Enrolled Actuary's Certification

This is to certify that the requested amount of SFA for the Printers League GCIU Local 119B New York Pension Fund is the amount to which the plan is entitled under section 4262(j)(1) of ERISA and § 4262.4 of PBGC's SFA regulation.

The assumptions used for the 2020 zone certification and to determine the requested amount of SFA are summarized below.

Mortality

2020 zone certification - RP-2000 Employees and Healthy Annuitant Mortality; no provision was made for future mortality improvement

SFA calculations: Pri-2012 amount-weighted Blue Collar with 2019 projection scale

Reason for change - Original assumption is outdated. New assumption reflects more recently published experience for blue collar workers.

Interest Rate

2020 zone certification – 7.25%

SFA calculations – 5.36%

Reason for change – As per ERISA section 4262(e)(3), limited interest rate to September 2021 third segment rate of 3.36% plus 200 basis points.

Salary Scale

2020 zone certification – No increase assumption was made.

SFA calculations – 2.6% increase per year.

Reason for change – Original assumption is outdated. New assumption reflects recently published wage data from the U.S. Bureau of Labor Statistics indicating a 2.6% increase for union employees for the 12 months ending June 2021. We feel this is a best estimate of future salary increases for the population covered by the plan.

Administrative Expenses

2020 zone certification - Future annual expenses were assumed to equal the most recent plan year's expenses.

SFA calculations - PBGC Premium Expense: \$1 per participant per year increase through 2030. A Jump to \$52 per participant per year in 2031. \$1 per participant per year increase thereafter. Other Administrative Expenses: 2% per year increase. Total projected administrative expenses for each future year were capped at 12% of projected annual benefit payments each year.

Reason for change – The original assumption was unreasonable for SFA calculation purposes. The new assumptions are a best estimate of anticipated experience. The 2% per year increase was based on the Federal Reserve's long term inflation rate target.

Withdrawal Liability

2020 zone certification – There is currently 1 employer making withdrawal liability payments. Our assumption was that this employer will continue making withdrawal liability payments in accordance with the schedule of payments due. No other withdrawal liability assumptions were made.

SFA calculations - There is currently 1 employer making withdrawal liability payments. Our assumption was that this employer will continue making withdrawal liability payments in accordance with the schedule of payments due. No other withdrawal liability assumptions were made.

No change was made.

Employer Contributions

2020 zone certification – 11% of pay each year

SFA calculations - 11% of pay each year

No change was made.

Termination

2020 zone certification – Sarason T-3 Table

SFA calculations - Sarason T-3 Table

No change was made.

Disabled Life Mortality

2020 zone certification – Male and female base mortality tables in accordance with Revenue Ruling 96-7; no provision was made for future mortality improvement

SFA calculations - – Male and female base mortality tables in accordance with Revenue Ruling 96-7; no provision was made for future mortality improvement

No change was made.

Disability rates

This assumption is not applicable since the plan eliminated the disability benefit provision prospectively as part of the Rehabilitation Plan back in 2009. No disability rates were used for the 2020 zone certification or the SFA calculations.

Retirement

2020 zone certification – Earlier of age 62 with 25 years of Credited Service or age 65 with 5 years of participation.

SFA calculations - Earlier of age 62 with 25 years of Credited Service or age 65 with 5 years of participation.

No change was made.

Assumed form of payment

2020 zone certification – 100% of active and terminated vested participants assumed to elect the Straight Life Annuity form of payment.

SFA calculations – 100% of active and terminated vested participants assumed to elect the Straight Life Annuity form of payment.

No change was made.

Married percent and spouse age difference

2020 zone certification – The percent married assumption was 75% for males and females. Male spouses were assumed to be 3 years older than female participants. Female spouses were assumed to be 3 years younger than male participants.

SFA calculations - The percent married assumption was 75% for males and females. Male spouses were assumed to be 3 years older than female participants. Female spouses were assumed to be 3 years younger than male participants.

No change was made.

