SUPPLEMENTARY INFORMATION: Section 4062 of the Employee Retirement Income Security Act of 1974 provides that the contributing sponsor of a single-employer pension plan and members of

the sponsor's controlled group ("the employer") incur liability ("employer liability") if the plan terminates with assets insufficient to pay benefit liabilities under the plan. The PBGC's statutory lien for employer liability and the payment terms for employer liability are affected by whether and to what extent employer liability exceeds 30 percent of the employer's net worth.

Section 4062.6 of the PBGC's employer liability regulation (29 CFR 4062.6) requires a contributing sponsor or member of the contributing sponsor's controlled group who believes employer liability upon plan termination exceeds 30 percent of the employer's net worth to so notify the PBGC and to submit net worth information. This information is necessary to enable the PBGC to determine whether and to what extent employer liability exceeds 30 percent of the employer's net worth.

The collection of information under the regulation has been approved by OMB under control number 1212-0017 through September 30, 1998. The PBGC intends to request that OMB extend its approval for another three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The PBGC estimates that an average of 13 contributing sponsors or controlled group members per year will respond to this collection of information. The PBGC further estimates that the average annual burden of this collection of information will be 12 hours and \$1800 per respondent, with an average total annual burden of 156 hours and \$23,400.

The PBGC is soliciting public comments to—

- evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Issued in Washington, DC, this 27th day of April, 1998.

David M. Strauss,

Executive Director, Pension Benefit Guaranty Corporation.
