

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Part 4022

Benefits Payable in Terminated Single-Employer Plans; Interest Assumptions for Paying Benefits

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: This final rule amends the Pension Benefit Guaranty Corporation's regulation on Benefits Payable in Terminated Single-Employer Plans to prescribe interest assumptions under the regulation for valuation dates in March 2013. The interest assumptions are used for paying benefits under terminating single-employer plans covered by the pension insurance system administered by PBGC.

DATES: Effective March 1, 2013.

(TTY/TDD users may call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4024.)

SUPPLEMENTARY INFORMATION: PBGC's regulation on Benefits Payable in Terminated Single-Employer Plans (29 CFR Part 4022) prescribes actuarial assumptions—including interest assumptions—for paying plan benefits under terminating single-employer plans covered by title IV of the

Employee Retirement Income Security Act of 1974. The interest assumptions in the regulation are also published on PBGC's Web site (*http://www.pbgc.gov*).

PBGC uses the interest assumptions in Appendix B to Part 4022 to determine whether a benefit is payable as a lump sum and to determine the amount to pay. Appendix C to Part 4022 contains interest assumptions for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using PBGC's historical methodology. Currently, the rates in Appendices B and C of the benefit payment regulation are the same.

The interest assumptions are intended to reflect current conditions in the financial and annuity markets. Assumptions under the benefit payments regulation are updated monthly. This final rule updates the benefit payments interest assumptions for March 2013.¹

The March 2013 interest assumptions under the benefit payments regulation will be 1.00 percent for the period during which a benefit is in pay status and 4.00 percent during any years preceding the benefit's placement in pay status. In comparison with the interest assumptions in effect for February 2013, these interest assumptions represent an increase of 0.25 percent in the immediate annuity rate and are otherwise unchanged.

PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect current

market conditions as accurately as possible.

Because of the need to provide immediate guidance for the payment of benefits under plans with valuation dates during March 2013, PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication.

PBGC has determined that this action is not a "significant regulatory action" under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

SUPPLEMENTARY INFORMATION: The Virginia Department of Transportation, who owns and operates this vertical lift bridge, has requested a temporary deviation from the current operating regulations set out in 33 CFR 117.5, to facilitate generator replacement on the structure.

Under the regular operating schedule, the James River Bridge, mile 5.0, between Isle of Wight and Newport News, VA opens on signal. The James River Bridge has vertical clearances in the open and closed position of 145 feet and 60 feet, above mean high water, respectively.

Under this temporary deviation, the drawbridge will be closed on weekends to navigation from 12:01 a.m. on February 16, 2013, until 5 a.m. on February 18, 2013; from 12:01 a.m. on February 23, 2013, until 5 a.m. on February 25, 2013; and from 12:01 a.m. on March 2, 2013 until 5 a.m. on March 4, 2013. If weather conditions are favorable during the first two weekends of the deviation, mariners will be notified via a broadcast notice to mariners and local media that the bridge will return to its regular operating schedule and that the third week of closure is no longer necessary.

Only emergency openings will be provided with up to a two-hour delay in opening. There are no alternate routes for vessels transiting this section of the James River.

The James River is used by a variety of vessels including freighters, tugs, and recreational vessels. The Coast Guard has carefully coordinated the restrictions with commercial and recreational waterway users. The Coast Guard will inform all users of the waterway through our Local and Broadcast Notice to Mariners of the closure periods for the bridge so that vessels can arrange their transits to minimize any impacts caused by the temporary deviation. Mariners able to

pass under the bridge in the closed position may do so at any time. Mariners are advised to proceed with caution.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: February 5, 2013.