New entrants

2020 zone certification – None assumed.

SFA calculations – For purposes of calculating projected benefit payouts, no new entrants were assumed. For purposes of determining participant counts, the active participant count was assumed to remain level at 27.

Reason for change – For purposes of determining participant counts for the SFA calculations, assuming a level active participant count going forward was determined to be a more reasonable assumption than assuming no replacements.

Participant Data

The participant data used for this SFA application was the participant data used to complete the 2020 Plan Year actuarial valuation and was obtained from the Plan's fund office.

I am a member of the American Academy of Actuaries and I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

To the best of my knowledge, the information supplied in this SFA application is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion each other assumption is

reasonable (taking into account the experience of the Plan and reasonable expectations), and such other assumptions, in combination, offer my best estimate of anticipated experience under the Plan.

Sincerely,

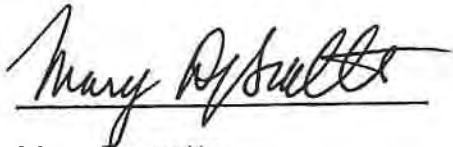

Date: March 29, 2022

Application Checklist

v20210708p

Instructions for Section E, Item 1 of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance (SFA):

The Application for Approval of Special Financial Assistance Checklist ("Application Checklist" or "Checklist") identifies all information required to be filed with the application.

The information in this Application Checklist, and the Application Checklist itself, are uploaded in PBGC's e-Filing Portal by logging into the e-Filing Portal, going to the Multiemployer Events section and clicking on "Create New ME Filing," and then under "Select a Filing Type," selecting "Application for Financial Assistance – Special." Note, if you go to the e-Filing Portal and do not see the option "Application for Financial Assistance – Special," this means that the portal is currently closed and PBGC is not accepting applications at this time, unless the plan is eligible to make an emergency filing under § 4262.10(f). PBGC's website at www.pbgc.gov will be updated when the e-Filing Portal reopens for applications. PBGC maintains information on its website at www.pbgc.gov to inform prospective applicants about the current status of the e-Filing portal, as well as to provide advance notice of when PBGC expects to open or temporarily close the e-Filing Portal.

General instructions for completing the Application Checklist:

Complete all items that are shaded: 

If required information was already filed: (1) through PBGC's e-Filing Portal; or (2) through any means for an insolvent plan, a plan that has received a partition, or a plan that submitted an emergency filing, the filer may either upload the information with the application or include a statement in the Plan Comments section of the Application Checklist indicating the date on which and the submission with which the information was previously filed. For any such items previously provided, enter N/A as the **Plan Response**.

If a revised application is filed after a denial was received but the application was not withdrawn, the revised application must differ from the denied application only to the extent necessary to address the reasons provided by PBGC for the denial. For the revised application, the filer may, but is not required to, submit an entire application. A revised application for SFA must use the same SFA measurement date, participant census data, and interest rate assumption as were used in the plan's initial application. For all Application Checklist Items that were previously filed that are not being changed, the filer may include a statement in the Plan Comments section of the Application Checklist to indicate that the other information was previously provided as part of the initial application. For each, enter N/A as the **Plan Response**.

If a revised application is filed after an application was withdrawn, the revised application must use the same SFA measurement date, participant census data, and interest rate assumption from the initial application. Upload only the information that changed from the initial application. For all Application Checklist Items that were previously filed that are not being changed, include a statement in the Plan Comments section of the Application Checklist to indicate that the information was previously provided as part of the initial application. For each, enter N/A as the **Plan Response**.

Instructions for specific columns:

SFA Instructions Reference: Identifies the applicable section and item number in PBGC's Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance.

You must select N/A if a Checklist Item # is not applicable to your application. **Your application will be considered incomplete if No is entered as a Plan Response for any of Checklist Items #1 through #47 on the Application Checklist.** If there has been a plan merger as described in § 4262.4(f)(1)(ii), you also must provide responses for Checklist Items #48 through #60 on the Application Checklist. If you are required to provide responses for Checklist Items #48 through #60, your application will be considered incomplete if No is entered as a Plan Response for any of Checklist Items #48 through #60 on the Application Checklist. All other plans should not provide responses for Items #48 through #60 of the Application Checklist.

