be protected, if the benefit suspensions would enable the plan to avoid insolvency.

Under section 432(b)(6), a plan is in “critical and declining” status for the plan year if it is in critical status and it is projected to go insolvent within the current or next 14 plan years. The solvency projection period is the current or next 19 plan years if the plan’s ratio of inactive participants to active participants exceeds 2 to 1 or if its funded percentage is less than 80%. See Exhibit 4 for applicable calculations.

For purposes of determining whether a plan is in critical and declining status, projections by the plan actuary shall assume that each contributing employer is currently in compliance with the adopted rehabilitation plan and will continue to be in compliance. In other words, projections by the plan actuary shall reflect future contribution rate increases from the adopted rehabilitation plan, even if those increases are scheduled after the expiration of the collective bargaining agreements currently in effect.

The Plan is in critical and declining status for the 2021 Plan Year because it is projected to go insolvent in the current or next 19 plan years. Specifically, the Plan is projected to go insolvent in the plan year beginning May 1, 2033. Because the Plan’s ratio of inactive participants to active participants exceeds 2 to 1, the applicable solvency projection period is the current and next 19 plan years.

Scheduled Progress

Under section 432(b)(3)(A)(ii), in the case of a plan which is in a funding improvement or rehabilitation period, the plan actuary shall certify whether the plan is making scheduled progress in meeting the requirements of its adopted funding improvement or rehabilitation plan.

The Board of Trustees has determined, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, that the Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period. Therefore, as described in section 432(e)(3)(A)(ii) of the Code, the Rehabilitation Plan consists of actions to forestall possible insolvency.

As the Board of Trustees has taken significant actions to forestall possible insolvency, and the Plan continues to pay its full benefit obligations, the Plan is making scheduled progress in meeting the requirements of its adopted Rehabilitation Plan.

3. Certification Calculations

The following tables summarize the key measures that were used in performing the certification of status. All figures below were determined under the methods prescribed by section 432(b)(3)(B) of the Code. Projections of assets and liabilities were based on data, results, assumptions and methods, and plan provisions were used in the Plan's actuarial valuation as of May 1, 2020, updated to reflect the rehabilitation plan update effective March 31, 2021. See the description of the actuarial basis (later in this report) for more information.

Exhibit 1 below summarizes the key measures used in determining whether or not the Plan is in endangered status for the current plan year. The exhibit shows the basic tests for determining endangered status under PPA, as defined in section 432(b)(1) of the Code, and calculations required under the special rule under MPRA, as defined in section 432(b)(5) of the Code, as applicable. See Exhibit 3 for a projection of the funding standard account (in other words, projected credit balances and funding deficiencies).

Exhibit 1 – Endangered Status Tests

Section 432(b)(1): Endangered Status**Plan Year Beginning May 1, 2021**

Section 432(b)(1)(A) measures:

Valuation interest rate	6.00%
Actuarial value of assets	\$ 114,650,287
Actuarial accrued liability under unit credit cost method	\$ 269,804,379
Funded percentage [threshold = 80.0%]	42.4%

Section 432(b)(1)(B) measures:

First projected funding deficiency within current or next six plan years	4/30/2022
<i>Reflecting extensions of amortization periods under section 431(d)</i>	

Section 432(b)(5): Special Rule**Plan Year Beginning May 1, 2021**

Certification status for preceding plan year	Critical and Declining
Certification status for current plan year disregarding special rule	Critical and Declining

The special rule under section 432(b)(5) does not apply.

3. Certification Calculations

Exhibit 2 summarizes the key measures used in determining whether or not the Plan is in critical status for the current plan year. The exhibit shows the basic tests for determining critical status under PPA, as defined in section 432(b)(2) of the Code. Also shown is information about whether the Plan is projected to be in critical status for the succeeding 5 plan years, and therefore eligible to elect to be in critical status for the current plan year under MPRA, as defined in section 432(b)(4). See Exhibit 3 for a projection of the funding standard account (in other words, projected credit balances and funding deficiencies).

Exhibit 2 – Critical Status Tests

3. Certification Calculations

Exhibit 4 summarizes the key measures used in determining whether or not the Plan is in critical and declining status. For purposes of determining whether a plan is in critical and declining status, projections by the plan actuary shall assume that each contributing employer currently in compliance with the adopted rehabilitation plan will continue to be in compliance.

4. Actuarial Basis

As required under section 432(b)(3)(B) of the Code, this certification is based on actuarial projections for the current and succeeding plan years for the current value of Plan assets and Plan liabilities related to participants and beneficiaries covered under the Plan. The projections are based on reasonable actuarial estimates, assumptions, and methods that (except as noted below) offer the actuary's best estimate of anticipated experience under the Plan.

Most Recent Actuarial Valuation

For this certification for the 2021 Plan Year, projections of Plan liabilities are based on the actuarial valuation as of May 1, 2020, as set forth in the report dated December 4, 2020. The actuarial assumptions and methods used in that actuarial valuation, including a valuation interest rate assumption of 6.00%, are the same as those used in this certification. Please refer to the May 1, 2020 actuarial valuation report, for a summary of applicable data, assumptions, methods, and plan provisions.

The demographic actuarial assumptions used in the actuarial valuation and this certification were developed based on a review of past experience and anticipated future experience for the Plan, given the particular characteristics of the Plan's participant population. The valuation interest rate was selected based consideration of the Plan's asset allocation, past experience, discussions with the Plan's investment advisor, and the results of the 2020 edition of the Survey of Capital Market Assumptions by Horizon Actuarial Services, LLC.

Projection of Plan Assets

The actuarial projection of Plan assets used in this certification is based on the preliminary market value of assets as of April 30, 2021, which was provided by the Plan's investment consultant. Future net investment returns are assumed to be 6.00% per year, the assumed rate of return on Plan assets.

Projection of Future Work Levels and Contributions

The projection of Plan assets is also based on a projection of covered employment levels and employer contributions for current and succeeding plan years. The projection of covered employment levels is based on information provided in good faith by the Board of Trustees. It was assumed that the number of active participants and annual weeks worked per active participant would remain level in future years and equal the levels reported in the census data provided for the May 1, 2020 valuation.

The projected weekly employer contribution rates assume that each contributing employer currently is in compliance with the updated rehabilitation plan effective March 31, 2021 and will continue to be in compliance during the current and succeeding plan years. Specifically, the weekly contribution rates are required to be at least \$180 per week.

4. Actuarial Basis

Projection of Plan Liabilities

The projection of Plan liabilities was performed using an open-group, roll-forward technique. Each year, the liability of the Plan is assumed to increase due to a decrease in the period of discounting and decrease by the value of expected benefit payments made to participants. Additionally, Plan liabilities are assumed to increase each year by the amount of benefits accrued by active participants and anticipated operating expenses (Normal Cost).

For projection purposes, hypothetical new entrants were added to the population to achieve the expected level of projected industry activity, which was developed based on information provided by the Board of Trustees. The demographic characteristics of the assumed new entrants were developed based on a review of new participants under the Plan in recent years.

This is the annual certification by the Plan Actuary as required under section 432(b) of the Internal Revenue Code (the "Code") for the above-named multiemployer plan (the "Plan") and plan year (the "Plan Year"). For the Plan Year, the Plan is in critical and declining status.

Under the terms of the rehabilitation plan in place as of May 1, 2021, we further certify, that the Plan is making scheduled progress in meeting the requirements of the rehabilitation plan. The Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period, though the Board of Trustees has taken significant actions to forestall possible insolvency, and the Plan continues to pay its full benefit obligations.

This certification was performed based upon actuarial projections of assets and liabilities for the current and succeeding plan years, as described under section 432(b)(3)(B). These projections are based on reasonable actuarial estimates, assumptions, and methods that offer my best estimate of anticipated experience under the Plan. The projected Plan liabilities as of the beginning of the Plan Year was determined based on a projection of the actuarial valuation of the Plan as of May 1, 2020. The projections of Plan assets are based on the preliminary audited market value of assets of the Plan as of April 30, 2021, provided by the Plan's investment consultant, and the assumption that future net investment returns will be 6.0% per year, beginning May 1, 2021.

This certification is also based on projections of industry activity, including future covered employment and contribution levels, which are based on information provided in good faith by the Plan Sponsor. This certification assumes that the current terms of the collective bargaining agreements under which contributions are made to the Plan will remain in effect for all succeeding plan years. This certification reflects the decision by the Board of Trustees to apply special funding relief rules as permitted under the Pension Relief Act of 2010.

To the best of my knowledge, the actuarial assumptions and methods used in the preparation of this certification comply with all applicable Actuarial Standards of Practice.

Purpose and Actuarial Statement

This report provides the status certification of the Local 734 Pension Plan (the “Plan”) as required under section 432(b)(3) of the Internal Revenue Code (the “Code”) for the plan year beginning May 1, 2022 (the “2022 Plan Year”).

Under section 432(b)(3) of the Code, the plan actuary of a multiemployer pension plan is required to certify the plan’s status (endangered, seriously endangered, critical, critical and declining, or none of the above) to the Secretary of the Treasury and the plan sponsor no later than the 90th day of the plan year. For plans that were certified as in endangered or critical status for the previous plan year and have begun either the funding improvement or rehabilitation period (respectively), the plan actuary must also certify whether the plan is making scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

In preparing this report, we have relied upon information and data provided to us by the Board of Trustees of the Local 734 Pension Plan, the Fund administrator, and other persons or organizations designated by the Board of Trustees. The projected Plan liabilities and assets required by this certification are based on the valuation results presented in the May 1, 2021 actuarial valuation report dated December 8, 2021. We did not perform an audit of the financial and participant census data provided to us, but we have reviewed the data for reasonableness for the purpose of the certification. We have relied on all of the information provided, including plan provisions and asset information, as complete and accurate.

In our opinion, all methods, assumptions and calculations used in this certification are in accordance with requirements of the Code and the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended by the Pension Protection Act of 2006 (“PPA”), the Pension Relief Act of 2010 (“PRA 2010”), the Multiemployer Pension Reform Act of 2014 (“MPRA”), and the American Rescue Plan Act of 2021 (“ARPA”). Further, in our opinion, the procedures followed and presentation of results are in conformity with generally accepted actuarial principles and practices.

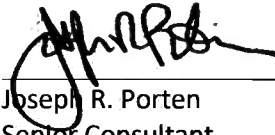

This report is based on actuarial calculations that require assumptions about future events. These calculations are performed using actuarial models, the intended purpose of which is the estimation and projection of the Plan’s liabilities, assets, zone status, and other related information summarized herein. We believe that the assumptions and methods used in this report are reasonable individually and in the aggregate, and are appropriate for the purposes for which they have been used. However, other assumptions and methods could also be reasonable and could generate materially different results. We have relied on the input of experts in developing certain assumptions, such as mortality and the valuation interest rate. The Board of Trustees was responsible for the selection of the actuarial cost and asset valuation methods for purposes of this certification. The Board of Trustees also provided information regarding the levels of projected industry activity and future contribution levels, which was used in performing the actuarial projections required for this certification.

1. Certification Results

Certification Results

Under section 432(b)(3) of the Code, the plan actuary of a multiemployer pension plan is required to perform an annual certification to the Secretary of the Treasury and the plan sponsor. The certification must be made no later than the 90th day of the plan year. There are two parts to the certification:

- Section 432(b)(3)(A)(i): whether or not the plan is in endangered status for such plan year, or would be in endangered status if not for a special rule; whether or not the plan is or will be in critical status for such plan year or for any of the succeeding 5 plan years; and whether or not the plan is or will be in critical and declining status for such plan year, and
- Section 432(b)(3)(A)(ii): in the case of a plan which is in a funding improvement or rehabilitation period, whether or not the plan is making the scheduled progress in meeting the requirements of its funding improvement or rehabilitation plan.

The key results for the certification for the 2022 Plan Year are summarized below.

Section 432(b)(3): Annual Certification by Plan Actuary – Certification Results

Plan Year Beginning May 1, 2022

Section 432(b)(3)(A)(i): Certification Status

Critical and Declining

Section 432(b)(1): The Plan is not in endangered status for the current plan year.

Section 432(b)(5): The special rule under section 432(b)(5) does not apply for the current plan year.

Section 432(b)(2): The Plan is in critical status for the current plan year.

Section 432(b)(4): The special rule under section 432(b)(4) does not apply for the current plan year.

Section 432(b)(6): The Plan is in critical and declining status for the current plan year.

Section 432(b)(3)(A)(ii): Scheduled Progress

Making Scheduled Progress

As shown above, the Plan is in critical and declining status for the 2022 Plan Year.

As the Board of Trustees has taken actions to forestall possible insolvency, and the Plan continues pay its full benefit obligations, the Plan is making scheduled progress in meeting the requirements of its adopted Rehabilitation Plan.

Explanations of the certification results and the key calculations used in performing the certification are included in later sections of this report.

1. Certification Results

Notice Requirements

Under section 432(b)(3)(D) of the Code, the sponsor of a multiemployer plan that is certified in endangered or critical status for a plan year must provide notification of the endangered or critical status to participants and beneficiaries, the bargaining parties, the Pension Benefit Guaranty Corporation (“PBGC”), and the Secretary of Labor. Such notice must be provided not later than 30 days after the date of the certification.

The notice requirement also applies to a plan sponsor that elects to be in critical status under the special rule described in section 432(b)(4). If a plan sponsor elects to be in critical status under the special rule described in section 432(b)(4), it must notify the Secretary of Treasury of such election not later than 30 days after the date of certification.

In the case of a plan that would be in endangered status if not for the special rule described in section 432(b)(5), the plan sponsor must provide notification to the bargaining parties and the PBGC that the plan would be in endangered status if not for the special rule.

In the case of a plan that is projected to be in critical status in any of the 5 succeeding plan years (but not for the current plan year) and the plan sponsor has not made an election to be in critical status for the plan year, the plan sponsor must provide notification of the projected critical status to the PBGC not later than 30 days after the date of certification.

The Secretary of Treasury and Secretary of Labor have prescribed a model notice to satisfy the notification requirements described above. The model notice can be found at the Department of Labor website: <https://www.dol.gov/agencies/ebsa/about-ebsa/our-activities/public-disclosure/critical-status-notices>.

Because the Plan is in critical and declining status for the 2022 Plan Year, the Board of Trustees is required to provide notification of critical status to covered participants and beneficiaries, bargaining parties, the PBGC, and the Secretary of the Labor within 30 days following the date of the certification (no later than August 28, 2022).

2. Certification Explanation

This section of the report includes explanations of the different certification results. Explanations are shown separately for endangered status, critical status, critical and declining status, and making scheduled progress to the funding improvement or rehabilitation plan (if applicable).

Endangered Status

Under section 432(c), the sponsor of a multiemployer plan in endangered status must adopt a funding improvement plan to enable the plan to attain certain funding benchmarks.

Under section 432(b)(1), a plan is in “endangered” status for the plan year if it is not in critical status (as defined in section 432(b)(2)) and if at least one of two following tests is met. If both tests are met, the plan is considered to be in “seriously endangered” status. See Exhibit 1 for applicable calculations.

- Section 432(b)(1)(A): its funded percentage is less than 80%; or
- Section 432(b)(1)(B): it is projected to have an accumulated funding deficiency in its funding standard account in the current plan year or succeeding 6 plan years, taking into account any extensions of amortization periods under section 431(d).

Notwithstanding the above, under a special rule in section 432(b)(5), a plan is not in endangered status for the current plan year if the plan actuary certifies that the plan is projected, as of the end of the tenth plan year ending after the current plan year, to have a funded percentage that is at least 80% and no projected funding deficiencies for the tenth plan year and succeeding six plan years. This special rule applies only to plans that were in the “green zone” in the preceding plan year. In other words, under the special rule, if a plan was in the green zone for the preceding plan year, and it is projected to be in the green zone at the end of the tenth succeeding plan year, it is considered to be in the green zone for the current plan year.

The Plan is in critical and declining status for the 2022 Plan Year. Therefore, it is not in endangered status for the 2022 Plan Year.

2. Certification Explanation

Critical Status

Under section 432(e), the sponsor of a multiemployer plan in critical status must adopt a rehabilitation plan to enable the plan to emerge from critical status within a given timeframe or, under certain circumstances, to avoid or forestall insolvency.

Under section 432(b)(2), a plan is in “critical” status for the plan year if at least one of four following tests are met. See Exhibit 2 for applicable calculations.

- Section 432(b)(2)(A): the plan’s funded percentage is less than 65% and the plan is projected to go insolvent in the current or next 6 plan years;
- Section 432(b)(2)(B): the plan is projected to have an accumulated funding deficiency in the current or next 3 plan years (current or next 4 plan years if the funded percentage is less than 65%), disregarding any extension of amortization periods under section 431(d);
- Section 432(b)(2)(C): the plan’s normal cost for the plan year plus interest on the unfunded accrued liability exceeds the present value of reasonably anticipated employer contributions for the plan year, the present value of non-forfeitable benefits for inactive participants exceeds the present value of non-forfeitable benefits for active participants, and the plan is projected to have an accumulated funding deficiency in the current or next 4 plan years, disregarding any extension of amortization periods under section 431(d); or
- Section 432(b)(2)(D): the plan is projected to go insolvent in the current or next 4 plan years.

The Plan is in critical status for the 2022 Plan Year (prior to testing for critical and declining status) because:

- a) It was certified in critical status for the 2010 Plan Year and has not emerged from critical status; and,*
- b) It has a projected funding deficiency in the current or next 3 plan years.*

Election to be in Critical Status

Under section 432(b)(4), the sponsor of a multiemployer plan that is not in critical status for the current plan year but that is projected to be in critical status in any of the next 5 plan years may elect to be in critical status for the current plan year. The election must be made not later than 30 days after the date of the certification of status.

The Plan is in critical status for the 2022 Plan Year (prior to testing for critical and declining status). Therefore, the rule under section 432(b)(4) to elect to be in critical status does not apply.

2. Certification Explanation

Critical and Declining Status

Under section 432(e)(9), the sponsor of a multiemployer plan in critical and declining status may suspend benefits which the sponsor deems appropriate, including certain benefits that would otherwise be protected, if the benefit suspensions would enable the plan to avoid insolvency.

Under section 432(b)(6), a plan is in “critical and declining” status for the plan year if it is in critical status and it is projected to go insolvent within the current or next 14 plan years. The solvency projection period is the current or next 19 plan years if the plan’s ratio of inactive participants to active participants exceeds 2 to 1 or if its funded percentage is less than 80%. See Exhibit 4 for applicable calculations.

For purposes of determining whether a plan is in critical and declining status, projections by the plan actuary shall assume that each contributing employer is currently in compliance with the adopted rehabilitation plan and will continue to be in compliance. In other words, projections by the plan actuary shall reflect future contribution rate increases from the adopted rehabilitation plan, even if those increases are scheduled after the expiration of the collective bargaining agreements currently in effect.

The Plan is in critical and declining status for the 2022 Plan Year because it is projected to go insolvent in the current or next 19 plan years. Specifically, the Plan is projected to go insolvent in the plan year beginning May 1, 2031. Because the Plan’s ratio of inactive participants to active participants exceeds 2 to 1, the applicable solvency projection period is the current and next 19 plan years.

Scheduled Progress

Under section 432(b)(3)(A)(ii), in the case of a plan which is in a funding improvement or rehabilitation period, the plan actuary shall certify whether the plan is making scheduled progress in meeting the requirements of its adopted funding improvement or rehabilitation plan.

The Board of Trustees has determined, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, that the Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period. Therefore, as described in section 432(e)(3)(A)(ii) of the Code, the Rehabilitation Plan consists of actions to forestall possible insolvency.

As the Board of Trustees has taken significant actions to forestall possible insolvency, and the Plan continues to pay its full benefit obligations, the Plan is making scheduled progress in meeting the requirements of its adopted Rehabilitation Plan.

3. Certification Calculations

The following tables summarize the key measures that were used in performing the certification of status. All figures below were determined under the methods prescribed by section 432(b)(3)(B) of the Code. Projections of assets and liabilities were based on data, results, assumptions and methods, and plan provisions were used in the Plan's actuarial valuation as of May 1, 2021. See the description of the actuarial basis (later in this report) for more information.

Exhibit 1 below summarizes the key measures used in determining whether or not the Plan is in endangered status for the current plan year. The exhibit shows the basic tests for determining endangered status under PPA, as defined in section 432(b)(1) of the Code, and calculations required under the special rule under MPRA, as defined in section 432(b)(5) of the Code, as applicable. See Exhibit 3 for a projection of the funding standard account (in other words, projected credit balances and funding deficiencies).

Exhibit 1 – Endangered Status Tests

Section 432(b)(1): Endangered Status

Plan Year Beginning May 1, 2022

Section 432(b)(1)(A) measures:

Valuation interest rate	6.00%
Actuarial value of assets	\$ 106,641,176
Actuarial accrued liability under unit credit cost method	\$ 267,348,284
Funded percentage [threshold = 80.0%]	39.8%

Section 432(b)(1)(B) measures:

First projected funding deficiency within current or next six plan years	4/30/2023
<i>Reflecting extensions of amortization periods under section 431(d)</i>	

Section 432(b)(5): Special Rule

Plan Year Beginning May 1, 2022

Certification status for preceding plan year	Critical and Declining
Certification status for current plan year disregarding special rule	Critical and Declining

The special rule under section 432(b)(5) does not apply.

