

**PENSION BENEFIT GUARANTY CORPORATION**

**29 CFR Part 4044**

**Allocation of Assets in Single-Employer Plans; Interest Assumptions for Valuing Benefits**

**AGENCY:** Pension Benefit Guaranty Corporation.

**ACTION:** Final rule.

**SUMMARY:** The Pension Benefit Guaranty Corporation's regulation on Allocation of Assets in Single-Employer Plans prescribes interest assumptions for valuing benefits under terminating single-employer plans. This final rule amends the regulation to adopt interest assumptions for plans with valuation dates in March 2000. Interest assumptions are also published on the PBGC's web site (<http://www.pbgc.gov>).

**EFFECTIVE DATE:** March 1, 2000.

Ashner, Assistant General Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202-326-4024. **SUPPLEMENTARY INFORMATION:** The PBGC's regulation on Allocation of Assets in Single-Employer Plans (29 CFR part 4044) prescribes actuarial assumptions for valuing plan benefits of terminating single-employer plans covered by title IV of the Employee Retirement Income Security Act of 1974.

Among the actuarial assumptions prescribed in part 4044 are interest assumptions. These interest assumptions are intended to reflect current conditions in the financial and annuity markets.

Two sets of interest assumptions are prescribed, one set for the valuation of benefits to be paid as annuities and one set for the valuation of benefits to be paid as lump sums. This amendment adds to appendix B to part 4044 the annuity and lump sum interest assumptions for valuing benefits in plans with valuation dates during March 2000.

For annuity benefits, the interest assumptions will be 7.10 percent for the first 25 years following the valuation date and 6.25 percent thereafter. The annuity interest assumptions are unchanged from those in effect for February 2000.

For benefits to be paid as lump sums, the interest assumptions to be used by the PBGC will be 5.25 percent for the period during which a benefit is in pay status, 4.50 percent during the seven-year period directly preceding the benefit's placement in pay status, and 4.00 percent during any other years preceding the benefit's placement in pay status. The lump sum interest assumptions are unchanged from those in effect for February 2000.

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect, as

accurately as possible, current market conditions.

Because of the need to provide immediate guidance for the valuation of benefits in plans with valuation dates during March 2000, the PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a "significant regulatory action" under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

**Drawbridge Operation Regulations: Norwalk River, CT**

**AGENCY:** Coast Guard, DOT.

**ACTION:** Notice of temporary deviation from regulations.

**SUMMARY:** The Commander, First Coast Guard District, has issued a temporary deviation from the drawbridge operation regulations for the Washington Street S136 Bridge, mile 0.0, across the Norwalk River at Norwalk, Connecticut. This deviation from the regulations allows the bridge owner to keep the bridge in the closed position from 8 a.m. on February 29, 2000, to 4:30 p.m. on March 2, 2000. This action is necessary to facilitate structural repairs at the bridge.

**DATES:** This deviation is effective February 29, 2000, through March 2, 2000.

**FOR FURTHER INFORMATION CONTACT:** Joseph Schmied, Project Officer, First Coast Guard District, at (212) 668-7165.

**SUPPLEMENTARY INFORMATION:** The Washington Street S136 Bridge, mile 0.0, across the Norwalk River at Norwalk, Connecticut, has a vertical clearance of 9 feet at mean high water,

and 16 feet at mean low water in the closed position. The bridge owner, Connecticut Department of Transportation, requested a temporary deviation from the operating regulations to facilitate structural repairs at the bridge. The existing operating regulations listed at 33 CFR 117.217 require the bridge to open on signal, except that, from 7 a.m. to 8:45 a.m., 11:45 a.m. to 1:15 p.m., and 4 p.m. to 6 p.m., Monday through Friday, except holidays, the draw need not be opened for the passage of vessels that draw less than 14 feet of water.

This deviation to the operating regulations allows the owner of the bridge to keep the bridge in the closed position from 8 a.m. on February 29, 2000, through 4:30 p.m. on March 2, 2000. Vessels that can pass under the bridge without an opening may do so at all times.

In accordance with 33 CFR 117.35(c), this work will be performed with all due speed in order to return the bridge to normal operation as soon as possible. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: February 8, 2000.
