BILLING CODE 4410–01–M

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Part 4044

Allocation of Assets in Single-Employer Plans; Interest Rate for Valuing Benefits

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: The Pension Benefit Guaranty Corporation's regulation on Allocation of Assets in Single-Employer Plans prescribes interest assumptions for valuing benefits under terminating single-employer plans. This final rule amends the regulation to adopt interest assumptions for plans with valuation dates in October 1996.

EFFECTIVE DATE: October 1, 1996.

FOR FURTHER INFORMATION CONTACT: Harold J. Ashner, Assistant General Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202–326–4024 (202–326–4179 for TTY and TDD).

SUPPLEMENTARY INFORMATION: The PBGC's regulation on Allocation of Assets in Single-Employer Plans (29 CFR part 4044) prescribes actuarial assumptions for valuing plan benefits of terminating single-employer plans covered by title IV of the Employee Retirement Income Security Act of 1974.

Among the actuarial assumptions prescribed in part 4044 are interest rates and factors. These interest rates and factors are intended to reflect current conditions in the financial and annuity markets.

Two sets of interest rates and factors are prescribed, one set for the valuation of benefits to be paid as annuities and one set for the valuation of benefits to be paid as lump sums. This amendment adds to appendix B to part 4044 the annuity and lump sum interest rates and factors for valuing benefits in plans with valuation dates during October 1996.

For annuity benefits, the interest rates will be 6.30 percent for the first 20 years following the valuation date and 4.75 percent thereafter. For benefits to be paid as lump sums, the interest assumptions to be used by the PBGC will be 5.25 percent for the period during which benefits are in pay status, 4.50 percent during the seven-year period directly preceding the benefit's placement in pay status, and 4.00 percent during any other years preceding the benefit's placement in pay status. The annuity and lump sum interest assumptions are unchanged from those in effect for September 1996.

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the

public interest. This finding is based on the need to determine and issue new interest rates and factors promptly so that the rates and factors can reflect, as accurately as possible, current market conditions.

Because of the need to provide immediate guidance for the valuation of benefits in plans with valuation dates during October 1996, the PBGC finds that good cause exists for making the rates and factors set forth in this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a "significant regulatory action" under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

[NM29-1-7272a; FRL-5549-9]

Approval and Promulgation of Implementation Plan for New Mexico—Albuquerque/Bernalillo County: General Conformity Rules

AGENCY: Environmental Protection Agency (EPA).
ACTION: Direct final rule.

SUMMARY: This action approves the Albuquerque/Bernalillo County State Implementation Plan (SIP) revision that contains regulations for implementing and enforcing the general conformity rules which the EPA promulgated on November 30, 1993 (58 FR 63214). Specifically, the general conformity rules enable the Albuquerque/Bernalillo County Air Quality Control Board to review conformity of all Federal actions (see 40 CFR part 51, subpart W—Determining Conformity of General Federal Actions to State or Federal Implementation Plans) with the control strategy SIP's submitted for the nonattainment and maintenance areas within the boundary of Bernalillo County. This approval action is intended to streamline the conformity process and allow direct consultation among agencies at the local levels. The Federal actions by the Federal Highway Administration and Federal Transit Administration (under 23 U.S.C. or the

Federal Transit Act) are covered by the transportation conformity rules under 40 CFR part 51, subpart T—Conformity to State or Federal Implementation Plans of Transportation Plans, Programs, and Projects Developed, Funded or Approved Under Title 23 U.S.C. or the Federal Transit Act. The EPA approved the Albuquerque/Bernalillo County transportation conformity SIP on November 8, 1995 (60 FR 56241).

The EPA is approving this SIP revision under sections 110(k) and 176 of the Clean Air Act (the Act). The rationale for the approval and other information are provided in this document.

DATES: This action is effective on November 12, 1996, unless adverse or critical comments are received by October 15, 1996. If the effective date is delayed, timely notice will be published in the Federal Register.

ADDRESSES: Copies of the Albuquerque/Bernalillo County General Conformity SIP and other relevant information are available for inspection during normal business hours at the following locations. SUPPLEMENTARY INFORMATION:

I. Background

Conformity provisions first appeared in the Act as amended in 1977 (Pub. L. 95-95). Although these provisions did not define conformity, they provided that no Federal department could engage in, support in any way or provide financial assistance for, license or permit, or approve any activity which did not conform to a SIP that has been approved or promulgated for the nonattainment or maintenance areas.

The 1990 Amendments of the Act expanded the scope and content of the conformity provisions by defining conformity to an implementation plan. Conformity is defined in section 176(c) of the Act as conformity to the SIP's purpose of eliminating or reducing the severity and number of violations of the National Ambient Air Quality Standards and achieving expeditious attainment of such standards, and that such activities will not: (1) cause or contribute to any new violation of any standard in any area, (2) increase the frequency or severity of any existing violation of any standard in any area, or (3) delay timely attainment of any standard or any required interim emission reductions or other milestones in any area.

The Act requires EPA to promulgate criteria and procedures for determining conformity of all other Federal actions in the nonattainment or maintenance areas (actions other than those under Title 23 U.S.C. or the Federal Transit Act) to a SIP. The criteria and procedures developed for this purpose