3. Certification Calculations

Exhibit 2 summarizes the key measures used in determining whether or not the Plan is in critical status for the current plan year. The exhibit shows the basic tests for determining critical status under PPA, as defined in section 432(b)(2) of the Code. Also shown is information about whether the Plan is projected to be in critical status for the succeeding 5 plan years, and therefore eligible to elect to be in critical status for the current plan year under MPRA, as defined in section 432(b)(4). See Exhibit 3 for a projection of the funding standard account (in other words, projected credit balances and funding deficiencies).

Exhibit 2 – Critical Status Tests

4. Actuarial Basis

Exhibit 4 summarizes the key measures used in determining whether or not the Plan is in critical and declining status. For purposes of determining whether a plan is in critical and declining status, projections by the plan actuary shall assume that each contributing employer currently in compliance with the adopted rehabilitation plan will continue to be in compliance.

4. Actuarial Basis

As required under section 432(b)(3)(B) of the Code, this certification is based on actuarial projections for the current and succeeding plan years for the current value of Plan assets and Plan liabilities related to participants and beneficiaries covered under the Plan. The projections are based on reasonable actuarial estimates, assumptions, and methods that (except as noted below) offer the actuary's best estimate of anticipated experience under the Plan.

Most Recent Actuarial Valuation

For this certification for the 2022 Plan Year, projections of Plan liabilities are based on the actuarial valuation as of May 1, 2021, as set forth in the report dated December 8, 2021. The actuarial assumptions and methods used in that actuarial valuation, including a valuation interest rate assumption of 6.00%, are the same as those used in this certification. Please refer to the May 1, 2021 actuarial valuation report, for a summary of applicable data, assumptions, methods, and plan provisions.

The demographic actuarial assumptions used in the actuarial valuation and this certification were developed based on a review of past experience and anticipated future experience for the Plan, given the particular characteristics of the Plan's participant population. The valuation interest rate was chosen in consideration of the purpose of the measurement (long-term contribution budgeting), current and historical investment data, the Plan's asset allocation as set by the Plan Sponsor. As part of the analysis, we considered the results of current and prior editions of our Survey of Capital Market Assumptions and expectations of the Plan's investment advisor.

Projection of Plan Assets

The actuarial projection of Plan assets used in this certification is based on the preliminary market value of assets as of April 30, 2022, which was provided by the Plan's investment advisor. Future net investment returns are assumed to be 6.00% per year, the assumed rate of return on Plan assets.

Projection of Future Work Levels and Contributions

The projection of Plan assets is also based on a projection of covered employment levels and employer contributions for current and succeeding plan years. The projection of covered employment levels is based on information provided in good faith by the Board of Trustees. It was assumed that the number of active participants and annual weeks worked per active participant would remain level in future years and equal the levels reported in the census data provided for the May 1, 2021 valuation.

The projected weekly employer contribution rates reflect the amounts agreed to in collective bargaining agreements in effect as of May 1, 2022. Projections of employer contributions for purposes of determining critical and declining status, however, assume that each contributing employer currently in compliance with the adopted rehabilitation plan will continue to be in compliance during the current and succeeding plan years.

4. Actuarial Basis

Projection of Plan Liabilities

The projection of Plan liabilities was performed using an open-group, roll-forward technique. Each year, the liability of the Plan is assumed to increase due to a decrease in the period of discounting and decrease by the value of expected benefit payments made to participants. Additionally, Plan liabilities are assumed to increase each year by the amount of benefits accrued by active participants and anticipated operating expenses (Normal Cost).

For projection purposes, hypothetical new entrants were added to the population to achieve the expected level of projected industry activity, which was developed based on information provided by the Board of Trustees. The demographic characteristics of the assumed new entrants were developed based on a review of new participants under the Plan in recent years.

Plan Sponsor:	Trustees of the Local 734 Pension Plan 6643 North Northwest Highway Chicago, IL 60631 (773) 594-2810
Plan Year:	Beginning May 1, 2022 and Ending April 30, 2023
Certification Results:	<ul style="list-style-type: none">• Critical and Declining Status• Making scheduled progress toward Rehabilitation Plan

This is the annual certification by the Plan Actuary as required under section 432(b) of the Internal Revenue Code (the "Code") for the above-named multiemployer plan (the "Plan") and plan year (the "Plan Year"). For the Plan Year, the Plan is in critical and declining status.

Under the terms of the rehabilitation plan in place as of May 1, 2022, we further certify, that the Plan is making scheduled progress in meeting the requirements of the rehabilitation plan. The Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period, though the Board of Trustees has taken significant actions to forestall possible insolvency, and the Plan continues to pay its full benefit obligations.

This certification was performed based upon actuarial projections of assets and liabilities for the current and succeeding plan years, as described under section 432(b)(3)(B). These projections are based on reasonable actuarial estimates, assumptions, and methods that offer my best estimate of anticipated experience under the Plan. The projected Plan liabilities as of the beginning of the Plan Year was determined based on a projection of the actuarial valuation of the Plan as of May 1, 2021. The projections of Plan assets are based on the preliminary audited market value of assets of the Plan as of April 30, 2022, provided by the Plan's investment advisor, and the assumption that future net investment returns will be 6.0% per year, beginning May 1, 2022.

This certification is also based on projections of industry activity, including future covered employment and contribution levels, which are based on information provided in good faith by the Plan Sponsor. This certification assumes that the current terms of the collective bargaining agreements under which contributions are made to the Plan will remain in effect for all succeeding plan years.

To the best of my knowledge, the actuarial assumptions and methods used in the preparation of this certification comply with all applicable Actuarial Standards of Practice.

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Local 734 Pension Fund
Chicago, Illinois

Opinion

We have audited the accompanying financial statements of Local 734 Pension Fund, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and April 30, 2022, and the related statements of changes in net assets available for benefits for the periods then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Local 734 Pension Fund as of December 31, 2022 and April 30, 2022, and the changes in its net assets available for benefits for the periods then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Local 734 Pension Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Local 734 Pension Fund's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Local 734 Pension Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Local 734 Pension Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Financial Highlights, Schedule of Administrative Expenses, Schedule of Building Expenses, Schedule of Employer Contributions Accrual Basis and Five Year Summary of Operations, together referred to as "supplemental information," are presented for the purpose of additional analysis and are not a required part of the financial statements. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

LOCAL 734 PENSION FUNDNOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND APRIL 30, 2022

Note 1 – Description of Plan

The following description of the Local 734 Pension Fund (Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan was established May 1, 1986, when Local 734 Bakery Drivers' Pension Fund-Inside Workers' Division and the Drivers' Division merged. The Drivers' Division was established during 1956 and the Inside Workers' Division was established during 1957 as a result of a collective bargaining agreement to provide retirement and disability benefits for eligible participants. The Plan is financed entirely by employer contributions. It is a multiemployer defined benefit pension plan and is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Benefits

Under current provisions of the Plan, effective September 1, 2019, all participant benefits will be determined by the deferred vested pension formula. For retirements after January 1, 2011 through September 1, 2019, participants are eligible for a normal pension if they have attained age 65 and have at least 25 years of benefit service or have attained age 62 with 30 or more years of benefit service.

Participants should refer to the summary plan description for more complete information.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Note 2 – Summary of Significant Accounting Policies

Date of Management's Review

Subsequent events were evaluated through August 18, 2023, which is the date the financial statements were issued.

Basis of Presentation

The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Valuation of Investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of the Plan's money market accounts are valued at cost which approximates market value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND APRIL 30, 2022

Note 2 – Summary of Significant Accounting Policies (Continued)

Property and Depreciation

Office equipment and leasehold improvements are stated at cost less accumulated depreciation. Depreciation is computed on the straight-line method over the estimated five-year useful lives of the assets.

Maintenance and repairs are charged to operations and major improvements are capitalized. When assets are sold, retired, or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in income.

Office equipment is summarized as follows:

	<u>2022</u>	<u>2022</u>
Computer and equipment	\$ 36,374	\$ 36,374
Office equipment	37,618	37,618
Furniture and fixtures	99,172	99,172
Leasehold improvements	<u>123,495</u>	<u>123,495</u>
	296,659	296,659
Less accumulated depreciation	<u>289,150</u>	<u>283,775</u>
	<u>\$ 7,509</u>	<u>\$ 12,884</u>

Depreciation expense for the period ended December 31, 2022 and year ended April 30, 2022 was \$5,375 and \$5,535, respectively.

Employers' Contributions Receivable

Employers' contributions receivable represents amounts due as of December 31, 2022 and April 30, 2022 under terms of the collective bargaining agreements. Employer records are subject to audit and additional revenue, if any, which may arise as a result of these audits, is recognized when final amounts are determined and remitted by the employer.

Withdrawal Liability

Withdrawal liability is assessed in accordance with the Multiemployer Pension Plan Amendments Act of 1980. Amounts not received are recorded as withdrawal liability receivable, net of management's estimate of an amount that is deemed uncollectable. One employer has been assessed withdrawal liability, and is making the required quarterly payments. The total withdrawal liability receivable at December 31, 2022 and April 30, 2022 was \$5,253,845 and \$5,428,974, respectively and has been fully allowed for due to uncertainty of collection.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits includes benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

LOCAL 734 PENSION FUNDNOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND APRIL 30, 2022

Note 3 – Actuarial Information

An actuarial valuation of the Plan was made by Horizon Actuarial Services, LLC as of April 30, 2022. Information in the report included the following:

Actuarial present value of vested accumulated plan benefits	
Participants currently receiving payments	\$175,202,988
Other vested benefits	90,308,559
Total vested benefits	<u>265,511,547</u>
Actuarial present value of nonvested accumulated plan benefits	655,768
Total actuarial present value of accumulated plan benefits	<u>\$266,167,315</u>

As reported by the actuary, changes in the present value of accumulated plan benefits during the year ended April 30, 2022 were as follows:

Actuarial present value of accumulated plan benefits at April 30, 2021	\$269,940,609
Increase (decrease) during the year attributable to:	
Decrease in the discount period	15,757,389
Benefits accumulated and actuarial gains	(601,760)
Benefits paid	<u>(18,928,923)</u>
Actuarial present value of accumulated plan benefits at April 30, 2022	<u>\$266,167,315</u>

Cost and liabilities for all plan benefits (including ancillary benefits) were determined using the unit credit cost method. Some of the more significant actuarial assumptions used in the valuations were as follows:

a) Life expectancy of participants:

	<u>2022</u>	<u>2021</u>
Active and nondisabled pensioners	Sex-distinct RP-2014 mortality tables for Blue Collar Employees, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018	Sex-distinct RP-2014 mortality tables for Blue Collar Employees, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018
Disabled pensioners	Sex-distinct RP-2014 Disabled Retiree mortality tables, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018	Sex-distinct RP-2014 Disabled Retiree mortality tables, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018

LOCAL 734 PENSION FUNDNOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND APRIL 30, 2022

Note 3 – Actuarial information (Continued)

b) Retirement age assumptions:

<u>Age</u>	<u>Retirement Rates</u>
	<u>Active Participants</u>
50-54	0%
55-59	2%
60-61	5%
62	20%
63	25%
64	5%
65	25%
66	45%
67-69	25%
70	100%

Net investment rate of return: 6% per annum.

The above actuarial assumptions are based on the presumption that the Plan will continue. If the Plan was to terminate, different assumptions and other factors might be applicable in determining actuarial results. Pension benefits in excess of the present assets of the Plan are dependent upon contributions received under collective bargaining agreements with employers and income from investments.

Since information on the accumulated plan benefits at December 31, 2022 and the changes therein for the period then ended are not included above, these financial statements do not purport to present a complete presentation of the financial status of the Plan as of December 31, 2022 and the changes in its financial status for the period then ended, but a presentation of the net assets available for benefits and the changes therein as of and for the period then ended December 31, 2022. The complete financial status is presented as of April 30, 2022.

Note 4 – Related Party Transactions

Common administrative expenses incurred are shared with the Bakery Drivers' Union Local 734. The shared expenses allocated from the Plan to the related local union amount to \$9,290 and \$11,929, for the eight months ended December 31, 2022 and the year April 30, 2022, respectively. The shared expenses allocated from the related local union to the Plan amounted to \$6,914 and \$9,629 for the eight months ended December 31, 2022 and the year April 30, 2022, respectively. The amount due to Bakery Drivers' Union Local 734 was \$2,756 and \$2,958 at December 31, 2022 and April 30, 2022, respectively.

Common administrative expenses incurred are shared with the Bakery Drivers' Local 734 Health and Welfare Fund. The shared expenses allocated from the related welfare fund to the Plan amounted to \$213,546 and \$378,517, for the eight months ended December 31, 2022 and the year April 30, 2022, respectively. The shared expenses allocated from the Plan to the related welfare fund amounted to \$72,494 and \$99,367 for the eight months ended December 31, 2022 and the year April 30, 2022, respectively. The amount due from Bakery Drivers' Local 734 Health and Welfare Fund was \$60,341 and \$28,128 at December 31, 2022 and April 30, 2022, respectively.

LOCAL 734 PENSION FUNDNOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND APRIL 30, 2022

Note 5 – Investments

The Plan's investments are held by a bank administered Trust.

	December 31, 2022 (8 months)	April 30, 2022 (12 months)
U.S. Government and Government Agency obligations	\$ 1,280,717	\$ 2,423,606

Money market funds	5,200,004	4,624,131
Total	<u>\$91,088,845</u>	<u>\$102,569,799</u>

The Plan's investments (including investments bought, sold and held) during the period ended December 31, 2022 and year ended April 30, 2022 depreciated in value by (\$5,672,170) and (\$3,094,007), respectively.

The Plan's investments in the life settlement contracts short term and money market fund, by the nature of these type of investments, do not appreciate (depreciate) in value.

Note 6 – Fair Value Measurements

The Plan's investments are reported at fair value in accordance with the provisions of the accounting standard in effect, "Fair Value Measurements" with respect to fair value measurements of financial assets and liabilities. The Standard establishes a framework for measuring fair value by creating a hierarchy for observable independent market inputs and unobservable market assumptions and expands disclosures about fair value measurements. Considerable judgment may be required in interpreting market data used to develop the estimates of fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts that could be realized in a current market exchange. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value.

The three levels of fair value hierarchy under the Standard, and its applicability to the Plans portfolio investments, are described below:

Level 1 – Unadjusted quoted market prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices for similar assets or liabilities, or inputs that are observable, either directly or indirectly, for substantially the full term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal or contractual restrictions to the security.

Level 3 – Pricing inputs are unobservable for the asset or liability, that is, inputs that reflect the reporting entity's own assumption about the assumptions market participants would use in pricing the asset or liability.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND APRIL 30, 2022

Note 6 – Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and April 30, 2022.

United States Treasury Securities, Corporate Stocks and Mutual Funds: These investments are recognized by the Plan's custodian using nationally recognized pricing services and are classified as Level 1.

U.S. Government Agency Obligations, Municipal Bonds, Corporate Bonds and Notes: Many of these securities generally do not trade on a daily basis and the pricing services prepare estimates of fair value measurements for these securities using their proprietary applications. These investments are classified as Level 2.

Life settlement contracts: Initial price is actuarially determined at the time of purchase and subsequently priced by an outside independent pricing service at year end. These investments are classified as level 2.

Money Market Funds: Valued at cost which approximates their fair value.

Real Estate- Land and Building: The Plan owns land in Chicago, Illinois on which it constructed two buildings for use by the Plan, its related organizations and various unrelated tenants. Items which are permanently attached to the land or buildings are included in the investment, while replacements, maintenance, repairs, and tenant build-out costs are expensed currently. The estimated fair value of the land and buildings is based upon an independent appraisal performed every two to three years using the income capitalization approach. The last appraisal was as of February 17, 2023.

The table that follows represents quantitative information about the significant unobservable inputs used in the fair value measurement of the Plan's investments in land and buildings at December 31, 2022. Significant changes in any of those inputs in isolation would result in a significant change in fair value measurement.

<u>Investments</u>	<u>Fair Value</u>	<u>Valuation Technique</u>	<u>Unobservable Inputs</u>	<u>Range</u>

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Management has evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the period ended December 31, 2022 and year ended April 30, 2022, there were no significant transfers in or out of levels 1 or 2.

Note 7 – Operating Leases

The Plan has entered into a long- term lease agreement as a lessor with Bank of America. The lease term is for 20 years following the rent commencement date which was April 1, 2003. The lease was terminated March 31, 2023.

Future minimum rent under the noncancelable operating lease at December 31, 2022 consists of the following:

<u>Year ending December 31,</u>	
2023	<u>\$78,834</u>
Total	<u>\$78,834</u>

The Plan has entered into a lease for office space as a lessor with the related local union commencing August 1, 2013 thru 2018. The local union renewed the lease for an additional five-year term commencing August 1, 2018 thru 2023. The lease requires monthly payments of \$6,960 with rent escalations each year thereafter. The lease provides that the local union is responsible for real estate taxes in excess of \$5 per square foot. The local union has the option to renew the lease for another five-year term.

Future minimum rent under the noncancelable operating lease at December 31, 2022 consists of the following:

<u>Year ending December 31,</u>	
2023	<u>\$52,735</u>
Total	<u>\$52,735</u>

The Plan has entered into a lease for office space as a lessor with the related health and welfare fund commencing August 1, 2013 thru 2018. The health and welfare fund renewed the lease for an additional five-year term commencing August 1, 2018 thru 2023. The lease requires monthly payments of \$8,297 with rent escalations each year after the third year. The lease provides that the health and welfare fund is responsible for real estate taxes in excess of \$5 per square foot. The health and welfare fund has the option to renew the lease for another five-year term.

Future minimum rent under the noncancelable operating lease at December 31, 2022 consists of the following:

<u>Year ending December 31,</u>	
2023	<u>\$62,868</u>
Total	<u>\$62,868</u>

The Plan also leases office space to itself in its building. For the period ended December 31, 2022 and year ended April 30, 2022, the Plan's rental income and rental expense includes \$162,808 and \$245,416, respectively paid to itself.

Note 7 – Operating Leases (Continued)

The Plan has entered into a long-term lease agreement as a lessor with CSA Creative, LLC. The lease term is 5 years following the rent commencement date which was December 1, 2016. The CSA Creative, LLC lease was not renewed.

The Plan has entered into a long-term lease agreement as a lessor with Farm Journal, Inc. The lease term is 7 years and 7 months following the rent commencement date which was April 1, 2018.

Future minimum rent under the noncancelable operating lease at December 31, 2022 consists of the following:

Year ending December 31,	
2023	\$ 74,942
2024	75,402
2025	<u>65,530</u>
Total	<u>\$215,874</u>

Note 8 – Funding Policy

Funding is provided by monthly contributions from participating employers. The Plan is a non-contributory plan whereby participants may not make contributions.

Employers are required to remit contributions to the Plan within the first month after the work was performed. Contributions receivable represent the amounts due as December 31, 2022 and April 30, 2022 under the terms of the bargaining agreement and are based on remittances received subsequent to the Plan's year end. Contributions for December 31, 2022 and April 30, 2022 exceeded the minimum funding requirements of ERISA. An allowance for uncollectible accounts has not been established as management does not expect any uncollectible accounts.

Note 9 – Major Employers

The Plan has three employers who contributed approximately 91% of the employer contributions received for both December 31, 2022 and April 30, 2022.

Note 10 – Multiemployer Employee Benefit Plans

The Plan contributes to a multiemployer defined benefit pension plans, and a multiemployer defined benefit health and welfare plan under the terms of a participation agreement. These plans generally provide retirement and health care benefits within the applicable collective bargaining units, based on specific eligibility/participation requirements, vesting periods and benefit formulas. The risks of participating in these multiemployer plans are different from single-employer plans in the following aspects:

- Assets contributed to the multiemployer plan by one employer may be used to provide benefits to employees of other participating employers

NOTES TO FINANCIAL STATEMENTS

Note 10 – Multiemployer Employee Benefit Plans (Continued)

- If a participating employer stops contributing to the multiemployer plan, the unfunded obligations of the plan may be borne by the remaining participating employers.
- If the Plan chooses to stop participating in some of our multiemployer plans, the Plan may be required to pay those plans an amount based on the underfunded status of the plan, referred to as a withdrawal liability. However, cessation of participation in a multiemployer plan and subsequent payment of any withdrawal liability is subject to the collective bargaining process.

