SUPPLEMENTARY INFORMATION: The process of closing out a terminated retirement plan involves the disposition of plan assets to satisfy the benefits of plan participants and beneficiaries. One difficulty faced by plan administrators

in closing out terminated plans is how to provide for the benefits of missing persons. Title IV of ERISA includes a provision (section 4050 of ERISA) under which the Pension Benefit Guaranty Corporation (PBGC) holds retirement benefits for missing participants and beneficiaries in terminated pension plans and seeks to reunite those participants and beneficiaries with the benefits being held for them.

The missing participants program was limited to single-employer DB plans covered by the title IV insurance program. The Pension Protection Act of 2006 authorized expansion of the missing participants program, and PBGC by final rule published on December 22, 2017 (82 FR 60800), extended the program to—

- defined contribution (DC) plans (not covered by title IV ¹),
- small professional service DB plans (not covered by title IV), and
- multiemployer DB plans (covered by title IV).

All four programs follow the same basic design. The most prominent difference among them lies in the mandatory or voluntary nature of the programs. For plans covered by the title IV insurance program, participation in the program is mandatory. For plans not covered by title IV, PBGC's regulation permits, but does not require, such plans to participate in PBGC's missing participants program.

PBGC needs information from plans that participate in the missing participants program to identify the plans and the missing participants and beneficiaries, to search for missing participants and beneficiaries, to determine the persons entitled to benefits that the plans transfer to PBGC and the form and amount of benefits payable, and to refer claimants of benefits being held elsewhere to the institutions holding the benefits.

PBGC intends to modify its information collection to require additional information about missing participants in two categories in order to properly withhold taxes when such participants are located and their benefits claimed and paid. For DC plans that permit Roth accounts, PBGC intends to require a breakdown of qualified and non-qualified Roth amounts transferred to PBGC (if any), and if non-qualified Roth amounts are being transferred, the date the first Roth contribution was made. Where relevant for DB and DC plans, PBGC intends to require identification of the portion of a

participant's benefit transfer amount treated as foreign-source income, and if so, for DB plans how that determination was made. PBGC as administrator of the Missing Participants Program relies on information provided and certified to by the plan administrator or plan sponsor as applicable.

The existing collection of information was approved under OMB control number 1212-0069 (expires January 31, 2021). On September 1, 2020 PBGC published in the **Federal Register** (at 85 FR 54433) a notice informing the public of its intent to request an extension of this collection of information, as modified. No comments were received. PBGC is requesting that OMB extend its approval of this collection of information (with modifications) for three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that it will receive a total of 226 filings from plans each year under this collection of information. PBGC further estimates that the annual burden of this collection of information is 646 hours and \$115,650.
