ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52
RIN 2060

Findings of Failure To Submit a Complete State Implementation Plan for Section 110(a) Pertaining to the 2008 Ozone National Ambient Air Quality Standard

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The EPA is finding that 28 states, the District of Columbia and the Commonwealth of Puerto Rico have not made complete state implementation plan (SIP) submissions to address certain SIP elements, as required by the Clean Air Act (CAA). Specifically, the EPA is determining that these states have not submitted complete SIPs that provide the basic CAA program elements necessary to implement the 2008 8-hour ozone national ambient air quality standards (NAAQS). The EPA refers to these SIP submissions as “infrastructure” SIPs. By this action, the EPA is identifying states that either have not made any submission to address the applicable elements or have made a complete submission to address some applicable elements but did not make a complete submission for other applicable elements. The EPA recognizes that its efforts to reconsider the 2008 8-hour ozone NAAQS delayed and complicated the efforts of some states to develop and submit these infrastructure SIPs, but at this time the EPA is nevertheless required by court order to make these findings. These findings of failure to submit establish a 24-month deadline for the EPA to promulgate federal implementation plans (FIPs) to address the outstanding SIP elements unless, prior to that time, the affected states submit and the EPA approves, a SIP that corrects the deficiency.

DATES: The effective date of this rule is February 14, 2013.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Notice and Comment Under the Administrative Procedure Act (APA)

Section 553 of the APA, 5 U.S.C. 553(b)(B), provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary, or contrary to the public interest, the agency may issue a rule without providing notice and an opportunity for public comment. The EPA has determined that there is good cause for making this rule final without prior proposal and opportunity for comment because no significant EPA judgment is involved in making a finding of failure to submit SIPs, or elements of SIPs, required by the CAA, where states have made no submissions, or incomplete submissions, to meet the requirement. Thus, notice and public procedure are unnecessary. The EPA finds that this constitutes good cause under 5 U.S.C. 553(b)(B).