Multiemployer Pension Plan

The following table outlines the participation in multiemployer pension plans for the period ended December 31, 2022 and year ended April 30, 2022. The “EIN/Pension Plan Number” column provides the Employer Identification Number (“EIN”) and the three-digit-plan number. The most recent Pension Protection Act zone status available in December 31, 2022 and April 30, 2022, relates to the plans’ two most recent fiscal year-ends. The zone status is based on information that we received from the plans’ administrators and is certified by each plan’s actuary. Among other factors, plans certified in the red zone are generally less than 65% funded, plans certified in the orange zone are both less than 80% funded and have an accumulated funding deficiency or are expected to have a deficiency in any of the next six plan years, plans certified in the yellow zone are less than 80% funded, and plans certified in the green zone are at least 80% funded. The “FIP/RP Status Pending/Implemented” column indicates whether a financial improvement plan (“FIP”) for yellow/orange zone plans, or a rehabilitation plan (“RP”) for red zone plans, is either pending or has been implemented.

Multiemployer Health and Welfare Plan

The Plan contributes to a multiemployer health and welfare plan for its full-time employees. The plan covers retirees and participating employees and their dependents under a participation agreement. Contributions to the health and welfare plan by the Plan for the period ended December 31, 2022 and year ended April 30, 2022, were \$27,318 and \$56,364, respectively.

Note 11 – Plan Termination

It is the intent of the Trustees to continue the Plan in full force and effect. However, in the unlikely event of termination and in order to safeguard against any unforeseen contingencies, the right to discontinue the Plan is reserved to the Trustees. In the event the Plan terminates, the net assets of the Plan will be allocated as set forth in the Trust agreement and as prescribed by ERISA and its related regulations.

LOCAL 734 PENSION FUNDNOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND APRIL 30, 2022

Note 11 – Plan Termination (Continued)

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 12 – Tax Status and Uncertain Tax Positions

The Internal Revenue Service has ruled May 16, 2011 that the Plan qualifies under Section 501(a) of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax law. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Trustees of the Plan are not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan's management has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2022, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 13 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statement of net assets available for benefits.

The estimated fair value of the land and buildings owned as investments by the Plan, as determined by an independent third-party appraiser, may vary significantly from prices at which the real estate investments would sell and the amounts could be material.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

LOCAL 734 PENSION FUNDNOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND APRIL 30, 2022

Note 14 – Concentration of Credit Risk

Cash

The Plan maintains cash balances at one financial institution. The Federal Deposit Insurance Corporation insures accounts up to \$250,000. The Plan has approximately \$3,078,500 at risk for accounts in excess of insured limits.

COVID-19

In early 2020, an outbreak of the novel strain of coronavirus (COVID-19) emerged globally. As a result, there have been mandates from federal, state and local authorities resulting in an overall decline in economic activity. The ultimate impact of COVID-19 on the financial performance of the Plan is not reasonably estimable at this time.

Note 15 – Pension Protection Act Filing of Critical Status

For the Plan years beginning on May 1, 2022 and 2021, the Plan's actuary certified that the Plan was in critical and declining status ("red zone"), within the meaning of the Pension Protection Act of 2006 (PPA).

Federal law requires pension plans in the red zone to adopt a rehabilitation plan aimed at restoring the financial health of the Plan. In 2011, the Trustees adopted a rehabilitation plan that includes contribution rate increases and benefit reductions. The rehabilitation plan was updated on July 8, 2019 as follows: effective May 1, 2020 to set up the minimum contribution rate by \$180 per week followed by the \$6.00 per week annual increase through May 1, 2029, at which time, the minimum contribution rate must be \$234 per week.

The rehabilitation plan has a number of assumptions about future experience and may need to be adjusted in the future if such assumptions are not met. The Trustees recognize the possibility that actual experience could be less favorable than the reasonable assumptions and, they acknowledge the need to update the rehabilitation plan on an annual basis as deemed necessary. Additional contribution rate increases and/or benefit reductions may be needed if the Plan were to realize asset returns below the expected 6.00% annual return.

Note 16 – Plan Amendment

The Plan had no amendments during the period ended December 31, 2022 and the year ended April 30, 2022.

Death Audit Certification

This is a certification that any known deaths that occurred before the date of the census data used for special financial assistance ("SFA") purposes were reflected for SFA calculation purposes.

The Plan performed its own death audit (prior to submitting census data to the PBGC), and those participants that were found to be deceased prior to the May 1, 2022 census date were removed from census data used for the SFA application. A redacted copy of the results of this death audit is attached to this application.

On November 7, 2023, Horizon Actuarial submitted the Plan's full census data used for the SFA application to the PBGC. On November 9, 2023 the PBGC sent Horizon Actuarial the results of their independent death audit performed on the full census data to be used in the SFA application. The following summarizes the changes made to the SFA census data resulting from PBGC's death audit. We certify that the following has been incorporated into the SFA calculations.

- 1) For participants with an Active status as of the census date:
 - a. There were no matches that had reported dates of death before the SFA census date.
- 2) For participants with an Inactive Vested status as of the census date:
 - a. There were 20 matches that had reported dates of death before the SFA census date.
 - i. All of these matched plan records
 - ii. None of these were determined to be alive
 - iii. 4 of these had a confirmed spouse for whom a benefit is currently valued for the SFA calculations
 - iv. 16 of these were determined to be deceased and having no beneficiary, resulting in their complete removal from the data
 - v. None of these have unknown marital status for which actuarial assumptions were applied
- 3) For participants with a Beneficiary status as of the census date:
 - a. There were 3 matches that had reported dates of death before the SFA census date.
 - i. All of these matched plan records
 - ii. None of these were determined to be alive
 - iii. All 3 were determined to be deceased, resulting in their complete removal from the data
 - iv. Spousal information is not applicable
- 4) For participants with a Retired status as of the census date:
 - a. There were 11 matches that had reported dates of death before the SFA census date.
 - i. All of these matched plan records
 - ii. 2 of these were determined to be alive
 - iii. 9 of these were determined to be deceased and having no beneficiary, resulting in their complete removal from the data
 - iv. None of these have an unknown marital status for which actuarial assumptions were applied.
- 5) For participants with a Disabled status of the census date:
 - a. There were no matches that had reported dates of death before the SFA census date.

Death Audit Certification

- 6) There was no assumption change regarding the “missing” older terminated vested participants made for the SFA application.

The census data used in the application for the L734 plan is as of 5/1/2022. There were reported deaths during the time frame between 5/1/2022 and 1/1/2023 that were reported in the death audit. The number of deaths during this time frame was not significantly different from our expectation using SFA calculation assumptions. We used the SFA calculation assumptions (including assumed mortality) for decrements during this time period.

* Adjust column headers as may be needed due to any changes in the plan year since 2018 and provide supporting explanation. For example, assume the plan has a calendar year plan year, but effective 10/1/2019 the plan year is changed to begin on October 1. For 2019 there will be two 2019 Forms - one for the short plan year from 1/1/2019 to 9/30/2019, and another for the plan year 10/1/2019 to 9/30/2020. For this example, modify the table to show a separate column for each of the separate Forms 5500, and identify the plan year period for each filing.

Historical Plan Information

File name: *Template 3 Plan Name* , where "Plan Name" is an abbreviated version of the plan name.
 For additional submission due to merger under § 4262.4(f)(1)(ii): *Template 3 Plan Name Merged* , where "Plan Name Merged" is an abbreviated version of the plan name for the separate plan involved in the merger.

v20230727p

Provide historical plan information for the 2010 plan year through the plan year immediately preceding the date the plan's initial application was filed that separately identifies: total contributions, total contribution base units (including identification of the base unit used (i.e., hourly, weekly)), average contribution rates, and number of active participants at the beginning of each plan year. Also show separately for each of the plan years in the same period all other sources of non-investment income, including, if applicable, withdrawal liability payments collected, reciprocity contributions (if applicable), additional contributions from the rehabilitation plan (if any), and other identifiable contribution streams.

If the contributions and withdrawal liabilities shown on this table do not equal the amount shown as credited to the funding standard account on the plan year Schedule MB of Form 5500, include an explanation as a footnote to this table.

SFA Determination - under the "basic method" for all plans, and under the "increasing assets method" for MPRA plans

File name: *Template 4A Plan Name*, where "Plan Name" is an abbreviated version of the plan name.

If submitting additional information due to a merger under § 4262.4(f)(1)(ii): *Template 4A Plan Name Merged*, where "Plan Name Merged" is an abbreviated version of the plan name for the separate plan involved in the merger.

If submitting additional information due to certain events with limitations under § 4262.4(f)(1)(i): *Template 4A Plan Name Add*, where "Plan Name" is an abbreviated version of the plan name.

If submitting a supplemented application under § 4262.4(g)(6): *Template 4A Supp Plan Name*, where "Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item (4) of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

IFR filers submitting a supplemented application should see Addendum C for more information.

MPRA plans using the "increasing assets method" should see Addendum D for more information.

For all plans, provide information used to determine the amount of SFA under the "basic method" described in § 4262.4(a)(1).

For MPRA plans, also provide information used to determine the amount of SFA under the "increasing assets method" described in § 4262.4(a)(2)(i).

The information to be provided is:

NOTE: All items below are provided on Sheet '4A-4 SFA Details .4(a)(1)' unless otherwise indicated.

- a. The amount of SFA calculated using the "basic method", determined as a lump sum as of the SFA measurement date.
- b. Non-SFA interest rate required under § 4262.4(e)(1) of PBGC's SFA regulation, including supporting details on how it was determined.
[Sheet: 4A-1 Interest Rates]
- c. SFA interest rate required under § 4262.4(e)(2) of PBGC's SFA regulation, including supporting details on how it was determined.
[Sheet: 4A-1 Interest Rates]
- d. Fair market value of assets as of the SFA measurement date. This amount should include any assets at the SFA measurement date attributable to financial assistance received by the plan under section 4261 of ERISA, but should not reflect a payable for amounts owed to PBGC for all amounts of such financial assistance received by the plan.

e. For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"):

- i. Separately identify the projected amount of contributions, projected withdrawal liability payments reflecting a reasonable allowance for amounts considered uncollectible, and other payments expected to be made to the plan (excluding the amount of financial assistance under section 4261 of ERISA and SFA to be received by the plan).
- ii. Identify the benefit payments described in § 4262.4(b)(1) (including any benefits that were restored under 26 CFR 1.432(e)(9)-(1)(e)(3) and excluding the payments in e.iii. below), separately for current retirees and beneficiaries, current terminated vested participants not yet in pay status, current active participants, and new entrants.

[Sheet: 4A-2 SFA Ben Pmts]

Identify total benefit payments paid and expected to be paid from projected SFA assets separately from total benefit payments paid and expected to be paid from non-SFA assets after the projected SFA assets are fully exhausted.

- iii. Separately identify the make-up payments described in § 4262.4(b)(1) attributable to the reinstatement of benefits under § 4262.15 that were previously suspended through the SFA measurement date.
[Also see applicable examples in Section C, Item (4)e.iii. of the SFA instructions.]
- iv. Separately identify administrative expenses paid and expected to be paid (excluding the amount owed PBGC under section 4261 of ERISA) for premiums to PBGC and for all other administrative expenses.

[Sheet: 4A-3 SFA Pcount and Admin Exp]

Identify total administrative expenses paid and expected to be paid from projected SFA assets separately from total administrative expenses paid and expected to be paid from non-SFA assets after the projected SFA assets are fully exhausted.

- v. Provide the projected total participant count at the beginning of each year.
[Sheet: 4A-3 SFA Pcount and Admin Exp]
 - vi. Provide the projected investment income earned by assets not attributable to SFA based on the non-SFA interest rate in b. above and the projected fair market value of non-SFA assets at the end of each plan year.
 - vii. Provide the projected investment income earned by assets attributable to SFA based on the SFA interest rate in c. above (excluding investment returns for the plan year in which the sum of annual projected benefit payments and administrative expenses for the year exceeds the beginning-of-year projected SFA assets) and the projected fair market value of SFA assets at the end of each plan year.
- f. The projected SFA exhaustion year. This is the first day of the plan year in which the sum of annual projected benefit payments and administrative expenses for the year exceeds the beginning-of-year projected SFA assets. Note this date is only required for the calculation method under which the requested amount of SFA is determined.

Additional instructions for each individual worksheet:

Sheet

4A-1 SFA Determination - non-SFA Interest Rate and SFA Interest Rate

See instructions on 4A-1 Interest Rates.

4A-2 SFA Determination - Benefit Payments for the "basic method" for all plans, and for the "increasing assets method" for MRPA plans

This sheet is not required for an IFR filer submitting a supplemented application under § 4262.4(g)(6) if the total projected benefit payments are the same as those used in the application approved under the interim final rule.

On this sheet, you will provide:

- Basic plan information (plan name, EIN/PN, SFA measurement date), and
- Year-by-year deterministic projection of benefit payments.

For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"), identify benefit payments described in § 4262.4(b)(1) for current retirees and beneficiaries, current terminated vested participants not yet in pay status, currently active participants, and new entrants. On this Sheet 4A-2, show all benefit payments as positive amounts.

If the plan has suspended benefit payments under sections 305(e)(9) or 4245(a) of ERISA, the benefit payments in this Sheet 4A-2 projection should reflect prospective reinstatement of benefits assuming such reinstatements commence as of the SFA measurement date. If the plan restored or partially restored benefits under 26 CFR 1.432(e)(9)-1(e)(3) before the SFA measurement date, the benefit payments in this Sheet 4A-2 should reflect fully restored prospective benefits.

Make-up payments to be paid to restore previously suspended benefits should not be included in this Sheet 4A-2, and are separately shown in Sheet 4A-4.

Except for the first row in the projection exhibit, each row must include the full plan year of the indicated information up to the plan year ending in 2051. The first row in the projection period is for the period beginning on the SFA measurement date and ending on the last day of the plan year containing the SFA measurement date, so the first row may contain less than a full plan year of information. For all other periods, provide the full plan year of information up to the plan year ending in 2051.

4A-3 SFA Determination - Participant Count and Administrative Expenses for the "basic method" for all plans, and for the "increasing assets method" for MPRA plans

This sheet is not required for an IFR filer submitting a supplemented application under § 4262.4(g)(6).

On this sheet, you will provide:

- Basic plan information (plan name, EIN/PN, SFA measurement date), and
- Year-by-year deterministic projection of participant count and administrative expenses.

For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"), identify the projected total participant count at the beginning of each year, as well as administrative expenses, separately for premiums to PBGC and for all other administrative expenses. On this Sheet 4A-3, show all administrative expenses as positive amounts.

Any amounts owed to PBGC for financial assistance under section 4261 of ERISA should not be included in this Sheet 4A-3.

Except for the first row in the projection exhibit, each row must include the full plan year of the indicated information up to the plan year ending in 2051. The first row in the projection period is for the period beginning on the SFA measurement date and ending on the last day of the plan year containing the SFA measurement date, so the first row may contain less than a full plan year of information. For all other periods, provide the full plan year of information up to the plan year ending in 2051.

4A-4 SFA Determination - Details for the "basic method" under § 4262.4(a)(1) for all plans

On this sheet, you will provide:

- Basic plan information (plan name, EIN/PN, SFA measurement date, non-SFA interest rate, SFA interest rate),
- MPRA plan status and, if applicable, certain MPRA information,
- Fair Market Value of Assets as of the SFA measurement date,
- SFA Amount as of the SFA measurement date calculated under the "basic method",
- Projected SFA exhaustion year (only if the requested amount of SFA is determined under the "basic method"), and
- Year-by-year deterministic projection.

For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"), provide each of the items requested in Columns (1) through (12). Show payments INTO the plan as positive amounts and payments OUT of the plan as negative amounts.

If the plan has suspended benefit payments under sections 305(e)(9) or 4245(a) of ERISA, Column (5) should show the make-up payments to be paid to restore the previously suspended benefits. These amounts should be determined as if such make-up payments are paid beginning as of the SFA measurement date. If the plan sponsor elects to pay these amounts as a lump sum, then the lump sum amount is assumed paid as of the SFA measurement date. If the plan sponsor elects to pay equal installments over 60 months, the first monthly payment is assumed paid on the first regular payment date on or after the SFA measurement date. See the examples in the SFA Instructions. If the make-up payments are paid over 60 months, each row in the projection should reflect the monthly payments for that period. The prospective reinstatement of suspended benefits is included in Column (4); Column (5) is only for make-up payments for past benefits that were suspended.

Except for the first row in the projection exhibit, each row must include the full plan year of the indicated information up to the plan year ending in 2051. The first row in the projection period is for the period beginning on the SFA measurement date and ending on the last day of the plan year containing the SFA measurement date, so the first row may contain less than a full plan year of information. For all other periods, provide the full plan year of information up to the plan year ending in 2051.

4A-5 SFA Determination - Details for the "increasing assets method" under § 4262.4(a)(2)(i) for MPRA plans

This sheet is to only be used by MPRA plans. For such plans, this sheet should be completed in addition to Sheet 4A-4.

On this sheet, you will provide:

- Basic plan information (plan name, EIN/PN, SFA measurement date, non-SFA interest rate, SFA interest rate),
- MPRA plan status, and if applicable, certain MPRA information,
- Fair Market Value of Assets as of the SFA measurement date,
- SFA Amount as of the SFA measurement date calculated under the "increasing assets method",
- Projected SFA exhaustion year (only if the requested amount of SFA is determined under the "increasing assets method"), and
- Year-by-year deterministic projection.

This sheet is identical to Sheet 4A-4, and the information in Columns (1) through (6) should be the same as that used in the "basic method" calculation in Sheet 4A-4. The SFA Amount as of the SFA Measurement Date will differ from that calculated in Sheet 4A-4, as it will be calculated in accordance with § 4262.4(a)(2)(i) as the lowest whole dollar amount (not less than \$0) for which, as of the last day of each plan year during the SFA coverage period, projected SFA assets and projected non-SFA assets are both greater than or equal to zero, and, as of the last day of the SFA coverage period, the sum of projected SFA assets and projected non-SFA assets is greater than the amount of such sum as of the last day of the immediately preceding plan year.

TEMPLATE 5A

v20220802p

Baseline - for non-MPRA plans using the "basic method", or for MPRA plans for which the requested amount of SFA is determined under the "increasing assets method"

File name: *Template 5A Plan Name*, where "Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item (5) of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

This Template 5A is not required if all assumptions and methods used to determine the requested SFA amount are identical to those used in the most recent actuarial certification of plan status completed before 1/1/2021 ("pre-2021 certification of plan status"), except the non-SFA and SFA interest rates, and except any assumptions that were changed in accordance with Section III, Acceptable Assumption Changes in PBGC's SFA assumptions guidance (other than the acceptable assumption change for "missing" terminated vested participants described in Section III.E. of PBGC's SFA assumptions guidance).

Provide a separate deterministic projection ("Baseline") using the same calculation methodology used to determine the requested SFA amount, in the same format as Template 4A (Sheets 4A-2, 4A-3, and either 4A-4 or 4A-5) that shows the amount of SFA that would be determined if all underlying assumptions and methods used in the projection were the same as those used in the pre-2021 certification of plan status, except the plan's non-SFA interest rate and SFA interest rate, which should be the same as used in Template 4A (Sheet 4A-1).

For purposes of this Template 5A, any assumption change made in accordance with Section III, Acceptable Assumption Changes, in PBGC's SFA assumptions guidance should be reflected in this Baseline calculation of the SFA amount and supporting projection information, except that an assumption change for "missing" terminated vested participants described in Section III.E of PBGC's SFA assumptions guidance should not be reflected in the Baseline projections. See examples in the SFA instructions for Section C, Item (5).

Additional instructions for each individual worksheet:

Sheet

5A-1 Baseline - Benefit Payments for the "basic method", or for MPRA plans for which the requested amount of SFA is determined under the "increasing assets method"

See Template 4A instructions for Sheet 4A-2, except provide the benefit payment projection used to determine the Baseline SFA amount.

5A-2 Baseline - Participant Count and Administrative Expenses for the "basic method", or for MPRA plans for which the requested amount of SFA is determined under the "increasing assets method"

See Template 4A instructions for Sheet 4A-3, except provide the projected total participant count and administrative expense projection used to determine the Baseline SFA amount.

5A-3 Baseline - Details for the "basic method" under § 4262.4(a)(1) for non-MPRA plans, or for the "increasing assets method" under § 4262.4(a)(2)(i) for MPRA plans for which the requested amount of SFA is determined under that method

For non-MPRA plans, see Template 4A instructions for Sheet 4A-4, except provide the projection used to determine the Baseline SFA amount under the "basic method" described in § 4262.4(a)(1). Unlike Sheet 4A-4, it is not necessary to explicitly identify the projected SFA exhaustion year in Sheet 5A-3.

For MPRA plans for which the requested amount of SFA is determined under the "increasing assets method", see Template 4A instructions for Sheet 4A-5, except provide the projection used to determine the Baseline SFA amount under the "increasing assets method" described in § 4262.4(a)(2)(i). Unlike Sheet 4A-5, it is not necessary to identify the projected SFA exhaustion year in Sheet 5A-3.