If a Checklist Item # asks multiple questions or requests multiple items, the Plan Response should only be Yes if the plan is providing all information requested for that Checklist Item.

Note, a Yes or No response is required for the three initial questions concerning whether or not this application is a submission of a revised application, or whether the plan has been terminated.

SFA Determination

v20210824p

File name: *Template 4 Pension Plan Name*, where "Pension Plan Name" is an abbreviated version of the plan name.

For supplemental submission due to a merger under § 4262.4(f)(1)(ii): *Template 4 Pension Plan Name Merged*, where "Pension Plan Name Merged" is an abbreviated version of the plan name for the separate plan involved in the merger.

For supplemental submission due to certain events with limitations under § 4262.4(f)(1)(i): *Template 4 Pension Plan Name Supp*, where "Pension Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item 4 of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

Provide information used to determine the amount of requested SFA for the plan based on a deterministic projection and using the actuarial assumptions as described in § 4262.4 of PBGC's special financial assistance regulation. The information to be provided is:

NOTE: All items below are provided on sheet '4-3 SFA Details' unless otherwise noted.

- a. Interest rate used (the "SFA interest rate"), including supporting details on how it was determined. If such interest rate is the limit described in section 4262(e)(3) of ERISA, identify the month selected by the plan to determine the third segment rate used to calculate the limit. [*Sheet: 4-1 SFA Interest Rate*]
- b. Fair market value of assets on the last day of the calendar quarter immediately preceding the date the application is filed (the "SFA measurement date").
- c. For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"):
 - i. Separately identify the projected amount of contributions, projected withdrawal liability payments, and other payments expected to be made to the plan (excluding the amount of financial assistance under section 4261 of ERISA and SFA to be received by the plan).
 - ii. Separately identify benefit payments described in § 4262.4(b)(1) of PBGC's special assistance regulation (excluding the payments in (c)(iii) below) for current retirees and beneficiaries, terminated vested participants not currently receiving benefits, currently active participants and new entrants. [*Sheet: 4-2 SFA Ben Pmts*]
 - iii. Separately identify payments described in § 4262.4(b)(1) of PBGC's special financial assistance regulation attributable to the reinstatement of benefits under § 4262.15 that were previously suspended through the SFA measurement date. [Also see applicable examples in Section C, Item 4(c)(iii) of the SFA instructions.]
 - iv. Separately identify administrative expenses expected to be paid using plan assets, excluding the amount owed PBGC under section 4261 of ERISA.
- d. For each plan year in the SFA coverage period, the projected investment income based on the interest rate in (a) above, and the projected fair market value of plan assets at the end of each plan year.
- e. The present value (using the interest rate identified in (a) above) as of the SFA measurement date of each of the separately provided items in (c)(i)-(iv) above.
- f. SFA amount determined as a lump sum as of the SFA measurement date. As described in § 4262.4(a) of PBGC's special financial assistance regulation, this amount equals the excess (if any) of the SFA-eligible plan obligations (the present value of the items in (c)(ii) through (c)(iv)) over the SFA-eligible plan resources (item (b) plus the present value of the items in (c)(i)).

Additional instructions for each individual worksheet:

Sheet

4-1 SFA Determination - SFA Interest Rate

See instructions on 4-1 SFA Interest Rate.

4-2 SFA Determination - SFA Benefit Payments

On this sheet, you will provide:

- Basic plan information (plan name, EIN/PN, SFA measurement date, SFA interest rate),
- Year-by-year deterministic projection of benefit payments, and
- Present values as of the SFA measurement date, using the SFA interest rate.

