PART 39—AIRWORTHINESS DIRECTIVES

§ 39.13 [Amended]

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. The FAA amends § 39.13 by adding the following new AD:

(a) Effective Date

This airworthiness directive (AD) becomes effective October 18, 2013.

(b) Affected ADs

None.

(c) Applicability

This AD applies to all Fokker Services B.V. Model F.27 Mark 050 airplanes, and Model F.28 Mark 0070 and 0100 airplanes, certificated in any category.

(d) Subject

Air Transport Association (ATA) of America Code 24, Electric power.

(e) Reason

This AD was prompted by reports of loose nuts on contactors in the electrical power center (EPC), and in some cases, burned contactors. We are issuing this AD to detect and correct loose nuts, which could result in arcing and potentially an onboard fire, possibly resulting in damage to the airplane and injury to occupants or maintenance personnel.

(f) Compliance

You are responsible for having the actions required by this AD performed within the compliance times specified, unless the actions have already been done.

(g) Actions

Within 24 months after the effective date of this AD, do the actions specified in paragraphs (g)(1), (g)(2), and (g)(3) of this AD.

1. Do a torque check of the nuts and circuit breakers, contactors, and terminal blocks of the EPC and battery relay panel, as applicable; and do all applicable adjustments of the torque values; in accordance with the Accomplishment Instructions of Fokker Service Bulletin SBF50–24–032, dated February 10, 2011 (for Model F.27 Mark 050 airplanes); or the Accomplishment Instructions of Fokker Service Bulletin SBF100–24–043, Revision 1, dated December 15, 2011 (for Model F.28 Mark 0070 and 0100 airplanes). Do all applicable installations before further flight.

2. Do a visual inspection of the contacts and nuts on circuit breakers, contactors, and terminal blocks of the EPC and battery relay panel to determine if either the lock washer, flat washer, or locating nut and flat washer are installed; and do all applicable installations; in accordance with the Accomplishment Instructions of Fokker Service Bulletin SBF50–24–032, dated February 10, 2011 (for Model F.27 Mark 050 airplanes); or the Accomplishment Instructions of Fokker Service Bulletin SBF100–24–043, Revision 1, dated December 15, 2011 (for Model F.28 Mark 0070 and 0100 airplanes). Do all applicable installations before further flight.

3. Before further flight, after accomplishing any check required by paragraph (g)(1) of this AD or any inspection required by paragraph (g)(2) of this AD: Apply torque inspection lacquer, in accordance with the Accomplishment Instructions of Fokker Service Bulletin SBF50–24–032, dated February 10, 2011 (for Model F.27 Mark 050 airplanes); or the Accomplishment Instructions of Fokker Service Bulletin SBF100–24–043, Revision 1, dated December 15, 2011 (for Model F.28 Mark 0070 and 0100 airplanes).

(h) Other FAA AD Provisions

The following provisions also apply to this AD:

1. Alternative Methods of Compliance (AMOCs): The Manager, International Branch, ANM–116, Transport Airplane Directorate, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the International Branch, send it to ATTN: Tom Rodriguez, Aerospace Engineer, International Branch, ANM–116, Transport Airplane Directorate, FAA, 1601 Lind Avenue SW., Renton, Washington 98057–3356; telephone (425) 227–1137; fax (425) 227–1149. Information may be emailed to: tb-AMN-116-AMOC-REQUESTS@faa.gov. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/ certificate holding district office. The AMOC approval letter must specifically reference this AD.

2. Airworthy Product: For any requirement in this AD to obtain corrective actions from a manufacturer or other source, use these actions if they are FAA-approved. Corrective actions are considered FAA-approved if they are approved by the State of Design Authority (or their delegated agent). You are required to assure the product is airworthy before it is returned to service.

(i) Related Information

Refer to Mandatory Continuing Airworthiness Information (MCAI) European Aviation Safety Agency Airworthiness Directive 2012–0050, dated March 27, 2012, for related information, which can be found in the AD docket on the Internet at http://www.regulations.gov.

(j) Material Incorporated by Reference

1. The Director of the Federal Register approved the incorporation by reference (IBR) of the service information listed in this paragraph under 5 U.S.C. 552(a) and 1 CFR part 51.

2. You must use this service information as applicable to do the actions required by this AD, unless the AD specifies otherwise.

(iii) For service information identified in this AD, contact Fokker Services B.V., Technical Services Dept., P.O. Box 231, 2150 AE Nieuw-Venweg, the Netherlands; telephone +31 (0)252–627–350; fax +31 (0)252–627–211; email technicalservices.fokkerservices@stork.com; Internet http://www.myfokkerfleet.com.

4. You may review copies of the service information at the FAA, Transport Airplane Directorate, 1601 Lind Avenue SW., Renton, WA. For information on the availability of this material at the FAA, call 425–227–1221.