TEMPLATE 6A

v20220802p

Reconciliation - for non-MPRA plans using the "basic method", or for MPRA plans for which the requested amount of SFA is determined under the "increasing assets method"

File name: *Template 6A Plan Name*, where "Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item (6) of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

This Template 6A is not required if all assumptions and methods used to determine the requested SFA amount are identical to those used in the most recent actuarial certification of plan status completed before 1/1/2021 ("pre-2021 certification of plan status"), except the non-SFA and SFA interest rates, and except any assumptions changed in accordance with Section III, Acceptable Assumption Changes, in PBGC's SFA assumptions guidance (other than the acceptable assumption change for "missing" terminated vested participants described in Section III.E of PBGC's SFA assumptions guidance).

This Template 6A is also not required if the requested SFA amount from Template 4A is the same as the SFA amount shown in Template 5A (Baseline).

If the assumptions/methods used to determine the requested SFA amount differ from those in the "Baseline" projection in Template 5A, then provide a reconciliation of the change in the total amount of SFA due to each change in assumption/method from the Baseline to the requested SFA as shown in Template 4A.

For each assumption/method change from the Baseline through the requested SFA amount, provide a deterministic projection using the same calculation methodology used to determine the requested SFA amount, in the same format as Template 4A (either Sheet 4A-4 or Sheet 4A-5).

Additional instructions for each individual worksheet:

Sheet

6A-1 Reconciliation - Summary for the "basic method", or for MPRA plans for which the requested amount of SFA is determined under the "increasing assets method"

For Item number 1, show the SFA amount determined in Template 5A using the "Baseline" assumptions and methods. If there is only one change in assumptions/methods between the Baseline (Template 5A) and the requested SFA amount (Template 4A), then show on Item number 2 the requested SFA amount, and briefly identify the change in assumptions from the Baseline.

If there is more than one change in assumptions/methods from the Baseline, show each individual change as a separate Item number. Each Item number should reflect all changes already measured in the prior Item number. For example, the difference between the SFA amount shown for Item number 4 and Item number 5 should be the incremental change due to changing the identified single assumption/method. The Item numbers should show assumption/method changes in the order that they were incrementally measured.

6A-2 Reconciliation - Details for the "basic method" under § 4262.4(a)(1) for non-MPRA plans, or for the "increasing assets method" under § 4262.4(a)(2)(i) for MPRA plans for which the requested amount of SFA is determined under that method

For non-MPRA plans, see Template 4A instructions for Sheet 4A-4, except provide the projection used to determine the intermediate Item number 2 SFA amount from Sheet 6A-1 under the "basic method" described in § 4262.4(a)(1). Unlike Sheet 4A-4, it is not necessary to explicitly identify the projected SFA exhaustion year in Sheet 6A-2.

For MPRA plans for which the requested amount of SFA is determined under the "increasing assets method", see Template 4A instructions for Sheet 4A-5, except provide the projection used to determine each intermediate SFA amount from Sheet 6A-1 under the "increasing assets method" described in § 4262.4(a)(2)(i). Unlike Sheet 4A-5, it is not necessary to explicitly identify the projected SFA exhaustion year in Sheet 6A-2.

A Reconciliation Details sheet is not needed for the last Item number shown in the Sheet 6A-1 Reconciliation, since the information should be the same as shown in Template 4A. For example, if there is only one assumption change from the Baseline, then Item number 2 should identify what assumption changed between the Baseline and Item number 2, where Item number 2 is the requested SFA amount. Since details on the determination of the requested SFA amount are shown in Template 4A, a separate Sheet 6A-2 Reconciliation Details is not required here.

6A-3 Reconciliation - Details for the "basic method" under § 4262.4(a)(1) for non-MPRA plans, or for the "increasing assets method" under § 4262.4(a)(2)(i) for MPRA plans for which the requested amount of SFA is determined under that method

See instructions for 6A-2 Reconciliation Details, except for the intermediate Item number 3 SFA amount from Sheet 6A-1.

6A-4 Reconciliation - Details for the "basic method" under § 4262.4(a)(1) for non-MPRA plans, or for the "increasing assets method" under § 4262.4(a)(2)(i) for MPRA plans for which the requested amount of SFA is determined under that method

See instructions for 6A-2 Reconciliation Details, except for the intermediate Item number 4 SFA amount from Sheet 6A-1.

6A-5 Reconciliation - Details for the "basic method" under § 4262.4(a)(1) for non-MPRA plans, or for the "increasing assets method" under § 4262.4(a)(2)(i) for MPRA plans for which the requested amount of SFA is determined under that method

See instructions for 6A-2 Reconciliation Details, except for the intermediate Item number 5 SFA amount from Sheet 6A-1.

v20220701p

7a - Assumption/Method Changes for SFA Eligibility

File name: *Template 7 Plan Name*, where "Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item (7)a. of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

Sheet 7a of Template 7 is not required if the plan is eligible for SFA under § 4262.3(a)(2) (MPRA suspensions) or § 4262.3(a)(4) (certain insolvent plans) of PBGC's special financial assistance regulation.

Sheet 7a of Template 7 is not required if the plan is eligible based on a certification of plan status completed before January 1, 2021.

Sheet 7a of Template 7 is not required if the plan is eligible based on a certification of plan status completed after December 31, 2020 but reflects the same assumptions as those in the pre-2021 certification of plan status.

Provide a table identifying which assumptions/methods used in determining the plan's eligibility for SFA differ from those used in the pre-2021 certification of plan status and brief explanations as to why using those assumptions/methods is no longer reasonable and why the changed assumptions/methods are reasonable.

This table should identify all changed assumptions/methods (including those that are reflected in the Baseline provided in Template 5A or Template 5B) and should be an abbreviated version of information provided in Section D, Item (6)a. of the SFA filing instructions.

For example, if the mortality assumption used in the pre-2021 certification of plan status is the RP-2000 mortality table, and the plan proposes to change to the Pri-2012(BC) table, complete one line of the table as follows:

	(A)	(B)	(C)
Assumption/Method That Has Changed From Assumption/Method Used in Most Recent Certification of Plan Status Completed Prior to 1/1/2021	Brief description of assumption/method used in the most recent certification of plan status completed prior to 1/1/2021	Brief description of assumption/method used in showing the plan's eligibility for SFA (if different)	Brief explanation on why the assumption/method in (A) is no longer reasonable and why the assumption/method in (B) is reasonable
Base Mortality Assumption	RP-2000 mortality table	Pri-2012(BC) mortality table	Prior assumption is outdated. New assumption reflects more recently published experience for blue collar workers.

Add one line for each assumption/method that has changed from that used in the most recent certification of plan status completed prior to 1/1/2021.

Since this Template 7a is intended as an abbreviated version of more detailed information provided in Section D, Item (6)a. of the SFA filing instructions, it is not necessary to include full tables of rates at every age (e.g., for retirement, turnover, etc.). Instead, a high level description that focuses on what aspect of the assumption/method has changed is preferred.

7b - Assumption/Method Changes for SFA Amount

File name: *Template 7 Plan Name*, where "Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item (7)b. of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

Provide a table identifying which assumptions/methods used in determining the amount of SFA differ from those used in the pre-2021 certification of plan status (except the non-SFA and SFA interest rates) and brief explanations as to why using those original assumptions/methods is no longer reasonable and why the changed assumptions/methods are reasonable.

Please state if the changed assumption is an extension of the CBU assumption or the administrative expenses assumption as described in Paragraph A "Adoption of assumptions not previously factored into pre-2021 certification of plan status" of Section III, Acceptable Assumption Changes of PBGC's guidance on Special Financial Assistance Assumptions.

This table should identify all changed assumptions/methods except for the interest rates (including those that are reflected in the Baseline provided in Template 5A or Template 5B) and should be an abbreviated version of information provided in Section D, Item (6)b. of the SFA filing instructions.

For example, if the mortality assumption used in the pre-2021 certification of plan status is the RP-2000 mortality table, and the plan proposes to change to the Pri-2012(BC) table, complete one line of the table as follows:

	(A)	(B)	(C)
Assumption/Method That Has Changed From Assumption Used in Most Recent Certification of Plan Status Completed Prior to 1/1/2021	Brief description of assumption/method used in the most recent certification of plan status completed prior to 1/1/2021	Brief description of assumption/method used to determine the requested SFA amount (if different)	Brief explanation on why the assumption/method in (A) is no longer reasonable and why the assumption/method in (B) is reasonable
Base Mortality Assumption	RP-2000 mortality table	Pri-2012(BC) mortality table	Original assumption is outdated. New assumption reflects more recently published experience for blue collar workers.

For example, assume the plan is projected to be insolvent in 2029 in the pre-2021 certification of plan status. The plan changes its CBU assumption by extending the assumption to the later projection years as described in Paragraph A, "Adoption of assumptions not previously factored into pre-2021 certification of plan status" of Section III, Acceptable Assumption Changes of PBGC's guidance on Special Financial Assistance Assumptions. Complete one line of the table as follows:

	(A)	(B)	(C)
Assumption/Method That Has Changed From Assumption Used in Most Recent Certification of Plan Status Completed Prior to 1/1/2021	Brief description of assumption/method used in the most recent certification of plan status completed prior to 1/1/2021	Brief description of assumption/method used to determine the requested SFA amount (if different)	Brief explanation on why the assumption/method in (A) is no longer reasonable and why the assumption/method in (B) is reasonable
CBU Assumption	Decrease from most recent plan year's actual number of CBUs by 2% per year to 2028	Same number of CBUs for each projection year to 2028 as shown in (A), then constant CBUs for all years after 2028.	Original assumption does not address years after original projected insolvency in 2029. Proposed assumption uses acceptable extension methodology.

Add one line for each assumption/method that has changed from that used in the most recent certification of plan status completed prior to 1/1/2021.

Since this Template 7b is intended as an abbreviated version of more detailed information provided in Section D, Item (6)b. of the SFA filing instructions, it is not necessary to include full tables of rates at every age (e.g., for retirement, turnover, etc.). Instead, a high level description that focuses on what aspect of the assumption/method has changed is preferred.

PLAN INFORMATION

Abbreviated Plan Name:	L734

	(A)	(B)	(C)
Assumption/Method That Has Changed From Assumption Used in Most Recent Certification of Plan Status Completed Prior to 1/1/2021	Brief description of assumption/method used in the most recent certification of plan status completed prior to 1/1/2021	Brief description of assumption/method used to determine the requested SFA amount (if different)	Brief explanation on why the assumption/method in (A) is no longer reasonable and why the assumption/method in (B) is reasonable
Operating Expenses	\$900,000 (\$930,435 MOY based on 7% interest), projected to increase by 2.00% per year for inflation.	\$1,040,000 (payable as of the middle of the year) for 2023. \$885,000 (payable as of the middle of the year) for 2024, \$881,500 for 2025 increased by 2.5% each year thereafter.	Prior assumption did not extend beyond April 30, 2040. The new assumption is updated to reflect more recent inflation expectations and the base assumption is reduced to reflect the most recent 5 years of plan experience.
New Entrant Profile	Based on the distribution of actual new entrants for the five prior plan years ending on May 1, 2019.	Based on the distribution of actual new entrants for the five prior plan years ending on May 1, 2022.	Prior assumption was not identified in the 2020 Zone Certification or 2019 5500 Schedule MB. New assumption is based on the latest 5 years of Plan experience and is consistent with the acceptable change in PBGC's SFA assumptions guidance.
Contribution Rates	\$180 per week for all employers in the 2020 plan year, increasing \$6 per year to an ultimate contribution rate of \$234 per week, based on the Rehabilitation Plan in effect at that time of the certification.	\$187.71 per week based on the weighted average contribution rate for actives as of the 5/1/2022 valuation.	Prior assumption did not extend beyond April 30, 2040 and included anticipated future contribution rate increases from a rehabilitation plan that has since been rescinded. New assumption reflects contribution rates in collective bargaining agreements or participation agreements in effect as of July 9, 2021, and is consistent with the acceptable change in PBGC's SFA assumptions guidance.
Contribution Base Units	CBU assumption of 37,685 weeks per year.	Actual CBUs for calendar year 2022 were 38,589 weeks. CBUs are assumed to decline from 2022 levels by 3.00% per year for 2023 through 2032 and 1.00% per year thereafter. Similarly, the number of active participants are assumed to decline from the May 1, 2022 valuation level (803 actives) by 3.00% each year for 10 years and then 1.00% per year thereafter.	Prior assumption did not extend beyond April 30, 2040 and did not reflect the Plan's historical trend of declining CBUs. New assumption is based on historical CBU analysis, which supports a declining CBU assumption, consistent with the generally acceptable change in PBGC's SFA assumptions guidance.
Withdrawal Liability Payments from Current Contributing Employers	Current contributing employers are not assumed to withdraw from the Plan in the future; therefore, the Plan is not assumed to receive withdrawal liability payments from current contributing employers.	Projected employer contributions include withdrawal liability payments from current contributing employers, adjusted to reflect reasonable allowance for amounts considered uncollectible. 50% of future withdrawal liability payments are assumed to be collectible.	Prior assumption is no longer reasonable since for purposes of determining the amount of SFA, it is assumed that CBUs will decline in the future. New assumption is reasonable because it reflects assumption for future withdrawals that is based on the Plan's prior experience.

Contribution and Withdrawal Liability Details

File name: *Template 8 Plan Name* , where "Plan Name" is an abbreviated version of the plan name.

v20220802p

Provide details of the projected contributions and withdrawal liability payments used to calculate the requested SFA amount. This should include total contributions, contribution base units (including identification of the base unit used (i.e., hourly, weekly)), average contribution rate(s), reciprocity contributions (if applicable), additional contributions from the rehabilitation plan (if applicable), and any other identifiable contribution streams. For withdrawal liability, separately show amounts for currently withdrawn employers and for future assumed withdrawals. Also provide the projected number of active participants at the beginning of each plan year.

The first row in the projection period is for the period beginning on the SFA measurement date and ending on the last day of the plan year containing the SFA measurement date. For all other periods, provide the full plan year of information up to the plan year ending in 2051.

Pre-2021 Zone Certification, Baseline Details, and Final SFA Assumption Summaries

File name: *Template 10 Plan Name*, where "Plan Name" is an abbreviated version of the plan name.

Provide a table identifying and summarizing which assumptions/methods were used in each of the pre-2021 certification of plan status, the Baseline details (Template 5A or Template 5B), and the final SFA calculation (Template 4A or Template 4B).

This table should identify all assumptions/methods used, including those that are reflected in the Baseline provided in Template 5A or Template 5B and any assumptions not explicitly listed. Please identify the source (file and page number) of the pre-2021 certification of plan status assumption. Additionally, please select the appropriate assumption change category per SFA assumption guidance*. Please complete all rows of Template 10. If an assumption on Template 10 does not apply to the application, please enter "N/A" and explain as necessary in the "comments" column. If the application contains assumptions not listed on Template 10, create additional rows as needed.

See the table below for a brief example of how to fill out the requested information in summary form. In the example the first row demonstrates how one would fill out the information for a change in the mortality assumption used in the pre-2021 certification of plan status, where the RP-2000 mortality table was the original assumption, and the plan proposes to change to the Pri-2012(BC) table.

Actual CBUs for calendar year 2022 were 38,589 weeks. CBUs are assumed to decline from 2022 levels by 3.00% per year for 2023 through 2032 and 1.00% per year thereafter.	Generally Acceptable Change	
Contribution Rate	2020Zone20200727 L734.pdf p. 10	\$180 per week for all employers in the 2020 plan year, increasing \$6 per year to an ultimate contribution rate of \$234 per week, assuming that each contributing employer currently in compliance with the adopted rehabilitation plan will continue to be in compliance during the current and succeeding plan years.	The average contribution rate used in the determination of the amount of SFA is \$187.71 per week for the SFA coverage period from December 31, 2022 through December 31, 2051. This represents the contribution rate for each employer for 2023 weighted by the number of active participants as of May 1, 2022. Further, no employer has agreed to a contribution rate increases after 2023 in any collective bargaining agreement or participation agreement in effect prior to July 9, 2021.	Same as Baseline	Acceptable Change	
Administrative Expenses	2020Zone20200727 L734.pdf p. 9	The assumption used in the May 1, 2020 Zone Certification was \$900,000 (\$930,435 MOY based on 7% interest), projected to increase by 2.00% per year for inflation until insolvency in 2032.	Same as Pre-2021 Zone Cert	Future administrative expenses as of January 1, 2023 are assumed to be \$840,000, plus a one-time load of \$200,000 for the SFA application related expenses, for a total of \$1,040,000 (payable as of the middle of the year). The \$840,000 is based on the five year average of expenses incurred by the Plan from May 1, 2017 to April 30, 2022, increased by 2.5% for inflation. The amount as of January 1, 2024 is assumed to be \$860,000 plus a one-time load of \$25,000 for the SFA application related expenses, for a total of \$885,000 (payable as of the middle of the year), based on the five year average of expenses incurred by the plan from May 1, 2017 to April 30, 2022, increased by 5.0% to reflect two years of inflation. For each plan year after 2024, administrative expenses are assumed to increase by 2.5% per year for inflation and annual operating expenses are limited to 12% of projected annual benefit payments for each year.	Acceptable Change	
Assumed Withdrawal Payments - Currently Withdrawn Employers	Application, p. 16-18 2020Zone20200727 L734.pdf p. 9	The Kellogg Company is assumed to have withdrawal liability payments of \$350,256 payable per year until insolvency in 2032	The Kellogg Company is assumed to have withdrawal liability payments of \$350,256 payable per year through 2037	The Kellogg Company is assumed to have withdrawal liability payments of \$350,256 payable per year through 2037	No Change	
Assumed Withdrawal Payments -Future Withdrawals	Application, p. 16-18	None assumed	None assumed	Annual withdrawal liability payment amounts for an individual year of withdrawal were determined based on the annual decline in CBUs. It is assumed that the annual decline in CBUs is entirely due to employer withdrawals. All employers are assumed to have withdrawal liability limited by the 20-year cap on withdrawal liability payments, as required under section 4219(c)(1)(B) of ERISA. Further, 50% of future withdrawal liability are assumed to be uncollectible. The projected future withdrawal liability payment stream beginning in each year was calculated by taking 100% of the reduction in annual contributions in the prior year due to the decline in CBUs, multiplying by 50% (the collectability assumption) and further reducing it by a ratio of \$137.73/\$187.71. The numerator (\$137.73) is the average pre-2015 contribution rate (i.e., it excludes contribution increases under the rehabilitation plan). The denominator (\$187.71) is the current assumed average contribution rate, and these payments were assumed to continue for 20 years.	Other Change

Dear Applicant:

Based on the information you provided, we are issuing this favorable determination letter for your plan listed above. However, our favorable determination only applies to the status of your plan under the Internal Revenue Code and is not a determination on the effect of other federal or local statutes. To use this letter as proof of the plan's status, you must keep this letter, the application forms, and all correspondence with us about your application.

Your determination letter does not apply to any qualification changes that become effective, any guidance issued, or any statutes enacted after the dates specified in the Cumulative List of Changes in Plan Requirements (the Cumulative List) for the cycle you submitted your application under, unless the new item was identified in the Cumulative List.

Your plan's continued qualification in its present form will depend on its effect in operation (Section 1.401-1(b)(3) of the Income Tax Regulations). We may review the status of the plan in operation periodically.

You can find more information on favorable determination letters in Publication 794, Favorable Determination Letter, including:

- The significance and scope of reliance on this letter,
- The effect of any elective determination request in your application materials,
- The reporting requirements for qualified plans, and
- Examples of the effect of a plan's operation on its qualified status.

You can get a copy of Publication 794 by visiting our website at www.irs.gov/formspubs or by calling 1-800-TAX-FORM (1-800-829-3676) to request a copy.

This determination letter applies to the amendments dated on 12/14/14 & 12/11/14.

This determination letter also applies to the amendments dated on

Letter 5274

BOARD OF TRUSTEES OF THE LOCAL 734

8/22/12 & 3/6/11.

This determination letter also applies to the amendments dated on 9/20/10.

You can't rely on this letter after the end of the plan's first five-year remedial amendment cycle that ends more than 12 months after we received the application. This letter expires on January 31, 2020. This letter considered the 2013 Cumulative List of Changes in Plan Qualification Requirements.

If you submitted a Form 2848, Power of Attorney and Declaration of Representative, or Form 8821, Tax Information Authorization, with your application and asked us to send your authorized representative or appointee copies of written communications, we will send a copy of this letter to him or her.

If you have any questions, you can contact the person listed at the top of this letter.

Sincerely,

A handwritten signature in black ink, reading "Karen D. Truss". The signature is written in a cursive, flowing style.

Property Index Numbers: 09-36-409-010; -011; -012; -017

Dear Mr. Adams:

As requested, we inspected the property at the above-captioned address and prepared an Appraisal Report estimating its leased fee use value as of February 17, 2023. Our leased fee use value estimate is subject to the Extraordinary Assumption as described herein. We were provided with copies of leases and an operating history for the subject property. Information relative to the subject site and improvements was obtained from said sources, our physical inspections, discussions with the property owner, and public records (i.e., property record cards, plat maps). All information obtained from said sources that could not be independently verified, is assumed accurate.