For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"), separately identify benefit payments described in § 4262.4(b)(1) of PBGC's special assistance regulation for current retirees and beneficiaries, terminated vested participants not currently receiving benefits, currently active participants and new entrants. On this Sheet 4-2, show all benefit payments as positive amounts.

If the plan has suspended benefit payments under sections 305(e)(9) or 4245 of ERISA, the benefit payments in this Sheet 4-2 projection should reflect prospective reinstatement of benefits assuming such reinstatements commence as of the SFA measurement date. If the plan restored or partially restored benefits under 26 CFR 1.432(e)(9)-1(e)(3) before the SFA measurement date, the benefit payments in this Sheet 4-2 should reflect fully restored prospective benefits.

Benefit payments to be paid to participants to restore previously suspended benefits should not be included on this Sheet 4-2, and are separately shown on Sheet 4-3 in the Column (7). All reinstatement of benefits should be shown assuming such reinstatements are paid beginning as of the SFA measurement date (or on the SFA measurement date, for lump sum reinstatement of prior suspended benefits).

Provide the present value as of the SFA measurement date of each separate set of benefit payments, using the limited SFA interest rate from Sheet 4-1. On this sheet, show the present values as positive amounts.

Except for the first row in the projection exhibit below, each row must include the full plan year of the indicated information up to the plan year ending in 2051. This first row may be less than a full plan year of information. The first row in the projection period is for the period beginning on the SFA measurement date and ending on the last day of the plan year containing the SFA measurement date. For all other periods, provide the full plan year of information up to the plan year ending in 2051.

4-3 SFA Determination - SFA Details

On this sheet, you will provide:

--Basic plan information (plan name, EIN/PN, SFA measurement date, SFA interest rate),

--Year-by-year deterministic projection, and

--Present values as of the SFA measurement date, using the SFA interest rate.

For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"), provide each of the items requested in Columns (1) through (10). Show payments INTO the plan as positive amounts and payments OUT of the plan as negative amounts.

If the plan has suspended benefit payments under sections 305(e)(9) or 4245 of ERISA, Column (7) should show the benefit payments to be made to restore the past benefits that have been suspended. These amounts should be determined as if such reinstatements are paid beginning as of the SFA measurement date. If the plan sponsor elects to pay these amounts as a lump sum, then the lump sum amount is assumed paid as of the SFA measurement date. If the plan sponsor decides to make payments over 60 months, the first monthly payment is assumed paid on the first regular payment date on or after the SFA measurement date. See the examples in the SFA Instructions. If the reinstatement is paid over 60 months, each row in the projection should reflect the monthly payments for that period. The prospective reinstatement of suspended benefits is included in Column (6); Column (7) is only for reinstatement of past benefits that were suspended.

Provide the present values as of the SFA measurement date of each of the projections in Columns (3) through (8), using the limited SFA interest rate from Sheet 4-1. Show the present values as the same sign (positive or negative) as the projected amounts (e.g., benefit payments are negative on this Sheet 4-3, and the present value of benefit payments should also be negative).

Except for the first row in the projection exhibit, each row must include the full plan year of the indicated information up to the plan year ending in 2051. This first row may be less than a full plan year of information. The first row in the projection period is for the period beginning on the SFA measurement date and ending on the last day of the plan year containing the SFA measurement date. For all other periods, provide the full plan year of information up to the plan year ending in 2051.

TEMPLATE 5

v20210723p

Baseline

File name: *Template 5 Pension Plan Name*, where "Pension Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item 5 of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

This Template 5 is not required if all assumptions used (except the interest rate, Contribution Base Unit (CBU) assumption and administrative expenses assumption) to determine the requested SFA amount are identical to those used in the most recent actuarial certification of plan status completed before 1/1/2021 ("pre-2021 certification of plan status") and if the changed assumptions for CBUs and administrative expenses are consistent with Paragraph A "Adoption of assumptions not previously factored into pre-2021 certification of plan status" of Section III, Acceptable Assumption Changes of PBGC's guidance on Special Financial Assistance Assumptions.

