PENSION BENEFIT GUARANTY CORPORATION

29 CFR Part 4044

Allocation of Assets in Single-Employer Plans; Interest Assumptions for Valuing Benefits

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: The Pension Benefit Guaranty Corporation's regulation on Allocation of Assets in Single-Employer Plans prescribes interest assumptions for valuing benefits under terminating single-employer plans. This final rule amends the regulation to adopt interest assumptions for plans with valuation dates in November 1999. Interest assumptions are also published on the PBGC's web site (<http://www.pbgc.gov>).

EFFECTIVE DATE: November 1, 1999.

FOR FURTHER INFORMATION CONTACT: Harold J. Ashner, Assistant General Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202-326-4024. (For TTY/TDD users, call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4024.)

SUPPLEMENTARY INFORMATION: The PBGC's regulation on Allocation of Assets in Single-Employer Plans (29 CFR part 4044) prescribes actuarial assumptions for valuing plan benefits of terminating single-employer plans covered by title IV of the Employee Retirement Income Security Act of 1974.

Among the actuarial assumptions prescribed in part 4044 are interest assumptions. These interest assumptions are intended to reflect current conditions in the financial and annuity markets.

Two sets of interest assumptions are prescribed, one set for the valuation of benefits to be paid as annuities and one set for the valuation of benefits to be paid as lump sums. This amendment

adds to appendix B to part 4044 the annuity and lump sum interest assumptions for valuing benefits in plans with valuation dates during November 1999.

For annuity benefits, the interest assumptions will be 6.30 percent for the first 20 years following the valuation date and 5.25 percent thereafter. The annuity interest assumptions are unchanged from those in effect for October 1999. For benefits to be paid as lump sums, the interest assumptions to be used by the PBGC will be 5.00 percent for the period during which a benefit is in pay status, 4.25 percent during the seven-year period directly preceding the benefit's placement in pay status, and 4.00 percent during any other years preceding the benefit's placement in pay status. The lump sum interest assumptions are unchanged from those in effect for October 1999.

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect, as accurately as possible, current market conditions.

Because of the need to provide immediate guidance for the valuation of benefits in plans with valuation dates during November 1999, the PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a "significant regulatory action" under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

SUPPLEMENTARY INFORMATION:

Regulatory History

On May 10, 1999, the Coast Guard published a notice of proposed rulemaking (NPRM) entitled “Special Local Regulations for Marine Events; Night in Venice, Great Egg Harbor, City of Ocean City, New Jersey” in the **Federal Register** (64 FR 24979). The Coast Guard received no letters commenting on the proposed rulemaking. No public hearing was requested, and none was held.

Background and Purpose

The current regulations at 33 CFR 100.504 establish special local regulations for the Night in Venice, a marine event held annually in Great Egg

Harbor Bay. The purpose of these regulations is to control vessel traffic during the event to enhance the safety of participants, spectators, and transiting vessels. The regulated area was initially described in the current regulations by referencing prominent aids to navigation in the event area. Since the initial publication of the regulations at 33 CFR 100.504, the referenced buoys and markers have been renamed and/or repositioned.

Regulatory Evaluation

This final rule is not a significant regulatory action under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that order. The Office of Management and Budget has not reviewed it under that order. It is not “significant” under the regulatory policies and procedures of the Department of Transportation (DOT) (44 FR 11040; February 26, 1979).

The Coast Guard expects the economic impact of this final rule to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of