The subject site consists of a rectangular, corner land parcel (occupying two corners) having a gross area of approximately 38,016 square feet (sf). The subject site is improved with two, masonry-constructed, 20 year-old buildings: a two-story, multi-tenant office building with an above-grade rentable area of 19,451 sf (the partially finished lower-level space is not included in the stated rentable area); and a one-story, single-tenant bank branch building with a total rentable area of 4,839 sf, inclusive of 1,347 sf of lower-level space.

The purpose of this valuation is to estimate the use value of the leased fee interest in the subject property as of February 17, 2023. Our leased fee use value estimate is subject to the Extraordinary Assumption as described herein. All use value estimates reported herein are based upon the Definition of Use Value contained in *The Appraisal of Real Estate*, 14th Edition. The intended use of this appraisal is for asset valuation purposes for financial reporting. The intended user of this appraisal report is our client, Ridge Capital Management LLC.

Mr. Adams
February 22, 2023
Page Two

The scope of our assignment was to provide an Appraisal Report using acceptable appraisal methods and techniques pertinent to the valuation of the defined property interests. The data considered was obtained from sources deemed reliable (e.g., the property owner, management, real estate brokers, public records, published sources) and was independently obtained and verified whenever possible. For further information about the scope of the assignment, see the "Scope of Appraisal" section herein.

Based upon our analysis, it is our opinion that the use value of the leased fee interest in the subject property, as of February 17, 2023, subject to the assumptions and limiting conditions, and the Extraordinary Assumption, contained herein, is:

TWELVE MILLION SEVENTY THOUSAND DOLLARS **\$12,070,000**

This report has been performed in accordance with Standards Rule 2-2(a) of the Uniform Standards of Professional Appraisal Practice (USPAP). Furthermore, this report was prepared in conformity with the requirements of the Code of Ethics and Standards of Professional Practice of the Appraisal Institute.

Respectfully submitted,

This table presents the estimated monthly interest and dividend income and return of principal that your current holdings may generate over the next rolling 12 months. The cash flows displayed are estimates provided for informational purposes only and there is no guarantee that you will actually receive any of the amounts displayed. These estimates should not be relied upon for making investment, trading or tax decisions. The estimates for fixed income are calculated using the security's coupon rate. The estimates for all other securities are calculated using an indicated annual dividend (IAD). The IAD is an estimate of a security's dividend payments for the next 12 months calculated based on prior and/or declared dividends for that security. IADs are sourced from third party vendors believed to be reliable, but no assurance can be made as to accuracy. There are circumstances in which these estimates will not be presented for a specific security you hold.

Bond & CD Income includes interest payments for fixed and variable rate bonds, international bonds that pay in USD, and Certificates of Deposit (CDs).

Bond & CD Principal includes maturing principal payments for fixed and variable rate bonds, international bonds that pay in USD, and Certificates of Deposit (CDs).

Stock Income includes estimated dividend payments for common stocks, preferred stocks, ADRs, closed-end mutual funds, and MLPs.

ETP Income includes estimated dividend payments for Exchange Traded Funds (ETFs) and Exchange Traded Notes (ETNs).

Mutual Fund Income includes estimated dividend payments for Fidelity and non-Fidelity mutual funds.

Other Income includes, but is not limited to estimated dividend payments for Unit Investment Trusts (UITs), REITs, and LPs.

This table does not include cash flow from foreign denominated fixed income.

EAI Estimated Annual Income (EAI) & Estimated Yield (EY)- EAI is an estimate of annual income for a specific security position over the next rolling 12 months. EAI may be negative on short & EY positions. EY is calculated by dividing the current EAI for a security position by its statement closing date market value. EAI and EY are estimates only and may include return of principal and/or capital gains, which would render them overstated. Actual income and yield might be lower or higher than the estimated amounts. **For calculation details, refer to the "Additional Information and Endnotes" section.**

- National Financial Services LLC ("NFS") an affiliate of Fidelity Brokerage Services LLC (FBS) provides custody and clearing services on behalf of FBS. In that capacity, NFS is required to provide you with written notice on the manner in which you may gain website access to information regarding NFS' Impartial Callable Securities Lottery Process (the "Lottery Process").

We are also providing you with the following description of the Lottery Process: When street name or bearer securities held for you are subject to a partial call or partial redemption by the issuer, National Financial Services LLC (NFS) may or may not receive an allocation of called/redeemed securities by the issuer, transfer agent, and/or depository. If NFS is allocated a portion of the called/redeemed securities, NFS utilizes an impartial lottery allocation system, in accordance with applicable rules, that randomly selects the securities within customer accounts that will be called/redeemed. NFS' allocations are not made on a pro rata basis and it is possible for you to receive a full or partial allocation, or no allocation.

A more detailed description of the Lottery Process may be accessed by visiting [Fidelity.com/callable-securities](https://fidelity.com/callable-securities). Estimated Annual Income (EAI) & Estimated Yield (EY) - EAI for fixed income is calculated using the coupon rate. For all other securities, EAI is calculated using an indicated annual dividend (IAD). The IAD is an estimate of a security's dividend payments for the next 12 months calculated based on prior and/or declared dividends for that security. EY reflects only the income generated by an investment and not changes in its price which may fluctuate. Interest and dividend rates are subject to change at any time and may be affected by current and future economic, political and business conditions. EAI and EY are provided for informational purposes only and should not be used or relied on for making investment, trading or tax decisions. EAI and EY are based on data obtained from information providers believed to be reliable, but no assurance can be made as to accuracy, timeliness or completeness.

If you have a question about your account or require service, please call your investment advisor/authorized agent.

Lost or Stolen Cards - For Fidelity® Debit Card, call 800-323-5353. For details refer to your Fidelity Check Card Agreement and Disclosure Statement.

Additional Investments with Fidelity - Please make all checks payable to Fidelity Brokerage Services LLC (FBS). Please include your account number on the check. Do not include trading instructions with check deposits. We mail statements at least quarterly for any account with a balance. Please review your statement and report any inaccuracies or discrepancies immediately. Questions regarding your brokerage account or the activity therein should be directed to FBS at 800-544-6666, and National Financial Services LLC ("NFS"), who carries your brokerage accounts, at 866-408-1138. Any oral communications regarding inaccuracies or discrepancies should be reconfirmed in writing to protect your rights, including those under the Securities Investor Protection Act ("SIPA"). Please contact Fidelity or your authorized agent promptly of any material changes in your investment objectives or financial situation related to your brokerage account(s). If you request a reprint of your statement, the disclosure information may not be the same as the original.

Terms and Conditions of the Statement - Other than with respect to Fidelity-advised products and services, Fidelity does not endorse or recommend any particular investment, trading activity, or investment advisor/authorized agent, or have any responsibility for and will not review, monitor or supervise suitability of trading by any investment advisor/authorized agent. Fidelity has not verified the content of any logo or artwork on this statement identifying a firm other than Fidelity. The firm represented by such a logo or artwork is not an agent of or affiliated with Fidelity.

Changes in Portfolio Value and Account Summary - Shows activity in your portfolio and in each of your accounts for the statement period. To confirm that an authorized, direct deposit was made to your Fidelity Account, call Fidelity at 1-800-544-5555.

Value by Account - Shows the value of your account(s) for the current and previous statement periods.

Income Summary - Shows income by tax status for the statement and year-to-date periods. Except for interest earned on, or distributed by, tax-exempt securities, Fidelity reports dividends and capital gains held in taxable accounts as taxable income. A portion of this tax-exempt income may be subject to state and local taxes and the federal alternative minimum tax. Fidelity reports earnings on investments in Traditional IRAs, Rollover IRAs, SEP-IRAs and Keoghs as tax-deferred income. Earnings on Roth-IRAs are reported as tax-exempt income, since distributions may be tax-exempt after meeting the five-year aging requirement and certain other conditions.

Cost Basis, Gain/Loss, and Holding Period Information - NFS is required to report certain cost basis and holding period information to the IRS on Form 1099-B. Unless otherwise specified, NFS applies the average cost method for open-end mutual funds and the first-in, first-out (FIFO) method for all other securities. Cost basis is adjusted for wash sales on securities with the same CUSIP held in the same account (unless your account receives mark-to-market reporting). Your statement may not reflect all adjustments required for tax purposes. Customers should consult their tax advisors for further information.

Cost - Fidelity provides purchase cost information for securities held in retirement accounts. Such information may be adjusted for certain transactions and does not reflect reinvestments of dividends or capital gains. Fidelity reports transaction profit or loss information when securities are sold within a retirement account. Transaction profit or loss is calculated by subtracting purchase cost from sales proceeds using the FIFO method if shares were purchased at different times or prices.

Contributions/Distributions - Summarizes Traditional IRA and Roth IRA contributions, and taxable and non-taxable retirement distributions for these statement and year-to-date periods.

Total Value - The reported market value of an investment at the beginning or end of a statement period.

Unrealized Gain/Loss - For long positions, ending market value minus cost basis in non-retirement accounts and ending market value minus cost basis in retirement accounts. For short positions, proceeds minus ending market value. Unrealized gain/loss is calculated for pending sales because they are still in holdings. Unrealized gain/loss is not calculated for pending purchases because they are not in holdings.

Holding Type Percentage - Percentages by holding type only include long positions. Holding type percentages are rounded to the nearest percent and summed. If the sum is less than 100%, the difference between 100% and the sum is added to the holding type with the largest percentage.

Account Protection - Securities in accounts carried by NFS, a Fidelity Investments company, are protected in accordance with the Securities Investor Protection Corporation (SIPC) up to \$500,000 (including cash claims limited to \$250,000). For more information, including the SIPC brochure, please see www.sipc.org or call 1-202-371-8300. NFS has arranged for additional protection for cash and covered securities to supplement its SIPC coverage. Neither coverage protects against a decline in the market value of securities. Mutual funds and/or other securities are not backed or guaranteed by any bank, nor are they insured by the FDIC and involve investment risk including possible loss of principal. Bank deposits are not securities and are not covered by SIPC. Funds used to purchase or sweep to a bank deposit are SIPC protected until deposited to a Program Bank at which time funds may be eligible for FDIC insurance.

Information About Mutual Funds and Their Performance - Before investing consider the fund's or insurance product's investment objectives, risks, charges and expenses. Contact Fidelity or visit Fidelity.com for a prospectus containing this information. Read it carefully before investing.

Performance data shown represents past performance, and is no guarantee of future results. Investment return and principal value will fluctuate, so you may have a loss or a gain when shares are sold. Current performance may be higher or lower than that quoted. Visit Fidelity.com/performance for most recent month-end performance. Each fund reserves the right to terminate or modify its exchange privilege. Foreign investment, especially those in emerging markets, may involve greater risks than U.S. investments. **Sales Loads and Fees**. In connection with (i) access to, purchase, sale, exchange or redemption of, and/or maintenance of positions in mutual funds, ETFs and other investment products such as alternative investments or private placements ("funds") or (ii) infrastructure needed to support such funds, some funds, or

their investment affiliates, pay FBS and/or NFS sales loads and 12b-1 fees described in the Offering Materials as well as additional compensation for shareholder services, start-up fees, platform support and maintenance, and marketing, engagement and analytics programs. Additional information about the source(s) and amount(s) of compensation as well as other remuneration received by FBS or NFS will be furnished to you upon written request. At the time you purchase shares of funds those shares will be assigned either a load, transaction fee (TF) or no transaction fee (NTF) status. When you subsequently sell those shares, any fees applicable to your transaction will be assessed based on the status assigned to the shares at the time of purchase.

Customer Free Credit Balance - Free credit balances (FCB) are funds payable to you on demand. FCB are subject to open commitments such as uncleared checks and exclude proceeds from sales of certificated securities without delivery of the certificate. If your FCB is swept to a core position, you can liquidate the core position and have the proceeds sent to you or held in your account subject to the terms of your account agreement. Required rule 10b-10(a) information not contained herein will be provided on written request. Fidelity may use this free credit balance in connection with its business, subject to applicable law.

Assets Separate From Your Brokerage Account - Only securities in the margin portion of your brokerage account contribute to margin and maintenance requirements. Other Assets, that may be reported on your statement, maintained with Fidelity Investments Life Insurance Company and mutual fund only accounts held directly with the fund (Fidelity Mutual Fund Accounts) are not carried by NFS, not covered by the Securities Investor Protection Corporation (SIPC) and do not count toward your margin and maintenance requirements. Assets held in brokerage accounts managed by Fidelity Personal and Workplace Advisors LLC (FPWA) are carried by NFS and covered by SIPC but do not contribute to your margin and maintenance requirements.

Short Account Balances - Securities sold short are held in a segregated short account. These securities are marked-to-market for margin purposes and increase or decrease from the short sale price is transferred weekly to your margin account. Your short account balance is shown as of the last weekly mark-to-market, not statement end date.

Information About Your Option Transactions - Each transaction confirmation previously delivered to you contains full information about commissions and other charges, and such information is available promptly upon request. Assignments of American and European-style options are allocated among customer short positions pursuant to a random allocation procedure, a description is available upon request. Short positions in American-style options are liable for assignment anytime. The writer of a European-style option is subject to exercise assignment only during the exercise period. For more information about these, please call Fidelity at 800-544-6666.

Equity Dividend Reinvestment - Shares credited to your account resulted from transactions by FBS acting as agent for your account, or the Depository Trust Company (DTC).

Price Information/Total Market Value - The Total Market Value has been calculated to 9 decimal places but the individual unit price is displayed in 5 decimal places. The Total Market Value represents prices obtained from various sources, may be impacted by the frequency with which such prices are reported and such prices are not guaranteed. Prices received from pricing vendors are generally based on current market quotes, but when such quotes are not available pricing vendors use a variety of techniques to estimate value. These estimates, particularly for fixed income securities, may be based on certain minimum principal amounts (e.g. \$1 million) and may not reflect all factors that affect the value of the security, including liquidity risk. In certain situations, a price may be derived from a single broker quote. The prices provided are not firm bids or offers. Certain securities may reflect as "N/A" or "unavailable" where the price for such security is generally not available from a pricing source. The Market Value of a security, including those priced at par value, may differ from its purchase price and may not closely reflect the value at which the security may be sold or purchased based on various market factors. The sale or redemption of any fixed income security prior to maturity may result in a loss. Prices for Certificates of Deposit (CDs) are generally estimates and are not based on actual market prices. The secondary market for CDs is generally illiquid. You should always request a current valuation for your securities prior to making a financial decision or placing an order. In executing orders on the Floor, the Floor broker may permit the Designated Market Maker to trade on parity with the order for some or all of the executions associated with filling that order, where such permission would not be inconsistent with the brokers best execution obligations.

Fidelity Investments - Fidelity Distributors Company LLC (FDC) is the distributor for Fidelity Funds with marketing and shareholder services provided by FBS or NFS. Brokerage services are provided by FBS, which clears all transactions through its affiliate NFS. NFS carries all brokerage accounts. FBS and NFS are members of the NYSE and SIPC. Upon written request, Fidelity will mail a NFS financial statement, which is also available at its office. Fidelity Investments (with pyramid logo) is a trademark of FMR LLC. Insurance products are distributed by FBS, Fidelity Insurance Agency, Inc., and Fidelity Investments Insurance Agency of Texas, Inc. **FPWA Services** - Fidelity Go®, Fidelity Managed Fidelity® and Fidelity® Strategic Disciplines are advisory services offered by FPWA, a registered investment adviser. Fidelity® Strategic Disciplines includes the Breckinridge Intermediate Municipal Strategy, the Fidelity® Equity-Income Strategy, the Fidelity® U.S. Large Cap Equity Strategy, the Fidelity® Tax-Managed U.S. Equity Index Strategy, the Fidelity® International Equity Strategy, the Fidelity® Tax-Managed International Equity Index Strategy, the Fidelity® Intermediate Municipal Strategy and the Fidelity® Core Bond Strategy. Fidelity® Wealth Services are advisory services offered by FPWA or Fidelity Personal Trust Company, FSB (FPTC), a federal savings bank. Nondeposit investment products and trust services offered by FPTC and its affiliates are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency, are not obligations of any bank, and are subject to risk, including possible loss of principal. **These advisory services are provided for a fee.** FBS, NFS, FDC, FPWA and FPTC are direct or indirect subsidiaries of FMR LLC.

ASSET DETAIL MESSAGES

Time of trade execution and trading party (if not disclosed) will be provided upon request.

Publicly traded assets are valued in accordance with market quotations or valuation methodologies from financial industry services believed by us to be reliable. Assets that are not publicly traded may be reflected at values from other external sources. Assets for which a current value is not available may be reflected at a previous value or as not valued, at par value, or at a nominal value. Values shown do not necessarily reflect prices at which assets could be bought or sold. Values are updated based on internal policy and may be updated less frequently than statement generation.

For further information, please contact your account manager or relationship manager.

We provide a cash management administrative service for the temporary investment of principal and income balances in your account. The fee for providing this service will not exceed \$0.42 per month for each \$1,000 of the average daily balance invested under the cash management administrative service. The charge for this service has been deducted from your account.

Yield on Market and Accrued Income are estimates provided for informational purposes only and should not be relied on for making investment, trading, or tax decisions. The estimates may not represent the actual value earned by your investments and they provide no guarantee of what your investments may earn in the future.

The asset categories used in this statement may be general in nature. For example, assets listed under the "Mutual Funds" category may include open-end investment companies registered under the Investment Company Act of 1940 (which are commonly known as "mutual funds") but may also include closed-end investment companies, unit investment trusts, common trust funds, collective trust funds or other investments that are registered with (or not subject to registration with) the Securities and Exchange Commission.

Glossary

Accretion - The accumulation of the value of a discounted bond until maturity.

Adjusted Prior Market Realized Gain/Loss - The difference between the proceeds and the Prior Market Value of the transaction.

Adjusted Prior Market Unrealized Gain/Loss - The difference between the Market Value and the Adjusted Prior Market Value.

Adjusted Prior Market Value - A figure calculated using the beginning Market Value for the fiscal year, adjusted for all asset related transactions during the period, employing an average cost methodology.

Amortization - The decrease in value of a premium bond until maturity.

Asset - Anything owned that has commercial exchange value. Assets may consist of specific property or of claims against others, in contrast to obligations due to others (liabilities).

Bond Rating - A measurement of a bond's quality based upon the issuer's financial condition. Ratings are assigned by independent rating services, such as Moody's, or S&P, and reflect their opinion of the issuer's ability to meet the scheduled interest and principal repayments for the bond.

Cash - Cash activity that includes both income and principal cash categories.

Change in Unrealized Gain/Loss - Also reported as Gain/Loss in Period in the Asset Detail section. This figure shows the market appreciation (depreciation) for the current period.

Cost Basis (Book Value) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Book Value method maintains an average cost for each asset.

Cost Basis (Tax Basis) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Tax Basis uses client determined methods such as Last-In-First-Out (LIFO).

First-In-First-Out (FIFO), Average, Minimum Gain, and Maximum Gain.

Ending Accrual - (Also reported as Accrued Income) Income earned but not yet received, or expenses incurred but not yet paid, as of the end of the reporting period.

Estimated Annual Income - The amount of income a particular asset is anticipated to earn over the next year. The shares multiplied by annual income rate.

Estimated Current Yield - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by taking the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

Ex-Dividend Date - (Also reported as Ex-Date) For stock trades, the person who owns the security on the ex-dividend date will earn the dividend, regardless of who currently owns the stock.

Income Cash - A category of cash comprised of ordinary earnings derived from investments, usually dividends and interest.

Market Value - The price per unit multiplied by the number of units.

Maturity Date - The date on which an obligation or note matures.

Payable Date - The date on which a dividend, mutual fund distribution, or interest on a bond will be made.

Principal Cash - A category of cash comprised of cash, deposits, cash withdrawals and the cash flows generated from purchases or sales of investments.

Realized Gain/Loss Calculation - The Proceeds less the Cost Basis of a transaction.

Settlement Date - The date on which a trade settles and cash or securities are credited or debited to the account.

Trade Date - The date a trade is legally entered into.

Unrealized Gain/Loss - The difference between the Market Value and Cost Basis at the end of the current period.

Yield on/at Market - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

ASSET DETAIL MESSAGES

Time of trade execution and trading party (if not disclosed) will be provided upon request.

Publicly traded assets are valued in accordance with market quotations or valuation methodologies from financial industry services believed by us to be reliable. Assets that are not publicly traded may be reflected at values from other external sources. Assets for which a current value is not available may be reflected at a previous value or as not valued, at par value, or at a nominal value. Values shown do not necessarily reflect prices at which assets could be bought or sold. Values are updated based on internal policy and may be updated less frequently than statement generation.

For further information, please contact your account manager or relationship manager.

Yield on Market and Accrued Income are estimates provided for informational purposes only and should not be relied on for making investment, trading, or tax decisions. The estimates may not represent the actual value earned by your investments and they provide no guarantee of what your investments may earn in the future.