5. You may view this service information that is incorporated by reference at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202–741–6030, or go to: http://www.archives.gov/federal-register/cfr/ibr-locations.html.

Issued in Renton, Washington, on August 16, 2013.

Jeffrey E. Duven,
Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–P

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Parts 4022 and 4044

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: This final rule amends the Pension Benefit Guaranty Corporation’s regulations on Benefits Payable in Terminated Single-Employer Plans and Allocation of Assets in Single-Employer Plans to prescribe interest assumptions under the benefit payments regulation for valuation dates in October 2013 and interest assumptions under the asset allocation regulation for valuation dates in the fourth quarter of 2013. The interest assumptions are used for valuing and paying benefits under terminating single-employer plans covered by the pension insurance system administered by PBGC.

DATES: Effective October 1, 2013.

FOR FURTHER INFORMATION CONTACT: Catherine B. Klion (Klion.Catherine@pbgcc.gov), Assistant General Counsel for Regulatory Affairs, Pension Benefit Guaranty Corporation, 1200 K Street
3. In appendix C to part 4022, Rate Set 240, as set forth below, is added to the table.

DEPARTMENT OF HOMELAND SECURITY
Coast Guard

33 CFR Part 117

[Docket No. USCG–2013–0243]

RIN 1625–AA09

Drawbridge Operation Regulation; Lafourche Bayou, Larose, LA

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is modifying its drawbridge operation regulations by replacing the reference to the SR 310 (Larose Pontoon) Bridge with the LA 657 (Larose) Vertical Lift Bridge. The SR 310 bridge has been taken out of service and has been replaced by the LA 657 bridge. This substitution will also permit the LA 657 bridge to operate under the same schedule as the five other bridges in this area, as opposed to its current open-on-demand schedule.

DATES: This rule is effective October 15, 2013.

ADDITIONAL INFORMATION:

For further information contact: If you have questions on this rule, call or email Kay Wade, Bridge Branch Office, Coast Guard; telephone 504–671–2128; email Kay.B.Wade@uscg.mil. If you have questions on viewing the docket, call Barbara Hairston, Program Manager, Docket Operations, telephone 202–366–9826.

The purpose of this rule is to modify its drawbridge operation regulations by replacing the reference to the SR 310 (Larose Pontoon) Bridge with the LA 657 (Larose) Vertical Lift Bridge. The SR 310 bridge has been taken out of service and has been replaced by the LA 657 bridge. This substitution will also permit the LA 657 bridge to operate under the same schedule as the five other bridges in this area, as opposed to its current open-on-demand schedule. This rule will not impose any new operational restrictions on the waterway. It merely changes the bridge to which these restrictions apply. Providing an opportunity for comment regarding this rule is unnecessary because this rule does not impose any new operational restrictions on the waterway. It merely changes the bridge to which these restrictions apply. Providing an opportunity for comment regarding this rule is impracticable because the SR 310 bridge no longer exists and traffic from this bridge has been diverted to the new LA 657 bridge.

The SR 310 (Larose Pontoon) Bridge was removed from the waterway in April 2013 and replaced by the new LA 657 (Larose) Vertical Lift Bridge, which is located approximately one-half mile away from the old bridge. The old SR 310 bridge was one in a series of six bridges that feed the local school system, and operated in accordance with the requirements of 33 CFR 117.465(a). The operating requirements for the old SR 310 bridge are specifically located at 33 CFR 117.465(a)(6). The new LA 657 bridge is located less than one-half mile from the old SR 310 bridge, and essentially replaces the SR 310 bridge in this series. However, the new LA 657 bridge currently operates under the default operating requirements of 33 CFR 117.5, which require that the bridge open on signal. This default operating requirement conflicts with the operating requirements of the other five bridges in this area. Therefore, this rule will essentially replace the SR 310 bridge with the LA 657 bridge at 33 CFR 117.465(a)(6), thus allowing the new bridge to operate under the same requirements as the old bridge, and under the same requirements as the other five bridges in this area.

B. Basis and Purpose

The purpose of this rule is to modify paragraph (a)(6) of 33 CFR 117.465. This paragraph currently refers to the SR 310 (Larose Pontoon) Bridge across Lafourche Bayou at mile 39.1. This bridge has been replaced by the newly constructed LA 657 (Larose) Vertical Lift Bridge across Lafourche Bayou at mile 38.7.

The LA 657 Bridge is the first bridge south of the Gulf Intracoastal Waterway intersection. This bridge is located just south of a flood control structure that has a horizontal clearance of 56 feet and a depth over the sill of 10 feet. Navigation at the site of the bridge consists primarily of tugs with tows, fish, shrimp, crew, and pleasure boats. There is considerable commerce on the bayou in seafood products, sugar, petroleum products, cement, lumber and piles, clays and drilling mud, liquid sulfur, sand and gravel, oil well pipe,