Provide a separate deterministic projection ("Baseline") in the same format as Template 4 (Sheets 4-2 and 4-3 only) that shows the amount of SFA that would be determined if all underlying assumptions used in the projection were the same as those used in the pre-2021 certification of plan status, excluding the plan's interest rate which should be the same as used in Template 4 (see sheet 4-1) and excluding the CBU assumption and administrative expenses assumption which should reflect the changed assumptions consistent with Paragraph A "Adoption of assumptions not previously factored into pre-2021 certification of plan status" of Section III, Acceptable Assumption Changes of PBGC's guidance on Special Financial Assistance Assumptions..

For purposes of this Template 5, any assumption change made in accordance with Section III, Acceptable Assumption Changes, of PBGC's guidance on Special Financial Assistance Assumptions should be reflected in this Baseline calculation of the SFA amount and supporting projection information. See examples in the SFA instructions for Section C, Item 5.

TEMPLATE 6

v20210723p

Reconciliation

File name: *Template 6 Pension Plan Name*, where "Pension Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item 6 of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

This Template 6 is not required if all assumptions used (except the interest rate, CBU assumption and administrative expenses assumption) to determine the requested SFA amount are identical to those used in the pre-2021 certification of plan status and if the changed assumptions for CBU's and administrative expenses are consistent with Paragraph A "Adoption of assumptions not previously factored into pre-2021 certification of plan status" of Section III, Acceptable Assumption Changes of PBGC's guidance on Special Financial Assistance Assumptions.

This Template 6 is also not required if the requested SFA amount from Template 4 is the same as the SFA amount shown in Template 5 (Baseline).

If the assumptions used to determine the requested SFA amount differ from those in the "Baseline" projection in Template 5, then provide a reconciliation of the change in the total amount of requested SFA due to each change in assumption from the Baseline to the requested SFA as shown in Template 4.

For each assumption change from the Baseline through the requested SFA amount, provide a deterministic projection in the same format as Template 4.

Additional instructions for each individual worksheet:

Sheet

6-1 Reconciliation

For Item 1, show the SFA amount shown in Template 5 using the "Baseline" assumptions and methods. If there is only one change in assumptions/methods between the Baseline (Template 5) and the requested SFA amount (Template 4), then show on Item 2 the requested SFA amount, and briefly identify the change in assumptions from the Baseline.

If there is more than one change in assumptions/methods from the Baseline, show each individual change as a separate item number. Each item number should reflect all changes already measured in the prior item number. For example, the difference between the SFA amount shown for Item 4 and Item 5 should be the incremental change due to changing the identified single assumption/method. The Item numbers should show assumption/method changes in the order that they were incrementally measured.

6-2 Reconciliation Details

For Reconciliation Details sheets, see Template 4 instructions for Sheet 4-3, except provide the projections and present value information used to determine each Item number from the Reconciliation in Sheet 6-1.

A Reconciliation Details sheet is not needed for the last Item shown in the Reconciliation, since the information should be the same as shown in Template 4. For example, if there is only one assumption change from the Baseline, then Item 2 should identify what assumption changed between the Baseline and Item 2 where Item 2 is the requested SFA amount. Since details on the determination of the requested SFA amount are shown in Template 4, a separate Sheet 6-2 Reconciliation Details is not required here.

TEMPLATE 6 - Sheet 6-1

Reconciliation - Summary

For Item 1, show the SFA amount determined in Template 5 using the "Baseline" assumptions and methods. If there is only one change in assumptions/methods between the Baseline (Template 5) and the requested SFA amount (Template 4), then show on Item 2 the requested SFA amount, and briefly identify the change in assumptions from the Baseline.

If there is more than one change in assumptions/methods from the Baseline, show each individual change as a separate item number. Each item number should reflect all changes already measured in the prior item number. For example, the difference between the SFA amount shown for Item 4 and Item 5 should be the incremental change due to changing the identified single assumption/method. The Item numbers should show assumption/method changes in the order that they were incrementally measured.