The asset categories used in this statement may be general in nature. For example, assets listed under the "Mutual Funds" category may include open-end investment companies registered under the Investment Company Act of 1940 (which are commonly known as "mutual funds") but may also include closed-end investment companies, unit investment trusts, common trust funds, collective trust funds or other investments that are registered with (or not subject to registration with) the Securities and Exchange Commission.

Glossary

Accretion - The accumulation of the value of a discounted bond until maturity.

Adjusted Prior Market Realized Gain/Loss - The difference between the proceeds and the Prior Market Value of the transaction.

Adjusted Prior Market Unrealized Gain/Loss - The difference between the Market Value and the Adjusted Prior Market Value.

Adjusted Prior Market Value - A figure calculated using the beginning Market Value for the fiscal year, adjusted for all asset related transactions during the period, employing an average cost methodology.

Amortization - The decrease in value of a premium bond until maturity.

Asset - Anything owned that has commercial exchange value. Assets may consist of specific property or of claims against others, in contrast to obligations due to others (liabilities).

Bond Rating - A measurement of a bond's quality based upon the issuer's financial condition. Ratings are assigned by independent rating services, such as Moody's, or S&P, and reflect their opinion of the issuer's ability to meet the scheduled interest and principal repayments for the bond.

Cash - Cash activity that includes both income and principal cash categories.

Change in Unrealized Gain/Loss - Also reported as Gain/Loss in Period in the Asset Detail section. This figure shows the market appreciation (depreciation) for the current period.

Cost Basis (Book Value) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Book Value method maintains an average cost for each asset.

Cost Basis (Tax Basis) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Tax Basis uses client determined methods such as Last-In-First-Out (LIFO).

First-In-First-Out (FIFO), Average, Minimum Gain, and Maximum Gain.

Ending Accrual - (Also reported as Accrued Income) Income earned but not yet received, or expenses incurred but not yet paid, as of the end of the reporting period.

Estimated Annual Income - The amount of income a particular asset is anticipated to earn over the next year. The shares multiplied by annual income rate.

Estimated Current Yield - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by taking the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

Ex-Dividend Date - (Also reported as Ex-Date) For stock trades, the person who owns the security on the ex-dividend date will earn the dividend, regardless of who currently owns the stock.

Income Cash - A category of cash comprised of ordinary earnings derived from investments, usually dividends and interest.

Market Value - The price per unit multiplied by the number of units.

Maturity Date - The date on which an obligation or note matures.

Payable Date - The date on which a dividend, mutual fund distribution, or interest on a bond will be made.

Principal Cash - A category of cash comprised of cash, deposits, cash withdrawals and the cash flows generated from purchases or sales of investments.

Realized Gain/Loss Calculation - The Proceeds less the Cost Basis of a transaction.

Settlement Date - The date on which a trade settles and cash or securities are credited or debited to the account.

Trade Date - The date a trade is legally entered into.

Unrealized Gain/Loss - The difference between the Market Value and Cost Basis at the end of the current period.

Yield on/at Market - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

Publicly traded assets are valued in accordance with market quotations or valuation methodologies from financial industry services believed by us to be reliable. Assets that are not publicly traded may be reflected at values from other external sources. Assets for which a current value is not available may be reflected at a previous value or as not valued, at par value, or at a nominal value. Values shown do not necessarily reflect prices at which assets could be bought or sold. Values are updated based on internal policy and may be updated less frequently than statement generation.

For further information, please contact your account manager or relationship manager.

We provide a cash management administrative service for the temporary investment of principal and income balances in your account. The fee for providing this service will not exceed \$0.42 per month for each \$1,000 of the average daily balance invested under the cash management administrative service. The charge for this service has been deducted from your account.

Yield on Market and Accrued Income are estimates provided for informational purposes only and should not be relied on for making investment, trading, or tax decisions. The estimates may not represent the actual value earned by your investments and they provide no guarantee of what your investments may earn in the future.

*** This asset is held or controlled by the customer or by a third party on behalf of the customer, and is reported for customer recordkeeping purposes only. U.S. Bank does not have actual custody or control of this asset. With the exception of most marketable securities, the description of the asset and its price (or value) may have been provided to U.S. Bank by the customer or a third party and should not be relied upon for any purpose.

The asset categories used in this statement may be general in nature. For example, assets listed under the "Mutual Funds" category may include open-end investment companies registered under the Investment Company Act of 1940 (which are commonly known as "mutual funds") but may also include closed-end investment companies, unit investment trusts, common trust funds, collective trust funds or other investments that are registered with (or not subject to registration with) the Securities and Exchange Commission.

Glossary

Accretion - The accumulation of the value of a discounted bond until maturity.

Adjusted Prior Market Realized Gain/Loss - The difference between the proceeds and the Prior Market Value of the transaction.

Adjusted Prior Market Unrealized Gain/Loss - The difference between the Market Value and the Adjusted Prior Market Value.

Adjusted Prior Market Value - A figure calculated using the beginning Market Value for the fiscal year, adjusted for all asset related transactions during the period, employing an average cost methodology.

Amortization - The decrease in value of a premium bond until maturity.

Asset - Anything owned that has commercial exchange value. Assets may consist of specific property or of claims against others, in contrast to obligations due to others (liabilities).

Bond Rating - A measurement of a bond's quality based upon the issuer's financial condition. Ratings are assigned by independent rating services, such as Moody's, or S&P, and reflect their opinion of the issuer's ability to meet the scheduled interest and principal repayments for the bond.

Cash - Cash activity that includes both income and principal cash categories.

Change in Unrealized Gain/Loss - Also reported as Gain/Loss in Period in the Asset Detail section. This figure shows the market appreciation (depreciation) for the current period.

Cost Basis (Book Value) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Book Value method maintains an average cost for each asset.

Cost Basis (Tax Basis) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Tax Basis uses client determined methods such as Last-In-First-Out (LIFO), First-In-First-Out (FIFO), Average, Minimum Gain, and Maximum Gain.

Ending Accrual - (Also reported as Accrued Income) Income earned but not yet received, or expenses incurred but not yet paid, as of the end of the reporting period.

Estimated Annual Income - The amount of income a particular asset is anticipated to earn over the next year. The shares multiplied by annual income rate.

Estimated Current Yield - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by taking the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

Ex-Dividend Date - (Also reported as Ex-Date) For stock trades, the person who owns the security on the ex-dividend date will earn the dividend, regardless of who currently owns the stock.

Income Cash - A category of cash comprised of ordinary earnings derived from investments, usually dividends and interest.

Market Value - The price per unit multiplied by the number of units.

Maturity Date - The date on which an obligation or note matures.

Payable Date - The date on which a dividend, mutual fund distribution, or interest on a bond will be made.

Principal Cash - A category of cash comprised of cash, deposits, cash withdrawals and the cash flows generated from purchases or sales of investments.

Realized Gain/Loss Calculation - The Proceeds less the Cost Basis of a transaction.

Settlement Date - The date on which a trade settles and cash or securities are credited or debited to the account.

Trade Date - The date a trade is legally entered into.

Unrealized Gain/Loss - The difference between the Market Value and Cost Basis at the end of the current period.

Yield on/at Market - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

ASSET DETAIL MESSAGES

Time of trade execution and trading party (if not disclosed) will be provided upon request.

Publicly traded assets are valued in accordance with market quotations or valuation methodologies from financial industry services believed by us to be reliable. Assets that are not publicly traded may be reflected at values from other external sources. Assets for which a current value is not available may be reflected at a previous value or as not valued, at par value, or at a nominal value. Values shown do not necessarily reflect prices at which assets could be bought or sold. Values are updated based on internal policy and may be updated less frequently than statement generation.

For further information, please contact your account manager or relationship manager.

We provide a cash management administrative service for the temporary investment of principal and income balances in your account. The fee for providing this service will not exceed \$0.42 per month for each \$1,000 of the average daily balance invested under the cash management administrative service. The charge for this service has been deducted from your account.

Yield on Market and Accrued Income are estimates provided for informational purposes only and should not be relied on for making investment, trading, or tax decisions. The estimates may not represent the actual value earned by your investments and they provide no guarantee of what your investments may earn in the future.

The asset categories used in this statement may be general in nature. For example, assets listed under the "Mutual Funds" category may include open-end investment companies registered under the Investment Company Act of 1940 (which are commonly known as "mutual funds") but may also include closed-end investment companies, unit investment trusts, common trust funds, collective trust funds or other investments that are registered with (or not subject to registration with) the Securities and Exchange Commission.

Glossary

Accretion - The accumulation of the value of a discounted bond until maturity.

Adjusted Prior Market Realized Gain/Loss - The difference between the proceeds and the Prior Market Value of the transaction.

Adjusted Prior Market Unrealized Gain/Loss - The difference between the Market Value and the Adjusted Prior Market Value.

Adjusted Prior Market Value - A figure calculated using the beginning Market Value for the fiscal year, adjusted for all asset related transactions during the period, employing an average cost methodology.

Amortization - The decrease in value of a premium bond until maturity.

Asset - Anything owned that has commercial exchange value. Assets may consist of specific property or of claims against others, in contrast to obligations due to others (liabilities).

Bond Rating - A measurement of a bond's quality based upon the issuer's financial condition. Ratings are assigned by independent rating services, such as Moody's, or S&P, and reflect their opinion of the issuer's ability to meet the scheduled interest and principal repayments for the bond.

Cash - Cash activity that includes both income and principal cash categories.

Change in Unrealized Gain/Loss - Also reported as Gain/Loss in Period in the Asset Detail section. This figure shows the market appreciation (depreciation) for the current period.

Cost Basis (Book Value) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Book Value method maintains an average cost for each asset.

Cost Basis (Tax Basis) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Tax Basis uses client determined methods such as Last-In-First-Out (LIFO), First-In-First-Out (FIFO), Average, Minimum Gain, and Maximum Gain.

Ending Accrual - (Also reported as Accrued Income) Income earned but not yet received, or expenses incurred but not yet paid, as of the end of the reporting period.

Estimated Annual Income - The amount of income a particular asset is anticipated to earn over the next year. The shares multiplied by annual income rate.

Estimated Current Yield - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by taking the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

Ex-Dividend Date - (Also reported as Ex-Date) For stock trades, the person who owns the security on the ex-dividend date will earn the dividend, regardless of who currently owns the stock.

Income Cash - A category of cash comprised of ordinary earnings derived from investments, usually dividends and interest.

Market Value - The price per unit multiplied by the number of units.

Maturity Date - The date on which an obligation or note matures.

Payable Date - The date on which a dividend, mutual fund distribution, or interest on a bond will be made.

Principal Cash - A category of cash comprised of cash, deposits, cash withdrawals and the cash flows generated from purchases or sales of investments.

Realized Gain/Loss Calculation - The Proceeds less the Cost Basis of a transaction.

Settlement Date - The date on which a trade settles and cash or securities are credited or debited to the account.

Trade Date - The date a trade is legally entered into.

Unrealized Gain/Loss - The difference between the Market Value and Cost Basis at the end of the current period.

Yield on/at Market - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

Bond Rating - A measurement of a bond's quality based upon the issuer's financial condition. Ratings are assigned by independent rating services, such as Moody's, or S&P, and reflect their opinion of the issuer's ability to meet the scheduled interest and principal repayments for the bond.

Cash - Cash activity that includes both income and principal cash categories.

Change in Unrealized Gain/Loss - Also reported as Gain/Loss in Period in the Asset Detail section. This figure shows the market appreciation (depreciation) for the current period.

Cost Basis (Book Value) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Book Value method maintains an average cost for each asset.

Cost Basis (Tax Basis) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Tax Basis uses client determined methods such as Last-In-First-Out (LIFO), First-In-First-Out (FIFO), Average, Minimum Gain, and Maximum Gain.

Ending Accrual - (Also reported as Accrued Income) Income earned but not yet received, or expenses incurred but not yet paid, as of the end of the reporting period.

Estimated Annual Income - The amount of income a particular asset is anticipated to earn over the next year. The shares multiplied by annual income rate.

Estimated Current Yield - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by taking the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

Ex-Dividend Date - (Also reported as Ex-Date) For stock trades, the person who owns the security on the ex-dividend date will earn the dividend, regardless of who currently owns the stock.

Income Cash - A category of cash comprised of ordinary earnings derived from investments, usually dividends and interest.

Market Value - The price per unit multiplied by the number of units.

Maturity Date - The date on which an obligation or note matures.

Payable Date - The date on which a dividend, mutual fund distribution, or interest on a bond will be made.

Principal Cash - A category of cash comprised of cash, deposits, cash withdrawals and the cash flows generated from purchases or sales of investments.

Realized Gain/Loss Calculation - The Proceeds less the Cost Basis of a transaction.

Settlement Date - The date on which a trade settles and cash or securities are credited or debited to the account.

Trade Date - The date a trade is legally entered into.

Unrealized Gain/Loss - The difference between the Market Value and Cost Basis at the end of the current period.

Yield on/at Market - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

ASSET DETAIL MESSAGES

Time of trade execution and trading party (if not disclosed) will be provided upon request.

Publicly traded assets are valued in accordance with market quotations or valuation methodologies from financial industry services believed by us to be reliable. Assets that are not publicly traded may be reflected at values from other external sources. Assets for which a current value is not available may be reflected at a previous value or as not valued, at par value, or at a nominal value. Values shown do not necessarily reflect prices at which assets could be bought or sold. Values are updated based on internal policy and may be updated less frequently than statement generation.

ASSET DETAIL MESSAGES

Time of trade execution and trading party (if not disclosed) will be provided upon request.

Publicly traded assets are valued in accordance with market quotations or valuation methodologies from financial industry services believed by us to be reliable. Assets that are not publicly traded may be reflected at values from other external sources. Assets for which a current value is not available may be reflected at a previous value or as not valued, at par value, or at a nominal value. Values shown do not necessarily reflect prices at which assets could be bought or sold. Values are updated based on internal policy and may be updated less frequently than statement generation.

For further information, please contact your account manager or relationship manager.

Yield on Market and Accrued Income are estimates provided for informational purposes only and should not be relied on for making investment, trading, or tax decisions. The estimates may not represent the actual value earned by your investments and they provide no guarantee of what your investments may earn in the future.

Glossary

Accretion - The accumulation of the value of a discounted bond until maturity.

Adjusted Prior Market Realized Gain/Loss - The difference between the proceeds and the Prior Market Value of the transaction.

Adjusted Prior Market Unrealized Gain/Loss - The difference between the Market Value and the Adjusted Prior Market Value.

Adjusted Prior Market Value - A figure calculated using the beginning Market Value for the fiscal year, adjusted for all asset related transactions during the period, employing an average cost methodology.

Amortization - The decrease in value of a premium bond until maturity.

Asset - Anything owned that has commercial exchange value. Assets may consist of specific property or of claims against others, in contrast to obligations due to others (liabilities).

Bond Rating - A measurement of a bond's quality based upon the issuer's financial condition. Ratings are assigned by independent rating services, such as Moody's, or S&P, and reflect their opinion of the issuer's ability to meet the scheduled interest and principal repayments for the bond.

Cash - Cash activity that includes both income and principal cash categories.

Change in Unrealized Gain/Loss - Also reported as Gain/Loss in Period in the Asset Detail section. This figure shows the market appreciation (depreciation) for the current period.

Cost Basis (Book Value) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Book Value method maintains an average cost for each asset.

Cost Basis (Tax Basis) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Tax Basis uses client determined methods such as Last-In-First-Out (LIFO), First-In-First-Out (FIFO), Average, Minimum Gain, and Maximum Gain.

Ending Accrual - (Also reported as Accrued Income) Income earned but not yet received, or expenses incurred but not yet paid, as of the end of the reporting period.

Estimated Annual Income - The amount of income a particular asset is anticipated to earn over the next year. The shares multiplied by annual income rate.

Estimated Current Yield - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by taking the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

Ex-Dividend Date - (Also reported as Ex-Date) For stock trades, the person who owns the security on the ex-dividend date will earn the dividend, regardless of who currently owns the stock.

Income Cash - A category of cash comprised of ordinary earnings derived from investments, usually dividends and interest.

Market Value - The price per unit multiplied by the number of units.

Maturity Date - The date on which an obligation or note matures.

Payable Date - The date on which a dividend, mutual fund distribution, or interest on a bond will be made.

Principal Cash - A category of cash comprised of cash, deposits, cash withdrawals and the cash flows generated from purchases or sales of investments.

Realized Gain/Loss Calculation - The Proceeds less the Cost Basis of a transaction.

Settlement Date - The date on which a trade settles and cash or securities are credited or debited to the account.

Trade Date - The date a trade is legally entered into.

Unrealized Gain/Loss - The difference between the Market Value and Cost Basis at the end of the current period.

Yield on/at Market - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

ASSET DETAIL MESSAGES

Time of trade execution and trading party (if not disclosed) will be provided upon request.

Publicly traded assets are valued in accordance with market quotations or valuation methodologies from financial industry services believed by us to be reliable. Assets that are not publicly traded may be reflected at values from other external sources. Assets for which a current value is not available may be reflected at a previous value or as not valued, at par value, or at a nominal value. Values shown do not necessarily reflect prices at which assets could be bought or sold. Values are updated based on internal policy and may be updated less frequently than statement generation.

For further information, please contact your account manager or relationship manager.

Yield on Market and Accrued Income are estimates provided for informational purposes only and should not be relied on for making investment, trading, or tax decisions. The estimates may not represent the actual value earned by your investments and they provide no guarantee of what your investments may earn in the future.

Glossary

Accretion - The accumulation of the value of a discounted bond until maturity.

Adjusted Prior Market Realized Gain/Loss - The difference between the proceeds and the Prior Market Value of the transaction.

Adjusted Prior Market Unrealized Gain/Loss - The difference between the Market Value and the Adjusted Prior Market Value.

Adjusted Prior Market Value - A figure calculated using the beginning Market Value for the fiscal year, adjusted for all asset related transactions during the period, employing an average cost methodology.

Amortization - The decrease in value of a premium bond until maturity.

Asset - Anything owned that has commercial exchange value. Assets may consist of specific property or of claims against others, in contrast to obligations due to others (liabilities).

Bond Rating - A measurement of a bond's quality based upon the issuer's financial condition. Ratings are assigned by independent rating services, such as Moody's, or S&P, and reflect their opinion of the issuer's ability to meet the scheduled interest and principal repayments for the bond.

Cash - Cash activity that includes both income and principal cash categories.

Change in Unrealized Gain/Loss - Also reported as Gain/Loss in Period in the Asset Detail section. This figure shows the market appreciation (depreciation) for the current period.

Cost Basis (Book Value) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Book Value method maintains an average cost for each asset.

Cost Basis (Tax Basis) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Tax Basis uses client determined methods such as Last-In-First-Out (LIFO), First-In-First-Out (FIFO), Average, Minimum Gain, and Maximum Gain.

Ending Accrual - (Also reported as Accrued Income) Income earned but not yet received, or expenses incurred but not yet paid, as of the end of the reporting period.

Estimated Annual Income - The amount of income a particular asset is anticipated to earn over the next year. The shares multiplied by annual income rate.

Estimated Current Yield - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by taking the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

Ex-Dividend Date - (Also reported as Ex-Date) For stock trades, the person who owns the security on the ex-dividend date will earn the dividend, regardless of who currently owns the stock.

Income Cash - A category of cash comprised of ordinary earnings derived from investments, usually dividends and interest.

Market Value - The price per unit multiplied by the number of units.

Maturity Date - The date on which an obligation or note matures.

Payable Date - The date on which a dividend, mutual fund distribution, or interest on a bond will be made.

Principal Cash - A category of cash comprised of cash, deposits, cash withdrawals and the cash flows generated from purchases or sales of investments.

Realized Gain/Loss Calculation - The Proceeds less the Cost Basis of a transaction.

Settlement Date - The date on which a trade settles and cash or securities are credited or debited to the account.

Trade Date - The date a trade is legally entered into.

Unrealized Gain/Loss - The difference between the Market Value and Cost Basis at the end of the current period.

Yield on/at Market - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

ASSET DETAIL MESSAGES

Time of trade execution and trading party (if not disclosed) will be provided upon request.

Publicly traded assets are valued in accordance with market quotations or valuation methodologies from financial industry services believed by us to be reliable. Assets that are not publicly traded may be reflected at values from other external sources. Assets for which a current value is not available may be reflected at a previous value or as not valued, at par value, or at a nominal value. Values shown do not necessarily reflect prices at which assets could be bought or sold. Values are updated based on internal policy and may be updated less frequently than statement generation.

Glossary

Accretion - The accumulation of the value of a discounted bond until maturity.

Adjusted Prior Market Realized Gain/Loss - The difference between the proceeds and the Prior Market Value of the transaction.

Adjusted Prior Market Unrealized Gain/Loss - The difference between the Market Value and the Adjusted Prior Market Value.

