The Unfunded Mandates Reform Act of 1995

Section 202 of the Unfunded Mandates Reform Act of 1995 (UFMA), Public Law 104-4; 109 Stat. 48; 2 U.S.C. 1532, generally requires agencies to prepare a statement before proposing any rule that may result in an annual expenditure of $100 million or more by State, local, or tribal governments, or by the private sector. This rule does not result in any such expenditure nor will it significantly or uniquely affect small governments. Therefore, no actions were deemed necessary.

Executive Order 13132: Federalism

The Department of State finds that this regulation will not have substantial direct effects on the States, on the relationship between the national government and the States, or the distribution of power and responsibilities among the various levels of government. Nor does the rule have federalism implications warranting the application of Executive Orders No. 12372 and No. 13132.

Executive Order 12866: Regulatory Review

The Department of State has reviewed this interim final rule to ensure its consistency with the regulatory philosophy and principles set forth in Executive Order 12866. The Office of Management and Budget (OMB) has determined that this rule has important policy implications and is significant. This rule has been provided to OMB for review.

Executive Order 12988: Civil Justice Reform

The Department has reviewed the regulations in light of sections 3(a) and 3(b)(2) of Executive Order No. 12988 to eliminate ambiguity, minimize legal litigation, establish clear legal standards, and reduce burden.

The Paperwork Reduction Act of 1995

This rule does not impose information collection requirements under the provisions of the Paperwork Reduction Act, 44 U.S.C., Chapter 35.

List of Subjects in 22 CFR Part 51

Administrative practice and procedure, Drug traffic control, Passports and Visas.

Accordingly, for the reason set forth above, 22 CFR part 51 is amended as follows:

PART 51—PASSPORTS

1. The authority citation for part 51 is continued to read as follows:

SUPPLEMENTARY INFORMATION: The PBGC’s regulations prescribe actuarial assumptions—including interest assumptions—for valuing and paying plan benefits of terminating single-employer plans covered by title IV of the Employee Retirement Income Security Act of 1974. The interest assumptions are intended to reflect current conditions in the financial and annuity markets.

Three sets of interest assumptions are prescribed: (1) A set for the valuation of benefits for allocation purposes under section 4044 (found in Appendix B to part 4044), (2) a set for the PBGC to use to determine whether a benefit is payable as a lump sum and to determine lump-sum amounts to be paid by the PBGC (found in Appendix B to part 4022), and (3) a set for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC’s historical methodology (found in Appendix C to Part 4022).

This amendment (1) adds to Appendix B to part 4044 the interest assumptions for valuing benefits for allocation purposes in plans with valuation dates during September 2007, (2) adds to Appendix B to part 4022 the interest assumptions for the PBGC to use for its own lump-sum payments in plans with valuation dates during September 2007, and (3) adds to Appendix C to part 4022 the interest assumptions for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC’s historical methodology for valuation dates during September 2007.

For valuation of benefits for allocation purposes, the interest assumptions that the PBGC will use (set forth in Appendix B to part 4044) will be 5.53 percent for the first 20 years following the valuation date and 5.20 percent thereafter. These interest assumptions represent an increase (from those in effect for August 2007) of 0.04 percent for the first 20 years following the valuation date and 0.04 percent for all years thereafter.

The interest assumptions that the PBGC will use for its own lump-sum payments (set forth in Appendix B to part 4022) will be 3.25 percent for the period during which a benefit is in pay status and 4.00 percent during any years preceding the benefit’s placement in pay status. These interest assumptions represent a decrease of 0.25 percent in the immediate rate from those in effect for August 2007 and are otherwise unchanged. For private-sector payments, the interest assumptions (set forth in Appendix C to part 4022) will be the same as those used by the PBGC for determining and paying lump sums (set forth in Appendix B to part 4022).

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect current market conditions as accurately as possible. Because of the need to provide immediate guidance for the valuation and payment of benefits in plans with valuation dates during September 2007, the PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a “significant regulatory action” under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

List of Subjects

29 CFR Part 4022
Employee benefit plans, Pension insurance, Pensions, Reporting and recordkeeping requirements.

29 CFR Part 4044
Employee benefit plans, Pension insurance, Pensions.

In consideration of the foregoing, 29 CFR parts 4022 and 4044 are amended as follows:

PART 4022—BENEFITS PAYABLE IN TERMINATED SINGLE-EMPLOYER PLANS

1. The authority citation for part 4022 continues to read as follows:

Authority: 29 U.S.C. 1302, 1322, 1322b, 1341(c)(3)(D), and 1344.

2. In appendix B to part 4022, Rate Set 167, as set forth below, is added to the table.

### Appendix B to Part 4022—Lump Sum Interest Rates for PBGC Payments

3. In appendix C to part 4022, Rate Set 167, as set forth below, is added to the table.
The Coast Guard is establishing temporary special local regulations on the waters of Bogue Sound including the Morehead City Turning Basin, sections of the Intra-Coastal Waterway, and Morehead City Channel during the event. The event will consist of approximately 35 power boats participating in two high-speed competitive races, traveling counterclockwise around a race course. A fleet of spectator vessels are expected to gather near the event site to view the competition. To provide for the safety of participants, spectators and other transiting vessels, the Coast Guard will temporarily restrict vessel traffic in the event area during the races.

### Background and Purpose

On June 13, 2007, we published a notice of proposed rulemaking (NPRM) entitled Special Local Regulation for Marine Event, Bogue Sound, Morehead City, North Carolina in the Federal Register (72 FR 32567). We received no letters commenting on the proposed rule. No public meeting was requested, and none was held.

### FOR FURTHER INFORMATION CONTACT:

### SUPPLEMENTARY INFORMATION:

#### Regulatory Information

On June 13, 2007, we published a notice of proposed rulemaking (NPRM) entitled Special Local Regulation for Marine Event, Bogue Sound, Morehead City, North Carolina in the Federal Register (72 FR 32567). We received no letters commenting on the proposed rule. No public meeting was requested, and none was held.

#### Background and Purpose

On September 23, 2007, the Super Boat International Productions Inc. will sponsor the “Crystal Coast Super Boat Grand Prix”, on the waters of Bogue Sound including the Morehead City Turning Basin, sections of the Intra-Coastal Waterway, and Morehead City Channel at Morehead City, North Carolina. The event will consist of approximately 35 power boats participating in two high-speed competitive races, traveling counterclockwise around a race course. A fleet of spectator vessels are expected to gather near the event site to view the competition. To provide for the safety of participants, spectators and other transiting vessels, the Coast Guard will temporarily restrict vessel traffic in the event area during the races.

### Discussion of Comments and Changes

The Coast Guard did not receive comments in response to the notice of proposed rulemaking (NPRM) published in the Federal Register. Accordingly, the Coast Guard is establishing temporary special local regulations on specified waters of the Bogue Sound, Morehead City, NC.

### Regulatory Evaluation

This rule is not a “significant regulatory action” under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation is unnecessary. Although this regulation prevents traffic from transiting a portion of Morehead City State Port Turning Basin, sections of the Intra-Coastal Waterway and Morehead City Channel during the event, the effect of this regulation will not be significant due to the limited duration that the regulated area will be in effect. Extensive advance notification will be made to the maritime community via marine information broadcast, local radio stations, and area newspapers so mariners can adjust their plans accordingly. Additionally, the regulated area has been narrowly tailored to impose the least impact on general navigation yet provide the level of safety deemed necessary. Vessel traffic will be able to transit the regulated area between heats, when the Coast Guard Patrol Commander deems it is safe to do so.

### Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which may be small entities: The owners or operators of
