PENSION BENEFIT GUARANTY CORPORATION

29 CFR Part 4022

Benefits Payable in Terminated Single-Employer Plans; Interest Assumptions for Paying Benefits

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: This final rule amends the Pension Benefit Guaranty Corporation’s regulation on Benefits Payable in Terminated Single-Employer Plans to prescribe interest assumptions under the regulation for valuation dates in November 2011. The interest assumptions are used for paying benefits under terminating single-employer plans covered by the pension insurance system administered by PBGC.

DATES: Effective November 1, 2011.

FOR FURTHER INFORMATION CONTACT: Catherine B. Klion (Klion.Catherine@pbgc.gov), Manager, Regulatory and Policy Division, Legislative and Regulatory Department, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202–326–4024. (TTY/TDD users may call the Federal relay service toll-free at 1–800–877–8339 and ask to be connected to 202–326–4024.)

PBGC uses the interest assumptions in Appendix B to Part 4022 to determine whether a benefit is payable as a lump sum and to determine the amount to pay. Appendix C to Part 4022 contains interest assumptions for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using PBGC’s historical methodology. Currently, the rates in Appendices B and C of the benefit payment regulation are the same.

The interest assumptions are intended to reflect current conditions in the financial and annuity markets. Assumptions under the benefit payments regulation are updated monthly. This final rule updates the benefit payments interest assumptions for November 2011. The November 2011 interest assumptions under the benefit payments regulation will be 1.50 percent for the period during which a benefit is in pay status and 4.00 percent during any years preceding the benefit’s placement in pay status. In comparison with the interest assumptions in effect for October 2011, these interest assumptions represent a decrease of 0.25 percent in the immediate annuity rate and are otherwise unchanged.

PBGC has determined that notice and comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect current market conditions as accurately as possible.

Because of the need to provide immediate guidance for the payment of benefits under plans with valuation dates during November 2011, PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication.

PBGC has determined that this action is not a “significant regulatory action” under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

[Docket No. USCG–2011–0934]

RIN 1625–AA08

Special Local Regulation for Marine Events; Chesapeake Bay Workboat Race; Back River, Messick Point, Poquoson, VA

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because the Coast Guard published a temporary final rule in the Federal Register on September 8, 2011, for the original date of this event, which was September 18, 2011. Inclement weather forced the cancellation of the event, the sponsor did not include a make-up date in the original application for approval of marine event, and the Coast Guard did not receive the new application for the make-up date in sufficient time to allow for publication of an NPRM. Any delay encountered in this regulation’s effective date by publishing an NPRM would require either the cancellation of the event, or require that the event be held without a special local regulation. Either course of action would be contrary to public interest since immediate action is needed to provide for the safety of life and property on navigable waters. Additionally, this special local regulation will be enforced for approximately three hours on October 30, 2011 while the boat races are in progress. This regulated area should have a minimal impact on transiting vessels because mariners are not precluded from using any portion of the waterway except the area within the regulated area.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the Federal Register. The Coast Guard published a temporary final rule in the Federal Register on September 8, 2011, for the original date of this event, which was September 18, 2011. Inclement weather forced the cancellation of the event, the sponsor did not include a make-up date in the original application for approval of marine event, and the Coast Guard did not receive the new application for the make-up date in sufficient time to allow for publication of an NPRM. Any delay encountered in this regulation’s effective date by publishing an NPRM would require either the cancellation of the event, or require that the event be held without a special local regulation. Either course of action would be contrary to public interest since immediate action is needed to provide for the safety of life and property on navigable waters. Additionally, this special local regulation will be enforced for approximately three hours on October 30, 2011 while the boat races are in progress. This regulated area should have a minimal impact on transiting vessels because mariners are not precluded from using any portion of the waterway except the area within the regulated area.

Issued in Washington, DC, on this 11th day of October 2011.

Laricke Blanchard,
Deputy Director for Policy, Pension Benefit Guaranty Corporation.