Adjusted Prior Market Value - A figure calculated using the beginning Market Value for the fiscal year, adjusted for all asset related transactions during the period, employing an average cost methodology.

Amortization - The decrease in value of a premium bond until maturity.

Asset - Anything owned that has commercial exchange value. Assets may consist of specific property or of claims against others, in contrast to obligations due to others (liabilities).

Bond Rating - A measurement of a bond's quality based upon the issuer's financial condition. Ratings are assigned by independent rating services, such as Moody's, or S&P, and reflect their opinion of the issuer's ability to meet the scheduled interest and principal repayments for the bond.

Cash - Cash activity that includes both income and principal cash categories.

Change in Unrealized Gain/Loss - Also reported as Gain/Loss in Period in the Asset Detail section. This figure shows the market appreciation (depreciation) for the current period.

Cost Basis (Book Value) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Book Value method maintains an average cost for each asset.

Cost Basis (Tax Basis) - The original price of an asset, normally the purchase price or appraised value at the time of acquisition. Tax Basis uses client determined methods such as Last-In-First-Out (LIFO), First-In-First-Out (FIFO), Average, Minimum Gain, and Maximum Gain.

Ending Accrual - (Also reported as Accrued Income) Income earned but not yet received, or expenses incurred but not yet paid, as of the end of the reporting period.

Estimated Annual Income - The amount of income a particular asset is anticipated to earn over the next year. The shares multiplied by annual income rate.

Estimated Current Yield - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by taking the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

Ex-Dividend Date - (Also reported as Ex-Date) For stock trades, the person who owns the security on the ex-dividend date will earn the dividend, regardless of who currently owns the stock.

Income Cash - A category of cash comprised of ordinary earnings derived from investments, usually dividends and interest.

Market Value - The price per unit multiplied by the number of units.

Maturity Date - The date on which an obligation or note matures.

Payable Date - The date on which a dividend, mutual fund distribution, or interest on a bond will be made.

Principal Cash - A category of cash comprised of cash, deposits, cash withdrawals and the cash flows generated from purchases or sales of investments.

Realized Gain/Loss Calculation - The Proceeds less the Cost Basis of a transaction.

Settlement Date - The date on which a trade settles and cash or securities are credited or debited to the account.

Trade Date - The date a trade is legally entered into.

Unrealized Gain/Loss - The difference between the Market Value and Cost Basis at the end of the current period.

Yield on/at Market - The annual rate of return on an investment expressed as a percentage. For stocks, yield is calculated by the annual dividend payments divided by the stock's current share price. For bonds, yield is calculated by the coupon rate divided by the bond's market price.

Statement Disclosures

Statement Review; Limitations on Actions

Please carefully review your statements and retain them for your records as they may contain notices, disclosures and other important information in addition to the summary of the transactions in your account for the reporting period, including contributions, distributions, transfers, and purchases and sales of securities. Summary data is also provided for off-setting investment option transfers or other transfers made between accounts.

Please report promptly any material inaccuracy or discrepancy in this information to your Relationship Manager. If revised data becomes available to Wilmington Trust after these reports are generated, we may update our records accordingly; however, revised data typically will not result in the generation of a new report.

Fee Arrangements

Wilmington Trust and its affiliates may earn additional compensation from uninvested cash in the form of earnings, which Wilmington Trust expects will be generated at the prevailing federal funds rate. Such earnings may be generated between the time the moneys are received by Wilmington Trust and actually forwarded to implement investment instructions, or between the time a distribution is issued and presented.

Affiliated Advisers

"Wilmington Trust" is a service mark encompassing the trust and investment business of Manufacturer's & Trader's Trust Company ("M&T Bank") in providing services to this account, and of some of M&T Bank's subsidiaries and affiliates, serving individual and institutional clients. Subsidiaries and affiliates include, but are not limited to, Wilmington Trust Company (operating in Delaware only); Wilmington Trust, N.A., a national association; and Wilmington Funds Management Corp., Wilmington Trust Investment Advisors, Inc., and other registered investment adviser affiliates. For additional information regarding the Wilmington Trust brand, underlying entities, and products and services offered, please visit our web site at www.wilmingtontrust.com.

Where permitted, Wilmington Trust, its affiliates and its sub-advisors may execute portfolio transactions with brokerage firms that provide proprietary and/or third-party research products and services, as well as trade execution. The brokerage firms providing such services may be paid commissions in excess of those another broker or dealer might charge for executing such transactions. We may execute such transactions resulting in receipt of brokerage and research services, notwithstanding that the particular account(s) involved may not be a beneficiary of such brokerage or research. Receipt of research services and products from brokers or dealers who execute client trades involves conflicts of interest for Wilmington Trust, its affiliates and its sub-advisors because they do not have to produce or pay for the research itself, and thus have an incentive to select or recommend a broker based on their interest in receiving such research.

Pricing and Valuation

Details of transaction charges and commissions are displayed on transaction confirmations, which have been mailed or made available separately to you. Wilmington Trust will also send you this information upon request. To the extent Wilmington Trust has custody of assets but no investment authority over your account, you have the right at any time to receive, at no additional cost to you, written confirmations of securities transactions that occur in your account. These confirmations will be mailed to you in the timeframe required by applicable regulations. Even if you previously waived your right to receive these confirmations, you may at any time ask to receive such confirmations going forward. Please contact your Relationship Manager if you wish to have written trade confirmations mailed to you.

The investment values and estimated income information reported herein reflect the securities in your account on a trade date basis as of the close of your statement period. Pricing may reflect market price quotations, closing price, mean bid / ask price, or estimated market values obtained from various third-party quotation services which we believe to be reliable and which were available when the report was prepared. If an investment did not have a readily determinable value, then reported values are based on the last valuation available to us at the time the report was generated. For assets not custodied at Wilmington Trust, prices and values are provided by the custodian, the issuer or their administrator, and Wilmington Trust is not responsible for this information, nor can Wilmington Trust guarantee its accuracy or timeliness. Valuation for Private Equity, Private Real Estate and Other asset classes reflect the most recent information available, but are typically illiquid and may have irregular reporting. Consult your Relationship Manager for details regarding valuations for your illiquid holdings.

Reported values may not equal market value or fair value and may include accruals. Asset values will fluctuate. This report should not be used to prepare tax documents or financial statements. Information for tax reporting purposes will be reflected in your annual Wilmington Trust Tax Information Letter. Please contact your Relationship Manager if you have any questions.

Basis and limitations on use for Cost, Gains, and Losses. This is not a tax document. This information is being provided for your review of transactions and balances in your account for the reporting period. For tax reporting, you should rely on your official tax documents. Transactions requiring tax consideration should be reviewed with your tax advisor. Unrealized Gain and Loss data is reliant upon accurate cost basis information and represents the current value of a security less the adjusted cost basis for that security. If the current value is greater than the adjusted cost basis, that position has an unrealized gain. Conversely, if value is less than cost, the position carries an unrealized loss.

The cost basis of record for securities transferred into your Wilmington Trust account may have been provided to us by a delivering firm, a transfer agent, or another adviser on a best efforts basis. Cost

Statement Disclosures *(continued)*

basis data provided through delivering firms is relied upon for this report but should be reviewed for accuracy by each client. Cost basis on fixed income securities are adjusted for amortization, accretion, or principal paydowns and the method of calculation is based upon the type of fixed income security and certain attributes, obtained from sources believed to be reliable. Where no cost basis is available for a security as of the last day of the reporting period, that security will reflect zero as the cost basis.

Investments: • Are NOT FDIC Insured • Have NO Bank Guarantee • May Lose Value

Glossary

Accrued Dividend represents dividends declared by the issuer which have not yet been paid.

Accrued Income represents income payments accumulated with a security (i.e., "priced in" to the security value) since the last payment date but not yet received. Income accrues daily and is reset every time accruals are paid.

Cost represents the reported original value of an asset adjusted for corporate actions, including stock splits, dividends, and return of capital distributions. Tax cost basis on fixed income securities are adjusted for amortization, accretion or principal paydowns. The method of calculation is based upon the type of fixed income security and certain attributes, obtained from sources believed to be reliable. This information is used to estimate capital gains and losses; however, this is not a tax document. This information is being provided for your convenience and is for informational purposes only. For tax reporting, you should rely on your official tax documents. Transactions requiring tax consideration should be reviewed with your tax advisor.

Securities acquired before 2011 are generally not subject to the new cost basis reporting rules set forth by the Internal Revenue Service Code in the Emergency Economic Stabilization Act of 2008 and are, therefore, considered "noncovered" under the new cost basis reporting rules. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as securities which have been acquired on or after their applicable dates at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B for the applicable tax year in which the security is disposed.

Credit ratings are used to evaluate the likelihood of default by a bond issuer. Independent rating agencies, such as Moody's Investors Service, analyze the financial strength of each bond's issuer. Moody's ratings range from Aaa (highest quality) to C (lowest quality). Bonds rated Baa3 and better are considered "Investment Grade". Bonds rated Ba1 and below are "Speculative Grade" (also "High Yield"). The **Weighted Average Credit Rating** reflects a portfolio-weighted average of ratings on individual rated bonds - non-rated bonds are excluded - it does not represent a rating of the portfolio as a whole. The weighted average is intended only as an aggregate illustration of the portfolio holdings rather than as an indication of their respective risks, as certain risks - including the risk of default of individual issues - may be underrepresented by this measure.

Duration is a measure of a bond's sensitivity to changes in interest rates and is calculated as the average percentage change in a bond's value under parallel shifts of the yield curve. Thus a bond with

duration of 4 would be expected to lose 1% in value (price) in the event of a 25 basis point (0.25%) increase in market rates, represented by the yield curve. Conversely, that bond would be expected to appreciate 1% in value with a 25 basis point decrease in market rates.

Estimated Annual Income is an indication of income return expected from security positions over the next 12 months assuming that the position quantities, interest/dividend rates, and prices remain constant. For U.S. government, corporate, and municipal bonds it is calculated by multiplying the coupon rate by the face value of the security. For common stocks, ADRs, REITs and mutual funds it is calculated using an indicated (projected) annual dividend. They are provided for illustrative purposes only, are not a forecast or guarantee of future results, and they should not be relied on for making investment, trading, or tax decisions.

Estimated Yield compares the anticipated earnings on investments (Estimated Annual Income) to the current price of the investments. Changes in the price of a security over time or in the amount of the investment held in your account will cause the estimated yield to vary. The actual yield may be higher or lower than the estimated amounts.

Net Interest represents the receipt of interest earned less the purchase of accrued interest on securities.

Taxable versus **Tax-exempt** status is determined at the security level, and not at the account type level. Thus accounts that carry a tax exemption, such as IRAs or various charitable trusts, often have holdings that are categorized as Taxable for this report. Conversely, securities classified as Tax-exempt for this report are held in taxable account types. Securities may be deemed Tax-exempt based on a tax-advantaged treatment, typically for interest payments on municipal bonds, which may not be available equally to all investors. Additionally, alternative tax treatments may mitigate or offset tax advantages reflected in this report. This report is not a tax document and should not be used for tax preparation.

Term (Long or Short) reflects the holding period of the security. Long term indicates a holding period one year or greater, while Short indicates a holding period less than one year.

Trade Date accounting is used throughout this report, unless otherwise identified, and records the purchase or sale of an asset as of the date on which an agreement to purchase/sell was entered, or a market trade executed, rather than on the settlement date (the actual delivery of the asset in exchange for payment). Thus, trades executed but pending settlement are treated as already present in the account in reliance upon successful settlement. Trade date treatment serves as a better

Glossary *(continued)*

reflection of actual decisions to buy/sell than settlement date, which can occur days later.

Unit Cost is the reported cost per share of an equity position, or cost per bond for debt securities. It reflects the price paid, adjusted for corporate actions such as stock splits and return of capital distributions. It is used to estimate capital gains and losses; however, you should rely only on your official tax documents for tax reporting purposes. All cost basis information is derived from transactions in the account or information supplied by you or other sources and is provided for your convenience and is for informational purposes only. There is no guarantee as to the accuracy of third-party cost basis information and it is not intended for tax reporting purposes. Please inform us in the event that a cost basis is not accurate.

Unrealized Gain/Loss is the difference between the current value of a security and the adjusted cost basis of that security. If the current value is greater than the original cost, that position has an unrealized gain. Conversely, if the current value is less than the original cost, that position has an unrealized loss.

Yield to Worst assumes the "worst case" yield to investors within the terms of the issue's provisions, such as use of prepayment, call, or sinking fund options that may be available to the issuer on some bonds.

Statement Disclosures

Statement Review; Limitations on Actions

Please carefully review your statements and retain them for your records as they may contain notices, disclosures and other important information in addition to the summary of the transactions in your account for the reporting period, including contributions, distributions, transfers, and purchases and sales of securities. Summary data is also provided for off-setting investment option transfers or other transfers made between accounts.

Please report promptly any material inaccuracy or discrepancy in this information to your Relationship Manager. If revised data becomes available to Wilmington Trust after these reports are generated, we may update our records accordingly; however, revised data typically will not result in the generation of a new report.

Fee Arrangements

Wilmington Trust and its affiliates may earn additional compensation from uninvested cash in the form of earnings, which Wilmington Trust expects will be generated at the prevailing federal funds rate. Such earnings may be generated between the time the moneys are received by Wilmington Trust and actually forwarded to implement investment instructions, or between the time a distribution is issued and presented.

Affiliated Advisers

"Wilmington Trust" is a service mark encompassing the trust and investment business of Manufacturer's & Trader's Trust Company ("M&T Bank") in providing services to this account, and of some of M&T Bank's subsidiaries and affiliates, serving individual and institutional clients. Subsidiaries and affiliates include, but are not limited to, Wilmington Trust Company (operating in Delaware only); Wilmington Trust, N.A., a national association; and Wilmington Funds Management Corp., Wilmington Trust Investment Advisors, Inc., and other registered investment adviser affiliates. For additional information regarding the Wilmington Trust brand, underlying entities, and products and services offered, please visit our web site at www.wilmingtontrust.com.

Where permitted, Wilmington Trust, its affiliates and its sub-advisors may execute portfolio transactions with brokerage firms that provide proprietary and/or third-party research products and services, as well as trade execution. The brokerage firms providing such services may be paid commissions in excess of those another broker or dealer might charge for executing such transactions. We may execute such transactions resulting in receipt of brokerage and research services, notwithstanding that the particular account(s) involved may not be a beneficiary of such brokerage or research. Receipt of research services and products from brokers or dealers who execute client trades involves conflicts of interest for Wilmington Trust, its affiliates and its sub-advisors because they do not have to produce or pay for the research itself, and thus have an incentive to select or recommend a broker based on their interest in receiving such research.

Pricing and Valuation

Details of transaction charges and commissions are displayed on transaction confirmations, which have been mailed or made available separately to you. Wilmington Trust will also send you this information upon request. To the extent Wilmington Trust has custody of assets but no investment authority over your account, you have the right at any time to receive, at no additional cost to you, written confirmations of securities transactions that occur in your account. These confirmations will be mailed to you in the timeframe required by applicable regulations. Even if you previously waived your right to receive these confirmations, you may at any time ask to receive such confirmations going forward. Please contact your Relationship Manager if you wish to have written trade confirmations mailed to you.

The investment values and estimated income information reported herein reflect the securities in your account on a trade date basis as of the close of your statement period. Pricing may reflect market price quotations, closing price, mean bid / ask price, or estimated market values obtained from various third-party quotation services which we believe to be reliable and which were available when the report was prepared. If an investment did not have a readily determinable value, then reported values are based on the last valuation available to us at the time the report was generated. For assets not custodied at Wilmington Trust, prices and values are provided by the custodian, the issuer or their administrator, and Wilmington Trust is not responsible for this information, nor can Wilmington Trust guarantee its accuracy or timeliness. Valuation for Private Equity, Private Real Estate and Other asset classes reflect the most recent information available, but are typically illiquid and may have irregular reporting. Consult your Relationship Manager for details regarding valuations for your illiquid holdings.

Reported values may not equal market value or fair value and may include accruals. Asset values will fluctuate. This report should not be used to prepare tax documents or financial statements. Information for tax reporting purposes will be reflected in your annual Wilmington Trust Tax Information Letter. Please contact your Relationship Manager if you have any questions.

Basis and limitations on use for Cost, Gains, and Losses. This is not a tax document. This information is being provided for your review of transactions and balances in your account for the reporting period. For tax reporting, you should rely on your official tax documents. Transactions requiring tax consideration should be reviewed with your tax advisor. Unrealized Gain and Loss data is reliant upon accurate cost basis information and represents the current value of a security less the adjusted cost basis for that security. If the current value is greater than the adjusted cost basis, that position has an unrealized gain. Conversely, if value is less than cost, the position carries an unrealized loss.

The cost basis of record for securities transferred into your Wilmington Trust account may have been provided to us by a delivering firm, a transfer agent, or another adviser on a best efforts basis. Cost

basis data provided through delivering firms is relied upon for this report but should be reviewed for accuracy by each client. Cost basis on fixed income securities are adjusted for amortization, accretion, or principal paydowns and the method of calculation is based upon the type of fixed income security and certain attributes, obtained from sources believed to be reliable. Where no cost basis is available for a security as of the last day of the reporting period, that security will reflect zero as the cost basis.

Glossary

Accrued Dividend represents dividends declared by the issuer which have not yet been paid.

Accrued Income represents income payments accumulated with a security (i.e., "priced in" to the security value) since the last payment date but not yet received. Income accrues daily and is reset every time accruals are paid.

Cost represents the reported original value of an asset adjusted for corporate actions, including stock splits, dividends, and return of capital distributions. Tax cost basis on fixed income securities are adjusted for amortization, accretion or principal paydowns. The method of calculation is based upon the type of fixed income security and certain attributes, obtained from sources believed to be reliable. This information is used to estimate capital gains and losses; however, this is not a tax document. This information is being provided for your convenience and is for informational purposes only. For tax reporting, you should rely on your official tax documents. Transactions requiring tax consideration should be reviewed with your tax advisor.

Securities acquired before 2011 are generally not subject to the new cost basis reporting rules set forth by the Internal Revenue Service Code in the Emergency Economic Stabilization Act of 2008 and are, therefore, considered "noncovered" under the new cost basis reporting rules. All other securities in this section are securities which are "covered" under the new cost basis reporting rules. Securities which are "covered" under the new cost basis reporting rules are defined as securities which have been acquired on or after their applicable dates at which they are subject to the cost basis reporting rules and the adjusted basis will be reported to the IRS on form 1099-B for the applicable tax year in which the security is disposed.

Credit ratings are used to evaluate the likelihood of default by a bond issuer. Independent rating agencies, such as Moody's Investors Service, analyze the financial strength of each bond's issuer. Moody's ratings range from Aaa (highest quality) to C (lowest quality). Bonds rated Baa3 and better are considered "Investment Grade". Bonds rated Ba1 and below are "Speculative Grade" (also "High Yield"). The **Weighted Average Credit Rating** reflects a portfolio-weighted average of ratings on individual rated bonds — non-rated bonds are excluded — it does not represent a rating of the portfolio as a whole. The weighted average is intended only as an aggregate illustration of the portfolio holdings rather than as an indication of their respective risks, as certain risks—including the risk of default of individual issues—may be underrepresented by this measure.

Duration is a measure of a bond's sensitivity to changes in interest rates and is calculated as the average percentage change in a bond's value under parallel shifts of the yield curve. Thus a bond with

duration of 4 would be expected to lose 1% in value (price) in the event of a 25 basis point (0.25%) increase in market rates, represented by the yield curve. Conversely, that bond would be expected to appreciate 1% in value with a 25 basis point decrease in market rates.

Estimated Annual Income is an indication of income return expected from security positions over the next 12 months assuming that the position quantities, interest /dividend rates, and prices remain constant. For U.S. government, corporate, and municipal bonds it is calculated by multiplying the coupon rate by the face value of the security. For common stocks, ADRs, REITs and mutual funds it is calculated using an indicated (projected) annual dividend. They are provided for illustrative purposes only, are not a forecast or guarantee of future results, and they should not be relied on for making investment, trading, or tax decisions.

Estimated Yield compares the anticipated earnings on investments (Estimated Annual Income) to the current price of the investments. Changes in the price of a security over time or in the amount of the investment held in your account will cause the estimated yield to vary. The actual yield may be higher or lower than the estimated amounts.

Net Interest represents the receipt of interest earned less the purchase of accrued interest on securities.

Taxable versus **Tax-exempt** status is determined at the security level, and not at the account type level. Thus accounts that carry a tax exemption, such as IRAs or various charitable trusts, often have holdings that are categorized as Taxable for this report. Conversely, securities classified as Tax-exempt for this report are held in taxable account types. Securities may be deemed Tax-exempt based on a tax-advantaged treatment, typically for interest payments on municipal bonds, which may not be available equally to all investors. Additionally, alternative tax treatments may mitigate or offset tax advantages reflected in this report. This report is not a tax document and should not be used for tax preparation.

Term (Long or Short) reflects the holding period of the security. Long term indicates a holding period one year or greater, while Short indicates a holding period less than one year.

Trade Date accounting is used throughout this report, unless otherwise identified, and records the purchase or sale of an asset as of the date on which an agreement to purchase/sell was entered, or a market trade executed, rather than on the settlement date (the actual delivery of the asset in exchange for payment). Thus, trades executed but pending settlement are treated as already present in the account in reliance upon successful settlement. Trade date treatment serves as a better

**Glossary** *(continued)*

reflection of actual decisions to buy/sell than settlement date, which can occur days later.

Unit Cost is the reported cost per share of an equity position, or cost per bond for debt securities. It reflects the price paid, adjusted for corporate actions such as stock splits and return of capital distributions. It is used to estimate capital gains and losses; however, you should rely only on your official tax documents for tax reporting purposes. All cost basis information is derived from transactions in the account or information supplied by you or other sources and is provided for your convenience and is for informational purposes only. There is no guarantee as to the accuracy of third-party cost basis information and it is not intended for tax reporting purposes. Please inform us in the event that a cost basis is not accurate.

Unrealized Gain/Loss is the difference between the current value of a security and the adjusted cost basis of that security. If the current value is greater than the original cost, that position has an unrealized gain. Conversely, if the current value is less than the original cost, that position has an unrealized loss.

Yield to Worst assumes the "worst case" yield to investors within the terms of the issue's provisions, such as use of prepayment, call, or sinking fund options that may be available to the issuer on some bonds.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Local 734 Pension Fund
Chicago, Illinois

Opinion

We have audited the accompanying financial statements of Local 734 Pension Fund, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of April 30, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Local 734 Pension Fund as of April 30, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Local 734 Pension Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Local 734 Pension Fund's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Local 734 Pension Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Local 734 Pension Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held for investment purposes at end of year, assets acquired and disposed of within the year and reportable transactions are presented for the purpose of additional analysis are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Statement of Actuarial Assumptions/Methods**

Plan Name Local 734 Pension Plan

Plan Sponsor Board of Trustees of Local 734 Pension Fund

EIN / PN 51-6040136 / 001

Interest Rates 6.00% per annum, compounded annually, net of investment-related expenses for determining costs and liabilities.

2.35% per annum for determining Current Liability for the plan year beginning May 1, 2021.

The valuation interest rate was chosen in consideration of the purpose of the measurement (long-term contribution budgeting), current and historical investment data, and the Plan's asset allocation as set by the Plan Sponsor. As a part of the analysis, we considered the results of the current and prior editions of our Survey of Capital Market Assumptions and the expectations of the Plan's investment advisor. The ultimate selection of the interest rate is our best estimate and reflects professional judgment.

The interest rate assumption used to measure Current Liability represents the maximum rate permitted under the Internal Revenue Code, 105% the weighted average of the rates of interest on 30-year Treasury securities during the 4-year period ending on the last day before the beginning of the plan year.

Operating Expenses Expenses are assumed to be \$900,000, as of the beginning of the plan year. Investment counseling fees are not included in assumed operating expenses.

Expected operating expenses were developed based on actual prior and anticipated future experience and reflect professional judgment.

Weeks Worked For the purpose of projecting future benefit accruals, it is assumed that each active participant will work 48.5 weeks per year.

Active Participant For valuation purposes, an active participant is a participant who worked one or more weeks during the calendar year prior to the valuation date, provided they have not retired or terminated prior to the valuation date.

Non-Disabled Mortality *Active and inactive vested participants:*

The sex-distinct RP-2014 mortality tables for Blue Collar Employees, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

Participants and beneficiaries receiving benefits:

The sex-distinct RP-2014 mortality tables for Blue Collar Healthy Annuitants, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

The non-disabled mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, expectations regarding future mortality improvement, and professional judgment.

For determining the RPA '94 Current Liability, the mortality tables prescribed by the Pension Protection Act of 2006 were used.

Disabled Mortality

The sex-distinct RP-2014 Disabled Retiree mortality tables, projected back to 2006 using Scale MP-2014, then projected with future generational improvements using Scale MP-2018.

The disabled mortality assumption was chosen upon review of available tables and projection scales, the underlying demographic basis of those tables, the Plan's definition of disabled, expectations regarding future mortality improvement, and professional judgment.

For determining the RPA '94 Current Liability, the mortality tables prescribed by the Pension Protection Act of 2006 were used.

Retirement Age

Active participants: Per the rates in the table below.

Retirement Rates (per 100 participants)

Age	Active Participants
50-54	0.00
55-59	0.02
60-61	0.05
62	0.20
63	0.25
64	0.05
65	0.25
66	0.45
67-69	0.25
70	1.00

Inactive vested participants: Age 60 for Participants with 15 or more years of Benefit Service; otherwise, age 65.

The weighted average retirement age for active participants is age 64.6. This average is based on the active population in the May, 1, 2021 valuation. All decrements are considered when projecting the current population to retirement. The weighted average retirement age is the average age at which the lives that reach the retirement decrement retire.

Schedule MB, Line 6 – Statement of Actuarial Assumptions/Methods

Disability

Illustrations of the annual rates of disablement are shown in the table below for selected ages (the same rates are used for males and females):

Representative Disability Rates (per 100 participants)

Age	Rate
20	0.03
25	0.04
30	0.05
35	0.07
40	0.11
45	0.18
50	0.30
55	0.50
60	0.81

These assumptions were developed based on a review of historical and current demographic data, adjusted to reflect anticipated future experience and professional judgment.

Withdrawal

Illustrations of the annual rates of withdrawal (for reasons other than mortality or disablement) are shown in the table below for selected ages:

Representative Withdrawal Rates (per 100 participants)

Age	Rate
20	0.1948
25	0.1579
30	0.1314
35	0.1129
40	0.0922
45	0.0706
50	0.0347
55	0.0000
60 and over	0.0000

These assumptions were developed based on a review of historical and current demographic data, adjusted to reflect anticipated future experience and professional judgment.

Reemployment

It is assumed that participants will not be reemployed following a break in service.

Schedule MB, Line 6 – Statement of Actuarial Assumptions/Methods

Form of Payment

Single participants are assumed to elect the single life annuity.

For married participants, 42% are assumed to elect a single life annuity, 33% are assumed to elect the 50% joint and survivor annuity, and 25% are assumed to elect a 100% joint and survivor annuity.

Marriage

80% of non-retired participants are assumed to be married.

Spouse Ages

Females are assumed to be three years younger than their spouses.

Cost Method

The Unit Credit Cost Method is used to determine the normal cost and the actuarial accrued liability. The actuarial accrued liability is the present value of the accrued benefits as of the beginning of the year for active participants and is the present value of all benefits for other participants. The normal cost is the present value of the difference between the accrued benefits as of the beginning and end of the year. The normal cost and actuarial accrued liability for the plan are the sums of the individually computed normal costs and actuarial accrued liabilities for all plan participants.

Asset Valuation Method

The actuarial value of assets is determined by adjusting the market value of assets to reflect the investment gains and losses (the difference between the actual investment return and the expected investment return) during each of the last four years at the rate of 25% per year. Expected investment return is calculated using the actuarial value of assets as of the beginning of the plan year and the benefit payments, employer contributions and operating expenses, weighted based on the timing of the transactions during the year.

The actuarial value is subject to a restriction that it be not less than 80% nor more than 120% of the market value.

Participant Data

Participant census data as of May 1, 2021 was provided by the Fund Office.

Missing or Incomplete Participant Data

Assumptions were made to adjust for participants and beneficiaries with missing or incomplete data, based on those exhibited by participants with similar known characteristics.

Financial Information

Financial information was obtained from the audited financial statements.

Schedule MB, Line 6 – Statement of Actuarial Assumptions/Methods

**Future Increases in
Maximum Benefits**

It is assumed that the maximum benefit under the Internal Revenue Code will not increase in the future.

**Assumed Cost-of-Living
Adjustments**

None.

**Benefits not Included in
Valuation**

None.

**Nature of Actuarial
Calculations**

The valuation results presented in this report are estimates. The results are based on data that may be imperfect and on assumptions made about future events. Certain plan provisions may be approximated or deemed immaterial for the purposes of the valuation. Assumptions may be made about missing or incomplete participant census data or other factors. Reasonable efforts were made to ensure that significant items and factors are included in the valuation and treated appropriately. A range of results different from those presented in this report could also be considered reasonable.

The actuarial assumptions selected for this valuation – including the valuation interest rate – generally reflect average expectations over the long term. If overall future demographic or investment experience is less favorable than assumed, the relative level of plan costs determined in this valuation will likely increase in future valuations. Investment returns and demographic factors may fluctuate significantly from year to year. The deterministic actuarial models used in this valuation do not take into consideration the possibility of such volatility.

**Changes in Assumptions
and Methods**

Since the prior valuation, the following assumptions have been changed:

- The interest rate and mortality assumptions used to determine the RPA '94 Current Liability were updated in accordance with the changes in the IRS prescribed assumptions.
 - There was a change in software which had a negligible impact on the results. This is considered a change in actuarial method that is automatically approved under Revenue Procedure 2000-40 when certain conditions are met. Since the change in valuation software resulted in a minimal change in benefit liabilities and the net changes to the funding standard account change by less than 2%, the change in software is treated as an experience gain or loss, rather than as a method change, for purposes of the funding standard account.

Actuarial Certification of Plan Status

Plan Name: Local 734 Pension Plan
EIN / PN: 51-6040136 / 001
Plan Sponsor: Trustees of the Local 734 Pension Plan
6643 North Northwest Highway | Chicago, IL 60631 | (773) 594-2810
Plan Year: Beginning May 1, 2021 and Ending April 30, 2022
Certification Results:

- Critical and Declining Status
- Making scheduled progress toward Rehabilitation Plan

This is the annual certification by the Plan Actuary as required under section 432(b) of the Internal Revenue Code (the "Code") for the above-named multiemployer plan (the "Plan") and plan year (the "Plan Year"). For the Plan Year, the Plan is in critical and declining status.

Under the terms of the rehabilitation plan in place as of May 1, 2021, we further certify, that the Plan is making scheduled progress in meeting the requirements of the rehabilitation plan. The Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period, though the Board of Trustees has taken significant actions to forestall possible insolvency, and the Plan continues to pay its full benefit obligations.

This certification was performed based upon actuarial projections of assets and liabilities for the current and succeeding plan years, as described under section 432(b)(3)(B). These projections are based on reasonable actuarial estimates, assumptions, and methods that offer my best estimate of anticipated experience under the Plan. The projected Plan liabilities as of the beginning of the Plan Year was determined based on a projection of the actuarial valuation of the Plan as of May 1, 2020. The projections of Plan assets are based on the preliminary audited market value of assets of the Plan as of April 30, 2021, provided by the Plan's investment consultant, and the assumption that future net investment returns will be 6.0% per year, beginning May 1, 2021.

This certification is also based on projections of industry activity, including future covered employment and contribution levels, which are based on information provided in good faith by the Plan Sponsor. This certification assumes that the current terms of the collective bargaining agreements under which contributions are made to the Plan will remain in effect for all succeeding plan years. This certification reflects the decision by the Board of Trustees to apply special funding relief rules as permitted under the Pension Relief Act of 2010.

To the best of my knowledge, the actuarial assumptions and methods used in the preparation of this certification comply with all applicable Actuarial Standards of Practice.

Schedule MB – Statement by the Enrolled Actuary

Plan Sponsor	Trustees of the Local 734 Pension Plan
EIN / PN	51-6040136 / 001
Plan Year	Beginning May 1, 2021 and ending April 30, 2022
Plan Name	Local 734 Pension Plan
Enrolled Actuary	Densmore, Kenneth N.
Enrollment Number	20-08324

Actuarial assumptions: The actuarial assumptions and methods are individually reasonable and, in combination, represent the enrolled actuary's best estimate of anticipated experience under the Plan.

Census data and financial information: The actuarial valuation, on which the information in this Schedule MB is based, has been prepared in reliance upon the participant census data and financial information furnished by the Plan administrator and the auditor. The enrolled actuary has not made a rigorous check of the accuracy of this information but has reviewed it and concluded it to be reasonable for the purpose of this actuarial valuation. The amount of contributions paid shown in Line 3 of Schedule MB are listed in reliance on information provided by the Plan auditor.

Status under Pension Protection Act of 2006 ("PPA"): As indicated on Line 4b of the Schedule MB, the Plan is in critical and declining status for the Plan Year. The attachment for Line 4b include excerpts from the actuarial certification report regarding the status certification for the Plan Year.

Scheduled Progress under Rehabilitation Plan: As indicated on Line 4c of the Schedule MB, the Plan was certified as making scheduled progress under the applicable rehabilitation plan for the relevant Plan Year. The attachment for Line 4c provides additional information regarding scheduled progress under the Rehabilitation Plan.

Attached as separate exhibits are:

Regular / Reduced Regular Pension

This benefit has been eliminated for all retirements after September 1, 2019.

1. For retirements prior to January 2, 2011:

Age Requirement: 60
Service Requirement: 15 years of benefit service
Amount: \$2,100

The full benefit is payable to participants with 20 or more years of service. For other participants, the full benefit is multiplied by the ratio of the participant's benefit service to 20.

2. For retirements after January 1, 2011 and before September 2, 2019:

Age Requirement: 65
Service Requirement: 15 years of benefit service
Amount: \$2,100 for members whose employers adopt the Alternative Schedule under the Rehabilitation Plan.
\$1,300 for members whose employers adopt the Default Schedule under the Rehabilitation Plan.

The full benefit is payable to participants with 20 or more years of benefit service. For other participants, the full benefit is multiplied by the ratio of the participant's benefit service to 20.

Schedule MB, Line 6 – Summary of Plan Provisions

Early Retirement

This benefit has been eliminated for all retirements after September 1, 2019.

1. For retirements prior to January 2, 2011:

Age Requirement: 55
Service Requirement: 15 years of benefit service
Amount: Regular Pension reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 60.

2. For retirements after January 1, 2011 and before September 2, 2019:

Age Requirement: 55
Service Requirement: 15 years of benefit service
Amount: Regular Pension reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 65.

If a participant has 30 years of benefit service, the Normal Pension is reduced by $\frac{1}{2}\%$ for each month the participant's early retirement date precedes age 62.

Vested Benefit

Age Requirement: None
Service Requirement: 5 years of vesting service
Amount: \$2,125 multiplied by 3% multiplied by the number of years of benefit service, up to a maximum of 33-1/3 years of benefit service.

Early Payment: A participant with 15 or more years of benefit service may elect to receive a reduced deferred vested pension that will commence after age 55 but before age 65 and the monthly amount will be reduced by 2/3rds of 1% for each of the first 60 months that the pension commencement date precedes the participant's normal retirement date, and 1/3rd of 1% for each additional month thereafter.

**Schedule MB, Line 6 –
Summary of Plan Provisions**

Disability Pension

This benefit has been eliminated for all retirements after September 1, 2019.

Age Requirement: None

Service Requirement: 15 years of benefit service

Other Requirement: Eligible for a disability insurance benefit under the Federal Social Security Act.

1. For disability retirements prior to January 2, 2011:

Amount: Early retirement pension payable at date of disability. If the participant is disabled before age 55, reduction for early retirement is limited to 30%, as if he or she had reached age 55 on the date of disability.

When Paid: Disability benefits commence with the 7th month after the month disability began and continues until age 60 or recovery from disability. At age 60, the participant becomes entitled to a regular pension or reduced pension.

2. For disability retirements after January 1, 2011 and before September 2, 2019:

Amount: Early retirement pension payable at date of disability. If the participant is disabled before age 55 and prior to May 1, 2015, the reduction for early retirement is limited to 60%. If the participant is disabled before age 55 and on or after May 1, 2015, an additional actuarially equivalent reduction from age 55 applies.

When Paid: Disability benefits commence with the 7th month after the month disability began and continues until age 65 or recovery from disability. At age 65, the participant becomes entitled to a regular pension or reduced pension.

Schedule MB, Line 6 – Summary of Plan Provisions

Spouse's Pre-Retirement Death Benefit

Age Requirement: None

Service Requirement: 5 years of vesting service

Amount: 50% of the benefit the participant would have received had he or she retired the day before death and elected the joint and 50% survivor option. If the participant died before eligibility for an immediate pension, the spouse's benefit is deferred to the earliest retirement date the participant would have been eligible for an early retirement pension.

If the participant dies in active employment after completing at least 27 years of benefit service, the spouse's benefit may commence on the date the participant would be eligible for the service pension had he or she remained in active employment, if that is earlier than his or her earliest retirement age.

Post-Retirement Death Benefit

If a participant is receiving payments under a joint and survivor form (J&S), the surviving spouse will receive the survivor portion based on the form elected following the participant's death.

If a participant is receiving payments under the 10 year certain and life option, and dies before receiving 120 monthly payments, the named beneficiary will continue to receive payments until 120 monthly payments have been made.

Forms of Payment

Normal Form

- (a) For married participants, retirement benefits are paid in the form of a 50% Joint and Survivor Annuity unless this form is rejected by a Participant and his or her spouse. If not rejected, the benefit amount otherwise payable is reduced to reflect the joint and survivor form.
- (b) If the 50% Joint and Survivor Annuity is rejected or if the Participant is not married, benefits are payable as a Life Annuity.

Optional Forms

- (a) 75% Joint and Survivor Annuity
- (b) 100% Joint and Survivor Annuity

The following payment forms were eliminated for all benefits commencing after September 1, 2019:

- (a) 50%, 75%, and 100% Joint and Survivor Annuity with a Pop-Up Feature
 - (b) 10-Year Certain and Life Option
 - (c) Level Income Option (unavailable while Plan is in "Critical Status" as defined by the Pension Protection Act)
-

**Schedule MB, Line 6 –
Summary of Plan Provisions**

Actuarial Equivalence

Benefits under optional forms of payment are converted from the amount payable under the Life Annuity, based on assumptions of 7.00% interest and the Unisex Pension 1984 Mortality Table.

Contribution Rates

Varies by employer and job classification from \$180.00 to \$214.00 per week with an average of \$184.76 per week for the Plan Year beginning May 1, 2021. Certain collective bargaining agreements reflect equivalent hourly rates assuming a forty hour work week.

Under the terms of the Rehabilitation Plan, the Alternative Schedule requires certain increases in the employer contribution rate. On or after May 1, 2011, the employer contribution rate must increase by at least \$3.50 per week (or \$0.0875 per hour) for each of the next four years of a collective bargaining agreement(s), followed by increases of at least \$6.00 per week (or \$0.15 per hour) for each of the next nine years of a collective bargaining agreement. The \$6.00 per week increases are reflected in the amended and restated Rehabilitation Plan effective March 26, 2014. The Rehabilitation Plan was again revised effective December 15, 2016 and requires a minimum contribution rate of \$180 per week for all contributing employers by May 1, 2020. The Rehabilitation Plan was again revised effective March 31, 2021 to remove future contribution increase requirements that were not already reflected in the collective bargaining agreements in effect on March 31, 2021.

Contributions different from those indicated may be deemed to satisfy the requirements of the Alternative Schedule if the present value of all increases under the collective bargaining agreement(s) exceeds the present value of the increases indicated.

Benefit Service

The sum of past and future benefit service determined as follows:

Past Benefit Service – Prior to January 1, 1976, equal to pension credits determined under the prior plan.

Future Benefit Service – After January 1, 1976, determined as follows:

Weeks of Covered Employment during Calendar Year	Future Benefit Service
27 to 52 weeks	1 year
22 to 26 weeks	½ year
Less than 22 weeks	None

**Changes in Plan
Provisions**

None.

Schedule MB, Line 4c –**Documentation Regarding Progress Under Rehabilitation Plan**

The Plan was originally certified in critical status for the plan year beginning May 1, 2010, and the Board of Trustees adopted a Rehabilitation Plan on September 20, 2010, as required under section 432(e), and later updated on March 26, 2014, December 15, 2016, July 8, 2019, and March 31, 2021. The Plan's rehabilitation period, as defined under section 432(e)(4), began on May 1, 2013.

The Board of Trustees has determined, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, that the Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period. Therefore, as described in section 432(e)(3)(A)(ii) of the Code, the Rehabilitation Plan consists of actions to forestall possible insolvency.

As the Board of Trustees has taken significant actions to forestall possible insolvency, and the Plan continues to pay its full benefit obligations, the Plan is making scheduled progress in meeting the requirements of the amended Rehabilitation Plan.

Schedule MB, Line 4c –**Documentation Regarding Progress Under Rehabilitation Plan**

The Plan was originally certified in critical status for the plan year beginning May 1, 2010, and the Board of Trustees adopted a Rehabilitation Plan on September 20, 2010, as required under section 432(e), and later updated on March 26, 2014, December 15, 2016, July 8, 2019, and March 31, 2021. The Plan's rehabilitation period, as defined under section 432(e)(4), began on May 1, 2013.

The Board of Trustees has determined, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, that the Plan cannot reasonably be expected to emerge from critical status by the end of the rehabilitation period.
